MANAGEMENT DISCUSSION AND ANALYSIS REPORT

**Global economy – Need of the Hour...**

“Vaccine inequity between countries and regions is posing a significant risk to an already uneven and fragile global recovery,” said UN Chief Economist Elliott Harris. “Timely and universal access to COVID-19 vaccinations will mean the difference between ending the pandemic promptly and placing the world economy on the trajectory of a resilient recovery, or losing many more years of growth, development and opportunities.”

**Global economy - amid high uncertainty**

Global prospects remain highly uncertain one year into the pandemic. New virus mutations and the accumulating human toll raise concerns, even as growing vaccine coverage lifts sentiment. Economic recoveries are diverging across countries and sectors, reflecting variation in pandemic-induced disruptions and the extent of policy support. The outlook depends not just on the outcome of the battle between the virus and vaccine-it also hinges on how effectively economic policies deployed under high uncertainty can limit lasting damage from this unprecedented crisis.

Yet, even with high uncertainty about the path of the pandemic, a way out of this health and economic crisis is increasingly visible. Thanks to the ingenuity of the scientific community, we have multiple vaccines that can reduce the severity and frequency of infections. In parallel, adaptation to pandemic life has enabled the global economy to do well despite subdued overall mobility, leading to a stronger-than-anticipated rebound, on average, across regions. The spread of the pandemic has been in waves. Additional fiscal support in some economies on top of an already unprecedented fiscal response last year and continued monetary accommodation further uplift the economic outlook.

Global growth is projected at 6 percent in 2021, moderating to 4.4 percent in 2022. The projections for 2021 and 2022 are stronger than in the October 2020 of World Economic Outlook. The US dollar continued to dip as treasury yields softened. The upward revision reflects additional fiscal support in a few large economies, the anticipated vaccine-powered recovery in the second half of 2021, and continued adaptation of economic activity to subdued mobility. High uncertainty surrounds this outlook, related to the path of the pandemic, the effectiveness of policy support to provide a bridge to vaccine-powered normalization, and the evolution of financial conditions. Economies also continue to adapt to new ways of working despite reduced mobility, leading to a stronger-than-anticipated rebound across regions.

A high degree of uncertainty surrounds these projections, with many possible downside and upside risks. Much still depends on the race between the virus and vaccines. Greater progress with vaccinations can uplift the forecast, while new virus variants that evade vaccines can lead to a sharp downgrade. Large divergences in recovery speeds also raise the prospect of divergent policy stances. A tailored approach will be necessary, with policies well calibrated to the stage

of the pandemic, strength of the economic recovery, and social and economic circumstances of individual countries.

On the international stage, first and foremost, countries need to work together to ensure widespread vaccinations across the world. The vaccine industry is attempting to produce three times the level of vaccines produced in a normal year. Not surprisingly, they are facing major challenges, including input supply bottlenecks. Vaccine access is also deeply inequitable with high-income countries, with 16 percent of the world's population, having pre-purchased 50 percent of the doses. Countries will need to work together to resolve production bottlenecks, ramp up production, ensure universal access, including through funding the COVAX facility on which many low-income countries rely heavily for doses, and avoid export controls.

Even while all eyes are on the pandemic, it is essential that progress be made on resolving trade and technology tensions. Countries should also cooperate on climate change mitigation, digitalization, modernization of international corporate taxation, and on measures to limit cross-border profit shifting, tax avoidance, and evasion.

#### **Indian economic overview**

India has emerged as the fifth largest world economy in 2019 to reach 63<sup>rd</sup> position in the year 2020 World Bank's ease of doing business ranking. India is among the top 10 performers for the third year running. However, the Indian economy has slowed down to 4.2% in 2019-20 as compared to 6.1% in 2018-19. GDP growth also has slowed down in 2019-20 which contributed to an increase in the fiscal deficit mainly on account of lower aggregate demand, lower fiscal revenue, lower economic activity and higher fiscal expenditure on account of the measures taken to address the economic slowdown.

The global economy also grew slower by 70bps at around 2.9% in 2019 compared to 2018. Global trade also grew a mere 0.9% in 2019 due to adverse trade conditions and slower economic growth. The pandemic COVID-19 is projected to shrink global growth significantly in the future.

The nominal per capita net national income in 2019-20 has increased by 6.1% as compared to the FY2018-19. Retail inflation increased to a six year high of 7.6 % in January 2020 breaching the RBI's upper band of 6 % while settling at 5.9% in March 2020. Growth in nominal rural wages during 2019-20 is a reflection of a continued slow down in the construction sector. The outbreak up of COVID- 19 and the subsequent lock down enforced in the country are expected to moderate the demand. The enforcement of social distancing is also expected to cause slowdown the activity in supply side as well as demand side. As a result of Supply chain disruptions, the domestic production in pharmaceuticals, autos, chemicals, power, etc. which are dependent on imported inputs is also expected to have an impact.

### **Tile Industry**

The ceramic tiles production and consumption grew marginally in the previous year due to impact of COVID-19 pandemic. In spite of the same, India has still become one of the world's largest tile producers with the production figures jumping year on year.

The growth in consumption is low in India due to lack of growth in real estate sector after the introduction of GST and fall in institutional sales, but the exports from India are showing healthy growth. However, the ceramic tiles industry is witnessing fall in profitability margins due to increase in raw material costs, increase in fuel prices, high transportation costs, etc.,

### **Future out Look**

The low per capita consumption of tiles, rapid urbanization, increasing disposable income of nuclear families, untapped rural market and stable replacement demand shall continue to augur well for the Indian tile industry. In addition, forecast of a normal monsoon, improved consumer sentiment and implementation of e-way bill promise healthier performance.

**Qualified Opinion**

We have audited the accompanying financial statements of **REGENCY CERAMICS LIMITED** (“the Company”), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (herein after referred to as “the financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of our observations stated in “Basis for Qualified Opinion” section below, the accompanying financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standard) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its Loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

**Basis for Qualified Opinion**

1. Manufacturing operations of the company were stopped due to riots, strike and malicious damage at factory since 27.01.2012. The company declared lock out of the plant on 31.01.2012 and the condition of the fixed assets and its realizable value could not be estimated. The machinery and building were not insured during the year and disclosed at book value after providing depreciation on account of efflux of time.
2. The condition of the raw materials, stores and spares and its realizable value could not be estimated by the company. The stocks were not insured during the year and disclosed at book value.
3. During the year, the company has not provided the provisional liability towards salary, wages and other benefits to its factory employees pending orders/judgment of the industrial Tribunal. Further, the company has not provided for its liability towards Gratuity and leave encashment in accordance to Ind AS-19 “Employee Benefits”. Since the company could not compute the liability in the absence of complete records, we are unable to comment upon the impact of non-provision of additional loss of the company for the year and on the current liabilities as at 31.03.2021.

4. Confirmation of balances was not obtained from Debtors, Creditors, loan and advances and other current assets.
5. The lenders of the company earlier initiated action under section 13(4) of the SARFAESI Act and also filed an application under section 19 of the Recovery of Debts due to Banks and Financial Institutions Act, 1993 in the Debts Recovery Tribunal, Hyderabad for recovery of their dues. Subsequently, all the five lenders sanctioned OTS and then revised OTS package for settlement of their dues and the company paid entire amount under OTS. Thereafter, four lenders filed satisfaction of Memo in the DRT and two banks filed Satisfaction of charges with ROC. The formalities in respect of remaining lenders for complete closure of the account balances is in progress and as such, the Long Term Borrowings are considered as current maturities of long term borrowings and shown under Current Liabilities.
6. The company did not provide the interest on Unsecured loans received from Directors and Body Corporates. Also, interest has not been provided in respect of overdue amount payable to Micro, Small and Medium Enterprises suppliers for a period exceeding 45 days.
7. The company has not provided the liability towards interest and penalties payable on account of statutory dues. The Company is of opinion that the statutory authorities shall waive the same in view of the unprecedented incident.

*Consequent to the above, the Net loss would increase and Shareholders funds would reduce to this extent.*

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the *Auditors responsibility for the Audit of Financial Statements* section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

### **Material Uncertainty Related to Going Concern**

We draw attention to note no. 1 to the financial statements regarding the preparation of the financial statements on a going concern basis, despite erosion of the net worth and no cash inflows from the existing business activities. However, the accompanying financial have been prepared on “Going Concern” basis for the reasons stated in the said note. Our opinion is not modified in respect of this matter.

### **Key Audit Matters**

Except for the matters described in the Basis for Qualified Opinion section and Material Uncertainty Related to Going Concern section, we have determined that there are no other key audit matters to communicate in our report.

### **Other information**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued there under and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
