NET DEBT OF ₹650 CRORE CLEARED

CG Power sees turnaround under Murugappa group

SAJAN C KUMAR
Chennai, May 2

CG POWER AND Industrial Solutions, now part of the ₹41,713-crore Murugappa group, on Monday said that it has achieved a complete financial turnaround in its first full year of operations under the new management and has cleared net debt of ₹650 crore, including that related to the CG House.

The company said that FY22 has been a defining year. All the businesses bounced back and performed to their potential, regaining the confidence of customers and vendors, it said in a regulatory filing. It has achieved several landmarks such as highest-ever sales by motors division and railway division, highest-ever order booking for the transformer division and an order book of ₹3,686 crore.

CG Power, which was

■ The company has achieved several landmarks such as highest-ever sales by motors division and railway division

■ CG Power, which was acquired by Tube Investments of India (TII) of Murugappa group in 2020, had an outstanding debt of ₹2,161 crore

acquired by Tube Investments of India (TII) of Murugappa group on November 26, 2020, had an outstanding debt of ₹2,161 crore. It was asked to pay ₹650 crore upfront to lenders as part of restructuring plan. TII also got a haircut of ₹1,100 crore of original debt, as part of the acquisition scheme. The company had recently used the sale proceeds of the property and internal

cash accruals to clear debt. As on March 31, it had a debt of ₹302 crore and cash and cash equivalents of ₹452 crore, it said. During Q3, the company realised ₹402 crore, including refund of security deposit, by selling land at Kanjurmarg. It also paid off the debt relating to CG House where its corporate house is located and got back the property free of encumbrances.

The company has also settled the obligations pertaining to guarantees issued by the company to additionally secure the loans granted to its subsidiaries abroad, it said, adding that the loss-making subsidiaries have been closed.

For FY22, the company has posted a 9% dip in its stand-alone net profit at ₹627 crore, while sales increased by 104% to ₹5,159 crore. Free cash flow generated for the year was at ₹392 crore. For the fourth quarter, the net profit declined to ₹109 crore from ₹849 crore. Total sales for the period rose to ₹1,407 crore from ₹1,022 crore.

Free cash flow generated for the quarter was ₹86 crore. Term debt of ₹235 crore was pre-paid out of internal accruals. The company also said that it had completed the recasting and audit of the accounts for the five years from FY15 to FY19.

Delhivery plans to use IPO funds for acquisitions

DEVBRAT ROY CHAUDHARY
Bilaspur, May 2

LOGISTICS FIRM DELHIVERY plans to offer its customers integrated, end-to-end services with the aid of its cutting-edge technology, Sandeep Barasia, ED and chief business officer, said.

The company, which is likely to launch its initial public offering (IPO) next week, feels that getting listed would enhance its governance and turn it into a truly public-owned enterprise. "We would also be using the funds raised through the IPO for acquisitions," Barasia said.

He said that the company's operating system makes it stand out as a logistics player and he expects that the com-

■ Delhivery is primarily a technology and data science company, which is also into logistics

pany would become profitable as it grows its operations.

"We are primarily a technology and data science company, which is also into logistics," added Barasia.

Kapil Bharati, co-founder and chief technology officer of the company, pointed out that the company was making use of a technology stack which had been built in-house for its operations. "We have built 80-odd applications which are being used by different stakeholders. We are also looking to export the technology to other countries, having already done a pilot project in Sri Lanka," Bharati said.

With its 120+ gateways, 20+ automated sort centres, 80+ fulfilment centres and 2,200 direct delivery centres, the company has covered 90% of the country, operating over 15 million sq ft of leased infrastructure at a pan-India level. It provides supply chain solutions to a diverse base of 21,342 active customers, such as e-commerce marketplaces, D2C e-tailers, and enterprises and SMEs across verticals like FMCG, consumer durables, lifestyle, retail, automotive and manufacturing.

WhatsApp bans 1.8 m accounts in March

PRESS TRUST OF INDIA
New Delhi, May 2

WHATSAPP BANNED 1.8 million Indian accounts in March, on the basis of complaints received from users via grievance channel and through its own mechanism to prevent and detect violations, according to a monthly report published by the messaging platform.

The new IT rules — which came into effect last year — require large digital platforms (with over 5 million users) to publish compliance reports every month, mentioning the details of complaints received and action taken.

According to the latest report, 1.8 million Indian accounts were banned by WhatsApp between March 1-31, 2022 using the "abuse detection approach, which also includes action taken in furtherance to negative feedback received from users..."

HC asks Centre to set up panel to look into coal shortage

INDU BHAN
New Delhi, May 2

THE ORISSA HIGH Court on Monday asked the Union government to set up a committee with experts from the ministries of coal, power, mines and the railways to look into the shortage of coal supplies. It also asked the government how the coal requirements of Vedanta, Hindalco and others can be met.

The companies alleged before a Division Bench led by Chief Justice S. Muralidhar that they are on the verge of closure if their regular coal requirements are not immediately restored. The judges then asked the government to respond to the petitions filed by Vedanta, Hindalco and others by May 5 — the next date of hearing when the government is likely to give a date to hear the representations of these companies.

Vedanta has sought a direction from the government to forthwith provide coal supply of 62,000 million tonne (MT)/day and 2700 MT/day for its aluminium smelting plant at Jharsuguda and alumina refinery at Lanjigarh, respectively, under the operational fuel supply agreements (FSAs) and other linkage/auction agreements. It had requested an immediate supply of 11-13 rakes of coal per day from Mahanadi Coalfields (MCL) and the Railways for the sur-

vival of its plants.

Against the total requirement of 62,148 tonnes per day, Vedanta is getting a paltry allocation of 16,706 tonne per day, which is 1/4th of the required quantity to sustain the smelter operations, senior counsel Dhruv Mehta and counsel Anubhav Ray, argued. The counsel told the high court that under the present dispensation, Vedanta ought to be supplied with 12.6 rakes per day, but it is only given 2 rakes per day. Owing to the commercial ex-

The court has asked the government to respond to the petitions filed by Vedanta, Hindalco and others by May 5

gencies and also the short supply by MCL, for the sustenance of its two captive power plants, Vedanta is compelled to participate in temporary spot auctions, since the past few months it has been purchasing coal at a premium amount, they added.

For April, out of the FSA supply of 5.6 rakes per day, the company got only 0.2 rakes per day which translated to less than 1,000 tonne instead of the 21,000-tonne daily requirement, counsel said.

Persistent targets tech giants for revenue growth

GEETA NAIR
Pune, May 2

PERSISTENT SYSTEMS, A mid-sized IT company, plans to scale up revenues on the back of its relationship with five hyper-scale companies — IBM, Microsoft, Google, Salesforce and Amazon.

Sunil Sapre, executive director and CFO, Persistent Systems, said the company's ability to work with the hyper-scale companies allows it an opportunity to grow these business segments. IBM and Salesforce segments were already contributing revenues of \$100 million each annually

and the plan was to scale up both Microsoft and Google Cloud business to the \$100-million mark in two to three years.

Persistent has been working with Amazon on the product engineering side as well as the Amazon Web cloud business. This is generating annual revenues of around \$30-35 million.

Persistent acquired Data Glove for \$90 million and onboarded 700 professionals with expertise in the Microsoft Azure cloud business and MediaAgility for \$71 million to accelerate the Google Cloud business.
