Management Comments

Commenting on the results **Mr Subhrakant Panda, Managing Director** said: *"Market conditions are extremely challenging at the moment with prices being at unviable levels. While there have been significant production cutbacks all over the world, our fully integrated business model, low gearing and long term marketing arrangements with leading customers has helped us sustain. As such, especially given the reported finalisation of a 'mini deal' between the US & China, we expect market conditions to start improving with pick up in prices to follow."*
