Dear Sir(s),

Sub: Intimation under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 of commissioning of thermal power plant at Godda, Jharkhand

In pursuance to the Regulation 30 and other applicable Regulations of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, and in continuation of our previous announcement on 07th April, 2023, this is to inform that Unit 2 of 800 MW capacity of the 2x800 MW Ultra-supercritical power project of Adani Power (Jharkhand) Limited ("APJL", a wholly owned subsidiary of Adani Power Limited), situated in Godda District in Jharkhand, has achieved commercial operations at 24:00 hrs Bangladesh Standard Time on 25th June, 2023 (23:30 hrs India Standard Time on 25th June, 2023) following successful completion of Reliability Run Tests, as per contract.

Accordingly, APJL will hereinafter export (w.e.f. 00.00 hrs Bangladesh time, of 26th June, 2023), entire power generated from the 2x800 MW Godda Ultra-supercritical thermal power plant ("USTCPP") on commercial basis, as per Power Purchase Agreement, directly to Bangladesh through the dedicated 400 kV transmission lines, with net capacity of 1496 MW. APJL has 25-year contract with Bangladesh Power Development Board (BPDB).

Construction of the Godda USTCPP has been completed despite severe challenges posed by COVID-19 pandemic lockdowns. The project, which has deployed for the first time in India state-of-the-art Ultra-supercritical technology, also incorporates for benign operations Flue Gas Desulphuriser ("FGD") and Selective Catalytic Converter ("SCR") equipments, to minimize emissions and in compliance with futuristic norms announced by the Ministry of Environment and Forests and Climate Change ("MOEF&CC").

With the commissioning of this power plant, Adani Group has started a new chapter in cross-border export of electricity to the neighbouring country. Adani Power is proud to be a partner in the economic growth and prosperity of Bangladesh, empowering it with a reliable and competitive source of electricity to help it achieve its long-term development goals.

Kindly take the same on your records.
