and to be classified as a

growth of between 8 to 9% to achieve it.

Speaking at the 12th Convocation of ICFAI Foundation for Higher education in Hyderabad, he said at aggre-

gate output level, India is the fifth largest economy in the world now.

That by itself is an impressive achievement. But in terms of per capita income, India's rank according to IMF is 142 out of 197 countries.

"The immediate focus of policymakers must be to raise the growth rate of the economy. Achievement of a \$5 trillion economy is a good short term aspirational goal.

"This will take a minimum five years of sustained growth

"Even then, at the end of it, India's per capita income will be only \$3,472 and we will still be classified as a lower middle income country,"

"We have thus to go a long

way. This only shows we must certainly need to run fast," said the former chairman, Economic Advisory Council to the Prime Minister.

Post Covid-19 and post the Russia-Ukraine war, there is a need to lay down a clear roadmap for India's future development.

Initially, there is need to raise the growth rate to seven per cent and then follow it up with a growth rate of eight to nine per cent which is possible and India has showed in the past it can have that kind of growth rate over a sustained period of six to seven years, he said.

ESIC plans to fill 6,400 posts to clear manpower backlog

FE BUREAU Chennai, December 24

UNION MINISTER OF labour employment and Yadav on Bhupender Saturday said that Employees' State Insurance Corporation (ESIC) has planned to fill 6,400 vacancies, including posts for more than 2,000 doctors and teaching faculty, to wipe out the manpower backlog.

ESIC is also working towards providing skillsbased training programme to the workers for paramedical jobs and has launched certificate courses in 10 disciplines.

Delivering the graduation day keynote address at the ESIC Medical College and Hospital in Chennai, the Union minister said that as part of the Centre's objective of the modernisation of facilities under the 'Nirman Se Shakti' initiative, it is setting up 23 new 100 bedded hospitals across the country.

The minister said: "We are also setting up over 60 dispensaries that will ensure the delivery of quality medical care service to insured workers and their dependents in the vicinity of their residences.

The Union government is ensuring that our services are available to a wider population. We are focused towards creating an infrastructure for easy access to medical services for our country's workers, and ESIC itself has had a huge role to play in it."

He said the Centre is working towards pan India coverage under ESIC and is constantly creating more infrastructure and capacities. It has introduced a cath lab at ESIC hospitals in three cities in India.

As part of promoting preventative healthcare practices amongst the masses, the ESIC department has launched medical health checkups for 15 industrial clusters- this communicates a significant shift in approach", he said, adding that it is not the workers that visit the hospitals, but ESIC is now reaching out to the workers at their work places.

"Antoydaya remains the defining principle of all our actions, and continuing PM's vision of 'Swastha Se Samridhhi' we are committed to achieving health for all, leaving no one behind. We live in the age of technology, innovations and information.

"But as we continue to adapt and evolve into the new, we must also remain firmly grounded in our roots," he added.

Excessive rate hikes a risk to India's growth, jobs: RBI MPC member

WHILE THE COUNTRY isn't at risk of a recession due to rising borrowing costs, excessive monetary tightening can expose the economy to below-potential growth that can cripple job creation and productivity, warns Jayanth Rama Varma, a member of the Reserve Bank's monetary policy committee.

"What I am worried about is sub-par growth after two lost years," Varma said in an email interview, referring to the time lost to the pandemic. Known for his hawkish comments in the past, Varma opposed both the size of the RBI's latest interest rate increase, as well as its con tinued tightening bias.

The central bank increased the key rate by 35 basis points to 6.25% at its meeting earlier this month, taking the total hikes to 225 basis points this year. "India is at a demographic

stage where the workforce is growing rapidly, and we need a certain level of growth to create new jobs for the fresh entrants into the labor market," he said. "My worry is that excessive

monetary tightening might cause us to fall short of this aspirational goal."

India's \$3.18 trillion econ omy expanded 6.3% from a year ago in the quarter to September, down from 13.5% in the previous three months. The decelera tion comes amid fears of slowing global economic growth due to restrictive monetary policy to curb inflation.

Many analysts see India, which is poised to soon overtake China as the world's most populous nation, as having the potential to grow at a sustained 7% pace, with Bloomberg Economics seeing that rate ascending to 7.6% by 2026 and peaking around 8.5% in the early **—BLOOMBERG**

Goyal launches right to repair portal & new premise of National Consumer Helpline However, difficulty arises when

PRESS TRUST OF INDIA New Delhi, December 24

FOOD AND CONSUMER affairs minister Piyush Goyal on Saturday launched a host of new initiatives, including the right to repair portal and an NTH mobile app and opened new premises of National Con-DR AGARWAL'S GROUP of Eye Hospitals, one of the sumer Helpline centre in the largest eye care chains in the national capital.

A memorandum of understanding was also signed between the Consumer Affairs Department and IIT (BHU), Varanasi as well launch of a capacity building programme of consumer commissions. These initiatives were

launched on the occasion of the National Consumer Day. Minister of state for food and consumer affairs Sadhvi Niranjan Jyothi, consumer affairs secretary Rohit Kumar Singh, National Consumer Disputes Redressal Commission (NCDRC) president RKAgrawal were also present at the event.

On the 'right to repair' portal, manufacturers will share the manual of product details with customers so that they Agarwal said in Tamil can either repair by self, by third parties, rather than depend on original manufacturers. Initially, mobile phones, electronic, consumer durables, automobile and farming

> equipments will be covered. Speaking on the theme "Effective disposal of cases in consumer commission" on the occasion of National Consumer Day, Goyal lauded the consumer commissions for

Union food and consumer affairs minister Piyush Goyal

On the 'right to repair' portal, manufacturers will share the manual of product details with customers so that they can either repair by self, by third parties, rather than depend on original manufacturers

disposing of higher number of pending cases in last six months and expressed confidence of eliminating the backlog of cases across the country.

"In a short span of six months, we have doubled disposal of pending cases. About 90,000 pending cases were disposed (between July and November this year)," he said. About 38,000 pending cases

were disposed of by consumer courts in the year-ago period.

Goyal said there will be ramp up in the disposal of pending cases and elimination of the backlog in the days to come.

The consumer empowerment is going to be a paramount feature of a developed India and called for keeping consumers at the centre of all the initiatives, he said.

Goyal further said his ministry is making efforts keeping in mind what the prime minister has articulated -convergency, capacity building and climate change -to make consumers' life easier and promote ease of doing business.

Technology, Training and Transparency will help towards achieving greater consumer awareness and greater service to our consumers.

He emphasised that 3T's -

Minister of State for Food and Consumer Affairs Sadhvi Niranjan Jyothi said it is a good sign that the pendency of consumer cases are reducing which gives confidence to consumers that they will get justice.

Under the Consumer Protection law, a complaint is required to be disposed of within 90 days of its filing and within 150 days wherever expert evidence is required to be taken.

NCDRC President R K Agrawal said,"No one expects a case to be decided overnight.

the actual time take for disposal of the case far exceeds its expected life span and a question is raised about the efficacy and efficiency of consumer commissions." When the law mandates quick disposal of cases, several years of delay in in deciding the cases always puts a "stigma" on he object for which the commissions were established in the 1986 act, he said adding that there is a need to look into reasons for the delay.

Agrawal said the disposal rate of complaints in the consumer commissions has been on an average of 89%. Since inception of consumer commissions, there is still a backlog of 6.24 lakh cases as on December 16. This "reveals that the con-

sumer commissions have not been able to meet the expectations of the consumers and have in fact been under severe strain to fullfill the objectives for which they were enacted," he said. Agrawal further said the pendency in national consumer commission is also not impressive as the pending cases were 22,896 as on December 16.

The Covid-19 pandemic, rise in cases owing increased consumer awareness, nonfunctioning of consumer commissions, lack of infrastructure, resource manpower and funds, unnecessary adjournments, scope of multiple appeal -- are some of the reasons behind huge backlog of cases, he said.
