Media Release

Hilton Metal Forging Ltd Sets Eyes on Trial Order for Wagon Wheel Set Assembly from Hindusthan Engineering & Industries Limited

Mumbai, 17 February, 2025: Hilton Metal Forging Ltd., a prominent manufacturer in the forging industry, specializing in railway products such as forged wagon wheels for Indian Railway Workshops, wheel set assemblies for private companies, and various other forged components both domestically and internationally, is pleased to announce the receipt of a sample order of Wagon Wheel Set from Hindusthan Engineering & Industries Limited on a trial basis. The delivery of this order is scheduled for immediate dispatch.

Following the successful delivery and testing of the trial order for the wagon wheel set, Hilton Metal Forging anticipates receiving larger orders for wagon wheel sets. Currently, private sector wagon manufacturing companies rely heavily on the import of wagon wheel sets. With an installed capacity to produce 15,000 wheel sets annually, the company is strategically positioned to meet the growing demand for wagon wheel sets once manufacturing commences post-approval from RITES.
