After record Q4, SBI stock under 'wait and watch'

Analysts wary of lender's size and exposure at a time of macro uncertainty

NIKITA VASHISHT New Delhi, 19 May

ost brokerages have turned cautious about State Bank of India's (SBI) earnings growth, citing uncertain macroeconomic conditions.

They don't see any significant risk for the state-owned lender, but its balance sheet size and systematic importance have nudged them to cut earnings estimates for Financial Years 2023-24 (FY24) and 2024-25 (FY25) by up to 5 per cent.

India's largest state-owned bank on Thursday, reported a standalone net profit of ₹16,694.51 crore for Q4 FY23. Net profit stood at ₹50,232 crore for full FY23, up 58.58 per cent year-on-year (YoY).

SBI reported a net interest income (NII) of ₹40,393 crore in Q4 FY23, up 29.5 per cent YoY. For FY23, NII stood at ₹1.44 trillion and net interest margin (NIM) at 3.58 per cent. Loan book in Q4 FY23 stood at ₹32.69 trillion and deposits at ₹44.24 trillion.

FY23 was one of SBI's best years as NIM expanded 20 bps, loan growth accelerated 16 per cent YoY, gross and net nonperforming assets were at their lowest, and credit costs touched an all-time low in two decades.

Return on equity (RoE) improved to 16.5 per cent, which is more than a decade high.

Yet SBI's shares have slipped around 2 per cent in two days to ₹1.57 trillion.

as concerns have emerged about the sustainability of underlying earnings. By comparison, the benchmark S&P BSE Sensex is up 0.2 per cent, while the BSE Bankex has added 0.67 per cent.

"SBI delivered strong performance in the March quarter of FY23, led by steady business and revenue growth. However, while SBI is our preferred stock in the PSU basket, macroeconomic uncertainty is the biggest risk, given its market size and exposure," said Elara Capital analysts, led by Prakhar Agarwal.

The brokerage has cut SBI's FY24 net profit estimate by 1.2 per cent to ₹53,500 crore from ₹54,100 crore. It lowered SBI's operating profit estimate for the fiscal by 1.1 per cent to ₹94,600 crore, and NII estimate by 0.7 per cent

For FY25, Elara Capital trimmed estimates for profit after tax (PAT) by 0.1 per cent. operating profit by 1.2 per cent, and NII by 2.2 per cent.

Analysts Securities, too, slashed SBI's net profit estimate for FY24 by 5 per cent, and one-year target price to ₹ 730 from ₹805, amid concerns around deceleration in credit growth, and higherthan-expected credit costs going forward.

Analysts feel the Street seems worried about the potential reversal in SBI's earnings amid weakening macro conditions, and higher cost of equity in this leg of the cycle. These are limiting upside in the stock.

ward by 1 per cent, loan growth by 21 bps, RoA and RoE by 3 bps and 42 bps, respectively.

That said, analysts feel SBI's fundamentals remain unparalleled and it needs to deliver growth on guided lines, sustain NIM near current levels, and control asset quality parameters while moderating credit costs to drive incremental re-rating

Jefferies has raised earnings estimates by 3-4 per cent for FY24-25. "We estimate RoA of 1 per cent/RoE of 17 per cent in FY24. The management has stated that the capital adequacy ratio for Common Equity Tier 1 (CET1) capital of 10.3 per cent is adequate and the bank Equities has kept its target doesn't plan any capital raising for now. Sebi plans to restrict borrowing by AIFs to prevent systemic risk

Watchdog proposes mandatory renewal of AIF registrations on completion of 5yrs

Mumbai, 19 May

The Securities and Exchange Board of India (Sebi) plans to bar Category I and Category II alternative investment funds (AIFs) from borrowing or engaging in leverage for the purpose of investments to prevent systemic risk.

Between June 2022 and March 2023, AIFs borrowed funds to the tune of ₹708 crore, Sebi observed in a discussion paper on strengthening governance mechanisms at AIFs. Of this, only ₹7.5 crore was borrowed to meet operational expenses. The regulator feels that funds borrowed by Category I and II AIFs for investing in unlisted securities may lead to asset-liability mismatches.

allowed to borrow in emer-

gency and as a last resort so that they do not miss an investment opportunity due to the shortfall in drawdown from an investor. Sebi has proposed.

Such borrowings, however, will have to be limited to 10 per cent of the investment made in an investee firm and the cost of borrowing will only be charged on the investor who delayed or defaulted on the drawdown payment. The funds will have to maintain a cooling-off period of two months between any permissible leverage.

Sebi is also mulling over the idea of preventing AIFs from holding registration indefinitely without any commitments raised by mandating the renewal of registration. There are 215 AIFs with registrations, which have not raised any investment commitment for However, AIFs will be any of their schemes.

In case the AIFs fail to pay

the renewal fee, then a late fee of 2 per cent of the registration fee will be charged for each day of delay, up to a maximum of twice the registration fee.

Under the proposed amendments, Sebi will also mandate the appointment of custodians for all AIFs, irrespective of the size of the corpus. Upon approval, existing AIFs with a corpus of less than ₹500 crore will be given six months to appoint a custodian.

The custodians will also be given the responsibility of independently monitoring the investments made by AIFs, similar to their responsibilities for foreign portfolio investors

Sebi has also sought comments on the proposal to permit large value funds (LVFs) to extend their tenure up to four years on the approval of two-thirds of the unit holders
