The three poll-bound north-eastern states may be small in terms of their electoral size but hold larger political significance. While the BJP is pulling out all the stops to retain power in Tripura and expand its footprints in the two other states, the Congress and the Left are trying to recapture their lost influence.

# Dec traffic at major ports sails to highest in FY23

DHRUVAKSH SAHA  
 New Delhi, 18 January

After three months of stagnant growth, cargo traffic at state-owned ports rose 10.4 per cent in December year-on-year (YoY), signaling a strong rebound in a year that has faded slower than expected.

Twelve major ports handled cargo of 69.5 million tonnes (mt) in December, which is the highest during the current fiscal year. The volume is also 8 mt higher than the traffic over the past three months, which had been stuck at 61 mt since September.

It is also the second-highest traffic volume handled by major ports in a month since the onset of Covid-19. Cumulatively, traffic at major ports reached 576 mt by December, which is nearly 9 per cent higher than the previous fiscal year.

"The entire increase in volumes in December quarter and year can be explained by volumes of coal. However, container volumes have come under stress," said Mohit Kumar, a researcher with DAM Capital, who attributes the current coal surge to geopolitical tensions.

Officials and experts suggest the current surge in coal cargo has also been aided by the increased use of the rail-sea-rail (RSR) mode for the domestic transportation of thermal coal.
