# PRESENTATION

#### Disclaimer

This presentation contains certain forward looking statements regarding future events and future results of Atul Auto Limited (the company), that are based on the current expectations, estimates, forecasts and projections about the industries in which the company operates, and on the beliefs and assumptions of the management of the company. In particulars, among the statements, certain statements with regard to management objectives, trends in result of operations, margins, costs, return on equity, risk management, competition, changes in business strategy and acquisition and disposition of assets are forward looking in nature. Words such as 'expects', 'anticipates', 'scenario', 'outlook', 'targets', 'goals', 'projects', 'intends', 'plans', 'believes', 'seeks', 'estimates', as well as any variation of such words and similar expressions, are intended to identify such forward-looking statements. Those forward-looking statements are only assumptions and are subject to risks, uncertainties and assumptions that are difficult to predict because they relate to events and depend upon circumstances that will occur in the future. Therefore, actual results of the Company may differ materially and adversely from those expressed or implied in any forward-looking statement and the Company does not assume any liability with respect thereto. Factors that might cause or contribute to such differences include, but are not limited to, global economic conditions, the impact of competition, or political and economic developments in the countries in which the Company operates. Any forward-looking statements made by or on behalf of the Company speak only as of the date they are made. The Company does not undertake to update forward-looking statements to reflect any change in its expectations with regard thereto, or any change in events, conditions or circumstances which any such statement is based on.

This presentation has been prepared solely for the use at the meeting/conference call with investors and analysts at the date it is presented. Under no circumstances may this presentation be deemed to be an offer to sell, a solicitation to buy or a solicitation of an offer to buy securities of any kind in any jurisdiction where such an offer, solicitation or sale should follow any registration, qualification, notice, disclosure or application under the securities laws and regulations of any such jurisdiction.

In addition to the above it is to be noted that the presentation is not meant for any public circulation. Further, it is also clarified and understood that under no circumstances, the fund house or person to whom this presentation is given, shall publish this presentation on its own website or any other website or in any media (whether electronic, print or any other mode of media).

## Three Wheeler Industry

### Industry – At a Glance (2018-19)

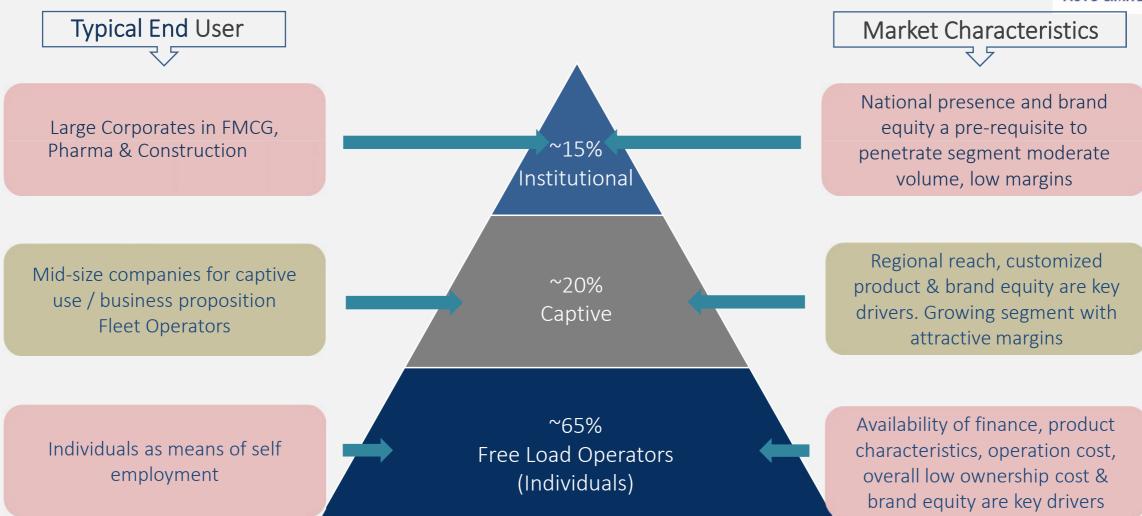

Domestic – 55%

#### Market Overview

Growth in consumer driven industries such as Retail, Pharma, FMCG and infrastructure story has been driving growth in the past and likely to continue in medium to long run.

#### Key Enablers & Growth Drivers

- India is one of the largest manufacturer for 3-wheelers producing volume of ~12,50,000 units p.a. and expected to grow at 6-8% p.a. in medium term. Having a domestic market of ~7,00,000 units p.a..
- 3-wheeler is an important element of goods transportation in the country
  - Provides last mile connectivity in the metro and urban markets where entry of large commercial vehicles into city limits is increasingly getting restricted
  - Is the ideal and most widely used mode for goods transportation in rural and semi urban markets
- Also a cost effective mode for personal and mass transportation
- Export markets include developing and under-developed countries like Bangladesh, Sri Lanka, Indonesia, African countries and Latin American countries.
- Cargo Segment
  - Availability of Retail Finance through Banks and big NBFCs
  - Growth in key user industries like FMCG, Pharma, Retail, Construction
  - Major retail push by FMCG & Consumer product players in Tier II cities and smaller towns where 3-wheelers serve as the ideal mode of goods transportation
  - Restriction imposed on Large Commercial Vehicles entry at metros and major cities
- Passenger Segment
  - Availability of Retail Finance through Banks and big NBFCs
  - Government focus on improvement in rural road infrastructure
  - 3-wheelers continue to be a popular mode of passenger transportation
  - New permits for fuels like CNG/LPG driven vehicles are available more easily
  - Passenger application in the rural & semi urban areas continues to grow

## Corporate Overview

#### About Us

- Installed capacity of 60,000 units per annum at Rajkot Plant
- Caters to diverse customer base in the Cargo & Passenger segment, available on both the platforms i.e. 350 kgs payload capacity and 500 kgs payload capacity, multi fuel choice, i.e. Diesel, Petrol, CNG, LPG and E-Vehicles
- Enjoying Debt-free Status
