Vadodara, May 31st, 2021: Chemcon Speciality Chemicals Limited, a leading manufacturer of specialized chemicals, such as Hexamethyldisilazane (“HMDS”), Chloromethyl Isopropyl Carbonate (“CMIC”) and inorganic bromides, announced its audited financial results for the quarter and full year ended on March 31st 2021.

Financial and Operational Highlights

Total Volume (MTPA)

Segment Volume (MTPA)

Commenting on the results, Mr. Kamal Aggarwal, Chairman & MD said, *“We are pleased to close our financial year on a positive note led by continued business momentum in pharma chemicals & marginal recovery of bromide business during the quarter. We clocked a total operating revenue of Rs 71.5 cr for the quarter, a growth of 38% on YoY bases and profits of Rs.15.5 cr.*

Our HMDS & CMIC business are operating at full capacity at 3,000 & 1,800 level respectively which is testimony of product demand. India is still a net importer of these two products and there is ample of opportunity for player like us who can become a long-term sustainable partner. We have maintained our market leadership position in this pharma chemicals. New product 4 CBC has contributed to our revenue marginally. On the other hand, products like 2,5 DHT and high purity HMDS are likely to flourish in FY22.

As stated earlier, we are enhancing our capacities of pharma intermediate chemicals at P8 & P9 which will further increase our strength with our existing product portfolio. Due to 2nd wave of pandemic, the project commercialization has been delayed by a month. We expect both this unit to commence their production by Q2FY22 & Q3FY22 respectively.

We believe that over the years, we have built strong relationship with our customers, who recognise our technical capabilities and trust our potential to deliver consistently. Post our expansion, we will be well equipped to capture new business opportunities.”
