## Co-op Expands Partnership with TCS with a Cloud-First Strategy to Support its Business Growth and Sustainability Roadmap

*Expansion of 14-year partnership to focus on Co-op's IT infrastructure using the TCS Enterprise Cloud*

**LONDON | MUMBAI, February 21, 2024:** [Tata Consultancy Services \(TCS\)](#) (BSE: 532540, NSE: TCS) has expanded its partnership with The Co-operative Group Limited (Co-op), one of the world's largest consumer co-operatives with interests across food, funerals, insurance and legal services, to adopt a cloud first strategy that will support the group's business growth.

TCS has been the strategic partner to Co-op for the past 14 years, supporting a number of business-critical and workplace transformations. These include their retail business transformation, core system transformation and franchise programme. These initiatives have helped Co-op accelerate time to market, create new revenue streams, and enhance agility to respond in real time to emerging business scenarios.

The expanded partnership will see TCS help Co-op move from a traditional data centre model to a fully managed, scalable cloud environment powered by TCS Enterprise Cloud. This migration to a scalable cloud will help Co-op by enabling a foundation for future capabilities and growth, while reducing energy usage and supporting sustainability goals. TCS will also manage the hybrid cloud and SaaS estate for enhanced resilience and agility.

**Rob Elsey, CDIO, The Co-operative Group,** said: *"We are delighted to extend our strategic partnership with TCS in enabling us to meet Co-op's business objectives and serving and supporting our member-owners who are at the very heart of our business. They have been a great partner, aligned with our growth priorities and future-proofed our infrastructure as we set on the course for continued future expansion – supporting change and transformation in how we work as a business and in our cloud journey."*

**Shekar Krishnan, Head, Retail & CPG – UK & Europe, TCS,** said: *"TCS is pleased to expand our long-standing partnership with The Co-operative Group. Our contextual knowledge, deep domain expertise, and technology prowess will help Co-op achieve their cloud-first strategy and result in a resilient digital foundation to support their business growth."*

TCS is one of the largest providers of IT services, consulting, and business solutions in the UK, by revenue.
