Dear Sir/Madam,

Sub: Press Release- Jio Platforms partners with Subex HyperSense AI to augment its 5G product line

Pursuant to Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform that Jio Platforms Limited (JPL), a leading Indian Technology Company (subsidiary of RIL [NSE: RELIANCE]), today announced a partnership with Subex for its AI Orchestration Platform, HyperSense, which can enable telcos to deliver on the promise of AI across the data value chain. As per the collaboration, JPL will offer its Cloud Native 5G Core to telcos globally along with Subex's HyperSense for enabling closed loop network automation, product performance and customer experience analytics. Please find enclosed the Press Release which the Company intends to make.

Kindly broadcast the same on your website.

Thanking you.

Yours truly,
For Subex Limited

G V Krishnakant
Company Secretary & Compliance Officer

Jio Platforms partners with Subex HyperSense AI to augment its 5G product line

2nd August 2022, MUMBAI, INDIA – Subex, a provider of Telecom Analytics Solutions and AI-led Digital Trust products to communication service providers, and Jio Platforms Limited (JPL) a leading Indian Technology Company (subsidiary of RIL [NSE: RELIANCE]), today announced a partnership for its AI Orchestration Platform, HyperSense, which can enable telcos to deliver on the promise of AI across the data value chain. As per the collaboration, JPL will offer its Cloud Native 5G Core to telcos globally along with Subex's HyperSense for enabling closed loop network automation, product performance and customer experience analytics.

JPL's Cloud Native 5G Core implements the new 3GPP network architecture that will unleash the full power of 5G standalone enabling faster connectivity speeds, ultra-low latency, and network reliability. These capabilities, combined with network automation, network slicing and edge computing, are instrumental to address multiple verticals and enable an ecosystem for innovation with use cases such as: enhanced mobile broadband (eMBB), Ultra Reliable Low Latency Communication (uRLLC) and massive Machine Type Communication (mMTC). Jio's 360° Automation Platforms and Open API based OSS platforms provides faster integrations to multi-party 5G BSS systems.

Subex's HyperSense Platform is a unified data analytics and AI orchestration platform, using technologies such as machine learning and AI. HyperSense assists with data preparation, model building and deployment, insight generation. The platform also enables AI driven real time analytics across the 5G systems (Edge/Access/Transport/Core Networks) critical for superior customer experience, efficient operations and overall business profitability.

"The JPL and Subex partnership provides new opportunities to enable end to end 5G services for enterprises and consumers. JPL's 5G stack complements the digital monetisation platforms of Subex to enable a wide range of 5G use cases", said **Mr. Aayush Bhatnagar, Senior Vice President of Jio Platforms**.

"It gives us great pleasure to partner with Jio Platforms in their endeavour to help the larger ecosystem realize the true promise of 5G. By combining HyperSense with Jio Platforms' Cloud Native 5G Core, CSPs will be able to fast track their 5G journey by leveraging the power of AI. Further this partnership will allow operators to address multiple use cases around customer experience and revenue growth.", said **Suresh Chintada, CTO, Subex**.

About Subex

[Subex](#) is a pioneer in enabling Digital Trust for businesses across the globe.

Founded in 1994, Subex helps its customers maximize their revenues and profitability. With a legacy of having served the market through world-class solutions for business optimization and analytics, Subex is now leading the way by enabling all-round Digital Trust in the business ecosystems of its customers. Focusing on risk mitigation, security, predictability, and intelligence, Subex helps businesses embrace disruptive changes and succeed with confidence in creating a secure digital world for their customers.

Through HyperSense, an end-to-end AI Orchestration platform, Subex empowers communications service providers and enterprise customers to make faster, better decisions by leveraging Artificial Intelligence (AI) analytics across the data value chain. The solution allows users without coding knowledge to easily aggregate data from disparate sources, turn data into insights by building, interpreting and tuning AI models, and effortlessly share their findings across the organisation, all on a no-code platform.

Subex has more than 300 installations across 90+ countries.
