## ***MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT***

### **INDUSTRY STRUCTURE AND DEVELOPMENTS**

The jute industry involves the cultivation, processing, and manufacturing of jute, a natural fiber derived from the plants of the Corchorus genus. Jute is primarily used for making various products, including sacks, bags, textiles, and other environmentally friendly goods.

The jute industry has been exploring new avenues for jute fiber utilization. Innovations in processing techniques have led to the production of finer and softer jute fibers suitable for textiles and fashion items.

With the growing global emphasis on sustainability, the jute industry gained attention due to its biodegradable and renewable nature. Jute is often seen as an environmentally friendly alternative to synthetic fibers and materials.

In jute-producing countries like India and Bangladesh, governments have shown interest in supporting the jute industry. Policies related to jute cultivation, processing, and export have been introduced to boost the sector and provide livelihoods to rural communities.

### **OVERVIEW OF THE COMPANY:**

The Company is into Jute and Agro trading and has also entered into exports of Jute bags and accessories after setting up a unit in Falta SEZ. It has also spread hands in the import and export of metal handicrafts etc along with raw jute and merchandise, import, export of metal handicrafts, merchandise etc.

### **FINANCIAL PERFORMANCE:**

Your Company could not declare any dividend to the shareholders of the company due to inadequacy of the profits. However, the management is confident that in coming years the company would be in a position to declare strong financials.

### **BUSINESS STRATEGY:**

Growth in demand of Jute fibres and other jute products due to its diversification and increasing use jute handicrafts and products are the key factors based on which the company has formulated its expansion plans. The company will continue to cater the domestic market while exploring diversified opportunities in the international market for Jute products and handicraft items.

### **RISK AND CONCERNS:**

The Company is exposed to trading risk due to price vitality. In the Jute production segment continuous increase in wage costs coupled with labour productivity issues and inability to achieve optimum utilization of machines remain the single biggest worry for the industry burdened with competition from Bangladeshi jute products produced with cheap de-unionized labour.

The jute industry has faced challenges such as competition from synthetic materials, fluctuating demand, and modernization issues. Efforts have been made to address these challenges through innovation and diversification.

### **BUSINESS SEGMENT:**

The Company is presently into Single Business Segment.

## **OPPORTUNITIES & THREATS:**

Opportunities:

- ❖ With the rise in awareness of disposal issues of plastic, it has been banned around the globe. This gives the much needed boost to the Jute industry. The use of Jute products is increasing due to its biodegradability and sustainability with the environment. These biodegradable and natural fibers have made space due to their eco-friendly nature.
- ❖ Different incentive schemes by government to promote jute goods and various products made out of Jute like Lifestyle and promotional bags, Jute geo-textile, upholstery, apparels and fashion bags shall lay down a foundation for the continuous increase in demand of Jute.

The major threats are:

- ❖ Dilution of compulsory Jute packing order and lower order from government can adversely affect the Jute market.
- ❖ Shortage of skilled labor
- ❖ Increasing employee and wage cost results in higher conversion cost
- ❖ Competition from Bangladeshi Jute goods and synthetic packaging material.

## **INTERNAL CONTROL SYSTEM:**

The Company has set up internal control procedures commensurate with its nature of the business. These business procedures ensure optimum use and protection of the resources and compliance with the policies, procedures and statutes. The internal control systems provide for well-defined policies, guidelines and authorizations and approval procedures. The prime objective of such audits is to test the adequacy and effectiveness of the internal controls laid down by management and to suggest improvements.

## **FUTURE OUTLOOK:**

The future outlook for the business appears very promising, encouraging and the Company proposes to take advantage of the growing demand in the Jute products with special focus in export segment and hence plan to take necessary steps in this decision.

We are exploring international market for Jute products like Bags, Accessories and other decorative items. The overall market conditions at present give a promising view of the future market of Jute items.

## **CODE OF CONDUCT:**

The Code of Conduct for the Board of Directors and the Senior Management is disclosed on the website of the company.

## **CAUTIONARY STATEMENT:**

Statement made in this section of the report is based on the prevailing position in the jute industry and market conditions and future expectations. Actual results might differ from what we perceive with respect to Company's outlook and performance.

## INDEPENDENT AUDITOR'S REPORT

To the Members of Bangalore Fort Farms Limited

Report on the Audit of the financial statements

### Opinion

We have audited the financial statements of Bangalore Fort Farms Limited ("the Company") which comprise the Balance Sheet as at 31st March 2023, the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its profit, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Management's Responsibility for the financial statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

**Auditor's Responsibilities for the Audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Bangalore Fort Farms Limited as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

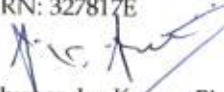

**Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

## **BANGALORE FORT FARMS LIMITED:**

### **Note-1**

#### **Significant Accounting Policies and Notes on Accounts as at and for the year ended on 31<sup>st</sup> March, 2023**

##### **1. Corporate Information**

Bangalore Fort Farms Limited (BFFL) is a public limited company domiciled and incorporated in India and its shares are publicly traded on the Bombay Stock Exchange ('BSE'), in India. The registered office of BFFL is 16A Brabourne Road Kolkata-700001. The Company is principally engaged in Agro-products in India. These financial statements are prepared in Indian rupees.

The financial statements were approved and adopted by board of directors of the Company in their meeting held on 29<sup>th</sup> May, 2023.

##### **2. Basis of preparation**

###### **Compliance with Ind AS**

These financial statements are prepared and presented in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time as notified under Section 133 of Companies Act, 2013, the relevant provisions of the Companies Act, 2013 ("the Act"), the guidelines issued by the Securities and Exchange Board of India (SEBI), as applicable.

The financial statements are authorized for issue by the Board of Directors of the Company at their meeting held on 29<sup>th</sup> May, 2023.

##### **3. Significant accounting Policies and Key Estimates and Judgements**

###### **3.1 Basis of Measurement**

These financial statements are prepared on historical cost basis except for certain financial Assets and liabilities (including derivatives instruments) measured at fair value.

###### **3.2 Use of Estimates**

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumption. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statement and reported amounts of revenue and expenses during the period. Application of accounting policies that requires critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed. Accounting estimate could change from period to period. Actual results could differ from those judgments. Appropriate changes in estimates are made as management become aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the

period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### **3.3 Significant accounting Judgments, estimate, assumptions**

In the process of applying the Company's accounting policies, management has made the following key estimates, assumptions and judgments, which have significant effect on the amounts recognized in the financial statement:

#### **(a) Income taxes**

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the standalone financial statements.

#### **(b) Contingencies**

Management judgment is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

#### **(c) Defined Benefit Plans**

The cost of the employment benefits such as gratuity and leave obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about gratuity obligations are given in Note 34.

#### **(d) Insurance Claims**

Insurance and other claims raised by the Company are accounted for when received owing to uncertainties involved.

### **3.4 Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

(A) An asset treated as current when it is:

- (i) Expected to be realized or intended to be sold or consumed in normal operating cycle.
- (ii) Held primarily for the purpose of trading.
- (iii) Expected to be realized within twelve months after the reporting period, or

- (iv) Cash or Cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period  
All other assets are classified as non-current.

(B) A liability is current when:

- (i) It is expected to be settled in normal operating cycle
- (ii) It is held primarily for the purpose of trading
- (iii) It is due to be settled within twelve months after the reporting period, or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period  
All other liabilities are classified as non-current.

### **3.5 Reclassification of financial assets and liabilities**

The company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no classification is made for financial assets which are equity instruments and financial liabilities. For financials assets which are debt instruments; a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The company's senior management determines change in the business model as a result of external or internal changes which are significant to the company's operations. Such changes are evident to the external parties. A change in the business model occurs when the company either begins or ceases to perform an activity that is significant to its operations. If the company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period. Following the changes in business model, the company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

### **3.6 Significant Accounting Policies**

#### **a. Revenue Recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

- i. The Company recognizes revenue from contracts with customers based on a five step model as set out in Ind AS 115:

**Sept 1:** Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

**Sept 2:** Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

**Sept 3:** Determine the transaction price: The transaction price is the amount of consideration to which the company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

**Step 4:** Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

**Step 5:** Recognize revenue when (or as) the Company satisfies a performance obligation.

## ii. **Interest Income**

Interest Income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount on initial recognition.

## iii. **Dividend**

Dividend income is recognized when the right to receive dividend is established.

## b. **Government grants**

Government Grants are recognized where there is reasonable assurance that the grant will be received and all attached condition will be complied with.

When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

Grants related to specific fixed assets are deducted from the gross value of the concerned assets in arriving at their book values.

## c. **Taxation**

Income tax expense represents the sum of current and deferred tax (including MAT).

Current income tax assets and liabilities are measured at the amount to be recovered from or paid to taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Income tax expense is recognized in the Statement of Profit and Loss, except to the extent that it relates to items recognized directly in equity or other comprehensive income, in such cases the tax is also recognized directly in equity or in other comprehensive income.

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the Balance sheet and the tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences, and deferred tax assets are generally recognized for all deductible temporary differences, Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax assets and deferred tax liabilities are off set, and presented as net.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilized.

Minimum Alternative Tax (MAT) is applicable to the Company. Credit of MAT is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the MAT credit becomes eligible to be recognized as an asset, the said asset is created by way of a credit to the profit and loss account and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

#### **d. Property, Plant and Equipment**

The Company considers the previous GAAP carrying value for all its Property, Plant and Equipment as deemed cost at the transition date, viz. 1st April 2016

Property, Plant and Equipment are stated at cost less accumulated depreciation and accumulated impairment of loss, if any.

Cost of any item of property, plant and equipment comprises its purchase price including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition.

Depreciation is provided on the straight line method by depreciating carrying amount of Property, Plant and Equipment over remaining useful life of the assets. Depreciation methods, useful life and residual values are reviewed at each financial year end.

The useful life and residual value as per such review is normally in accordance with schedule II of the Companies Act 2013.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss on the date of disposal or retirement.

#### **e. Intangible Assets**

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful life on a straight line method.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

#### **f. Impairment of Assets**

The Company assesses at each balance sheet date whether there is any indication that a Property, plant and equipment may have been impaired. If any such

indication exists, the Company estimates the recoverable amount of the Property, plant and equipment. If such recoverable amount of the Property, plant and equipment or the recoverable amount of the cash generating unit to which the Property, plant and equipment belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the Asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

#### **g. Inventories**

Inventories are stated at lower of cost and net realisable value. The cost is calculated on First in First Out (FIFO) method except work in progress which is valued at raw material cost plus conversion costs depending upon the stage of completion. Cost comprises expenditure incurred in the normal course of business in bringing such inventories to its present location and condition and includes, where applicable, appropriate overheads based on normal level of activity. Net realisable value is the estimated selling price less estimated costs for completion and sale.

#### **h. Borrowing Costs**

Interest and other costs connected with the borrowing for the acquisition / construction of qualifying fixed assets are capitalized up to the date that when such asset are ready for their intended use and other borrowing cost are charged to statement of profit & loss. Borrowing cost includes exchange difference to the extent regarded as an adjustment to the borrowing cost.

#### **i. Lease**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IND AS 116. Identification of a lease requires significant judgment. The Company uses significant judgment in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

#### **Company as a lessee**

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component based on the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any re-measurement of the lease liability. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of Profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lease exercising an option to terminate the lease. The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and re-measuring the carrying amount to reflect any re-assessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

### **Company as a Lessor**

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognized over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying assets is of low value. The lease payments

associated with these leases are recognized as an expense on a straight-line basis over the lease term.

#### **j. Foreign Currencies Translations**

Transactions in foreign currencies are initially recorded in reporting currency by the Company at spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of nonmonetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or statement profit or loss are also recognized in OCI or statement profit and loss, respectively).

#### **k. Provision and Contingencies**

A provision is recognised it as a result of past event the company has a present legal or constructive obligation that is reasonably estimated and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected cash flow at a pre-tax rate that reflects current market assessments of the time value of the money and the risk specific to the liabilities.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. The Company does not recognize a contingent liability but discloses its existence in the financial statements. if material, are disclosed by way of notes to the accounts.

Contingent assets are not recognised in the financial statements, as they are dependent on the outcome of legal or other processes.

#### **l. Employee Benefits :** Expenses and liabilities in respect of employee benefit are recorded in accordance with Indian Accounting Standard (IND AS 19 employees benefit)

##### **(i) Short Term Employees Benefit**

Short Term Employee Benefits (i.e. benefits falling due within one year after the end of the period in which employees render the related service) are recognized as expenses in the period in which employee services are rendered as per the Company's scheme based on expected obligations on undiscounted basis.

##### **(ii) Post-Employment Benefit Plans**

Under Defined Contribution Plan, the contribution is payable in keeping with the related schemes are recognized as expenses for the year.

Under Defined Benefit Plan, the present value of the obligations is determined based on actuarial valuations using the Projected Unit Credit Method, on the basis of actuarial valuations carried out by actuary at each Balance Sheet date. Actuarial gain /loss, if any, arising from experience adjustments and change in actuarial assumptions are charged or credited to Other Comprehensive income in the period in which they arise.

### **(iii) Other Long-Term Employee Benefits**

Leave encashment/compensated absence is determined by valuations using the Projected Unit Credit Method, on the basis of actuarial valuations carried out by actuary at each Balance Sheet date. Actuarial gain /loss, if any, arising from experience adjustments and change in actuarial assumptions are charged or credited to Other Comprehensive income in the period in which they arise.

### **m. Cash and Cash Equivalents**

Cash and Cash equivalent in the balance sheet comprise cash at banks and on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of statement of cash flows, cash and cash equivalents consist of cash at banks and on hand and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of Company's Cash Management.

### **n. Dividend**

Annual dividend distribution to the shareholders is recognised as a liability in the period in which the dividend is approved by the shareholders. Dividend payable and corresponding tax on dividend distribution is recognised directly in equity.

### **o. Earnings Per Share**

Basic Earnings per equity shares are calculated by dividing the net profit or loss before OCI for the period attributable to equity shareholders by the weighted average number of equity share outstanding during the year.

For calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of share outstanding during the period are adjusted for the effect of all diluted potential equity shares.

### **p. Financial Instruments**

#### **(a) Financial Assets**

##### **Initial Recognition and Measurement**

All financial Assets are recognised initially at fair value plus, in case of financial assets not recorded at fair value through profit or loss, transaction cost that are attributable to the acquisition of the financial asset.

## **Subsequent measurement**

- (i) **Financial Assets carried at amortised Cost-** A Financial Assets is subsequently measured at amortised cost, using effective interest rate (EIR) method, if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest term on the principal amount outstanding.

Amortised cost is calculated by taking into account any discount or premium on Acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade receivables, cash and bank balances, loans and other financial assets of the company.

- (ii) **Financial Assets at fair value through other comprehensive income-** A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on a specified date to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investment which are classified as equity instruments to present the subsequent changes in fair value in other Comprehensive income based on its business model., Further in case where the company has made an irrecoverable election based on its business model for its investments, which are classified as equity instrument the subsequent changes in fair value are recognised in other comprehensive income.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

- (iii) **Financial assets at fair value through profit or loss -** A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

## **(b) Financial Liabilities**

### **Initial recognition and Measurement**

Financial Liabilities are recognised at fair value on initial recognition and in case of loan and borrowing or payables net of directly attributable transaction costs.

### **Subsequent Measurement**

Financial Liabilities are subsequently carried at amortized cost using effective interest rate method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

For trade and other payables maturing within one year from the Balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

**(c) De-recognition of financial instrument**

The company de-recognises the financial assets when contractual right to cash flow from financial assets expire or it transfer the financial assets and transfer qualities for de-recognition under IND AS 109. A financial liability or a part of a financial liability is de-recognised from the company's Balance Sheet when obligation specified in the contract is discharged or cancelled or expires.

**(d) Offsetting of Financial Instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**q. Fair value financial instruments**

The company measure financial instrument at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In determining the fair value of its financial instruments, the company use various method and assumption that are based on market conditions and risks existing at each reporting date. The methods used to determine the fair value includes discounted cash flow analysis, available quoted market price and dealer quotes and valuation report etc. The method of assessing fair value results in general approximation of value and such value may never actually be realised.

Fair Values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or liability, the company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

#### **4. Changes in Accounting Standard and recent accounting pronouncements (New Accounting Standards issued but not effective):**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

##### **Ind AS 103 – Reference to Conceptual Framework**

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

##### **Ind AS 16 – Proceeds before intended use**

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

##### **Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract**

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

##### **Ind AS 109 – Annual Improvements to Ind AS (2021)**

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

##### **Ind AS 106 – Annual Improvements to Ind AS (2021)**

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

## 38. Financial risk management objective and policies

The Company's financial liabilities include Loan and borrowing, security deposits, retention money and Trade & other payables. The main purpose of these financial liabilities is to finance

the Company's operations. The Company's financial assets include investments, trade & other receivables, deposits and cash & cash equivalents.

The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance. The Company uses derivative financial instruments to hedge certain risk exposures. The Company does not acquire or issue derivative financial instruments for trading or speculative purposes.

The Company's activities expose it to Credit Risk, Liquidity Risk, Market Risk, and Equity Price Rise. The Company has a Risk management policy and its management is supported by a Risk management committee that advises on risks and the appropriate financial risk governance framework for the Company. The Risk management committee provides assurance to the Company's management that the Company's risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

**A. Credit Risk-** A risk that counterparty may not meet its obligations under a financial instrument or customer contract, leading to a financial loss is defined as Credit Risk. The Company is exposed to credit risk from its operating and financial activities.

Customer credit risk is managed by the respective marketing department subject to the Company's established policy, procedures and control relating to customer credit risk management. The Company reviews the creditworthiness of these customers on an on-going basis. The Company estimates the expected credit loss on the basis of past data, experience and policy laid down in this respect. The maximum exposure to the credit risk at the reporting date is the carrying value of the trade receivables disclosed in Note 7 (**Seven**) as the Company does not hold any collateral as security. The Company has a practice to provide for doubtful debts as per its approved policy.

An impairment analysis is performed at each reporting date on an individual basis. The calculation is based on historical data of credit losses.

The ageing analysis of the receivables (gross of provision) has been considered from the date the invoice falls due.

### **39. Capital management**

The Company's objective when managing capital (defined as net debt and equity) is to safeguard the Company's ability to continue as a going concern in order to provide returns to shareholders and benefits for other stakeholders, while protecting and strengthening the Balance Sheet through the appropriate balance of debt and equity funding. The Company manages its capital structure and makes adjustments to it, in taking into consideration the economic conditions and strategic objectives of the Company.

For the purpose of the Company's capital management, capital includes issued capital, share premium and all other equity reserves. Net debt includes, interest bearing loans and borrowings, trade and other payables less cash and short-term deposits.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches of the financial covenants of any interest-bearing loans and borrowing for reported periods.
