Kabra Extrusiontechnik approves setting up of New Manufacturing plant in North India for its future technologies brand Battrixx

Mumbai, 8th February '2023: Kabra Extrusiontechnik, one of the leading EV battery manufacturers in India, has announced that its board has approved the plan to set up a new manufacturing plant in North India to manufacture new age Lithium-ion battery packs and other ancillary products, through its wholly owned subsidiary.

The proposed new facility will be a state of the art highly automated facility, having an annual capacity of 0.75 Gwh. The announcement is part of the company's region-focused approach and strong emphasis on sustainability.

With the new proposed facility, Battrixx intends to acquire a larger market share in the e-mobility segment in North India. The new facility will strengthen and serve new customers operating in electric 2-wheeler, 3-wheeler and light commercial vehicle (LCV) segment.

The proposed facility is expected to be fully operational by Q3 of financial year 2024.

"North India presents the largest opportunity for electric vehicles in India" said **Mr. Anand Kabra, Vice-Chairman & MD, Kabra Extrusiontechnik Ltd** said, "With this proposed new facility, we are positioning ourselves to capture new business in the e-mobility segment in this market. Overall, the company envisions the new facility to increase the foothold of the company in North India. Our strong focus on technology and continuous innovation will enable us to cater to our customers' needs in the market. This is a significant step forward for Battrixx and a testament to our commitment to driving the growth of the electric vehicle industry in India."
