## Quick Heal Aces the Internet Safe Banking Test 2024 Conducted by AVLab Cybersecurity Foundation, Poland

- *The recognition comes after two months of rigorous testing of Quick Heal's Safe Browser & Safe Banking module by AVLab*

**Pune, 29 January 2024:** Quick Heal, a leading global cybersecurity solutions provider, is proud to announce that its Safe Browser & Safe Banking feature has been certified by AVLab Cybersecurity Foundation, Poland, as one of the safest for browsing and online banking, cementing its position as a global leader in the cybersecurity domain. Becoming the only Indian cybersecurity company to gain this certification, Quick Heal continues to be at the forefront of the industry, setting new benchmarks in cybersecurity innovation.

The rigorous two-month evaluation by AVLab delved deep into the efficacy of Quick Heal's Safe Browser & Safe Banking module, focusing on its resilience against the ever-evolving landscape of banking frauds. Tested against 7 globally reputed cybersecurity solutions providers, Quick Heal Total Security's Safe Browser & Safe Banking module emerged with full score across all safety parameters, including hijacking system clipboard, swapping system clipboard, logging keystrokes, capturing screenshots, remote control of the computer, and searching drive and file theft.

Commenting on the achievement, **Vishal Salvi, Chief Executive Officer of Quick Heal Technologies Limited**, said, *"We are delighted and honored to be certified and accredited by AVLab for achieving the top score in the test. This validates Quick Heal's unwavering commitment to pioneering cybersecurity solutions. Quick Heal Total Security's Safe Browser & Safe Banking module's triumph in the rigorous testing reflects our relentless pursuit of excellence, innovation, and user protection. As we continue to redefine cybersecurity standards, this accolade strengthens our resolve to create a digital landscape where users can navigate with confidence. We are proud to set new benchmarks in the industry and remain committed to securing the digital future."*

AVLab's testing methodology, aligned with the Anti-Malware Testing Standard Organization, simulated real-world cyber threats using actual malware. Quick Heal's Safe Browser & Safe Banking module showcased unparalleled effectiveness in safeguarding users against online banking attacks. This certification stands as a testament to Quick Heal's unwavering commitment to excellence, innovation, and making the digital world a safer space for users worldwide.

Quick Heal's journey in cybersecurity has always been about staying ahead of the curve. The latest recognition from AVLab is a testament to the company's dedication to providing cutting-edge solutions, prioritizing user safety, and redefining the standards of cybersecurity.
