The above Audited Financial Result has been reviewed by the Audit Committee and approved by the Board of Directors in their meetin held on 14th May 2022.
The Statutory Auditors of the company have carried out the Audit of the Company and issued an Audit Report, now attached herewith

The figures of the three menths ended 31st March 2022 and 31st March 2021 are the balancing figures between audited figures in respect of full financial year and published year to date figures up to the previous quarter of the respective financial years.

The company had invested huge resources in developing technology, infrastructure, marketing, promotions, business process and fulfillment services over the last years in order to expand its retail network and customer beer or its Internet Retail business. Since it was an innovative process of Retailing where the company orchestrates 3rd party physical retail stores with virtual inventory, the business model required continuous investments till it reaches the breakeven point and turned profitable. In March 2017, the company was classified into the Graded Surveillance Measure (GSM) list by BSE. The criteria for classifying the company into GSM were not conveyed to us. However such classification is an internal work of BSE under the guidance of Securities and Exchange Board of India and does not reflect unon any non compilance on the nat of the company and the company remains lift respect to all the regulatory. to us. However such classification is an internal work of best under the guidance of securities and sexpange board of india and does no reflect upon any non compliance on the part of the company and the company remains fully compliant with respect to all the regulator requirements. The direct impact of classifying company in GSM by BSE had led to trade restrictions and a complete 'roadblock' in terms of raising additional capital from new investors. Thus new fund raising had become an extremely challenging and a daunting task. A present the company is placed in stage 4 of GSM list. Consequent to classifying into GSM and failing in raising fresh capital, the company suspended it's Internet Retail operations wef April 2017.

The company continues exploring various opportunities and partnerships in order to revive its Internet Retail activities.
