# Annexure A referred to in paragraph 3(g) under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date:-

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Hindustan Motors Limited ("the Company") as of 31st March, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

# Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act..

# Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

# Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles including the Indian Accounting Standards (Ind AS). A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being

made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

# 1 Significant Accounting Policies:

# (a) Basis Of Preparation

The financial statements have been prepared as a going concern on an accrual basis in accordance with Indian Accounting Standards (Ind AS) prescribed under section 133 of the Companies Act,2013 ("the Act") [Companies (Indian Accounting Standards) Rules,2015 and Companies (Indian Accounting Standards) Amendment Rules,2016] and Other applicable provisions of the Act, to the extent applicable. The financial statements up to year ended 31 March 2017 were prepared earlier in accordance with the accounting standards notified under the Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These financial statements are the first financial statements of the company under Ind AS and the transition was carried out in accordance with Ind AS 101, "First time adoption of Indian Accounting Standards". Refer note 51 for an explanation of how the transition from previous GAAP to Ind AS has affected the company's financial position, financial performance and cash flows.

The financial statements have been prepared on accrual basis of accounting under historical cost convention and presented in Indian Rupees (INR) which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest lacs.

However, the following financial assets and financial liabilities are measured at fair value:

- i) Certain financial assets and liabilities measured at fair value.
- ii) Plan assets of defined employee benefit plans.

# (b) Property, Plant And Equipment

The Company has elected to avail the exemption granted by IND AS-101 "First time adoption of IND AS" to regard the Previous GAAP carrying value for all of its property, plant and equipment as deemed cost at the transition date, viz., 1 April, 2016. Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation, net of impairment, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

### Depreciation methods, estimated useful lives and residual value

Depreciation on property, plant and equipment is provided on 'Straight Line Method', over the estimated useful lives of the respective assets as prescribed under Schedule II of the Companies Act, 2013 except for vehicles used for Research and development purpose, which are depreciated @20% p.a. which was higher than the rates prescribed under Schedule II of the Companies act, 2013. Depreciation on leasehold land (other than perpetual lease) is provided over the respective lease period. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

# Derecognition:

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

# (c) Intangible Assets

The Company has elected to avail the exemption granted by IND AS-101"First time adoption of IND AS" and regard the Previous GAAP carrying value for all of its intangible assets as deemed cost at the transition date, viz., 1 April, 2016. Intangible assets are stated at cost less accumulated amortisation and net of impairments, if any. An intangible asset is recognised if it is probable that the expected future economic benefits that are attributable to the asset will flow to the company and its cost can be measured reliably. Intangible assets are amortised on straight line basis over their estimated useful lives.

# Derecognition:

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

# (d) Fair Value Measurement

Fair value is the price that would be received to sale an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. Normally at initial recognition the transaction price is the best evidence of fair value.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities based on the nature, characteristics and the risks of the asset or liability and at the level of the fair value hierarchy. This categorization is based on the lowest level input that is significant to the fair value measurement as a whole;

Level 1-Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

**Level 2-**Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

**Level 3-**Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

# (e) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### **Financial Assets:**

### Initial recognition and measurement

All financial assets except trade receivables are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of

the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expressed in the Statement of Profit and Loss.

The Company measures the trade receivables at their transaction price, if the trade receivables do not contain a significant financing component.

# Subsequent measurement

Subsequent measurement of financial assets is described below:-

# (i) Debt instruments:

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

# (ii) Equity investment:

The Company subsequently measures all equity investments in companies other than equity investments in subsidiaries, joint ventures and associates at fair value. As per management, as sufficient recent information is not available to measure the fair value, cost represents best estimate of the fair value within that range.

# Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or the Company has transferred its rights to receive cash flows from the asset or
- The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

# **Financial Liabilities:**

Financial liabilities of the Company are contractual obligations to deliver cash or another financial asset to another entity .

# Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value minus transaction costs that are directly attributable and subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognised through profit or loss and loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value, and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

# Subsequent measurement

# Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognized in the Statement of Profit and Loss when the liabilities are derecognized.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

# Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The differences in the respective carrying amounts are recognized in the Statement of Profit and Loss.

# (f) Revenue Recognition

- Amounts disclosed as revenue are inclusive of excise duty and net of trade allowances, rebates, goods and service tax.
- (ii) Insurance and other claims, to the extent considered recoverable, are accounted for in the year of claim. However, claims and refunds whose recovery cannot be ascertained with reasonable certainty are accounted for on acceptance basis.
- (iii) Revenue from interest is recognized on accrual basis and determined by contractual rate of interest.
- (iv) Dividend income is stated at gross and is recognized when right to receive payment is established.

The company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity after dispatch of goods and passing of title to the customer.

# (g) Employee Benefits

# (i) Short term obligations:

Short term employee benefits are accrued in the year services are rendered by the employees.

# (ii) Post employment benefit obligations:

Contributions to defined contribution plans such as Provident Fund etc. are being made in accordance with the statute and are recognized as and when incurred.

Contribution to defined benefit plans consisting of contribution to gratuity are determined at close of the year at present value of the amount payable using actuarial valuation techniques. Actuarial gain and losses arising from experience adjustments and changes in actuarial assumptions are recognized in other comprehensive income. Other costs are recognized in the Statement of Profit and Loss.

Other long term employee benefits consisting of Leave encashment are determined at close of the year at present value of the amount payable using actuarial valuation techniques. The changes in the amount payable including actuarial gain or loss are recognized in the Statement of Profit or Loss.

Contribution to Superannuation Fund, a defined contribution plan is made in accordance with the Company Policy and is recognized in the Statement of Profit and Loss.

### (h) Leases

Leases of Property, Plant and Equipment where the company, as lessee, has substantially all the risks and rewards of ownership are classified as finance lease. Assets under finance lease are capitalized at the inception, at the fair value of the leased property or if lower, the present value of minimum lease payments. The corresponding rental obligations, net of finance charge, are included in borrowings or other financial liabilities, as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of intetest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operaing lease. Payments made under operating leases (net of incentives received from the lessor) are charged to profit or loss on a straight line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

# (i) Foreign Currency Transaction

# (i) Transactions and balances

At each Balance Sheet date, monetary items denominated in foreign currency are translated at the functional currency exchange rates prevailing on that date and exchange difference has been recognized in the statement of Profit and Loss. The company classifies all its foreign operations as integral in nature.

Non-monetary items that are measured in terms of historical cost in foreign currency are translated using the exchange rate at the date of transaction.

# (ii) Forward Exchange contracts not intended for trading or speculation purpose

The premium or discount arising at the inception of forward exchange contracts is amortised as expenses or income over the life of respective contracts. Exchange differences on such contracts are recognised in the statement of Profit and Loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expense for the year.

### (i) Income Taxes

Current income tax is recognized based on the amount expected to be paid to the tax authorities, using tax rates and tax laws that have been enacted or substantially enacted on the date of balance sheet.

Current tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

### (k) Deferred Tax

Deferred tax is recognised, using the Balance Sheet-liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the separate financial statements.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. If the Company has carry forward unabsorbed depreciation and tax losses, all deferred tax assets are recognised only to the extent there is virtual certainty supported by convincing evidence that sufficient taxable income will be available against which such deferred tax assets can be realised.

At each Balance Sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises, unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

# (1) Earnings Per Share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed using the weighted average number of shares and dilutive equity equivalent shares outstanding during the period, except when results will be anti-dilutive.

# (m) Provisions, Contingent Liabilities, Contingent Assets

Provisions are recognized when there is a present legal or statutory obligation or constructive obligation as a result of past events and where it is probable that there will be outflow of resources to settle the obligation and when a reliable estimate of the amount of the obligation can be made.

Contingent liabilities are recognized when there is a possible obligation arising from past events due to occurance and non occurance of one or more uncertain future events not wholly within the control of the company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

Continuous assets where it is probable that future economic benefits will flow to the company are not recognised but disclosed in the financial statements. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

# (n) Segment Reporting

In accordance with Ind AS 108-"Operating Segment", the Operating segments are reported in a manner consistent with the internal reporting provided to the "Chief Operating Decision Maker" (CODM). The Board of Directors is collectively the Comany's CODM.

# 2. RECENT ACCOUNTING PRONOUNCEMENTS

### Standards issued but not yet effective:

As set out below, amendments to standards are effective for annual periods beginning on or after April 1, 2018 and have not been applied in preparing these financial statements. None of these is expected to have a significant effect on the financial statements of the Company.

# a. Amendments to Ind As 115, Revenue from contracts with customers

The amendment is effective for accounting periods beginning on or after April 1, 2018 and early adoption of the same is not permitted.

b. Amendments to Ind AS 21, Foreign currency transactions and advance consideration

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018

c. Amendments to Ind AS 40 Investment property - Transfers of investment property

The amendments clarify that transfers to, or from, investment property can only be made if there has been a change in use that is supported by evidence. A change in use occurs when the property meets, or ceases to meet, the definition of investment property. A change in intension alone is not sufficient to support a transfer. The amendments provide two transition options. Entities can choose to apply the amendment either retrospectively without the use of hindsight or prospectively to changes in use that occur on or after the date of initial application. The amendment will come into force from April 1, 2018.

# 3 USE OF ESTIMATES AND MANAGEMENT JUDGEMENTS

The preparation of financial statements in conformity with Ind AS requires management to make judgments, assumptions and the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the company's accounting policies.

This note provides information about the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

Estimates, underlying assumptions and judgements are reviewed on ongoing basis. Revisions to accounting estimates are recognised in a period in which the estimates are revised. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the company and that are believed to be reasonable under the circumstances.

## iv) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

(Amounts in INR Lakhs)

Particulars	Chamasim	Change in accounting		Impact on defined benefit obligation				
rarticulars	Change in assumption		Increase	by 0.50%	Decrease by 0.50%			
Particulars	March 31, March 31, 2018 2017		March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017		
Gratuity								
Discount rate	0.50%	0.50%	362.01	501.28	384.55	533.17		
Salary growth rate	0.50%	0.50%	385.17	534.05	361.34	500.33		
Leave Encashment								
Discount rate	0.50%	0.50%	104.77	139.46	111.57	148.62		
Salary growth rate	0.50%	0.50%	111.76	148.87	104.57	139.18		

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method i.e. projected unit credit method has been applied as that used for calculating the defined benefit liability recognised in the balance sheet.

## v) The major categories of plan assets are as follows:

Particulars	March 31, 2018		March 31, 2017		April 01, 2016

Investment funds with LIC of India *	157.02	100%	145.77	100%	438.98	100%

<sup>\*</sup>Gratuity trust pays contribution to LIC which inturn invests the amount in various instruments. As it is done by LIC in totality basis along with contributions from other participants, the Company wise investment in planned assets - category / class wise is not available.

### vi) Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

**Description of Risk Exposers :** Valuations are based on certain assumption which are dynamic in nature and vary overtime. As such Company is exposed to various risk as follows :

**Interest rate risk:** The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Salary Inflation risk: Higher than expected increases in salary will increase the defined benefit obligation.

**Demographic risk:** This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria.

Withdrawls: Actuals withdrawls providing higher or lower than assumed withdrawls can impact plan's liability.

Discount Rate: Reduction in discount rate in subsequent valuations can increase the plans liability.

#### vii) Defined benefit liability and employer contributions

Expected contribution to post employment benefit plan for the year ending March 31, 2018 is INR

The weighted average duration of the defined benefit obligation is 10 years in case of Gratuity and 10 years in case of Leave encashment in all the three years. The expected maturity analysis of undiscounted gratuity and leave encashment is as follows:

#### (Transition from Indian GAAP to Ind As)

In preparing its opening Ind AS balance sheet, the company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act. An explanation of how the transition from previous GAAP to IND AS has affected the Company's financial position, financial performance and cash flow is set out in the following tables and notes.

## A) Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

### A.1 Ind AS optional exemptions

#### (a) Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption is also used for intangible assets covered by Ind AS 38 Intangible Assets.

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value, which has been considered as deemed cost.

#### (b) Investments in subsidiaries

Ind AS 101 permits a first-time adopter to measure its investments in subsidiaries, joint ventures and associates at deemed cost, which should be either:

- (i) fair value at the entity's date of transition to Ind ASs in its separate financial statements; or
- (ii) previous GAAP carrying amount at that date

The company has elected to measure in its separate financial statements all of its investments in subsidiaries at their previous GAAP carrying amount on the date of transition.

#### (c) Classification and measurement of Lease land

In accordance with Ind AS 101, when a lease includes both land and building elements, a first time adopter may assess the classification of each element as finance or an operating lease at the date of transition to Ind AS on the basis of the facts and circumstances existing as at the date of transition. Accordingly, applying the same exemption, the Company has classified its Pithampur land leases into finance lease on the basis of the facts and circumstances existing as at the date of transition.

## A.2 Ind AS Mandatory Exceptions

Notes to reconciliation on First Time Adoption

### 1 Fair valuation of security deposits paid

Under the previous GAAP, interest free lease security deposits assets (that are refundable in cash on completion of the contract term) are recorded at their transaction value. Under Ind AS, all financial assets are required to be recognised at fair value at initial recognition and subsequently at amortised cost. Accordingly, the company has fair valued these security deposits under Ind AS. Difference between the fair value and transaction value of the security deposit has been recognised as prepaid rent.

#### 2 Tax effects of adjustments

Additional deferred tax asset/(liability) has been recognised corresponding to the adjustments to retained earnings/profit or loss as a result of Ind AS Implementation.

#### 3 Remeasurement of Post-employment benefit obligations (Net of Tax)

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans. The concept of other comprehensive income did not exist under previous GAAP. Accordingly, loss on remeasurements of post-employment benefit obligation has been reclassified to the Other Comprehensive Income for the period.

## 4 Cash and Cash Equivalents

Under Ind As,unpaid dividend account should be included in Other Bank Balances, whereas in previous IGAAP the same was included in cash and cash equivalents.

52 The operating results have been adversely affected due to adverse market conditions and the accumulated losses of the Company as at 31st March, 2018 stand at Rs. 19623.81 lacs as against the share capital of Rs. 10441.44 lacs. Also current liabilities as at 31st March, 2018 exceed current assets by Rs.7864.26 lacs. The Company had also declared "Suspension of work" at its Uttarpara plant w.e.f. 24th May, 2014 & layoff at its Pithampur plant w.e.f. 4th December, 2014. These conditions indicate the existence of material uncertainty about the Company's ability to continue as a going concern, which is dependent on the Company establishing profitable operations and sustainable cash flows. The Management is in the process of further rationalizing the expenses as well as considering the measures to generate additional revenue apart from revenue generated during the year. Accordingly, the Company continues to prepare its accounts on a "Going Concern" basis. The Auditors in their audit report for the year ended 31st March, 2018 had also given Emphasis of Matter on above.

<sup>\*</sup>Adjustment includes reclassification

- 53 Due to low productivity, growing indiscipline, shortage of funds and lack of demand of products, the management declared "Suspension of work" at Company's Uttarpara Plant with effect from 24th May, 2014. The Company also declared layoff at its Pithampur plant with effect from 4th December, 2014 due to lack of orders. Based on legal opinion obtained, the employees and workmen, falling under the purview of "Suspension of work" at Uttarpara plant, are not entitled to any salary & wages during that period and accordingly the Company has not provided for such salary & wages.
- 54 The financial statements of the Company for the financial year 2017-18 have been signed by two Non-Executive Directors, the Chief Financial Officer and the Company Secretary as there is no Chairperson, Managing Director or Chief Executive Officer on the basis of expert opinion obtained by the Company in the earlier year.
- 55 The wholly owned immaterial foreign subsidiary of the Company namely Hindustan Motors Limited, USA was already dissolved on 16th February, 2017 as per the laws appliable in USA as such not in existence since after dissolution. Further, the application made by the Company to Reserve Bank of India seeking permission for writing off its entire investment in Hindustan Motors Limited, USA (Capital, Loan and other receivables/payables) for which necessary provision has been made in the accounts of the Company, is under consideration.
- 56 The Company has executed an agreement with Peuget S.A. on 10th February, 2017 for the sale of the Ambassador brand and certain related rights (Ambassador Brand) for a consideration foreign currency equivilent to INR 8000 lakhs, received during the year INR 7897 lakhs, net of exchange loss of Rs 103 lakhs upon fullfilment of the terms and conditions as prescribed in the said above mentioned agreement.
