Rationale

This rationale is being released to convey the change in the rated limits as depicted in the table above, based on the latest information received from the entity.

ICRA notes that India Grid Trust (IndiGrid/ IGT/ the trust) has acquired 100% stake in Virescent Renewable Energy Trust (VRET) on August 25, 2023 at an enterprise value of ~Rs 4200 crore, entirely funded through external debt. Subsequent to acquisition, the trust has raised equity of ~ Rs 403.5 crore by way of preferential issue on September 21, 2023 which is used to prepay the debt raised for the acquisition. While the acquisition increased the net debt/assets under management (AUM) of the trust to 65-66%, the subsequent equity raise has brought it down to ~64%. Further, the management has stated that they propose to raise additional fresh equity of up to Rs. 1,100 crore, which has been approved by the board of the investment manager, which in turn will bring down the net debt/AUM of IGT to ~60%, thereby providing adequate buffer for future growth.

Analytical approach

Analytical Approach	Comments
Applicable Rating Methodologies	Corporate Credit Rating Methodology Rating Methodology for Infrastructure Investment Trusts Rating Methodology for Power Transmission Companies Rating Methodology for Solar Power Producers
Parent/Group Support	Not applicable
Consolidation/Standalone	ICRA has consolidated the business and financial risk profile of all SPVs under IndiGrid as the cash flows are fungible among various SPVs due to the direct control of IndiGrid. The regulatory debt cap of 70% on the consolidated asset valuation also supports the consolidation approach of the InvIT.

InvIT Structure

SEBI has introduced infrastructure investment trust (InvIT) regulations for infrastructure projects, keeping in mind the huge infrastructure needs of India. InvIT is a mechanism that enables infrastructure developers to monetise their assets by pooling multiple assets under a single entity (which would be a Trust structure). The key features of InvITs are—mandatory distribution of 90% of the net distributable cash flows (NDCF) to the unit investors, leverage cap of 70% on the net asset value and a cap on exposure to under construction assets for publicly placed InvITs. The sponsor of the InvIT shall be responsible for setting up the Trust and appointing the trustee. The sponsor shall hold minimum 15% of the units issued by the InvIT with a lock-in period of three years from the date of issuance of units.

India Grid Trust was set up on October 21, 2016, as an irrevocable Trust pursuant to the trust deed under the provisions of the Indian Trusts Act, 1882 and registered with the Securities and Exchange Board of India as an InvIT on November 28, 2016, under Regulation 3(1) of the InvIT Regulations. The Trust has assets under management of ~Rs. 27,000 crore post-acquisition of VRET (as per independent valuation as on June 30, 2023 and acquisition value of VRET), consisting of 16 transmission assets comprising 46 transmission lines of ~8,468 cKM and 13 sub-stations of 17,550 MVA across 19 states and one Union Territory (UT), including the under-construction project under Kallam Transmission Limited and 17 solar projects with 676-MW of operational capacity. All the transmission projects have been implemented on a BOOM basis and have TSAs in place for 35¹ years, except for two assets. IGT's net debt/AUM is at ~64% post-acquisition of VRET and equity issuance, below the 70% leverage threshold as per SEBI InvIT Regulations. KKR is the sponsor for the Trust. Earlier, Sterlite Power Transmission Limited (SPTL) was also the sponsor for the Trust. SPTL has now been derecognised as the sponsor and does not hold any stake in IGT. Separately, KKR also owns a 100% stake in Indigrid Investment Managers Limited (IIML), the investment manager of IndiGrid. Axis Trustee Services Limited is the trustee for the Trust.

¹ Except ENICL and JKTPL, which has a 25-year TSA period
