World's largest commercial fleet of tactical ex-military aircraft,
Draken International TRUSTS Ramco Aviation

Fort Worth/ New Jersey, UNITED STATES – September 01, 2021 – Global aviation software provider [Ramco Systems](#) announced that it will implement its [Aviation M&E MRO Suite V5.9](#) at [Draken International](#), a leading provider of tactical fighter aircraft for contract adversary air (ADAIR) services to the defense industry, across its global operations in both CONUS and OCONUS locations. Ramco Aviation Software will offer a one-stop solution for managing Draken's global operations as well as a scalable software platform that will support the company's rapid expansion plans.

Ramco's next-gen, Defense/ITAR (International Traffic in Arms Regulations) compliant Aviation Software, will offer Draken modules covering Maintenance, Supply Chain Management, Flight Operations, Safety & Quality, to help in managing diverse training fleet & defense operations seamlessly. The solution will provide a holistic overview of entire operations with its real-time dashboards and analytics, which will help Draken's tactical fighter aircrafts achieve a higher mission readiness rate.

In addition, with its digital enablers like state-of-the-art mobile apps, digital task cards, HUBs, Artificial Intelligence (AI), Dashboards, Ramco will also help Draken in its overall digital transformation journey, thus realizing paperless operations, improving process efficiencies, and reducing costs.

Bill Tart, COO, Draken International, said, "At Draken, we constantly drive efficiency and innovation to provide our DoD (Department of Defense) customers with the best value. As we looked at our long-term requirements, we identified the need for a tool that could deal with the complexity of multiple aircraft fleets, geographically dispersed sites, future government compliance issues, large workforce quality and training tracking – all in a package which minimized workload and could scale with our global expansion plans. No easy task for a next generation Aviation MRO software package. Ramco Aviation Software was the solution to all our requirements. The one stop solution, offering capabilities to address the demanding requirements of the Defense segment, will help us achieve and maintain high mission readiness befitting our customers. We are happy to embark on a digital transformational journey with Ramco."

Virender Aggarwal, CEO, Ramco Systems, said, "Securing the trust of the top four ADAIR operators in the U.S.A is a landmark achievement, and we are thrilled to achieve this within a short time of entering the Defense Asset Management segment. Our partnership with Draken underscores our experience in implementing solutions for ADAIR operations, and we are excited to be supporting them on their journey of digital transformation."

[Ramco Aviation, Aerospace & Defense](#) is trusted by 24,000+ users to manage 4,000+ aircraft globally. Accessible on cloud and mobile, Ramco Aviation & Defense Software continues to innovate with 'Anywhere Apps', significantly reducing transaction time both during aircraft-on-ground (AOG) conditions and critical aircraft turnarounds. Ramco is changing the paradigm of enterprise software with Artificial Intelligence based solutions, powered by cool new features such as digital task cards, offline capability, chatbots, mail bots, HUBs and cognitive solutions. With 80+ Aviation organizations onboard, Ramco is the solution of choice for top heli-operators, leading defense companies, space launch vehicles, UAS/Drones, eVTOL and multiple MROs around the world.

About Draken International:

Draken International headquartered in Lakeland, FL and operations based out of Fort Worth, is world's largest defense adversary air operator. Draken with a fleet of 150 tactical fighter aircraft, owns and operates the world's largest commercial fleet of tactical ex-military aircraft. Draken supports military training objectives around the globe, providing tremendous cost savings over the use of traditional military fighter assets. As an organization, we are uniquely positioned to answer the growing demand for contract air support. Draken performs missions for F-35 JOTT, USAF, USMC, USN, ANG and other international allies.

About Ramco Systems:

Ramco is a next-gen enterprise software player disrupting the market with its multi-tenant cloud and mobile-based enterprise software in HR and Global Payroll, ERP and M&E MRO for Aviation. Part of the USD 1 billion Ramco Group, Ramco Systems focuses on Innovation and Culture to differentiate itself in the marketplace. On the Innovation front, Ramco has been focusing on moving towards Active ERP leveraging Artificial Intelligence and Machine Learning by building features such as **Talk It** - which allows transactions to be carried out by simple voice commands, **Bot it** – which allows users to complete transactions using natural conversations; **Mail It** – transact with the application by just sending an email; **HUB It** - a one screen does it all concept built to address all activities of a user; **Thumb It** – mobility where the system presents users with option to choose rather than type values and **Prompt It** – a cognitive ability which will let the system complete the transaction and prompts the user for approval.

With 1800+ employees spread across 24 offices, globally, Ramco follows a flat and open culture where employees are encouraged to share knowledge and grow. No Hierarchies, Cabin-less Offices, Respect work and not titles, among others are what makes the team say, Thank God it's Monday!
