THE GOVERNMENT'S DECI-**SION** to lower its gross borrowings for FY25 has opened up a window of opportunity for corporate houses looking to raise capital at competitive rates. Corporate bonds, which are a debt instrument, will now seem attractive to India Inc. sector experts said, as the Centre, which is an active market participant in the bond mar-

# ₹6,000-cr outlay for footwear, toys PLI

**MUKESH JAGOTA** New Delhi, February 1

THE GOVERNMENT WILL come up with the productionlinked incentive (PLI) scheme for footwear and leather sector and toys next financial year with a total outlay of over around ₹6,100 crore.

The PLI for toys will have an outlay of ₹3,489 crore and run from FY25 to FY32, while ₹2,600 crore will be provided for footwear and leather. The schemes will have to be approved by the cabinet. Pending approval, the department for promotion of industry and internal trade (DPIIT) has sought a token allocation for the schemes in the Budget.

At present PLI schemes for 14 sectors with an outlay of ₹1.97 trillion are operational. The addition of two new sectors will take the allocation for the scheme launched in 2020 higher. According to revised estimates for FY24, the outgo on PLI this year will be around ₹9,508 crore including ₹1,503 crore for Modified Programme for Development of Semiconductors and Display Manufacturing.

optimism surrounding India's sustained economic growth

India's successful G20 presidency underscored our nation's rising influence as the voice of the Global South. India's journey toward Amrit Kaal, embracing the principles of good goverinclusivity sustainability, and innovation, has been commendable.

Aligned with the government's vision for a Viksit Bharat by 2047 – the centennial year of India's Independence – this interim Budget takes strides toward enhancing people's capabilities and empowering them. The message is clear — what's needed is not freebies or populism but good governance, development, and performance.

It is also noteworthy to see the government's commitment to fiscal discipline. The finance minister rightly placed focus on four major groups - Garib Kalyan Nari Shakti, Yuva (youth), and Annadata (farmers) — whose empowerment and well-being are crucial to propelling the country forward.

The proposed scheme to assist deserving sections of the middle

class in buying or building their

own houses is a welcome step. Equally impressive is the allocation of a corpus of ₹1 trillion for long-term financing for the private sector to scale up research and innovation significantly in sunrise domains. Sustained investments in infrastructure are crucial for maintaining a robust economic engine and the higher allocation to infrastructure spending are heartening. In conclusion, the interim Budget reaffirms the government's commitment towards 'Sabka Saath, Sabka Vikas' and sets the tone for our journey towards a sustainable, inclusive, and all-encompassing growth journey.

New Delhi, February 1

INDUSTRY LEADERS AND leading tax consultants have expressed surprise over nonextension of the sunset date of the concessional tax rate of 15% on new manufacturing units beyond March 31, 2024 in the interim Budget, as this may discourage fresh private investments, say experts.

"Considering the continuing need to incentivise manufacturing in India and the support extended to manufacturing in specified sectors by way of production-linked incentives (PLI), it is surprising that the lower tax rate of 15% has not been extended," said Sudhir Kapadia, Partner, Tax & Regulatory Ser-

vices, EY India. As per the current rules, the concessional corporate tax rate, first introduced in 2019, and extended by one year in the FY24 Budget, can be availed by firms setting up new manufacturing units provided they commence operations by March 31, 2024.

But since pandemic-related disruptions and global slowdown hindered many potential investors from setting up new plants and making full use of the tax incentive, industry leaders urged the government to extend the sunset date for at least an year.

It also holds significance as the government's ability to pump-prime the economy with its own capital expenditure is limited. This can be seen from

the Centre's capex target for FY25, which is at ₹11.1 trillion, up 16.9% from FY24 revised estimate of ₹9.5 trillion. The projected growth for FY25 is the lowest in five years.

"It needs to be borne in mind that India is competing with much older jurisdictions in attracting investments in the manufacturing sector and to significantly increase FDI (foreign direct investment), the government would do well to actually consider extending the lower tax rate for a longer period to fully realise the benefits of an increased manufacturing base in India," EY's Kapadia said.

Recent data released by the commerce ministry showed that foreign direct investment (FDI) equity inflow in the manufacturing sector between 2014-22 has increased sharply by 57% as compared to the previous eight years 2006-14. This

Pallavi Singh Marwah, Senior VP at Super Plastronics had earlier told FE that a concessional corporate tax rate will
