Notes to standalone financial results (cont'd):

- 7 The Company's financial results have, historically, been subject to seasonal trend. The Company sees a higher volume of book sales during the months of January, February and March because academic sessions start from the month of April. Ongoing revenue also demonstrate signs of seasonality, with revenue generally lower during other quarters, which are not close to the beginning of academic session. These trends are likely to continue in the future.
- 8 During the current period, the Company has granted 11,834 equity shares under the Company's Employee Stock Option Schemes. Further, 61,000 shares have been exercised by the employees during the period.
- 9 The National Curriculum Framework for School Education (NCF-SF) was released by the Hon'ble Union Minister of Education, Skill Development and Entrepreneurship in August, 2023. This is the first ever integrated Curriculum Framework for children between ages 3-18 years in India. It is a direct outcome of the 5+3+3+4 curricular and pedagogical structure that National Education Policy (NEP) 2020 has come out with for School Education. This is in follow-up to the NCF of the Foundational Stage (NCF-FS) which was released in October 2022. The management believes that since the New Curriculum has been announced after a gap of 18 years, it would substantially reduce the second-hand book market, and which would spur strong volume growth.
- 10 The half year and year ended financial results are available on the Company's website www.schandgroup.com and on the website of BSE Limited (www.bseindia.com) and The National Stock Exchange of India Limited (www.nseindia.com)

It is a direct outcome of the 5+3+3+4 curricular and pedagogical structure that National Education Policy (NEP) 2020 has come out with for School Education. This is in follow-up to the NCF of the Foundational Stage (NCF-FS) which was released in October 2022. The management believes that since the New Curriculum has been announced after a gap of 18 years, it would substantially reduce the second-hand book market, and which would spur strong volume growth.
