PRESS RELEASE

KPTL SELECTED AS ONE OF THE PREFERRED PROPONENTS TO DELIVER THE HUMELINK TRANSMISSION PROJECT IN AUSTRALIA

- *HumeLink is a 500 kV new transmission line project proposed by Australia's Transgrid with a 360km route divided into two sections (east and west)*
- *KPTL with Acciona and Genus Plus preferred proponent to deliver the eastern section of HumeLink's transmission line*

Mumbai | Thursday, 02 March 2023: Kalpataru Power Transmission Limited (KPTL), one of the largest specialized EPC companies, today announced that it has been selected with Acciona Construction Australia Pty Ltd and Genus Plus Group Ltd, as the Preferred Proponent to deliver Transgrid's HumeLink (East) transmission line project in Australia. The value of the project will be determined post conclusion of Early Contractor Involvement (ECI) Stage 2 process.

HumeLink involves the construction of an approximately 356km transmission line in New South Wales, Australia. HumeLink's construction has been split into two sections (east and west) and involves new transmission lines and new or upgraded infrastructure at four substation locations. KPTL along with Acciona Construction Australia Pty Ltd and Genus Plus Group Ltd will work in a Joint Venture arrangement to deliver the eastern section of the HumeLink project. HumeLink is a nation-critical transmission project, which will help secure supply for millions of Australians as ageing coal-fired power stations are retired.

Manish Mohnot, MD & CEO, KPTL, said, "We are excited and proud to be working for Transgrid along with Acciona and Genus on this project that will help Australia move towards a cleaner energy future. The HumeLink project will play a big role in Australia's vision to achieve net zero emissions. We are confident in our EPC abilities, especially our global project delivery expertise and design and engineering abilities, to construct and deliver this landmark project in Australia".

KALPA-TARU[®]

POWER TRANSMISSION LIMITED

Sanjay Dalmia, Executive Director, KPTL said “We have deep expertise in managing large, complex EPC projects. Our global expertise has allowed us to expand our horizons from Chile in the Far West to Australia in the Far East. KPTL together with Acciona Construction Australia Pty Ltd and Genus Plus Group Ltd are well positioned to help Transgrid deliver the HumeLink project successfully.”

About Kalpataru Power Transmission Limited (KPTL)

KPTL is one of the largest specialized EPC companies engaged in Power Transmission & Distribution, Buildings & Factories, Water Supply & Irrigation, Railways, Oil & Gas Pipelines, Urban Mobility (Flyovers & Metro Rail), Highways and Airports.
