POTENTIAL BUSINESS LOSS OF 1 MN UNITS Supply crunch hurts April-June AC sales

VIVEAT SUSAN PINTO
Mumbai, June 24

KAMAL NANDI,
Executive VP, Godrej Appliances

THE AC MARKET COULD HAVE REACHED 7 MILLION UNITS, BUT COMPONENT SHORTAGES HAVE RESULTED IN A SALES LOSS OF 17-20%

SATISH NS,
President, Haier Appliances India

WE'VE HAD TO AIRLIFT COMPONENTS TO MEET DEMAND DURING THE PEAK SUMMER MONTHS OF MAY-JUNE

HEATWAVE CONDITIONS HAVE led to record air conditioner sales of six million units in the April-June period, reflecting a year-on-year (y-o-y) growth of 50%, according to the Consumer Electronics and Appliances Manufacturers Association (CEAMA). However, there is another side to the story.

Companies like Godrej Appliances, Haier and Super Plastronics, which produces Thomson air conditioners and air coolers, said there has been a potential loss in business of about one million units in the June quarter due to a demand-supply mismatch caused by the "unprecedented heatwave".

"The domestic AC market could have reached seven million units in sales in the June quarter this year, but inventory shortfalls and component shortages have resulted in a sales loss of about 17-20%," said Kamal Nandi, business head and executive vice-president of Godrej Appliances.

Air conditioners are typically assembled using parts sourced both domestically and from international markets

like China. Essential raw materials such as copper and components like printed circuit boards and outdoor units are directly imported from China, according to market experts.

Suppliers, says Satish NS, president, Haier Appliances India, require a 90-day lead time to provide components, implying that orders to them have to go out by November-December to catch the summer cycle of March-June.

"No one anticipated this kind of heatwave this year. It has been unprecedented. First, the south markets saw a sharp rise in demand, then the east market began firing. Now, it is the north and west

markets, where heatwave conditions prevail. We've had to airlift components to meet demand during the peak summer months of May-June. Even then, there has been a shortfall in terms of demand and supply," Satish said.

Avneet Singh Marwah, director & CEO, Super Plastronics, said the company is facing a 30% backlog in terms of orders. "We are doing our best in terms of meeting the order backlog. But suppliers are finding it difficult to provide components. Most expected a normal business cycle. But demand has been strong due to the heat wave," Marwah said.

Airtel eyes majority stake in Indus Towers

FE BUREAU
New Delhi, June 24

BHARTI AIRTEL IS in talks with Vodafone to acquire an additional 3% stake in Indus Towers, the country's largest mobile tower firm, *CNBC-TV18* reported on Monday, citing sources.

If the deal materialises, Airtel will have a controlling stake of 52% in Indus.

STAKE STORY

■ Bharti Airtel in talks to acquire an additional 3% stake in Indus Tower

■ Last week, Vodafone sold 18% stake in Indus Towers in block deals

Last week, Vodafone sold 18% stake in Indus Towers in block deals for nearly ₹15,300

crore. After the block deals, Vodafone has a 3.1% stake in Indus Towers.

Airtel bought an additional 1% stake in Indus Towers during the block deal, increasing its holding in the tower company close to 49%.

Airtel is also looking to merge its high-growth data centre business, Nxtra with Indus Towers as part of its mega plan—a two-pronged strategy to consolidate its business, according to the *CNBC-TV18* report.

Indus Towers has indicated that Vodafone's total outstanding dues are nearly ₹5,400 crore. The report said Vodafone will use a significant portion of the deal's proceeds to pay these dues.

Airtel's merger plan would also provide an exit to US-based private equity firm Carlyle, which owns a 24% stake in Nxtra. Carlyle had acquired this stake in 2020.

Paytm sees 19% growth in flight bookings in Q4

FE BUREAU
Mumbai, June 24

PAYTM PARENT ONE97 Communications has seen a 19% year-on-year (y-o-y) growth in flight bookings in the January-March quarter, significantly outpacing the industry growth rate of around 3%. Its ticketing business operates on the Paytm Travel platform.

Paytm was the second largest online travel aggregator (OTA) in train bookings in Q4FY24, enhancing customer experience with new features like guaranteed seat assistance, and easy tatkal, the company said in an exchange filing on Monday.

The growth in Paytm's travel segment has been driven by

PAYTM

Intra-day (₹), June 24

partnerships and travel solutions. The company has collaborated with various global travel aggregators, including Skyscanner, Google Flights and Wego.

"This growth is further underscored by a 15% y-o-y rise in international ticket bookings in April, showcasing Paytm Travel as the preferred destination for competitive prices and seamless services in travel bookings," the filing noted.

Paytm's travel ticket business falls within the marketing services vertical, which rose 1% y-o-y to ₹395 crore in the March quarter. The marketing services segment includes ticketing, advertising, credit card marketing, and deals and gift vouchers.

The gross merchandise value for ticketing, deals, and gift vouchers rose 28% y-o-y to ₹2,804 crore, driven by an increase in market share in travel and higher volumes in the events business.

MapmyIndia launches data analytics firm

DIGITAL MAPPING FIRM MapmyIndia on Monday launched ClarityX, an AI-driven data analytics and consulting company, to enhance its enterprise offerings and expand its market reach.

ClarityX will provide clients customer-centric AI-driven data analytics and consulting services. The company leverages multi-dimensional static and real-time data to offer immediate strategic insights.

Rakesh Verma, founder of ClarityX, said, "The world today is driven by data. ClarityX leverages AI and human intelligence

to offer tailor-made actionable insights to enterprise customers across industries. This partnership will enable MapmyIndia to deliver more value-added analytics and consulting solutions, opening up growth opportunities."

For example, a green mobility company used ClarityX's insights to identify prime locations for charging stations, optimising urban hotspots and highway sites. Similarly, a financial services client identified optimal ATM locations using ClarityX's micro-market models.
