26. ECONOMIC SCENARIO AND OUTLOOK

Indian economy followed a path of recovery registering growth in the Financial Year 2018-19. The prospect for economic growth became buoyant with the agrarian and rural economy benefiting from

a good monsoon after two successive rain deficient years. The growth was affected in a few months during the year by the impact of the demonetization scheme. The financial year is expected to end with GDP growth is estimated to have a rise.

The second half of the financial year 2018-19 closed as a momentous year for the country marked by landmark economic reforms even as the global economic scenario was indifferent. That is the Goods and Services Tax (GST), a single tax intended to replace the existing Central and State indirect taxes and the e-way Bill.

The outlook for the current financial year 2018-19 brightens as liquidity in the economy moves towards normalization, with expectations for early revival and growth in overall consumption across several sectors including Steel Pipe Industry.

The Union Budget for 2018-19 was welcomed for its thrust on the rural sector, infrastructure development, housing and a boost to the overall investment climate. If 2018-19 also experiences a normal monsoon, GDP growth is likely to rebound in the current financial year. Better liquidity and improved tax collections will enhance government's ability to spend on infrastructure and other development projects, leading to faster growth.

27. STAINLESS STEEL PIPES INDUSTRY - OUTLOOK AND OPPORTUNITIES

Consistent with the positive outlook for the Indian economy, we foresee a similar revival in demand for pipes. Signs of increased demand activity have been witnessed in industrial and commercial segments. The critical challenges before your Company in 2019 would include the following:

- •To pursue a judicious value-cum-volume strategy so as to maximize utilization of existing capacity including the additional capacity from the newly expanded Jamul plant.
- •To continue to step up the sale of value creating Premium products.
- •To further streamline channel management and strengthen marketing activities in a manner that leverages the Company's brand equity.
- •To continue promotion and facilitation of cashless transactions in the retail network with a view to ensure uninterrupted retail off takes.

We have audited the internal financial controls over financial reporting of M/s. Tamil Nadu Steel Tubes Limited ("the Company") as of 31st March 2019 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial

statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

These financial statements have been prepared in accordance with the Indian Accounting Standards (**hereinafter referred to as in 'Ind AS'**) as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting standard Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016

These financial statements for the year ended 31st March, 2019 are prepared under Ind AS. For all periods up to and including the year ended 31st March, 2017, the Company prepared its financial statements under historical cost convention in accordance with the generally accepted Accounting Principles in India and the provision of the Companies Act, 2013 read with Section 133 of the Companies Act 2013, read with Rule 7 of the Companies (Accounts) rules 2014, till the standards of accounting or any addendum thereto are prescribed by Central Government in consultation with recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under Companies Act, 1956 shall continue to apply in all the material aspects with the accounting standards notified under Section 211(3C) (Companies (Accounting Standards) Rules, 2016, as amended) and other relevant provisions of the Companies Act, 2013 immediately before adopting Ind AS. The financial statements for the year ended 31st March, 2017 and the opening Balance Sheet as at 1st April, 2016 have been restated in accordance with Ind AS for comparative information.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at 1st April, 2016 being the 'date of transition to Ind AS'. All assets and liabilities have been classified as Current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. These financial statements are prepared under the historical cost convention unless otherwise indicated.

2.2 KEY ACCOUNTING ESTIMATES AND JUDGEMENTS:

The preparation of financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reported period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

2.3 SIGNIFICANT ACCOUNTING POLICIES

(a) Property, Plant and Equipment:

Property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred.

Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss. Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Depreciation is provided on a pro-rata basis on the straight line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013.

Freehold land is not depreciated.

(b) Inventories:

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Work in progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity.

Scrap is valued at net realizable value.

Net realizable value is estimated at selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

(c) Cash & Cash Equivalents:

Cash and cash equivalents are short-term (three months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

(d) Assets held for sale:

Non-current assets or disposal groups comprising of assets and liabilities are classified as 'held for sale' when all of the following criteria's are met:

Decision has been made to sell.

The assets are available for immediate sale in its present condition.

the assets are being actively marketed and

Sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

Subsequently, such non-current assets and disposal groups classified as held for sale are measured at the lower of its carrying value and fair value less costs to sell. Non-current assets held for sale are not depreciated or amortized.

(e) Financial Instruments:

Financial Assets:

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is recognized at fair value, in case of financial assets which are recognized at fair value through profit and loss (FVTPL), their transaction costs are recognized in the statement of profit and loss. In other cases, the transaction costs are attributed to the acquisition value of the financial asset.

Financial assets are subsequently classified as measured at

- amortized cost
- Fair value through profit and loss (FVTPL)
- Fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade Receivables and Loans:

Trade receivables are initially recognized at fair value. Subsequently, these assets are held at amortized cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Equity Instruments:

All investments in equity instruments classified under financial assets are initially measured at fair value; the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. A fair value change on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

Impairment of Financial Asset

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category. For financial assets other than trade receivables, as per Ind AS 109, the Company recognizes 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall. The impairment losses and reversals are recognised in Statement of Profit and Loss.

Financial Liabilities:**Initial recognition and measurement**

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss is measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

(f) Provisions and Contingent Liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

(g) Revenue Recognition:

Revenue from sale of goods is recognised when all the significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract, there is no continuing managerial involvement with the goods and the amount of revenue can be measured reliably. The Company retains no effective control of the goods transferred to a degree usually associated with ownership and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as sales tax, value added tax, etc.

Revenue from sale of products manufactured, sale of products traded and sale or supply of services is recognized when practically all obligations connected with the transaction risks and rights to the buyer have been fulfilled. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as sales tax, value added tax, GST etc.

Interest income is recognized using the effective interest rate (EIR) method.

Dividend income on investments is recognised when the right to receive dividend is established.

(h) Expenditure:

Expenses are accounted on accrual basis

(i) Employee Benefits:

a. Defined Contribution Plans:

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees

b. Defined Benefit Plans:

In respect of Gratuity, the Company offers a non-contributory defined benefit plan to its Employees. The liability for the same, as at the year end, is provided for on the basis of Actuarial Valuation.

Liability for Leave Encashment is provided for as and when the entitlement is ascertained

(j) Impairment of Non-Financial Assets:

Assessment for impairment is done at each Balance Sheet date as to whether there is any indication that a non-financial asset may be impaired. Indefinite life intangibles are subject to a review for impairment annually or more frequently if events or circumstances indicate that it is necessary.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognising the impairment loss as an expense in the Statement of Profit and Loss.

(k) Income Taxes:

Income tax expense for the year comprises of current tax and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent it relates to a business combination or to an item which is recognized directly in equity or in other comprehensive income.

Provision for current tax is made after taking into consideration benefits admissible under the provisions of Income Tax Act, 1961.

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

(l) Leases:

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee.

(m) Earning Per Share:

The basic earning per equity share is computed by dividing the net profit or loss for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the reported period. The number of shares used in computed diluted earnings per share and also the weighted average number of shares considered for deriving basic earnings per share which may be issued on the conversion of all dilutive potential shares, unless the results would be anti-dilutive.

n) Excise Duty / Goods & Services Tax:

Excise Duty / GST is accounted on the basis of both, payments made in respect of goods cleared/ services provided as also provision made for goods lying in bonded warehouse if there is Goods & Service Tax is charged to Profit & Loss Account.

o) Segment Reporting:

The accounting policies adopted for the segment reporting are in line with the accounting polices stipulated. The Company primarily operates in single business segment which is Steel Tubes (Black, GI Pipes & Stainless Steel Pipes), and accordingly there is no primary segments to be reported as per Accounting Standard 17 "Segment Reporting".

p) The Company has been declared by the Board for Industrial & Financial Reconstruction as a "Sick" industrial company within the meaning of Sec 3(1)(o) of Sick Industrial Companies (Special Provisions) Act 1985, but during the year the net worth is in positive. Hence the company ceased to be Sick Industrial Company.
