Sub: NFL records ever best Urea Production in third quarter.

Dear Sir,

We have to inform you that, surpassing the previous records, National Fertilizers Limited (NFL) has achieved ever highest production of 9.99 Lakh MT Urea in the third quarter during FY 2020-21. The company successfully maintained its operations during constraints posed by CoVID 19.

The plants at Nangal and Panipat achieved their ever best Urea production during Oct-Dec, 2020. The Nangal Plant while increasing production levels at Plant also achieved ever lowest quarterly energy of 6.602 GCal/MT Urea against previous best of 6.615 GCal/MT Urea.

The company through meticulous planning worked past the disruptions caused by CoVID and 'Rail Roko' agitation in Punjab & Haryana.

NFL has been increasing its non-Urea business also. In Q3, NFL produced ever highest quantity of 4981 MT of Bentonite Sulphur at its Panipat Plant.

The company has also undertaken a number of energy saving schemes. Owing to restrictions in international movement, part of energy saving projects at Vijapur were commissioned through remote advisory from Japan; a unique achievement.

NFL is a major contributor to the indigenous supply of fertilizers and a key player in the food supply chain of the country.

This is for your information and record.

Thanking You,

**Yours faithfully,
For National Fertilizers Limited**

**(Ashok Jha)
Company Secretary**
