Item No. 15: Special Resolution, for issue of Non-Convertible Debentures, of the Company, on private placement basis.

To fund its existing and new business ventures including healthcare and telemedicine through its proprietary Dhani Technology Platform and for its e-Commerce business through 'Dhani App', the Company may be required to borrow funds from different sources including by way of issuance of Non-Convertible Debentures ("NCDs") and Bonds (issuance of NCDs and/or Bonds shall not be in the nature of equity shares).

NCDs represent a very cost-effective source of funding and a reliable means of diversification of funding sources. A diversified funding profile affords the Company multiple avenues of borrowing which from a cost and liquidity perspective are often complementary to one another enabling the company to run a cost effective and efficient funding programme. NCDs and Bonds provide access to the widest set of investors and thus the deepest pools of funding. NCDs can be raised from domestic debt investors such as mutual funds, insurance companies, pension and provident funds, banks; Domestic retail NCDs can be raised from regular individuals and also High Net worth Individuals [HNI's].

During the last few years, the banking sector regulator RBI and capital market regulator SEBI have taken concerted efforts to increase the breadth and depth of Indian debentures and securities market and reduce the marked overreliance on banks to fund debt. Higher risk weights and provisioning requirements are now attached to bank loans, beyond a set threshold, to large corporates, effectively increasing their cost. Larger corporates are thus increasingly meeting their funding requirements from the bond market.

Pursuant to and in terms of the provisions of Section 42 of the Companies Act, 2013 read with the Rule 14(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014, the Board of Directors of the Company, subject to
