It includes a calendar icon, the text 'Wednesday, July 01, 2020', and a clock icon, the text '1600 to 1800 hrs IST'.

Hello Investor,

As the world adapts to the new normal, the shift to digital has now accelerated. Telcos, Cloud companies, Governments and Enterprises are committing billions of dollars with an extreme sense of urgency to install and upgrade their networks in the shortest period of time.

STL has 25 years of experience in optical connectivity; ten years in integrating some of the most complex large scale projects, and is innovating with latest developments in virtualised access solutions for 5G and FTTx. These position us uniquely to be the designer and integrator of digital networks of the future.

STLescope '20 is a virtual investor meet that discusses and shares STL's strategic and financial priorities for FY 21-23, taking you into the future with our vision for 2023.

Digital Infrastructure is now a basic necessity. As Microsoft recently stated, broadband is becoming the electricity of the twenty-first century — we couldn't have agreed more. Come join us for an engaging discussion on our roadmap to building the digital networks of the future.

We look forward to meeting you at the virtual event.
