**Clarification Regarding Company Name Appearing in the News Articles of Moneycontrol.Com on 09.03.2024 and subsequently on 11.03.2024**

**New Delhi, 14<sup>th</sup> March 2024:** Salasar Techno Engineering Ltd. (“Salasar” or “The Company”), is a one stop engineering and infrastructure solutions provider. The Company is engaged in providing turnkey EPC services for Railway and Power sectors and is also engaged in designing and manufacturing of telecom towers, Monopoles and other Heavy Steel Structures.

- Salasar clarifies that there are no connections between the entity “M/s Ecotek General Trading LLC” and the Company and/or its promoters, as published in the news articles of moneycontrol.com on 09.03.2024, other than the entity being a shareholder of The Company.
- The Company complies with all disclosure requirements and necessary regulatory compliances applicable to it as a listed entity. Further, the company does not exercise any control over the business/private transactions of its shareholders.
- The company reaffirms that its business operations at all of its plants and various project sites are unaffected and the operations are running smooth.

**About Salasar Techno Engineering Limited (Salasar)**

Incorporated in 2006, Salasar Techno is a provider of customized steel fabrication & infrastructure solutions in India. It provides 360-degree solutions by carrying out engineering, designing, fabrication, galvanization and deployment. Salasar Techno’s product portfolio includes telecommunication towers, power transmission line towers, smart lighting poles, utility poles, high mast poles, stadium lighting poles, monopoles, substation structures, solar module mounting structures, railway electrification (OHE), Road & Railway Over-Bridges (ROB) and customised galvanized & non-galvanized steel structures. Salasar Techno’s services include providing complete Engineering, Procurement & Control (EPC) for projects such as rural electrification, power transmission lines and solar power plants. The Company is among the leading manufacturers with the current installed capacity of 2,11,000 MTPA having supplied, 50,000+ Telecom Towers, ~746 km of Power Transmission Lines, ~629 km Railway Track, to 600+ clients in 25+ Countries.
