75 vears of Indian independence

I ndia's Independence Day is significant as it stands as a reminder of the sacrifices that many freedom fighters made to get independence from British rule. India will be celebrating its 75th Independence Day on August 15, 2021, with the usual pride to mark its freedom from British rule. The Indian Independence movement began during World War I and was led by Mohandas Karamchand Gandhi. On August 15, 1947, India got its freedom, ending an almost 200-year British rule. When we look back, we can see that, as independent nation, we have not achieved much when we think about democratic values and morality. There is criminalization of politics, corruption in every field of life and criminals are not being punished. We are world's largest democracies and we have lost moral values in politics. In earlier years, there was morality in politics but later politics has become money and mussle power. No poor man can enter into politics and can't win et al. In 75 years, we have seen many times governments have misused power. Indira Gandhi imposed emergency in 1975 which was the worst period of our democracy in which opposition leaders were confined to jails without enquiry for indefinite period. The people of this country have always been stood against such drastic misuse of power and whenever democracy comes danger. Indira Gandhi was defeated in elections after the emergency. This shows our democratic values are robust but they come to the fore in exceptional times. Today, Modi government is being always accused of misusing ED or CBI like investigative agencies to suppress the voice of opposition. But, Congress has no moral right to accuse Modi of dictatorship as Indira Gandhi was biggest dictator and danger to democracy. But, this does not mean that, Modi government is doing right thing. It is misusing central agencies to teach a lesson to opposition parties which is not fair. But, Congress had done the same in the past and Modi himself was targeted by CBI during Congress regime. When we take a bird view of our 75 years, we can see that, in the case of technological development, we have made big strides. As a means of digital transactions, we can transfer money to any place on the earth in a second. The direct transfer scheme has ended the corruption of middlemen for which we must thankful to Modi. With the increase in digital transactions, the corruption level came down to much extent. But, all the progress done in these 75 years have been washed away by two years of Corona virus. The virus has created havoc in the country with lakhs of people lost their lives. The damage to the economy beyond imagination and the effects of the pandemic have left lakhs of people jobless. Many people have work in half salary and the graph of unemployment has raised to new high. Economic progress has been out by Corona virus and the nation has to start afresh. In the last 75 years, no crisis has hit so hard to country than Corona virus. Even two world wars have not caused such a massive damage to the mankind than the Corona virus. The world has lost all its energy and spirit in fighting against this invisible enemy. India has been hit hardest by the pandemic which caused thousands of migratory workers returning to villages on foot. In these two years, all that happened that had not occurred in 75 years. India is facing extraordinary crisis now and nobody knows where this will end. India is sitting on volcano of third wave of Corona now. Whatever we have achieved has

been lost in only two years.
