## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

### **OVERVIEW & OUTLOOK**

COVID-19 has led to a great deal of turbulence and uncertainty for economies around the world. Global Economic activity which had begun to recover on the back of supportive fiscal and monetary policy, strong vaccination efforts and reduced COVID-19 infections now faces renewed headwinds from escalating geo-political tensions in Eastern Europe, a sharp increase in global commodity prices, logistical challenges, mounting interest rates and sky-rocketing inflation. Global growth is projected to slow down from an estimated 6.1% in 2021 to 3.6% in 2022 and 2023. [Source: IMF]

### **THE INDIAN TEXTILE INDUSTRY AND OUTLOOK**

India is one of the world's leading manufacturers of textiles and the 6th largest exporter of textiles and apparels in the world [Source: Ministry of Textiles Annual Report 21-22].

The Textile Industry in India has several distinct advantages: abundant availability of raw materials, availability of skilled manpower at a competitive rate, and a flourishing and diverse domestic market that is being aided by rapid urbanization and increasing per capita income.

Furthermore, the Indian Textile Industry has manufacturing strength across the value chain – right from fibre manufacturing to the production of garments – which allows for robust synergies that lead to cost efficiencies across the value chain. Unfortunately, however, the highly fragmented nature of the industry does not allow the industry to exploit the benefits of this established manufacturing value chain to the extent that is possible in competing countries.

### **OPPORTUNITIES**

The Corona Virus pandemic has led to severe disruptions throughout the textile value chain, however, this pandemic also presented the industry with an opportunity to become a viable sourcing alternative to China as customers around the world look to diversify and reduce their dependence on China. The Government's renewed focus on “Make in India”, the “Atma Nirbhar Bharat (or Self-Reliant India)” campaign and the Production Linked Incentive (PLI) Scheme for the Textile Sector with a focus on Man-Made Fibre (MMF) and Technical Textiles, all promise to provide impetus to the industry in its effort to further strengthen its value chain and emerge as a top sourcing destination for customers around the world.

Furthermore, the recently announced Free Trade Agreements (FTA) with Australia and UAE will be extremely advantageous for Indian Textile Exporters, who have been at a disadvantage to competing, neighbouring countries that enjoy lower duties on their exports to the major importing countries around the world.

Finally, your Company's continued focus on exports and its established, long-term relationships with customers around the globe will be advantageous as the world pivots to the “China +1” sourcing strategy and as the FTA agreements come into effect. Additionally, your Company's strategic foray into textiles also promises to bear fruit in the near future.

### **THREATS, RISKS AND CONCERNS**

Geo-political tensions, escalating commodity prices, increasing inflation, higher interest rates, currency volatility, raw material fluctuations and increased competition from countries like Vietnam and Bangladesh may have some impact on the industry in the near term.

Furthermore, The Textile Industry is extremely labour intensive. The availability of labour continues to be challenging for the industry, across the value chain. Furthermore, rigid labour laws and increasing wages are also a hindrance.

Finally, the cost of power is another vital component and accounts for 15%-20% of the overall production cost in textile spinning. Higher Industrial Power Tariff Rates in your company's geography of operation is an area that needs to be addressed. In an effort to insulate the Company from fluctuations in the aforementioned Industrial Power Tariff Rates, reduce the Company's carbon footprint and reduce overall operational costs, the Company has begun to install Solar Panels on the rooftops of our manufacturing units in Udaipur. The first 3.4 MW of solar capacity has been successfully commissioned and is operating satisfactorily. We endeavour to strategically scale this capacity up to 5MW.

### **SEGMENT-WISE AND PRODUCT-WISE PERFORMANCE**

The Company's primary business segment is Yarn, hence there is no other segment-wise information provided. The Company has no activity outside India except the Export of the Yarn manufactured in India.

(Rs. in Lakh)

Revenue from Operations	2021-22	2020-21

Domestic	9,951.92	10,559.32
Total	34,742.77	24,883.97

#### INTERNAL CONTROL SYSTEMS AND ADEQUACY

The Company has put in place an adequate system of internal control commensurate with its size and nature of business to safeguard and protect from loss, unauthorized use or disposition of its assets. All the transactions are properly authorized, recorded and reported to the Management. The Company is following all the applicable Accounting Standards for properly maintaining the books of accounts and reporting financial statements. The internal auditor of the Company checks and verifies the internal control system and monitors them in accordance with the policy adopted by the Company. We believe that our internal financial control system provides reasonable assurance that our internal financial control is designed effectively and is operating as intended.

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Standalone Report 2021-22. Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the Standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management for the Standalone Ind AS Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with [the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in

order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The fair value of financial assets and liabilities are included at the amount at which instruments could be exchanged in a current transaction between the willing parties. The following methods and assumptions were used to estimate the fair value:

- (A) The Company has opted to fair value its unquoted equity instruments at its Net Asset Value through Retained Earnings.
- (B) The fair values of cash and cash equivalents, other bank balances, trade receivables, loans, other financial assets, short term borrowings, trade payables, and other financial liabilities approximates their carrying amounts largely due to the short-term maturities of these instruments. Company has adopted Effective Interest Rate Method (EIR) for fair valuation of long term borrowings.

**Fair Value Hierarchy**

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

**Financial Instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**1 Financial Assets**

**(a) Initial Recognition and Measurement**

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and liabilities, which are not fair value through profit and loss, are adjusted to the fair value on initial recognition.

**(b) Subsequent Measurement**

Financial Assets other than Equity Instruments

**(i) Financial Assets carried at Amortised cost:**

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal outstanding. Interest income from these financial assets is included in other income using the effective rate interest ("EIR") method.

**(ii) Financial Assets at Fair value through Other Comprehensive Income (FVTOCI):**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on principal outstanding. They are subsequently measured at each reporting date at fair value, with all fair value movements recognised in Other Comprehensive Income (OCI). On de-recognition of the asset, cumulative gain or loss previously recognised in Other Comprehensive Income is reclassified from the OCI to the Statement of Profit and Loss.

**(iii) Financial Asset at Fair Value through Profit or Loss (FVTPL):**

A financial asset which is not classified in any of the above categories are subsequently fair value through profit and loss.

**Equity Instruments**

All equity investments are measured at fair value. Equity Instruments, which are held for trading are classified as Fair value through Profit or Loss. For equity investments other than held for trading, the Company has exercised irrevocable option to recognise fair value changes in 'Other Comprehensive Income' (OCI). The Company makes such election on an instrument-by-instrument basis for those investments which are strategic and are not intended for sale. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. Gain/(Loss) on sale of such investment are transferred from OCI to Retained Earnings.

**(c) Derecognition of Financial Instruments**

The Company derecognizes financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109.

**(d) Impairment of Financial Assets**

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company determines expected credit losses after taking into account the past history of recovery, risk of default of the counterparty, existing market conditions, etc. The impairment methodology is applied on individual customer basis and depends on whether there has been a significant increase in the credit risk since initial recognition.

**2 Financial Liabilities**

**(a) Recognition and Initial Measurement:**

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

**(b) Subsequent Measurement:**

Financial liabilities are measured subsequently at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognised in the Statement of Profit and Loss.

**(c) Derecognition:**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired.

**3 Offsetting Financial Instruments:**

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously

- 4 The Company enters into derivative financial instruments viz. foreign exchange forward contracts and interest rate swaps and to manage its exposure to interest rate and foreign exchange rate risks. Derivatives are initially recognized at fair value on the date when the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in the Statement of Profit and Loss immediately.
