Dear Sir(s),

Hindustan Petroleum Corporation Limited (HPCL) has successfully implemented the ERP Modernisation Project effective July 2023. This project is one of the biggest and complex brownfield implementation of S/4 HANA in the global oil and gas industry which was completed in a record time.

The implementation of this project exhibits the vision of HPCL to offer a strong platform from which innovations and enhancements can more easily be delivered to customers and employees.

The new ERP SAP S/4HANA will help HPCL to integrate better with modern applications and systems, leverage the data for analytics and thereby driving the decisions towards optimized and efficient business processes. It helps HPCL re-define business processes, optimize operations, enhance effectiveness, and scale up supply chain management to higher level.

This is for your information and records.

Thanking you,

Very truly yours,

V. Murali
Company Secretary
