Vice Chairman and Managing Director of the Company, Mr Anil Jain said:

“We are pleased to share with you the results of the first quarter of financial year 2022-23. There is a good growth in revenue in each Division and the consolidated revenue has crossed ₹ 20 billion, up by 14.9% yoy. The year has started on a good note. Interestingly, the overseas businesses have outpaced the India business, both in Agro Products Division and Agri Inputs Division. The margin of the Plastic Division has been impacted due the adverse raw material prices in highly inflationary environment. However, the overall margin of the Company is maintained and we are especially pleased, given the fact this was the first quarter post Debt Resolution.

We are conscious of, and our efforts are channelized to navigate inflation and uncertainty on external front softly. While the Divisions are working hard to cater to the demand and to service the opportunities in a sustainable manner, the focus on margin and working capital would continue to be of vital importance.”
