Dynamatic Technologies Limited completes the first F-15 former assembly for Boeing

- First Made in India aero-structure for F-15

Bengaluru, October 20, 2022 – Dynamatic Technologies Limited has completed the first F-15 former assemblies for Boeing.

This is the first aero-structure, for the latest and most advanced F-15 manufactured in India, a significant milestone for the Indian aerospace and defence industry. This is enabled by innovation and forward-thinking processes, the newest version of the legendary F-15 fighter incorporates the most advanced systems available globally, including next-generation design and technology built on a digital thread.

Udayant Malhoutra, CEO & Managing Director, Dynamatic Technologies Limited and Salil Gupte, President, Boeing India at DefExpo 2022

“The collaboration between Boeing and Dynamatic to transfer technical & artisanal skills for complex assemblies is an example of Deep Industrialisation: 100% of the components are indigenously developed by us in addition to final assembly. We are proud to support Boeing’s iconic P8, Chinook, and F15 EX programs internationally.” said **Udayant Malhoutra, CEO & Managing Director, Dynamatic Technologies Limited**, “Make in India for the World.”

Dynamatic has been associated closely with Boeing as a strategic supplier partner for over a decade now. In September 2021, Boeing awarded the contract for manufacturing assemblies for the F-15 to Dynamatic Technologies.

“The completion of the first made in India aero-structure by Dynamatic Technologies for the F-15 marks a significant milestone in the effort we have put in over the years to help build a strong foundation of indigenous manufacturing capabilities. It is through the scaling up and maturation of our industrial partners’ capabilities and capacity that will support India’s aspiration to become Aatmanirbhar in aerospace and defence,” said **Salil Gupte, President, Boeing India.**

About Dynamatic Technologies Limited

Dynamatic Technologies Limited, a \$168 million company, designs and builds highly engineered products for Aerospace, Hydraulic, Metallurgy and Security applications at its state-of-the-art design, engineering and manufacturing facilities in Europe and India. Dynamatic is a demonstrated leader for the development of exacting Airframe Structures and Precision Aerospace Components and partners Agencies of National Importance as well as Global Aerospace Majors.
