IT services to remain significant part of job environment: TCS CEO

PRESS TRUST OF INDIA
New Delhi, September 6

IT SERVICES WILL remain a significant part of the job environment in India as the demand for talent and services continues to grow in the country, according to Tata Consultancy Services CEO and MD Rajesh Gopinathan.

He emphasised the need for experienced IT professionals to embrace automation and other new technologies to remain competitive even as youngsters, who could be native to these new tools, enter the workforce.

"...in absolute terms, Indian IT's employment potential will continue to be quite strong and will relatively keep growing in pace with where we see the opportunity. The relative ratio of IT to other industries is a factor of what happens in the larger economic scenario... in the foreseeable future, IT services will remain very attractive and a significant part of the job environment in India," Gopinathan said in a webinar on LinkedIn.

He added that this is on account of the demand for talent and services, which is "only going to explode given the role that technology is playing today and in future".

There have been concerns of layoffs in the IT sector, which

Rajesh Gopinathan

hires thousands of graduates every year, as automation increases. With COVID-19 pandemic impacting businesses globally, there were concerns about hiring and job opportunities in the sector as companies froze and even laid off employees.

Gopinathan said the youngsters coming into workforce are native to many of the technologies that are leading the disruption and learn about the tools "by default" because that is the environment they are coming into.

"My bigger message is to the ones who have got more experience, the ones with 10-15 years' experience. They also need to embrace it rather than being worried about it. And they need to invest in their knowledge and upgrade their skills in terms of the tool usage," he said.

₹1,000 crore over the next two years to set up milk processing plants, and another ₹500 crore on facilities for new products like edible oil, MD RS Sodhi said.

In an interview with PTI, Sodhi said GCMMF expects 12-15% growth in revenue in current fiscal year from ₹38,550 crore during the last fiscal year despite COVID-19 pandemic, as demand for branded food products has increased.

"We will invest around ₹1,000 crore in the next two years on setting up dairy plants across various states," Sodhi said. He said the processing capacity would increase to 420 lakh litre per day from 380 lakh litre per day at present.

On new businesses, Sodhi said the cooperative has started manufacturing sweets as well as bakery items using dairy fats. Besides, GCMMF has forayed into edible oil and potato processing segments as part of its objective to boost income of farmers from Gujarat and other states.

Edible oils will be marketed under the new brand 'Janmay'. It will produce groundnut oil, cottonseed oil, sunflower oil, mustard oil and soybean oil.
