RESOLVED FURTHER THAT the Board of Directors (including Board Nomination and Remuneration Committee thereof) and/or the Company Secretary of the Company, be and is / are hereby authorised to do all such acts, deeds, matters and things, as they

may consider necessary, expedient or desirable for giving effect to the foregoing resolution.

12. To consider and if thought fit, to pass with or without modification(s), the following resolution as a Special Resolution for the alteration of the Articles of Association of the Company

RESOLVED THAT pursuant to the provisions of Section 14 and other applicable provisions, if any of the Companies Act, 2013, and the rules made thereunder (including any statutory modification(s) or re-enactment thereof for the time being in force), consent of the Members be and is hereby accorded for the amendment of the Articles of Association of the Company by way of deletion/addition of the following clauses of the Articles of Association in conformity with the Companies Act, 2013 and other applicable regulations:

- (a) Substituting existing Article no. 136 with respect to 'Directors liable to retire by rotation' with the following clause:

All Directors (other than independent Directors and the Debenture Director) shall be liable to retire by rotation in accordance with the provisions of the Act.

Provided that and to the extent permissible under the Act, the Managing Director, appointed as per Article 159 (b) or the Debenture Director nominated as per Article 145 (b) hereto shall not retire by rotation under this Article.

- (b) Re-numbering following Article no. 145 with respect to 'Appointment of Directors other than Nominee Director' as Article no. 145(a)

Subject to the approvals of the Members in General Meeting, any Director shall be appointed by the Board of Directors after taking into account the recommendations of the Company's board nomination and remuneration committee.

- (c) Insertion of following Article no. 145 (b) with respect to 'Appointment of Debenture Director'

Subject to applicable laws (including any approval of a government authority), all the debenture trustee(s) of the Company will be entitled to appoint 1 (one) nominee director on the Board of Directors of the Company (a 'Debenture Director') in accordance with the Companies Act, 2013, SEBI (Debenture Trustees) Regulations, 1993 and other applicable laws, terms and conditions of debenture trust deed, as amended and other documents relating to

the issue of debentures and in accordance with the timeline under applicable law in the event of:

- (a) two consecutive defaults in payment of interest to the debenture holders, or
(b) default in redemption of the debentures.

The debenture trustee(s), through mutual consent (as applicable), shall be entitled to remove from office any Debenture Director so appointed and to appoint another in his/her place or in case a Debenture Director so appointed, resigns or otherwise vacates his office, subject to applicable regulations.

The Debenture Director shall not be liable to retire by rotation nor required to hold any qualification shares. The Company shall subject to applicable laws (including any approval of an authority), appoint the Nominee Director on receiving a nomination notice from the Debenture Trustee and take such other action with regard to such appointment of the Nominee Director as mandated from time to time under applicable law.

Subject to applicable laws, the Debenture Director shall not be liable for any act or omission of the Company.

Fees, if any, payable to the Debenture Director, shall be decided by the Board of Directors, from time to time, within the limits as may prescribed by the Companies Act, 2013 and other applicable regulations.

RESOLVED FURTHER THAT the Board of Directors and/or the Company Secretary of the Company, be and is / are hereby authorised to do all such acts, deeds, matters and things, as they may consider necessary, expedient or desirable for giving effect to the foregoing resolution.

NOTES

1. The relevant Explanatory Statement pursuant to Section 102(1) of the Companies Act, 2013, setting out the material facts concerning ordinary and special business in respect of Item Nos. 3 to 14 as set out above is annexed hereto.

The Board of Directors of the Company considered and decided to include Item Nos. 5 to 14 given above as special business in the forthcoming Annual General Meeting (AGM) as they are unavoidable in nature.

2. The Ministry of Corporate Affairs (MCA) vide General Circular No. 10/2022 dated December 28, 2022 read with General Circular dated May 5, 2020 (MCA Circulars) has allowed companies whose AGMs are due in CY2023 to conduct their AGMs on or before September 30, 2023 through Video Conference (VC) or/and Other Audio Visual Means (OAVM).

In compliance with applicable provisions of the Companies Act, 2013 read with MCA Circulars, the 23rd AGM of the Company is being conducted through VC/OAVM, without the physical presence of the Members at a common venue. The deemed venue for this AGM shall be the corporate office of the Company.

3. In terms of the MCA Circulars, since the physical attendance of Members has been dispensed with, there is no requirement of appointment of proxies. Accordingly, the facility of appointment of proxies by Members under Section 105 of the Act will not be available for this AGM. However, the Body Corporates are entitled to appoint authorised representatives to attend the AGM through VC/OAVM and participate thereat.

4. Corporate/Institutional Members (i.e. other than Individuals, HUF, NRI etc.) are required to send scanned certified true copy (PDF Format) of the Board Resolution/Authority Letter, etc. together with attested specimen signature(s) of the duly authorised representative(s), to the Scrutiniser by email to alwyn.co@gmail.com with a copy marked to evoting@nsdl.co.in.

Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) can also upload their Board Resolution / Power of Attorney / Authority Letter etc. by clicking on "Upload Board Resolution / Authority Letter" displayed under "e-Voting" tab in their login.

5. Members can login and join the AGM thirty (30) minutes prior to the scheduled time to start the AGM and the window for joining shall be kept open till the expiry of thirty (30) minutes after the scheduled time to start the AGM, on first-come-first-serve basis. Instructions and other information for Members for attending the AGM through VC/OAVM are given in this Notice.
6. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013.
7. Details as required under Regulation 36(3) of the Listing Regulations and Secretarial Standard on General Meeting (SS-2) issued by The Institute of Company Secretaries of India, in respect of the Directors seeking approval for appointment/re-appointment/revision of remuneration at the AGM have been annexed to this Notice. Requisite declarations have been received from the Directors seeking appointment/ re-appointment.
8. The Register of Members and Share Transfer Books of the Company will remain closed from Friday, July 14, 2023 to Friday, July 28, 2023 (both days inclusive) for the purpose of determining the eligibility to receive the final dividend for the financial year ended March 31, 2023.
9. The final dividend for the financial year ended March 31, 2023 at the rate of ₹ 0.60 per equity share of face value of ₹ 10 each, as recommended by the

Board of Directors, if approved at this Meeting, will be paid to those Members who hold shares:

- i. in dematerialised mode, based on the beneficial ownership details to be received from National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) as on Thursday, July 13, 2023;
 - ii. in physical mode, if their names appear in the Company's Register of Members, after giving effect to valid transmission or transposition requests lodged with the Company, as on Thursday, July 13, 2023.
10. The Company's Registrar and Share Transfer Agents for its share registry (both, physical as well as electronic) is KFin Technologies Limited (KFin/Registrar/RTA) having its office at Selenium Tower B, Plot no. 31-32, Gachibowli, Financial District, Nanakramguda, Hyderabad 500 032, Unit: ICICI Prudential Life Insurance Company Limited.
11. In accordance with the Income-tax Act, 1961, ("the Act"), dividend paid or distributed by a Company is taxable in the hands of the Members. The Company shall therefore be required to deduct tax at source ("TDS") at the time of payment of dividend. The TDS rate will be based on the category, residential status of the Members and the documents submitted by them and accepted by the Company. Further, higher rate of TDS would be applicable in case of specified person as per Section 206AB of the Act. The Company shall send detailed communication in this regard, to all Members who have registered their email ids with their respective Depository Participant (DPs).

In order to enable the Company to comply with the TDS requirements, Members are requested to ensure that their tax residential status, category (i.e. individual/company/FII/FPI etc.), PAN, email address and mobile number are duly updated with respective Depository Participant(s). Where shares are held in physical form, the Members are requested to furnish the said details to KFin, by sending an email at einward.ris@kfintech.com.

The tax exemption forms/documents submitted to the Company earlier for availing the benefit of lower/nil tax on dividend for FY2022 shall not be considered relevant for the dividend of FY2023. Fresh forms and documents will be required to be submitted for availing such benefits. Kindly note that the benefit of lower/nil tax on dividend shall not be provided by the Company in case of non-receipt/late receipt of the tax exemption forms/documents, Members can

claim tax credit of such excess tax deducted while filing their Income tax returns. No claim shall lie against the Company for taxes once deducted.

12. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in the securities market. Members holding shares in electronic mode, therefore are requested to submit, unless already submitted, their PAN to their Depository Participants with whom they are maintaining their demat accounts.

Further, SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD-PoD-1/P/CIR/2023/37 dated March 16, 2023, prescribes that the shares held in physical mode and for which any of the respective documents / details of shareholders viz. PAN, KYC, Bank account particulars, Specimen Signature and Nomination etc. are not available with RTA / Company on or after October 1, 2023, shall be frozen. In view of the same and to eliminate all risks associated with physical shares and for ease of portfolio management, Members holding shares in physical form are requested to consider converting their holdings to dematerialised form.

Further, SEBI has mandated listed companies to issue the securities in dematerialised form only while processing following service requests viz. issue of duplicate securities certificate; claim from unclaimed suspense account; replacement/renewal/exchange of securities certificate; endorsement; sub-division/splitting of securities certificate; consolidation of securities certificates/folios; transmission and transposition. Accordingly, Members are requested to make service requests by submitting duly filled and signed Form ISR-4 to the R & T Agent of the Company. It may be noted that any service request can be processed only after the folio is KYC Compliant. The relevant forms viz. Form ISR-1 (for registering KYC details), Form ISR-3 (Declaration to opt out of nomination), Form SH-13 (Nomination) and Form SH-14 (Cancellation of Nomination) are available on the website of the Company at About us>Shareholder Information>Others>Notice to Physical Shareholders.

13. All statutory registers and the documents referred to in the Notice and Explanatory Statement will also be available for inspection without any fees by the Members during normal business hours on all working days from the date of circulation of this Notice up to the date of AGM, i.e. Friday, July 28, 2023. Members seeking to inspect such documents can send an email to csicprulife@icicprulife.com.

14. In case of joint holders attending the Meeting, seniority shall be determined by the order in which the names stand in the Register of Members, subject to applicable laws and the Articles of Association of the Company.
15. In line with the MCA Circulars, the Notice calling the AGM has been uploaded on the website of the Company at About us>Shareholder Information>Notices>AGMs>AGM Notice FY2023. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively and is also available on the website of e-voting agency i.e. NSDL at www.evoting.nsdl.com.
16. Copies of the Annual Report for FY2023 and Notice of AGM is being sent only by e-mail to the Members and to all other persons so entitled and who have registered their email addresses with the Depository Participant/Company's RTA or the Company for this purpose. Members of the Company holding shares either in physical form or in dematerialised forms as on benpos date i.e. Friday, June 16, 2023 will receive Notice of the AGM along with the Annual Report for FY2023 through electronic mode. In this regard, the Company shall publish a notice by way of an advertisement as per MCA Circular dated May 5, 2020.
17. Members holding shares in physical form, are requested to notify any changes in their address to the Company's Registrar and Share Transfer Agents. Members are requested to quote their Folio No. or DP ID/Client ID, in case shares are in physical/dematerialized form, as the case may be, in all correspondence with the Company/Registrar and Share Transfer Agent.
- Members are encouraged to avail the Electronic Clearing Service (ECS) mandate facility provided by the Company. In order to avoid fraudulent encashment of dividend warrants, Members holding shares in physical form are requested to send to KFin, at the above mentioned address, a Bank Mandate (providing details of name and address of banker, branch, PIN code and particulars of the bank account) or changes therein, if not provided earlier, under the signature of the Sole/First holder quoting their Folio Number. This information will be printed on the dividend warrants.
- In line with the SEBI Circular dated May 30, 2022, the Company has hosted the standard operating procedures for dispute resolution under the Stock Exchange arbitration mechanism for disputes between the Company and/or RTA and its shareholders/investors on the website of the Company which can be viewed by accessing the following link: https://www.iciciprulife.com/content/dam/icicipru/about-us/others/Enhancing_awareness_on_availability_of_Dispute_Resolution_Mechanism_at_Stock_Exchanges.pdf
18. Members holding shares in the dematerialised mode are requested to intimate all changes pertaining to their bank details, ECS mandates, email addresses, nominations, power of attorney, change of address/name etc. to their Depository Participant only and not to the Company or KFin. Any such changes effected by the Depository Participants will automatically reflect in the Company's subsequent records. Members holding shares in physical mode are requested to advise any change in their address or bank mandates to KFin.
19. As per Regulation 40 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, securities of listed companies can be transferred only in dematerialised form. In view of this and to eliminate all risks associated with physical shares, Members holding shares in physical form are requested to consider converting their holdings to dematerialised form.
20. Members holding shares in physical mode are advised to make nomination in respect of their shareholding by writing to RTA in the nomination form (SH-13). Members holding shares in electronic mode may contact their respective Depository Participants for availing the nomination facility.
21. Non-Resident Indian Members are requested to inform their respective Depository Participants, immediately of:
- any change in their residential status on return to India for permanent settlement.
 - particulars of their bank account maintained in India with complete name, branch, account type, account number and address of the bank with pin code number, if not furnished earlier.
22. The Company has uploaded the details of unpaid and unclaimed dividend amounts of prior years on its website. Members who have not encashed the dividend so far are requested to write to KFin, who shall arrange to send the unclaimed dividend amount upon appropriate scrutiny. Members are requested to note that dividends which are not claimed within seven (7) years from the date of transfer to the Company's Unpaid Dividend Account will, as per the provisions of Section 124 of the Companies Act, 2013 and rules made thereunder, be transferred to

the Investor Education and Protection Fund (IEPF); the unclaimed dividend for the financial year ended March 31, 2016 and March 31, 2017, would be transferred to the IEPF in FY2024.

23. In terms of the MCA Circulars referred above, the business set out in the Notice will be transacted through electronic voting system and the Company shall provide the facility of voting by electronic means. Instructions and other information relating to e-voting are given in this Notice.

24. A member who is a related party to the Company, shall not vote on the resolutions specified in Item no.9 and Item no. 10 of this Notice, irrespective of whether the member is a party to the particular related party transaction or not.

25. Information and Other Instructions relating to E-Voting:

Item No.8

The Insurance Regulatory and Development Authority of India (Authority)'s Guidelines on Remuneration of non-executive Directors and Managing Director/ Chief Executive Officer/ Whole-time Directors of Insurers issued vide reference no. IRDA/F&A/GDL/LSTD/155/08/2016 dated August 5, 2016 permits the Company to pay remuneration in the form of profit related commission of not more than ₹ 1 million per annum to each non-executive Directors (NEDs) excluding the Chairman, subject to the Company making profits. The Guidelines further mention that in case of the Chairman of the Board, the remuneration may be decided by the Board of Directors of the Company.

Section 149 (9) of the Act permits payment of profit related commission to independent Directors subject to the approval of shareholders. Further, pursuant to the provisions of Section 197 (1) of the Act, remuneration payable to NEDs shall not exceed 1% of net profit if there is a Managing Director, a wholetime Director or a Manager.

The Board at its meeting held on April 24, 2019 had approved the proposal for revision in the quantum of payment of profit related commission to NEDs (other than the directors nominated by ICICI Bank Limited and Prudential Corporation Holdings Limited) up to ₹ 1 million each, per annum, effective from the financial year ending on March 31, 2020, in proportion to the time served as a Director in a year, which was approved by the shareholders of the Company at its Annual General Meeting held on July 17, 2019.

The Chairperson of the Board is responsible for leading the Board, providing overall strategic direction to the Company, setting high standards of compliance and governance. The Chairperson plays a pivotal role in fostering the effectiveness of the Board and individual Directors. The Chairperson of the Board requires leadership qualities for effectively steering the corporate

objectives of meeting the expectations of various stakeholders. The Chairperson of the Board, in addition to engaging with the Board and Committee members during the meetings, also has to engage with the executive management on a regular basis. The Chairperson is also a part of several Committees of the Board and devotes a lot of time, effort and expertise in advising the Board and the executive management on critical matters, wherever needed.

Considering the efforts and time devoted by the Chairperson of the Board, it is proposed that the Chairperson of the Board, who is an Independent Director, be paid up to ₹ 2 million per annum for each financial year effective from the financial year ending March 31, 2024 onwards, subject to the availability of net profits at the end of each financial year and passing of the resolution by the Board of Directors.

The aforesaid payment is in compliance with the Policy on Compensation and Benefits for Managing Director and CEO, Other Whole-time Directors, non-executive Directors, Key Management Person (KMP), Senior Management Personnel (SMP) and other employees (Compensation Policy) and any other regulatory provisions as may be applicable to the Company and is in addition to the administrative support extended to Mr. M. S. Ramachandran in accordance with the approval of the shareholders, in October 2020.

The details required under the provisions of the Secretarial Standard on General Meetings (SS-2) is provided in Annexure I to this Notice.

Except Mr. M. S. Ramachandran and his relatives, none of the Directors and Key Managerial Personnel of the Company and their relatives are concerned or interested financially or otherwise, in the resolution set out at Item No.8.

Your Directors recommend the ordinary resolution at Item No. 8 for your approval.

Item No. 11

The shareholders of the Company at the annual general meeting (AGM) held on July 17, 2019 had approved the appointment of Ms. Vibha Paul Rishi (DIN: 05180796) as an Independent Director of the Company for a term of five consecutive years with effect from January 1, 2019 upto December 31, 2023.

Further, pursuant to the provisions of the Company and Section 149(10) and (11) of the Companies Act, 2013 (CA2013/the Act), an independent director shall be eligible for re-appointment upon passing a special resolution by the shareholders and disclosure of such re-appointment in the Board's Report.

The Company has received a notice under Section 160 of the Act and Article 157 of the Articles of Association from a shareholder proposing the candidature of Ms. Vibha Paul Rishi for the office of non-executive Director of the Company at the ensuing AGM or any adjournment thereof.

Ms. Vibha Paul Rishi is a person of high repute, integrity and has rich and varied experience in the field of consumer insights, marketing and human resources. Considering the significant value added by Ms. Vibha Paul Rishi to the Board of Directors and to the various Board Committees that she has been a member/chairperson of, during her current term, the Board Nomination and Remuneration Committee at its meeting held on April 20, 2023 has recommended the re-appointment of Ms. Vibha Paul Rishi as an Independent Director of the Company, not liable to retire by rotation, for a second term of five consecutive years from January 1, 2024 till December 31, 2028.

Based on the recommendation of the Board Nomination and Remuneration Committee and afore-stated summary of performance evaluation of Ms. Rishi during her tenure as a Director, the Board is of the opinion that Ms. Rishi fulfils the conditions prescribed for the re-appointment in the Act and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and has recommended the re-appointment of Ms. Vibha Paul Rishi as an Independent Director of the Company, to hold office for a second term of five consecutive years

commencing from January 1, 2024 till December 31, 2028 and she shall not be liable to retire by rotation.

Ms. Vibha Paul Rishi is not disqualified from being appointed under Section 164 of the Act. Necessary disclosures pursuant to Regulation 36 (3) of SEBI Listing Regulations and Secretarial Standard on General Meetings, with regard to the re-appointment of Ms. Rishi, are provided in Annexure I to this Notice. The terms and conditions relating to the re-appointment of Ms. Rishi shall be available for inspection of the Members.

The Members are, therefore, requested to grant their approval by way of a Special Resolution for the re-appointment of Ms. Rishi as an Independent Director of the Company to hold office for a second term of five years, from January 1, 2024 till December 31, 2028.

Except Ms. Vibha Paul Rishi and her relatives, none of the other Directors, Key Managerial Personnel of the Company and their relatives are in any way concerned or interested, financially or otherwise in the passing of the resolution set out at Item No. 11.

Your Directors recommend the special resolution set forth at Item No. 11 for your approval.

Item No. 12

The Board of Directors (the Board) had at their Meeting held on October 7, 2020 appointed Axis Trustee Services Limited (ATSL) as the Debenture Trustee for the non-convertible debentures issued and allotted on November 6, 2020 and listed on National Stock Exchange of India Limited on November 12, 2020.

As per Regulation 15(1)(e) of SEBI (Debenture Trustees) Regulations, 1993, the Debenture Trustee shall appoint a nominee director on the Board of the Company in the event of:

- (i) Two consecutive defaults in payment of interest to the debenture holders; or
- (ii) default in creation of security for debentures; or
- (iii) default in redemption of debentures.

Considering event specific nature of the above-mentioned regulation, the Articles of Association of the Company does not currently provide for the appointment of a Nominee Director by ATSL.

Securities And Exchange Board of India (SEBI) vide an amendment to SEBI (Issue and Listing of Non-Convertible Securities) Regulations, 2021 effective February 2, 2023 has mandated that an Issuer whose debt securities are listed as of the said date shall amend its Articles of Association on or before September 30, 2023 to provide for the appointment of a Nominee Director by the Debenture Trustee.

In view of the above, it is proposed to alter the relevant clauses of the Articles of Association. The proposed draft Articles of Association after incorporation of the above-mentioned changes is available for inspection of the shareholders at the registered office and the corporate office of the Company on all working days (during business hours) upto the date of Annual General Meeting.

None of the Directors and Key Managerial Personnel of the Company and their relatives are concerned or interested financially or otherwise, in the resolution set out at Item No. 12.

Your Directors recommend the special resolution set forth at Item No.12 for your approval.

Item Nos. 13 and 14

The Company has a wide range of products and diversified distribution networks to serve all sections of society. The Company continues to pursue its objectives of meeting the long-term savings needs of its customers, with a focus on protection and annuity products. The primary focus continues to be growth of absolute Value of New Business (VNB) through the 4P strategy of Premium growth, Protection business growth, Persistency improvement and Productivity enhancement, while ensuring focus on customer-centricity and imbibing sustainable practices within our business processes. The Company believes that this 4P strategy is appropriate in the context of the large life insurance opportunity in the country, coupled with the objective to grow the VNB.

With a view to retain employees and enhance their motivation, align their interests with those of the Company's shareholders and provide an opportunity to participate in the Company's long-term performance, the Company had implemented the 'Employees Stock Option Scheme – 2005' (ESOS 2005). ESOS 2005 was last amended and approved by the Board and shareholders of the Company in FY2022 and the pool available for grant of employee stock options (ESOPs) was increased from 2.64% to 3.54% of the number of shares issued as on March 31, 2016.

At this juncture, the Company has transited to the next phase of leveraging market opportunities and business growth including addressing evolving customer needs and leveraging technology which has resulted in increased demand for highly skilled talent in critical roles. This has necessitated bringing out a performance-linked reward strategy for attraction of new talent and retention of both existing and new talent having leadership qualities or holding critical roles aligned to evolving business needs.

Given the background above, the Company proposes to implement an employee stock unit scheme namely ICICI Prudential Life Insurance Company Limited Employees Stock Unit Scheme - 2023 (Unit Scheme 2023 or Scheme), contemplating grant of employee stock units (Units) at

face value of equity shares of the Company, which results in lesser equity dilution, to a select band of employees of the Company and its unlisted wholly owned subsidiary company(ies) which are aligned as a key delivery engine of the Company's core operating franchise and in essence complement the business delivery of the Company. The criteria to select eligible Employees for grant shall be determined by the Nomination and Remuneration Committee (the Committee) based on factors such as length of service, grade, performance, conduct, present contribution, potential contribution, or such other factors as the Committee may decide relevant. At the same time, the Company is aware that any discount should be compensated with appropriate vesting conditions based on mandatory achievement of corporate performance targets. Thus, vesting of Units shall be subject to mandatory achievement of corporate performance conditions as elaborated in point number (D) below. The Scheme is thereby aligned to the overall strategic direction adopted by the Company. As an institution, your Company has always believed in employee co-ownership and alignment of employee rewards with the long-term value creation for shareholders, which we seek to enhance through the introduction of the Scheme. Participation of eligible employees in the long-term growth of the Company will be crucial for creating long-term and sustainable shareholder value.

The Committee and the Board of Directors of the Company at their respective meetings held on June 10, 2023 have approved the introduction of the Unit Scheme 2023, subject to the approval of the Members of the Company.

In terms of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations 2021, the salient features of the Scheme are given as under:

(A) Brief Description:

The Compensation Policy of the Company which is framed in accordance with relevant IRDAI guidelines permits the Company to offer long-term pay to employees which is typically a critical element in rewarding middle and senior management of the Company.

The Unit Scheme 2023 is a long-term pay scheme that aligns employee rewards with long-term value creation for shareholders.

The key objectives of the Scheme are as follows:

- to enhance employee motivation;
- to enable employees to participate in the long-term growth and financial success of the Company; and
- to act as a retention mechanism, by enabling employee participation in the business as an active stakeholder to usher in an 'owner-manager' culture.

The Unit Scheme 2023 contemplates grant of Units to the following:

- a) eligible employees of the Company who are exclusively working in India or outside India, excluding its (I) Managing Director and Chief Executive Officer; (II) other whole-time Directors; (III) an employee who is a Promoter or belongs to the Promoter Group, (IV) an independent director, and (V) a director who either by himself or through his relatives or through anybody corporate, directly or indirectly holds more than 10% (ten percent) of the outstanding equity shares of the Company;
- b) eligible employees of the Company's unlisted wholly owned subsidiaries, who are exclusively working in India or outside India, which are aligned as a key delivery engine of the Company's core operating franchise and in essence complement the business delivery of the Company, but excluding (I) equivalent levels to whole-time Directors of the Company; (II) an independent director, and (III) a director who either by himself or through his relatives or through anybody corporate, directly or indirectly holds more than 10% (ten percent) of the outstanding equity shares of the Company.

While making such selection of Eligible Employees, the Board Nomination and Remuneration Committee (the Committee) may consider factors such as:

- Length of service;
- Grade;
- Performance;
- Conduct;
- Present contribution;
- Potential contribution of the Eligible Employee; or
- Such other factors as the Committee may decide relevant.

Besides continuity of employment, Vesting shall also be dependent on achievement of any corporate performance parameter(s) as the Committee may determine, including but not limited to:

- Embedded Value Operating Profit; and/or
- Value of New Business; and/or
- Other parameter(s), if any, as the Committee may determine.

The Eligible Employees may exercise the vested Units within the pre-defined exercise period. Each Unit is convertible into one equity share of the Company upon vesting and exercise.

The Committee shall administer the Scheme. All questions of interpretation of the Scheme shall be determined by the Committee and such determination shall be final and binding upon all persons having an interest in the Scheme.

(B) Total number of units to be offered/granted

It is proposed to grant/offer/issue up to 1,45,00,000 (One Crore Forty Five Lacs) Units, in one or more tranches as may be determined by the Board over a period of 6 (six) years from the date of approval of the Scheme by the shareholders, which shall entitle the Unit holder one fully paid-up equity share of face value of ₹ 10 of the Company against each Unit exercised and accordingly, up to 1,45,00,000 (One Crore Forty Five Lacs) equity shares of face value of ₹ 10 each fully paid-up (approximately 1% of the equity share capital as on March 31, 2023) shall be allotted to the Eligible Employees under the Scheme upon exercise.

(C) Identification of classes of employees entitled to participate in the Scheme

- (a) All employees of the Company who are exclusively working in India or outside India, excluding its (I) Managing Director and Chief Executive Officer; (II) other whole-time Directors; (III) an employee who is a Promoter or belongs to the Promoter Group, (IV) an independent director, and (V) a director who either by himself or through his relatives or through anybody corporate, directly or indirectly holds more than 10% (ten percent) of the outstanding equity Shares of the Company;
- (b) All employees of the Company's unlisted wholly owned subsidiaries, who are exclusively working in India or outside India, which are aligned as a key delivery engine of the Company's core operating franchise and in essence complement the business delivery of the Company, but excluding (I) equivalent levels to whole-time Directors of the Company ; (II) an independent director, and (IV) a director who either by himself or through his relatives or through anybody corporate, directly or indirectly holds more than 10% (ten percent) of the outstanding equity Shares of the Company.

(D) Requirements of vesting and period of vesting:

The vesting of Units shall be essentially based on continuation of employment or service subject to minimum vesting period of 1 (one) year from the date of grant of Units and the vesting period would be spread over a minimum period of 3 (three) years from the date of grant of the Units.

Unless earlier vested, expired, forfeited or otherwise terminated, each Unit shall expire in its entirety on

the fourth anniversary of the date of grant of Unit or such shorter period, as may be determined by the Committee for every grant.

Besides continuity of employment, Vesting shall also be dependent on achievement of any corporate performance parameter(s) as the Committee may determine, including but not limited to:

- Embedded Value Operating Profit; and/or
- Value of New Business; and/or
- Any other parameter(s), if any, as the Committee may determine.

In case of death or permanent disability of an Eligible Employee in employment or service, the condition of minimum vesting period of 1 (one) year shall not apply, and all the Units granted up to the death or permanent disability, as the case may be, shall vest as on date of such event in the Eligible Employee's successors or the Eligible Employee as the case may be.

In the event of retirement (including pursuant to any early/voluntary retirement scheme), the Units shall Vest by such period as stipulated even after such retirement. Provided however that in the event of death or permanent disability of the Eligible Employee after retirement but before Vesting of Units, the whole of the Units shall immediately vest in the Eligible Employee's Successors or the Eligible Employee as the case may be.

In the event that an Eligible Employee who has been granted benefits under the Scheme is transferred or deputed or resigns to join the Subsidiary(ies) or Associate Company(ies) of the Company or of the Company's Holding Company, prior to Vesting or Exercise, the Vesting and Exercise shall continue in case of such transferred or deputed or resigned employee even after the transfer or deputation or resignation.

In the event that an Eligible Employee who has been granted benefits under the Unit Scheme is subsequently designated as the Managing Director and Chief Executive Officer or whole-time Director but prior to Vesting or Exercise, the Vesting and Exercise as per the terms of Grant shall continue even after such re- designation.

No Unit or any part thereof shall vest:

- a. if the Eligible Employee does not fulfill Vesting Criteria as stipulated which shall also include suitable measures/ indicators of performance as determined by the Committee; or

- b. if the Eligible Employee's employment is terminated by the Company/Holding Company and/or its subsidiaries/Associate/Subsidiary, as may be applicable, for Cause; or
- c. if the Eligible Employee voluntarily terminates employment with the Company/Holding Company and/or its subsidiaries /Associate/ Subsidiary, as may be applicable and the Units to the extent not vested shall lapse/expire and be forfeited forthwith.

(E) Maximum period within which the units shall be vested

Units granted under the Scheme shall vest not later than the maximum vesting period of 4 (four) years.

(F) Exercise Price or Pricing Formula

Exercise price shall be the face value of equity shares of the Company i.e. ₹ 10 for each unit.

(G) Exercise Period and Process of Exercise:

From the date of vesting of the Units, the Eligible Employees shall be entitled to exercise the Units from time to time within such period as may be prescribed by the Committee for every grant, which period shall not exceed a period of 5 (five) years from the date of the respective vesting of the Units or such shorter period as may be determined by the Committee.

The Units would be exercisable by the said Employees by submitting the requisite application form and payment of the exercise price amount and the amount equivalent to the value of the perquisite tax and such taxes, as may be applicable after which the shares would be allotted.

In the event the Eligible Employee ceases to be in employment due to resignation or the employment is terminated without cause by the Company (other than on account of death, retirement, or permanent disability) the vested Units, to the extent then unexercised, can be exercised by the Eligible Employee by payment of the exercise price and applicable taxes in full within a period of 3 (three) months from the date of termination without cause or Exercise Period, whichever is earlier.

If the Eligible Employee's employment is terminated by the Company for cause, the said Employee's vested Units, to the extent then unexercised, shall thereupon cease to be exercisable and shall lapse and stand terminated and expired forthwith.

If the Eligible Employee's employment is terminated due to death, retirement (including pursuant to any early /voluntary retirement scheme) or permanent disability, the vested units shall be exercised by the payment of exercise price and applicable taxes

in full at such time as may be notified during the exercise period.

In the event that an Eligible Employee, who has been granted Units under the Scheme, is transferred or deputed or resigns to join the Subsidiary(ies) or Associate Company(ies) of the Company or of the Company's Holding Company, prior to vesting and exercise, the vesting and exercise as per the terms of grant shall continue in case of such transferred or deputed or resigned employee even after the transfer or deputation or resignation.

In the event that an Eligible Employee who has been granted benefits under the Unit Scheme is subsequently designated as the Managing Director and Chief Executive Officer or whole-time Director but prior to Vesting or Exercise, the Vesting and Exercise as per the terms of Grant shall continue even after such re-designation.

The Committee may at its discretion, do all such acts, deeds, matters and things as may be necessary/ desirable to facilitate exercise of Units by the Eligible Employees.

(H) The appraisal process for determining the eligibility of employees

In determining eligibility criteria for grant of Units as well as in determining the number of Units to be granted to an Eligible Employee, the Committee may consider factors such as length of service, grade, performance, conduct, present contribution, potential contribution of the Eligible Employee or such other factors as the Committee may decide relevant.

(I) Maximum number of units to be offered/issued per employee and in aggregate

Maximum of 1,45,00,000 (One Crore Forty Five Lacs) Units shall be granted, in one or more tranches as may be determined by the Board over a period of 6 (six) years from the date of approval of the Scheme by the shareholders, which shall entitle the Unit holder one fully paid-up equity share of face value of ₹ 10 of the Company against each Unit exercised and accordingly, up to 1,45,00,000 (One Crore Forty Five Lacs) equity shares of face value of ₹ 10 each shall be allotted to the Eligible Employees taken together under the Scheme 2022.

The maximum number of Units granted to any Eligible Employee shall not exceed 60,000 (sixty thousand) Units in any financial year.

(J) Maximum quantum of benefits to be provided per employee

The maximum quantum of benefits to the Employees under the Scheme will depend upon the market price of the equity shares of the Company considered

for the purpose of grant of Units within the overall maximum cap of 60,000 (sixty thousand) Units per employee in any financial year.

(K) Whether the stock unit scheme is to be implemented and administered directly by the Company or through a Trust

The Scheme shall be implemented and administered directly by the Company.

(L) Whether the stock unit scheme involves new issue of shares by the Company or secondary acquisition by the Trust or both:

The Scheme involves new issuance of not exceeding 1,45,00,000 (One Crore Forty Five Lacs) Units entitling the Unit holders to subscribe to an aggregate of not exceeding 1,45,00,000 (One Crore Forty Five Lacs) fully paid-up equity shares of the Company of the face value of ₹ 10 each.

(M) The amount of loan to be provided for implementation of the stock unit scheme by the Company to the trust, its tenure, utilization, repayment terms, etc.

Not applicable

(N) Maximum percentage of secondary acquisition (subject to limits specified under the SEBI SBEB & SE Regulations) that can be made by the trust for the purposes of the stock unit scheme

Not applicable

(O) A statement to the effect that the Company shall conform to the accounting policies specified in Regulation 15

The Company shall comply with the applicable disclosure requirements and accounting policies prescribed by SEBI, specifically under the SEBI SBEB & SE Regulations and any other concerned regulatory authority.

(P) Method to value units granted under the Scheme

The Company shall adopt 'intrinsic value method' for valuation of Units.

(Q) Declaration as to disclosure

In case the Company opts for expensing of share-based employee benefits using the intrinsic value, the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value of the Units and the impact of this difference on profits and on Earning Per Share (EPS) of the Company shall also be disclosed in the Directors' Report.

(R) Period of lock-in

The equity shares arising out of exercise of vested Units shall not be subject to any lock-in period from the date of allotment of such Shares under

the Scheme, except such restrictions as may apply under the applicable laws/regulatory authority from time to time.

(S) Terms and conditions for buyback, if any, of specified securities covered under the SEBI SBEB & SE Regulations

None.

(T) Applicability of Malus and Claw back

The benefits accrued and / or availed under the Scheme shall be subject to Malus and Claw back conditions in line with the extant Compensation Policy of the Company as amended from time to time and relevant guidelines issued by the Insurance Regulatory and Development Authority of India as amended from time to time.

The Board of the Company at its meeting held on June 10, 2023, based on the recommendations of the Board Nomination and Remuneration Committee, has approved the Scheme, subject to the approval of Members.

In terms of Section 62(1)(b) of the Companies Act, 2013 and Rules made thereunder read with Regulation 6 of the SEBI SBEB & SE Regulations, the Company seeks the approval of the Members for implementation of the Scheme and grant of Units thereunder to the Eligible Employees, as

decided from time to time as per provisions of the Scheme read with provisions of the SEBI SBEB & SE Regulations.

None of the Directors, Key Managerial Personnel of the Company and their relatives are concerned or interested, financially or otherwise, in the passing of these resolutions except to the extent of the benefits that may be granted to them under the Scheme 2023.

Your Directors recommend the special resolutions set forth at Item Nos. 13 and 14 for your approval.

Delivering on Promises. Driving Sustainable Growth.

ICICI Prudential Life Insurance has doubled its FY2019 Value of New Business (VNB), thereby demonstrating that keeping promises is key to achieving success. In pursuit of this strategic aim, the Company developed a comprehensive range of customer-centric products to meet the distinctive demands of diverse customer segments. This purposeful product suite, complemented by a multichannel distribution architecture, was strategically devised to address a broad spectrum of customer needs. Throughout this journey, the Company has developed long-term capabilities grounded in the fundamental pillars of People, Processes, Products, Technology and Distribution, ensuring sustainable growth.

WHY VNB?

VNB is crucial for driving value accretion from a shareholder perspective. It represents the present value of future profits generated by new business written during a specific period and signifies the profitability of the business. To realise this objective, the Company drafted a comprehensive roadmap known as the 4P strategy: Premium growth, Protection focus, Persistency improvement and Productivity enhancement. By integrating these four strategic elements with customer-centricity and ESG principles, the Company has reinforced its path to sustainable growth.

WELL-BALANCED PRODUCT MIX

In FY2019, the composition of the Company's Annualised Premium Equivalent (APE) was skewed in favour of a single product category. Recognising this, the Company embarked on a diligent pursuit to broaden its product mix by introducing an array of innovative products in the protection, non-linked savings and annuity segments. These strategic endeavours have yielded rich dividends and led to a substantial enhancement in the diversification of the Company's product mix from FY2019 to FY2023. A well-balanced product mix has addressed the challenge of volatility faced by the Company during economic uncertainty. In FY2023, the Company's product mix comprised 36%

linked (ULIPs), 37% non-linked, 17% protection, 4% group and 6% annuity.

DIVERSIFIED DISTRIBUTION ARCHITECTURE

Distribution is key to bringing a wider section of the country's population under the ambit of life insurance. In FY2019, the Company devised and implemented a deliberate strategy to diversify its distribution network. It expanded its reach by forging alliances with new distribution partners while simultaneously investing in the development of additional sourcing channels. The strategy aimed to mitigate any concentration risk and increase penetration in under-served customer segments.

Over the last four years, the Company's unflinching commitment to have a well-diversified distribution network has paid off. By the end of FY2023, the Company had successfully established over 900 partnerships, including 39 bank partners, providing the Company access to an extensive network of more than 17,500 branches. Currently, the Company has a highly dedicated and motivated team of over 200,000 advisors, with over 33,500 recruits in FY2023 alone. Today, the Company boasts one of the most diversified distribution networks in the Indian life insurance industry, solidifying its leadership position.

The composition of the distribution mix in FY2023 stood at 26% from Agency, 17% from Group, 16% from banks other than ICICI Bank, 15% through Partnership distribution, 14% from ICICI Bank and 12% from its Direct business initiatives.

EXTERNAL CHALLENGES

During this transformative four-year period, the Company faced numerous challenges, including the COVID-19 pandemic, escalating geopolitical tensions and mounting inflationary pressures.

In response to these challenges, the Company swiftly adapted by recalibrating its product offerings to align with the evolving needs of customers. This proactive approach allowed the Company to effectively navigate the changing landscape, ensuring that its products remained relevant and impactful.

The Company also adapted its retail protection processes in response to the emerging pandemic-related challenges and reinsurance led price changes. Besides, it continuously fine-tuned its products, propositions and processes.

Having achieved its stated objective of doubling the FY2019 VNB, the Company now remains firmly rooted to the sustainable growth path and is determined to deliver on stakeholder expectations.

Our Integrated Reporting Approach

REPORTING OBJECTIVE

The objective of this Report is to provide stakeholders with relevant financial and non-financial information of the Company, including the Environmental, Social and Governance components, to help them make well-informed investment decisions. ORGANISATIONAL OVERVIEW

Executive Summary

ABOUT ICICI PRUDENTIAL LIFE INSURANCE

ICICI Prudential Life Insurance is jointly promoted by ICICI Bank Limited and Prudential Corporation Holdings Limited. The Company commenced its operations in fiscal 2001 and has consistently been amongst the top private sector life insurance companies in India on a Retail Weighted Received Premium (RWRP) basis. At ICICI Prudential Life Insurance, we operate on the core philosophy of customer-centricity. We offer an array of products in the Protection, Annuity and Savings category, through a robust multi-channel distribution network. These products cater to the various life-stage needs of our customers, enabling them to provide financial safety-net to their families and achieve their long-term financial goals. Across the customer life-cycle,

from policy purchase to claim settlement, we leverage technology and digital solutions to streamline our processes and deliver a hassle-free experience to customers.

Our wholly owned subsidiary, ICICI Prudential Pension Funds Management Company, distributes products under the National Pension System (NPS) and is a registered pension fund manager. During FY2023, our AUM crossed the ₹ 2.5 trillion mark. We take pride in being one of India's leading private life insurers on new business sum assured with a total in-force sum assured of ₹ 29.5 trillion at March 2023. ICICI Prudential Life Insurance is listed on both the National Stock Exchange (NSE) Limited and the BSE Limited.

OUR VISION

To build an enduring institution that serves the protection and long-term saving needs of customers with sensitivity.

OUR VALUES

Customer First

Keep customers at the centre of everything we do

Humility

Be open to learn and change

Passion

Demonstrate infectious energy to win and excel

Integrity

Do the right thing

Boundarylessness

Treat organisation agenda as paramount

OUR STRATEGY

Our objective is to create value for our customers, employees, shareholders and all other stakeholders. In FY2019, we had articulated our aspiration to double the FY2019 VNB by FY2023, building on the 4P strategy

of Premium growth, Protection business growth, Persistency improvement and Productivity enhancement, while keeping customer centricity at the core and integrating ESG factors into our business operations.

DIGITAL LEADERSHIP

Our endeavour is to leverage digital solutions and empower customers and distributors through every stage of the policy life-cycle. The device-agnostic digital platform provides a hassle-free experience and facilitates conducting need-analysis, generating premium quotes and providing customers a seamless and virtually paperless onboarding process.

Additionally, our digital strategy aims to empower customers by allowing them to initiate and complete service requests from the comfort of their homes. The implementation of our digital strategy not only changes the way value is being created, it also offers convenience and simplicity to our customers.

Building upon our track record of introducing several “industry-first” digital initiatives and successfully navigating the challenges posed by the COVID-19 pandemic, we embarked on a journey to enhance the overall customer service experience. Central to this endeavour, is our focus on leveraging data as a strategic asset and utilising advanced analytics to drive insights and decision-making. Empowering customers and distributors with simplified journeys, choice of platforms and a superior experience by leveraging our analytics and ecosystems are the core objectives of our digitalisation initiatives.

To capitalise on our digital infrastructure and elevate the customer experience at every stage of the policy life-cycle are key aspects of our strategy. Our primary focus is on ensuring a seamless and satisfying customer experience, right from the time of need analysis and quote generation, all the way through the purchase process and extending to post-sales service and queries.

Our digitalisation objective is to be the most admired digitally enabled insurer with a continued focus on the following:

- Creating scale with simplicity for customers, distributors and employees

- Enabling seamless integration with the rapidly evolving ecosystem
- Fostering innovation and new technologies to achieve superior business results
- Delighting customers with personalised digital experiences throughout the policy life-cycle

Our Technological Capabilities

Our onboarding digital platform embedded with Pre-Approved Sum Assured (PASA) offers a frictionless, contactless and instant issuance opportunity. This involves analytics-based sharper offerings for a frictionless journey based on segmented risk assessment for paperless onboarding and issuance. With all these solutions, today, we receive over 99% of our new business applications digitally.

- The onboarding process provides us the ability to track the complete digital footprint of sales and customers. Our customers get near real-time view of applications, timely communication over the tenure of their policies; thereby ensuring quick policy issuance and policy kit communication to customers. This in turn helps us improve our sales management procedures.
- A key focus of the Company has been to build the best experience for our customers, partners and employees. Over the years, appreciation for technology has multiplied and our user-centred journey now includes multi-conversational interfaces with active stakeholder participation.
- We have developed system capabilities to capture all critical data, create design models, make real-time interventions, integrate with the ecosystem and provide meaningful insights. These capabilities enable us to scale our distribution efforts and deliver a seamless customer experience with enhanced simplicity.
- We will continue to make use of cutting-edge technologies as a key differentiator to stay ahead of the curve and create more value for all our stakeholders.

STRATEGIC REVIEW

Message from the Chairman

|| THE GROWTH AT ICICI PRUDENTIAL LIFE INSURANCE HAS SURPASSED ALL ODDS AND ACHIEVED ITS STATED OBJECTIVE OF DOUBLING ITS FY2019 ABSOLUTE VALUE OF NEW BUSINESS (VNB) BY FY2023.

DEAR SHAREHOLDERS,

It is with great pleasure that I present to you our Annual Report for FY2023, a year that coincides with India's platinum anniversary - 'Azadi ka Amrit Mahotsav'. As we celebrate 75 years of independence, the momentous occasion calls for reflection and celebration of India's extraordinary growth story. Despite encountering numerous challenges, India has emerged as the world's fifth largest and the fastest-growing economy.

A TRANSFORMATION STORY

The growth at ICICI Prudential Life Insurance has been equally buoyant. It has surpassed all odds and achieved its stated objective of doubling its FY2019 absolute Value of New Business (VNB) by FY2023. I can't help but feel immense pride in congratulating all employees on this remarkable achievement against all odds. Be it the COVID-19 pandemic or the persistent volatility in the market, each challenge was met with a steely resolve and unrelenting commitment to achieving the set goals.

On behalf of all employees, I express my sincere gratitude to Mr. N. S. Kannan for the remarkable transformation that our Company has undergone under his leadership. Thanks to his visionary insights and strategic direction, the Company has now become more resilient with a well-balanced product mix, diversified distribution network and superior customer service.

During his tenure, Mr. Kannan also championed the integration of ESG factors into the business objective and the publication of the Company's first-ever ESG report in FY2020. Mr. Kannan's contributions have set a high standard for excellence and we are grateful for his inspiring leadership during the challenging times faced by the Company. We wish him a fulfilling and rewarding retirement.

Let me also take this opportunity to extend a warm welcome to Mr. Anup Bagchi, who will be succeeding Mr. Kannan as the MD & CEO of ICICI Prudential Life Insurance. Mr. Bagchi, a long-time veteran of ICICI Group, has also served on the Board of ICICI Prudential Life Insurance as a non-executive director for five years. With over three decades of experience in the financial services industry, he brings a wealth of knowledge and expertise to his new role.

DELIVERING VALUE TO ALL STAKEHOLDERS

In addition to achieving the VNB target, the Company excelled in all key areas this year. It launched several innovative annuity and long-term savings products to cater to the evolving needs of customers. The Company today has a much wider and a more comprehensive product suite across savings, protection, annuity and group platforms.

Moving forward, the Company is committed to capturing a larger share in the under-served segments of protection and retirement. Significantly, protection and annuity premiums account for nearly half of new business premiums.

As the world continues to evolve at a rapid pace, so do technologies that shape our lives. In 2023, the Company made significant strides in incorporating new-age technology solutions to better serve customers and improve overall efficiencies. This year, we received awards from top industry bodies - FICCI and ASSOCHAM - recognising our efforts in innovation, customer service and technology to drive distribution.

A GROWING PROTECTION OPPORTUNITY

India's life insurance penetration, at 3.2%, remains one of the lowest globally, with the protection gap estimated to be \$16.5 trillion, according to Swiss Re. Our analysis indicates that India's retail protection sum assured as a percentage of GDP is only 22%, as compared to Singapore, Japan, Malaysia and Thailand, which stand at 332%, 252%, 153% and 143% respectively. Currently, only 12% of the addressable population in India is covered by retail protection policies, presenting a vast growth potential.

As an organisation that prioritises customer needs, we see low penetration as a tremendous opportunity to provide financial security to millions of Indian families. Raising awareness about the significance of insurance and encouraging individuals to integrate it into their future-proofing strategy can aid in bridging the insurance protection gap.

BUSINESS AS A FORCE FOR GOOD

The Company is committed to using business as a force for good and our Corporate Social Responsibility initiatives proactively support meaningful socio-economic development in the country. Our efforts on enabling sustainable livelihoods through skill development have positively impacted over a million lives till date. I am also glad to inform you that, at the Dun & Bradstreet ESG

Leadership Summit 2023, ICICI Prudential Life Insurance was felicitated with the Corporate Governance Award.

MOVING FORWARD

ICICI Prudential Life Insurance is strategically positioned to seize the emerging growth opportunities in India. Our unwavering commitment to innovation, product differentiation, talent management and implementation of cutting-edge technology solutions have resulted in a slew of benefits.

These include superior customer service, improved efficiency and personalisation and increased scalability, all of which collectively enabled us to develop better products and agility.

I am thrilled to share that we have been ranked as the top-performing brand in 'Insurance CuES 2023'. The Customer Experience Score (CuES) is an annual syndicated report by Hansa Research which captures insights about consumers' perceptions and experiences with life insurance brands. The Company has met with the customers' approval on parameters such as digital experience, ease of dealing, easy documentation, communication and responsiveness of distribution channels, which is a testament to our relentless focus on customer satisfaction.

INTRODUCING PATH-BREAKING REFORMS

The industry is now well poised for further growth, thanks to the reforms initiated during the year by the Insurance Regulatory and Development Authority of India (IRDAI). These reforms include initiatives to increase insurance penetration and promote ease of doing business. To enhance insurance penetration in rural areas, the IRDAI has proposed two innovative initiatives - Bima Vahak and Bima Vistaar. ICICI Prudential Life Insurance supports these initiatives and will fully discharge its responsibilities to ensure their success.

Before I conclude, I take this opportunity to thank our Board for their continued support. Our journey of sustainable growth, profitability, innovation and delivering future-ready products to customers would not have been possible without the continued support of our leadership team, our employees and all other stakeholders including partners, regulators and customers.

Thank you for your trust and ongoing support.

Best Regards,

M. S. Ramachandran
Chairman

STRATEGIC REVIEW

Message from the Managing Director & CEO

ICICI PRUDENTIAL LIFE INSURANCE HAS ACHIEVED ITS STATED OBJECTIVE OF DOUBLING THE FY2019 VALUE OF NEW BUSINESS (VNB) IN THIS FISCAL YEAR.

DEAR SHAREHOLDERS,

I am delighted to present to you our Annual Report for FY2023. At the outset, I am pleased to inform you that ICICI Prudential Life Insurance has achieved its stated objective of doubling the FY2019 Value of New Business (VNB) in this fiscal year. As we all know, VNB is an important business value metric for life insurance companies from a shareholder perspective.

Before we deep dive into our business performance that resulted in the above outcome, let me talk about the environment which we function in. Despite global headwinds, India continues to be one of the world's fastest growing economies and a shining star amidst the gloomy outlook prevalent in several parts of the world.

The country's economic transformation continues at speed, supported by robust macroeconomic fundamentals and strong balance sheets in both financial and non-financial sectors. The International Monetary Fund (IMF) projects a growth rate of 5.9% for India in 2023, surpassing global growth projections by over 3.1%.

The private sector has been making significant progress while showing an eagerness to ramp up capital expenditure amidst facilitative policy and regulatory measures. According to the Centre for Monitoring Indian Economy (CMIE), new private sector investment proposals in 2022 reached an all-time high since 1996, at ₹ 19.7 trillion. Corporate deleveraging has worked wonders for banks, significantly improving their balance sheets. Thanks to the robust Goods and Services Tax and Direct Tax collections, the Government has been able to allocate funds to

productive sectors of the economy amidst global slowdown, thereby ensuring that the economy stays buoyant.

INSURANCE INDUSTRY OVERVIEW

As per a Capgemini report titled 'Life Insurance Trends 2023', globally, the life insurance sector witnessed a significant uptick in premium growth in 2021 but is now grappling with a challenging macroeconomic landscape coupled with the after-effects of the pandemic. To maintain the competitive edge, life insurance companies must prioritise business resilience as their primary objective given that this is a long-term business. Additionally, they need to intensify their pursuit of operational excellence and expedite digital transformation efforts.

In India, the life insurance industry occupies a prominent position in the country's financial sector due to several factors. Owing to changes in the regulatory framework, growing awareness of insurance products, Government support and technological advancements, the industry finds itself in a sweet spot. According to a recent report by Swiss Re, the insurance sector in India is expected to become the sixth-largest market globally by 2032. Besides, it is poised to be one of the largest employment generators.

Also, there are some impressive data points about the sector, that I would like to highlight. The assets under management of the industry have skyrocketed from ₹ 2.3 trillion at March 2002 to a staggering ₹ 52.5 trillion at March 2022. Furthermore, the in-force sum assured has grown from ₹ 11.8 trillion at March 2002 to ₹ 205.5 trillion at March 2022, demonstrating the rising popularity and importance of life insurance in the country.

With rising incomes and growth in household purchasing power and savings, the insurance industry is expected to witness new trends in product innovation, improved claims management and expanded multi-channel distribution network, which is well supported by a facilitative regulatory framework. As penetration increases in under-served markets, the sector's expansion will contribute significantly to the country's economic growth.

ENCOURAGING REGULATORY REFORMS

In fiscal 2023, the Insurance Regulatory and Development Authority of India (IRDAI) introduced several ground-breaking reforms aimed at transforming the industry. These reforms reflect a broader drive to increase insurance penetration, to strengthen the sector's competitiveness and to create an inclusive and efficient marketplace.

Specifically, the increased flexibility in launching new products through the Use and File regime which has been permitted for certain product categories will enable insurers to respond more quickly to changing customer needs, thereby supporting the IRDAI's vision of improving insurance penetration in the country. Reforms such as new regulations for registration of companies will attract more domestic and foreign investments, eventually leading to increased and healthy competition. Increasing the number of permissible tie-ups for corporate agents and insurance marketing firms will expand customer choice and lead to innovative products and better service. Similarly, eliminating the requirement for prior approval to raise Tier 2 capital will enhance solvency.

The IRDAI, in its pursuit of its objective of "Insurance for all" by 2047, has put forth several initiatives which are currently under various stages of discussions. These initiatives, namely Bima Vahak, Bima Vistaar and Bima Sugam can be catalysts for driving the Regulator's objective.

Bima Vahak, intended to be a women-centric insurance distribution channel, will focus on addressing the diverse needs of the rural population by providing them with a hassle-free and convenient means of fulfilling their insurance needs. Bima Vistaar is a composite insurance product fashioned to meet the unique insurance needs of the rural population.

Bima Sugam is the Regulator's proposed solution to modernise and simplify the insurance industry. It is an all-in-one digital platform combining solicitation, service and claims processes for a seamless experience to customers and insurance providers by leveraging the evolving Indian digital ecosystem. This initiative has the potential to be the UPI moment for the insurance industry.

EMERGING TRENDS

The global insurance market is going through a major shift towards digital-first business models. As insurers increasingly focus on personalised premiums and usage-based coverage, they are adopting state-of-the-art technology such as Internet of Things (IoT), Artificial Intelligence (AI), Machine Learning (ML) and Advanced Analytics to develop more precise risk profiles of individuals and offer customised products and processes.

In my opinion, some of the trends that will emerge from the increased use of technology include seamless onboarding and claims experience. AI-powered Chatbots and virtual assistants will deliver personalised support. We will witness a surge in usage-based insurance, leveraging data analytics and predictive modelling to assess risks more accurately, offer dynamic pricing and develop targeted product offerings. There will be a greater emphasis on wellness initiatives as part of the service offering to enhance customer engagement.

A TRANSFORMATION STORY LED BY THE 4P STRATEGY

Let me now delve deeper into our transformation story. I am delighted to announce that, despite the unprecedented challenges posed by the COVID-19 pandemic and the persistent market volatility, we have successfully surpassed our stated objective of doubling our FY2019 absolute VNB by FY2023. Our VNB for FY2023 stood at ₹ 27.65 billion at a VNB margin of 32%.

To pursue our goal, expanding our distribution network was one of our top priorities, which we achieved by acquiring new partners and developing innovative sourcing channels. As of March 2023, we have established over 900 partnerships, including 39 bank partners, giving us access to more than 17,500 bank branches. We now have over 200,000 advisors, with more than 33,500 recruited in FY2023 alone. This has helped us to create a robust and well-diversified distribution mix and all our distribution channels have been growing at a healthy pace. The distribution mix in FY2023 comprised 30% from bancassurance, 26% from agency channel, 17% from group, 15% from partnership distribution and 12% from direct business.

To cater to the evolving needs of our customers, we invested extensively in product development resulting

STRATEGIC REVIEW

in an array of customer-centric products across the protection, savings and pension segments. In FY2023, the Company launched innovative products such as ICICI Pru Sukh Samruddhi and ICICI Pru Gold. These products have received positive feedback from our customers. In FY2023, non-linked products contributed 37%, linked comprised 36%, protection stood at 17%, while annuity and group products were at 6% and 4% respectively. We now have a well-diversified product mix catering to the needs of several customer segments.

Our protection business has exhibited consistent growth, as evidenced by the new business sum assured of ₹ 10.41 trillion in FY2023. This growth has enabled us to achieve a market share of 14.3% in FY2023, based on new business sum assured. Additionally, in the annuity business, which is a rapidly expanding product category within the industry, the Company registered a year-on-year growth of 69%. I am pleased to inform you that we are recognised as one of the leading providers of pension and annuity products in the industry. In FY2023, our annuity and protection business jointly contributed 47.8% of the new business received premium.

HUMAN CAPITAL STRATEGY

Our people are at the core of our success. They are the driving force of our strategy and their growth and development are what gives us the competitive edge. Some of the areas that I would like to highlight include the implementation of a multi-platform capability architecture that provides learning opportunities for all employees. This initiative has empowered our people to acquire new skills, boost productivity and advance their careers, while also helping us build a workforce that is future-ready. During FY2023, over 12,000 employees were certified, with a cumulative learning time of over 1.3 million hours.

We introduced an Equal Opportunity, Diversity & Inclusion policy in FY2023. We also instituted a Diversity Council and adopted a four-pronged ABCD framework to implement it. This framework serves as a tool to attract a diverse range of talent, enhance workplace belonging and foster meaningful connections with employees from various groups through supportive policies and platforms. Notably, the framework includes Diversity Dashboards that enable us to track our progress towards further achieving diversity in our workforce.

Employee well-being has been a priority for us and we have established a comprehensive framework for physical, mental and financial health. This initiative has helped us create a thriving workplace culture that values our people's wellness and happiness. Also, our biennial Voice of Employee survey enables us to identify pertinent areas of improvement at the workplace. We listen, empathise and respond to their needs effectively. Our employees

have given us scores above 90% on parameters such as Advocacy, Alignment, Mood and Support in times of their need. They have also appreciated the challenging roles we offer, coupled with learning and growth opportunities, a safe and secure workplace and adequate freedom to perform well.

LEVERAGING TECHNOLOGY

Technology is the backbone of our Company's efforts towards delivering unparalleled services to our customers. In today's fast-paced world, we understand that customers expect a seamless and personalised experience and technology plays a critical role in making this a reality. We have therefore made significant investments in new-age technologies such as data analytics, AI and ML to provide tailor-made insurance solutions to our customers.

We have developed robust ML models to analyse customer behaviour, preferences and needs to provide a personalised experience. Also, these models are enabling us to streamline claims and bolster our risk management processes.

Our Mobile App has been a game-changer, with over 1.5 million downloads and 3.4 million digital service interactions every month. The app provides access to over 45 types of policy transactions, making it easier than ever before to manage insurance policies on-the-go. In FY2023, we introduced new features in the app, such as access to free health webinars and a fitness tracker to encourage our customers to lead healthy lifestyles.

CUSTOMER-CENTRICITY

Our driving force in the last two decades has been our strong commitment to being a customer-centric brand. Our innovative products with industry-first features resonate well with our customers and are a testimony to our product development approach. Our customer service architecture encompasses being fair, transparent, responsive and empathetic. Through our digital enablers such as WhatsApp, Mobile App, Website and Chatbot LiGo, we have empowered our customers to initiate and complete service requests independently. Over 92.5% of service interactions in FY2023 were conducted by customers in the self-help/digital modes, showcasing the convenience of our anytime anywhere digital platform.

Claims is the moment of truth for us and as a Customer-First brand we have been delivering on the promises made to our customers. We have introduced a quick claim assistance process and real-time tracking for pre-claim assessments. These initiatives have enabled us to further bring down the claims settlement turnaround time. In FY2023, the average turnaround time for non-investigated retail death claims, after receiving all documents, stood at 1.21 days, a marked improvement from 2.34 days in FY2019.

Across the customer life-cycle, the Company has successfully implemented technology and digital solutions. The outcome of this is the steady increase in digital adoption percentages and an impressive boost in our Net Promoter Score. I feel proud to share that ICICI Prudential Life Insurance has secured the distinguished position of being India's premier life insurance provider, as per the Insurance CuES report, published by Hansa Research.

Our commitment to excellence has also been recognised through several awards in innovation, customer service and technology. Notably, we were named the 'Most Innovative Insurer' in the Life category and recognised for 'Excellence in Driving Distribution through Digital' by FICCI. We were also honoured to receive the 'Innovation Award' in the category of new customer propositions and experiences by ASSOCHAM.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG) FOCUS

Sustainability is intrinsic to life insurance and our vision is to build an enduring institution that serves the protection and long-term saving needs of customers with sensitivity. We, therefore, strive for sustainable value creation for all our stakeholders. Our sustainability framework is built on the three pillars of Environmental, Social and Governance, which we have integrated into our business processes.

Through our commitment to benchmarking our ESG against leaders from other industries and implementing initiatives based on a gap analysis, we have achieved significant progress. As a result of our efforts, two prominent ESG rating agencies have upgraded our scores and we are now the highest-rated Indian insurance Company. I am delighted to announce that our dedication to corporate governance has also been recognised by Dun & Bradstreet with the 'Corporate Governance' award, a testament to our unwavering commitment to operating in a responsible manner.

WAY FORWARD

India is poised to emerge as the third largest economy in the world by 2029. However, it is intriguing to note that life insurance currently occupies a mere 17% of the total household financial savings in India. This statistic highlights a significant growth opportunity for long-term savings products. Also, the protection gap in the country points to a huge untapped opportunity for life insurers.

Moreover, retirement as a category is fast becoming the next frontier for growth. Currently, only 11% of the working population in India has access to any form of a pension programme. Also, the value of pension assets stands at just 5% of the country's GDP. These numbers coupled with favourable demographic factors such as a burgeoning middle class, increasing urbanisation, rise

in working population and improving per capita income indicate retirement planning needs of customers are substantially under-served.

Over the last few years, with the objective to be a more resilient organisation, we have invested in enhancing our long-term capabilities. These capabilities are focussed on the building blocks of People, Process, Technology & Analytics and Product & Distribution. In the longer term, these capabilities will serve as a robust platform for sustainable growth, quality of business and profitability of the Company.

As we set our sights on the future, we stand poised to seize the immense potential within the insurance landscape of our country, with a favourable economic environment and supportive regulatory framework. With our steadfast resilience as an organisation, we are fully equipped to capitalise on the enormous opportunities that lie ahead. We have all the levers available with us to continue our journey of sustainable growth, going forward.

NEW BEGINNINGS

Looking back, I feel humbled and fortunate to have got the opportunity to work with the ICICI Group for over three decades. My career began with ICICI Limited as a Project Officer and I have had the privilege of working with several group companies and functions, alongside some of the brightest minds in the industry. The opportunity to learn and grow has been phenomenal and unparalleled. Over the past few years, I have witnessed the remarkable growth and success of ICICI Prudential Life Insurance as we continued to set new industry benchmarks and achieved several industry-first accomplishments. It brings me great satisfaction to have been a part of this journey.

I would like to extend a warm welcome to Mr. Anup Bagchi, who will succeed me as the MD & CEO upon my superannuation on June 18, 2023. Mr. Bagchi, a veteran of the ICICI Group, has till recently been serving as a non-executive director on the Board of ICICI Prudential Life Insurance. I would like to thank our Chairman and the Board for putting in place a well thought out succession plan.

Let me also take this opportunity to express my gratitude to all our employees for their dedication, hard work and resilience. I would also like to express my gratitude to each one of you who contributed to and supported our journey in serving millions of customers and improving lives and livelihoods. Finally, I am grateful to our Board, Regulators and the Government for their continued support and constant guidance throughout this incredible journey.

Warm Regards

N. S. Kannan
Managing Director & CEO

STRATEGIC REVIEW

This is a regular-pay deferred annuity plan that is specially designed to help customers build retirement savings gradually and receive guaranteed lifelong income. The plan offers a wide range of seven annuity options. It also offers the Joint Life Annuity option with a unique feature of 'Waiver of Premium' benefit. Upon demise of the primary annuitant during the premium-paying term, all the future premiums are waived and the secondary annuitant receives a lifelong guaranteed income.

ICICI Pru Saral Pension Plan

This is a single premium immediate annuity plan designed to offer a simplified retirement solution to customers in the form of lifelong guaranteed income. Additionally, the plan provides liquidity if the annuitant, spouse or any child of the annuitant is diagnosed with specified critical illnesses.

STRATEGIC REVIEW

Key Performance Indicators

MEASURING INCOME

Annualised Premium Equivalent (APE)

Sum of annualised first year premiums on regular premium policies and ten percent of single premiums, from both individual and group customers.

New Business Premium

Sum of first year premiums on regular premium policies and single premium received on retail and group products.

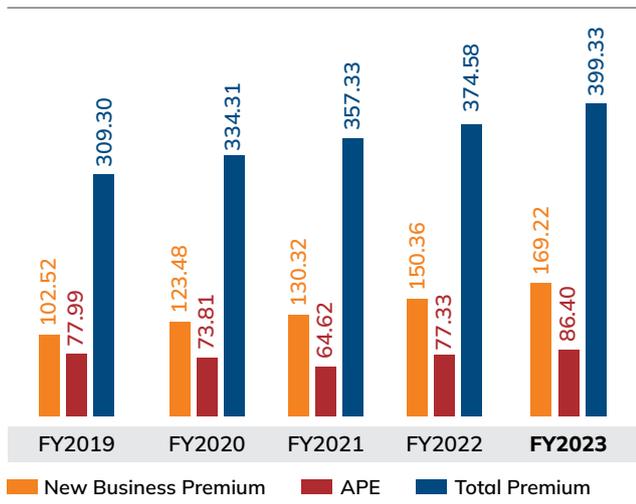

Total Premium

Total premiums received on both retail and group products and is the sum of first year and renewal premiums on regular premium policies and single premiums.

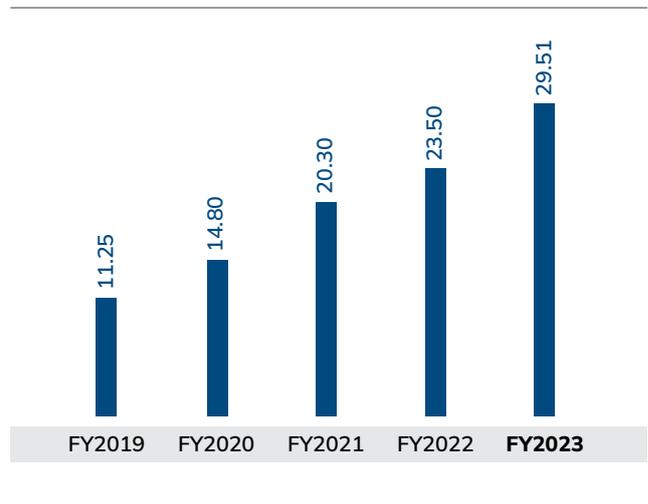

Sum Assured or Life Cover

It indicates the quantum of money that an insurer agrees to pay on the occurrence of a stated contingency.

MEASURING PROFITABILITY AND EMBEDDED VALUE

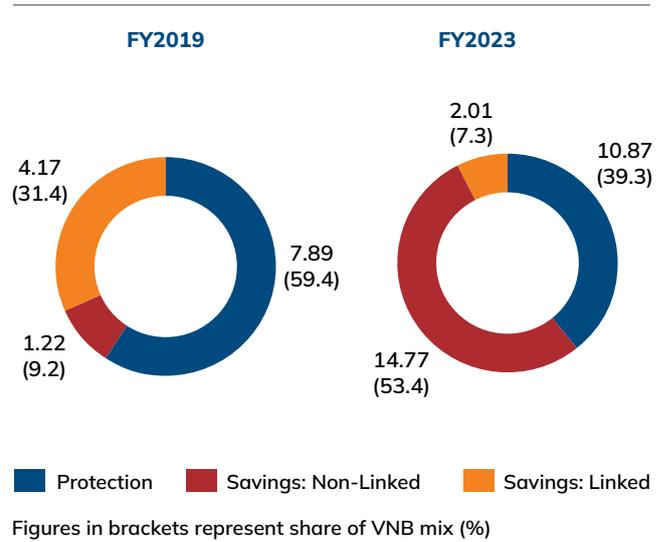

Value of New Business (VNB) and Value of New Business Margin (VNB Margin)

VNB is a measure of profitability. It is the present value of future profit streams to shareholders as measured in the year in which the new business is written. VNB is reported net of new business expenses. VNB margin is the ratio of VNB and APE for the period. It is similar to the profit margin for any other business/industry.

VNB (₹ billion) and VNB Margin (%)

VNB Split (₹ billion)

Embedded Value (EV)

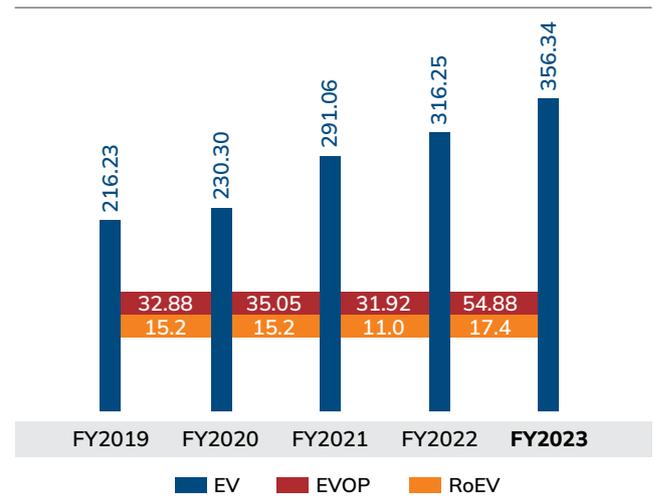

EV is a measure of the consolidated value of the shareholders' interest in the life insurance business. It is calculated as the sum of the Company's Adjusted Net Worth (ANW) and the Value of In-Force business (VIF). The VIF includes the present value of future profits attributable to shareholders from the in-force business of the Company (which includes the new business written during the previous year). Future profits are computed based on assumptions such as persistency, mortality, morbidity and external factors like interest rates and capital market performance.

Embedded Value Operating Profit (EVOP)

EVOP is a measure of the increase in the EV during any given period due to matters that can be influenced by Company management. The key components of EVOP are expected investment income on opening EV (unwind), the VNB added during the year and the EV variances.

The EV variance is a measure of the performance as compared to what was assumed in arriving at the EV at the beginning of the year. The key factors are mortality, persistency and renewal expenses. If these variances are expected to continue in the future, then it is usual to capitalise these variances by way of an assumption change.

STRATEGIC REVIEW

MEASURING FINANCIAL STRENGTH

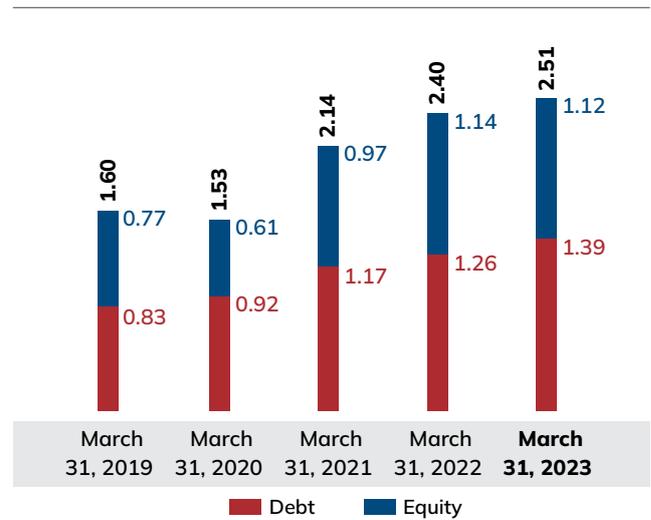

Solvency Ratio or Solvency Capital

Solvency is a regulatory measure of capital adequacy. It is expressed as a ratio of available capital to required capital. A high solvency ratio instils confidence in the ability of the Company to pay claims, meet future contingencies and fund growth plans. IRDAI mandates a minimum solvency ratio of 150%.

Solvency Ratio (%)

Assets Under Management (AUM) (₹ trillion)

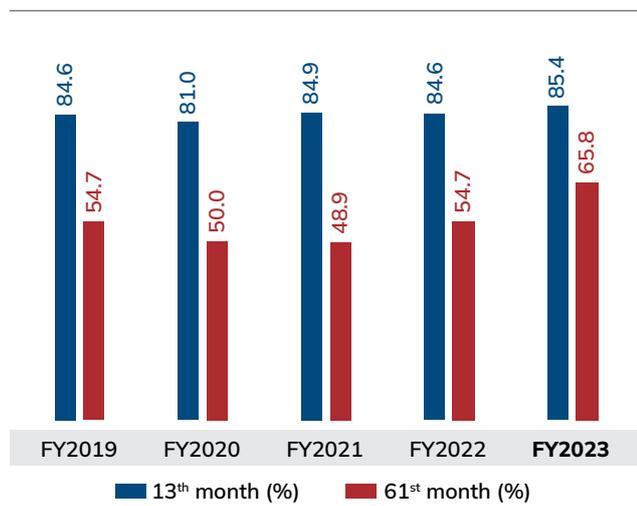

MEASURING QUALITY OF BUSINESS

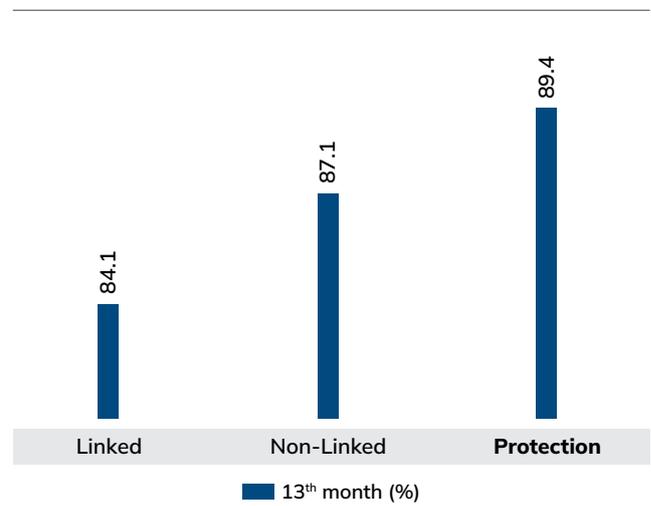

Persistence

It measures the proportion of policyholders who have continued with their policies, indicating the Company's ability to retain customers. The 13th month persistency ratio reflects the quality of the sale and the 61st month reflect the proportion of customers paying beyond the term of 5 years. From a customer's point, they benefit from lower effective charges the longer they continue with the policy.

Claims Settlement Ratio

The percentage of claim settlement ratio is computed as follows: $\text{Number of individual claims settled} \div \text{Total number of individual claims (outstanding at the beginning of the year + intimations for the year)} \times 100$.

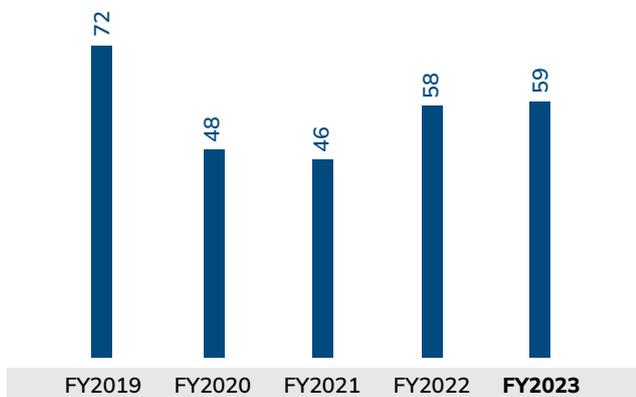

Grievance Ratio

It is the number of grievances received per 10,000 new business policies issued (retail). A low grievance ratio indicates higher customer satisfaction.

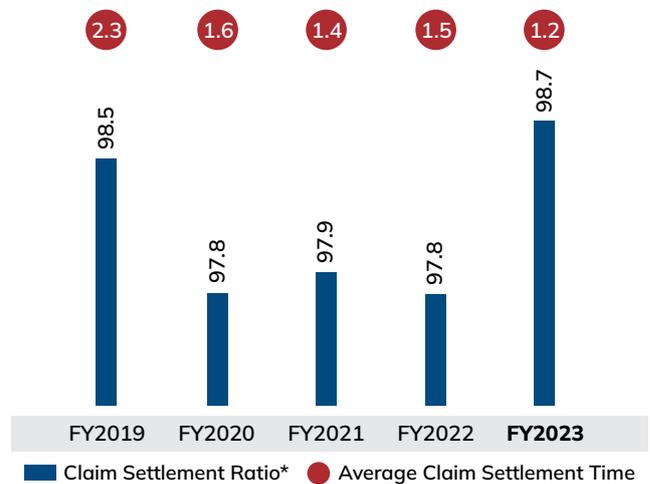

Claim Settlement Turnaround Time

It is the average time taken to settle a retail death claim from the date of receipt of the last requirement for non-investigated claims.

STRATEGIC REVIEW

Ethical Practices and Governance

ETHICAL BUSINESS PRACTICES

The Board of Directors is committed to upholding the highest standards of corporate governance and ethical business practices. They firmly believe that these principles are essential for business integrity, driving performance and maintaining stakeholders' confidence.

The Board provides leadership and oversight, either directly or through Committees of Directors and exercises delegated authority. It reviews all matters related to the Company's strategy and standards of conduct. The Board is also responsible for ensuring that the management maintains a system of internal controls that provide assurance of effective, efficient and timely operations, internal financial controls and compliance with applicable laws and regulations. The organisation encourages and provides a mechanism/framework for disclosure of any unlawful acts, wrongdoings and deviant behaviour and ensures necessary action.

GOVERNANCE & RESPONSIBILITY FRAMEWORK

The Board has established a framework of policies and practices which identifies all the elements of a sound approach to governance and responsibility. A Management Committee, comprising senior officers led by the Managing Director & CEO, uses this framework to set and monitor governance and responsibility objectives, identify improvement opportunities and ensure that activities are aligned with the pre-defined business strategy. Reputation, trust and confidence are some essential elements that we seek to protect and enhance for the benefit of all our stakeholders.

Given below are some key elements of our Ethical Business Practices and Governance Philosophy:

Board Governance Structure: We operate under a governance structure designed to establish effective checks and balances in the management of our Company and create long-term value for our stakeholders. The Board's constitution duly adheres to the applicable statutory requirements. The separation of Board's supervisory role from the executive management and an effective independent Board is the basis of our corporate governance philosophy. Diversity in Board composition ensures having diverse thoughts, perspectives, knowledge, skills and industry experience to retain our competitive advantage. The Chairman of the Board is an Independent Director and the Board Committees comprise mostly of Independent/ Non-Executive Directors (NED) and are chaired by Independent Directors (ID).

Employee Compensation Structures and Governance:

The Company follows prudent compensation practices under the guidance of the Board and the Board Nomination and Remuneration Committee (BNRC). The Company's approach to compensation is based on the ethos of meritocracy and fairness within the framework of prudent risk management. While the Company aims to ensure internal and external equity consistent with emerging market trends, the Company's business model and affordability based on business performance sets the overarching boundary conditions. The output from the Performance Management System and Talent Management System serve as inputs for administration of the Compensation Policy.

Our long-term pay schemes including the Company's Employees Stock Option Scheme are designed to encourage institution building among employees. As a philosophy, long-term pay is given to enhance employee motivation, enable employees to participate in the long-term growth and financial success of the Company and act as a retention mechanism.

For the Managing Director & CEO, compensation is aligned to both financial and non-financial indicators of performance including controls like risk management, process perspective, customer perspective and others.

Compensation for Wholtime Director/s is aligned to their predefined key performance indicators, as approved by the Board and BNRC. Compensation is also aligned with prudent risk parameters such as solvency, grievance redressal, expense management, claim settlement, overall compliance status and the overall financial position such as Net Worth and Assets Under Management (AUM). The quantum of performance bonus as a percentage of total fixed pay is governed based on the Compensation and Benefits Policy.

Compliance Framework: The Insurance and Regulatory Development Authority of India (IRDAI) is the primary regulatory authority for the insurance sector in the country. The Board of Directors, through the Board Audit Committee, oversees our compliance framework. The Company has various compliance policies and procedures, including a compliance policy, code of business conduct and ethics, policy against sexual harassment at workplace, professional workplace conduct, anti-bribery and anti-corruption policy, whistle-blower policy and a code of conduct for personal investments. The compliance responsibility vests with each business department, with the Compliance Policy serving as a guiding force in building the compliance culture within the organisation. In accordance with the above framework, the Compliance function creates Company-wide awareness and provides guidance on applicable insurance laws, regulations, guidelines and circulars issued by the regulatory authority.

Risk Management: Risk is an integral element of our business and managed acceptance of risk is essential to generate shareholder value. The risk governance structure of the Company consists of the Board, Board Risk Management Committee, Executive Risk Committee and its sub-committees. The risk philosophy of the Company is outlined in the Board-approved Risk Policy, which is reviewed by the Board at least annually. The Risk Policy details identification, measurement, monitoring and control standards relating to various individual risks, namely investment (market, credit and liquidity), insurance, operational (including legal, compliance, outsourcing, business continuity, information and cyber security) and reputation.

The Board periodically reviews the potential impact of strategic risks such as changes in macro-economic factors, government policies, regulatory environment and tax regime on the business plan of the Company. In addition to these risks, the life insurance industry faces a number of emerging risks, such as ESG-related risks. One of the most prominent ESG risks is that of climate change and its potentially far-reaching consequences. Apart from climate change, there are several emerging risks associated with public health trends such as increase in obesity-related disorders and demographic changes such as population urbanisation and ageing. The risk management framework seeks to identify, measure and control our exposures to all these risks within the overall risk appetite.

Investment Framework: The Board and Board Investment Committee (BIC), supported by the Executive Investment Committee (EIC), oversees investment management, investment norms and the monitoring and control processes related to investments. The Investment Policy sets out the framework and guidelines for the management of investments with the objective of ensuring adequate returns on the policyholders' funds with protection, safety and liquidity of such funds. The framework encompasses aspects concerning compliance with prudential regulatory norms on investments, prudent risk management and mitigation strategies to ensure commensurate yield on investments.

Framework for Managing Conflicts of Interest: The Company has a Framework for Managing Conflicts of Interest that clarifies the principles and the measures to manage potential conflicts of interest at the individual and organisation level, in order to conduct its activities in an ethical and transparent manner. Declarations are annually obtained from employees on any potential conflicts of interest, which are duly assessed and acted upon.

Code of Conduct: The Company is committed to adopting the highest business, governance, ethical and legal standards in the conduct of its operations. The Company has a Code of Conduct which defines the professional

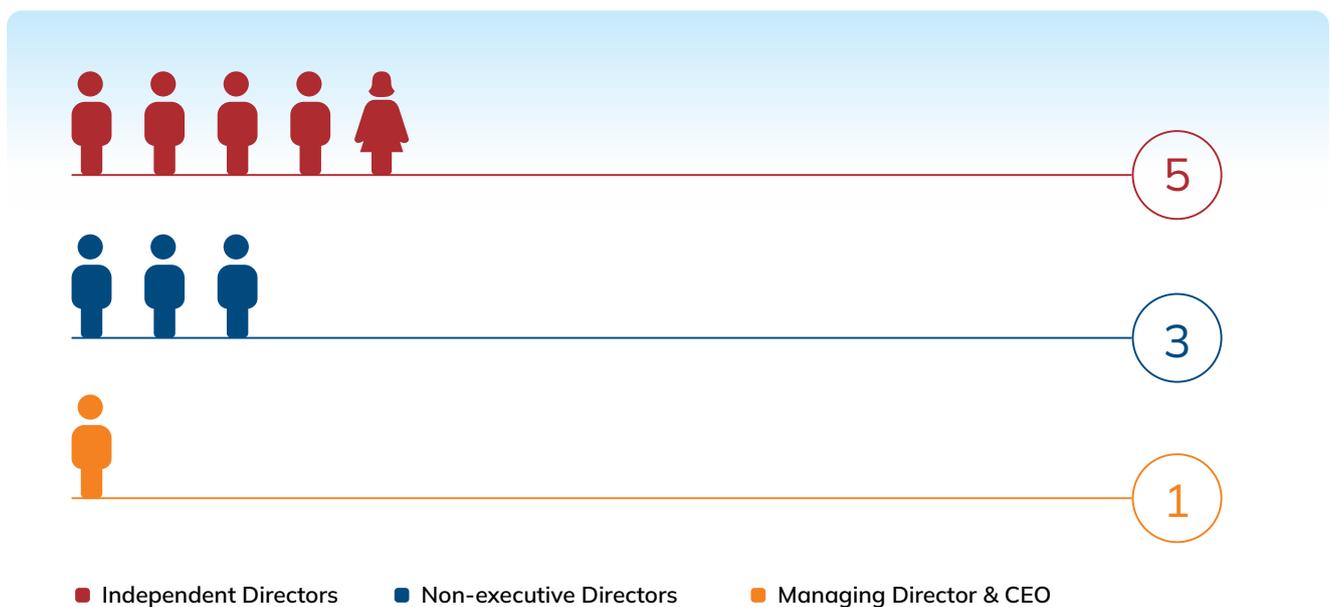

and ethical standards that employees and Directors need to adhere to, in compliance with all applicable statutory laws, regulations and internal policies. The Code of Conduct is published on the Company's website and Intranet. Employees including Directors are required to annually confirm that they have read and understood the Code of Conduct. All new employees also need to confirm that they have read and understood the Code of Conduct at the time of their joining.

Code of Conduct for Dealing in Securities (Code): The Code reflects our commitment to always operate with the highest level of integrity and ethical conduct at all times. The Code establishes trading limitations and includes requirements for pre-clearance of personal securities transactions and minimum holding periods. Depending on the line of business and job function, employees may also be required to comply with an additional policy applicable to specific corporate functions. Policies that apply to employees may also apply to their spouses, minor children or anyone to whom the employee provides significant financial support/advice.

Certain provisions of the Code apply to Directors including NEDs and IDs. Further, employees dealing in the Company's securities are subject to more restrictive personal trading policies.

STRATEGIC REVIEW

Operating Context

A CHANGING BUSINESS ENVIRONMENT

In the context of the current social security framework available for our citizens, life insurance is a key social need in India. It is a unique financial planning tool that provides families with a financial safety-net while enabling them to achieve their long-term financial goals and protection of their families in the event of specific exigencies. The life insurance industry offers a variety of long-term savings products across debt and equity platforms. It also offers annuity, term insurance plans and 'defined benefit' health plans. Thus, the life insurance industry acts as a risk manager by providing a cover against mortality and morbidity risks. The industry has covered¹ 257 million lives through individual policies and 386 million lives through group policies, providing a total insurance cover (sum assured) of ₹ 256 trillion at March 2022.

Apart from addressing the social need, a well-developed and evolved insurance sector helps assist economic development as it plays a key role in directing household savings to the financial markets. The life insurance industry has leveraged its extensive distribution network throughout the country to provide long-term funds to both debt and equity markets. The industry has ₹ 52.5 trillion of Assets under Management¹ at March 2022. More importantly, the industry also provides long-term capital needed for infrastructure projects and is a significant source of part-time and full-time employment to professionals with varied skill levels.

THE NEW FACE OF LIFE INSURANCE IN INDIA

In addition to savings products, the life insurance industry has also focussed on the mortality and longevity needs of customers by developing innovative protection and annuity products over the past five years. During this time, the industry has also empowered its customers with self-help digital options and improved efficiency of distribution through various digital tools. Although the industry as a whole has made sizeable investments in technology, deployment levels across insurers are varied. While some insurers had looked collectively at the process, ecosystems and the technology, others had looked at only addressing specific issues. The COVID-19 pandemic pressurised the entire industry to re-imagine the complete sales process. Insurers who fully embraced digital transformation were able to overcome difficulties brought by the pandemic with ease.

Directed efforts toward financial inclusion, digitalisation, rising middle class, disposable income, awareness towards retirement planning and long-term savings and government incentives on various instruments have led to better channelising of household savings towards financial savings. This coupled with increased attractiveness of life insurance savings products, the

unique proposition of protection and annuity products and the seamless experience for customers and distribution provided by digitalisation has led to industry drawing a higher share of household savings. New business premium² of the industry has grown at a CAGR of 11% during FY2002 to FY2023.

CURRENT OPERATING CONTEXT

The size of the Indian life insurance sector was ₹ 6.9 trillion³ on a total premium basis in FY2022, making it the ninth largest life insurance market in the world⁴ and the fourth largest in Asia⁴. The current competitive industry landscape comprises 23 companies. Of these, the Life Insurance Corporation of India (LIC) commands a 34% market share based on retail weighted received premium⁵, in FY2023. The top 5 private life insurance companies together account for another 45% share of the market.

THE INDIA OPPORTUNITY

Strong economic growth in the past two decades combined with a working age population of nearly half of the overall population, makes India's life insurance industry one of the potentially largest markets today. The insurance opportunity in India can be divided into three key segments as follows:

- **Savings** - The savings market is estimated to provide a steady growth opportunity, considering the under-penetration of life insurance in India at 3.2% of its GDP for FY2022, favourable demography, rising affluence, projected economic growth and the increasing allocation of life insurance in total household savings.
- **Protection & Health** - With a protection gap of \$ 16.5 trillion, India is lagging significantly behind other more developed Asian economies. India's sum assured to GDP ratio being significantly lower compared to the rest of the world, the protection segment provides a strong multi-decade growth opportunity. As and when the regulatory environment on the Health insurance business gets further liberalised, the industry may also see new propositions on health and wellness.
- **Retirement** - The Retirement segment is the next big horizon of growth, with under 11% of India's working population covered under any pension programme.

STRATEGIC REVIEW

Risks & Opportunities

Regulatory compliance and alignment with emerging risk management practices are our key strategic imperatives. It forms a key element of our business. Managed acceptance of risk is essential to protect the stakeholders from potential risks and generate adequate shareholder value.

RISK MANAGEMENT FRAMEWORK

Our risk management framework sets out the risks that we are prepared to accept, given the expected rewards and consistency with strategic objectives and those risks for which we have no tolerance and want to avoid. The framework is designed to support risk-based decision making and sets out limits and controls to ensure that our risk exposures remain within our risk appetite.

RISK LANDSCAPE

The risks that we are exposed to can be broadly categorised into the following:

a. Market Risk

The risk arising out of variations in the level or volatility of the market prices of assets, liabilities and financial instruments, including the risk arising from any mismatch between assets and liabilities, due to external market and economic factors.

b. Credit Risk

The risk arising out of partial default, full default or delayed payments from counter-parties.

c. Liquidity Risk

The risk that the Company, though solvent, either does not have sufficient financial resources to enable it to meet its obligations as they fall due, or can secure them only at excessive cost.

d. Insurance Risk

The risk arising because of mis-estimation of the best estimate or because of random fluctuations in the frequency, size and timing of insurance liabilities. It includes mortality, morbidity and longevity risk, persistency risk and expense risk.

e. Operational Risk

Risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events. It includes legal, fraud, compliance, customer, outsourcing, information and cyber security and business continuity risk.

f. Reputation Risk

The risk of potential or actual damage to the Company's image, which may impair our profitability and/or business sustainability.

g. Strategic Risk

The risks to our business plan due to changes in various factors such as macro-economic factors, government policies, regulatory environment and tax regime.

HOW WE MANAGE RISKS

Risk Identification

- Stress testing
- Product development process
- Capital management process
- Review of bases of assumptions
- Tracking key liquidity risk indicators
- Reviewing impact of strategic risks on business plan
- Framework for business concentration risk
- Risk and control self assessment
- Review of audit findings and loss events
- Proactive cyber security and business continuity risk identification

Risk Measurement

- Risk to the solvency position
- Economic capital requirement
- Risk to the growth of the EV
- Liquidity ratio
- Actual vs expected experience
- Measurement of loss arising through process, system and manual errors
- Key operational risk indicators

Risk Control

- Investment specifications
- Asset liability management
- Product approval process
- Capital allocation decision
- Design of performance metrics and incentive structures

- Underwriting policy, claims assessment guidelines, fraud prevention policy, product contracts, reinsurance, re-pricing, experience analysis and review of bases
- Credit risk management processes
- Liquidity Contingency Plan
- Diversification of business
- Training & awareness, fraud management, business continuity management, information and cyber security framework, whistler-blower policy

Risk Monitoring

- Periodic risk monitoring of risk profile
- Risk reporting
- Financial condition reporting
- Cyber security monitoring for events and incidents

STRATEGIC REVIEW

MANAGING SUSTAINABILITY RISKS

Sustainability risks, particularly ESG (environmental, social and governance) related issues continue to increase in significance for the life insurance industry. Failure to mitigate climate change is widely being seen as the top long-term global risk facing the world today. For the life insurance industry, climate change could potentially have wide ranging implications including (but not limited to) adverse impact on economic growth and investment markets, higher than expected claims due to increased risk of future weather-related catastrophes, pandemics as well as possible changes in long-term mortality/morbidity rates.

Apart from climate change, there are several other emerging risks associated with public health trends such as increase in obesity-related disorders and demographic changes such as population urbanisation and ageing.

Sustainability could also be impacted by issues related to customer experience, reputation, corporate governance, data security and privacy.

We continue to work towards developing our understanding of ESG risks, including climate change and remain aware of industry best practices as they develop. The current industry consensus is for life insurance companies to treat climate risk as an amplifier of existing risks, rather than a new risk. Accordingly, sustainability risks including climate-related risks are integrated in our risk management framework and are a part of our Board-approved Risk Policy (“the Policy”).

Our risk appetite statements as articulated in the Policy outline specific constraints that define the total level of risk that we are willing to accept. In particular, we have

an appetite statement on customer risk and a framework to monitor outcome with the objective of taking actions to deliver positive outcome. Likewise, we have an appetite statement on reputation risk and a framework to monitor various factors that could impact our reputation.

Our corporate governance framework is aligned to the regulatory guidelines on corporate governance. Our risk governance framework, which forms a part of the overall corporate governance framework, is detailed in the above Policy. In addition to the various risk management committees, the roles and responsibilities of which are specified in the Policy, we have an Executive ESG Committee comprising senior leaders which provide oversight on ESG-related policies and initiatives and monitor their implementation.

Several other elements of our risk management framework are applicable for the management of sustainability risks as detailed in the Policy. In particular, we have a framework for information and cyber security as well as business continuity management to analyse emerging risks through regular monitoring of the external and internal environment. We have set out the technology modernisation, employee engagement approaches and process changes that are found to be effective for the rapidly changing environment.

We have been accredited with ISO 22301:2019 certification for Business Continuity Management processes and ISO 27001:2013 for Information Security Management Systems which provide additional level of assurance. We also have a privacy policy to ensure protection of sensitive personal data or information collected. Further information on our approach to sustainability risk management has been set out in the section on 'Meeting challenges from sustainability risks' of the ESG report and 'Enterprise Risk Management' of the Annual Report.

RISK OUTLOOK

A detailed review of our risk exposures to market, credit, liquidity, insurance, operational, reputation and other emerging risks, as well as the key control processes is set out in the 'Enterprise Risk Management' section of this Report in page 172. Our risk assessment process is an ongoing analysis of our risk profile. Testing the resilience

of the balance sheet is an essential element of this process. It shows how our solvency position responds to different risk factors.

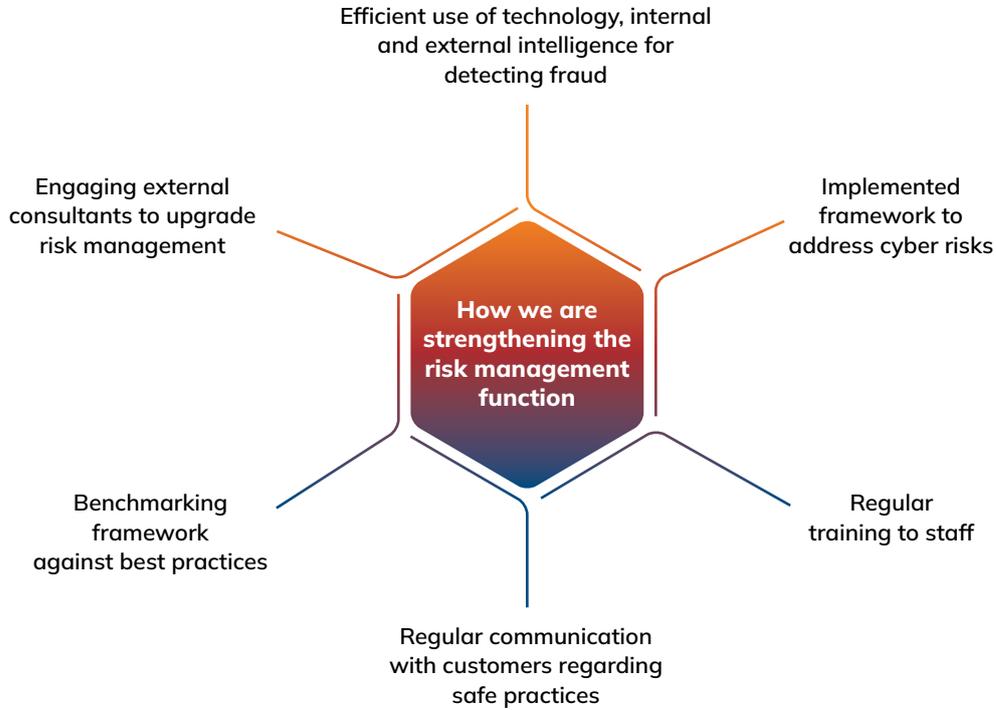

Our solvency ratio improved during the year and stood strong at 208.9% at March 31, 2023, well above the regulatory requirement of 150%. With the proposed risk-based capital framework under discussion by IRDAI, our solvency ratio on an economic capital basis is also robust at 385% at December 31, 2022. We have been carrying out stress testing of the solvency position periodically during the year and these tests demonstrate that there is no capital requirement even in further stresses. Additionally, we continued to carry out reverse stress testing and liquidity stress testing exercises during the year and these also demonstrated our resilience to scenarios which are extreme, but plausible.

During the year, we have reviewed our balance sheet exposure and taken actions to reduce the sensitivity to economic shocks, including placing hedges to further improve the resilience of our balance sheet. In addition to growth in non-linked savings products, there has been a strong growth in annuity products as well during the year. We use forward rate agreements to hedge the interest rate risk of our non-par guaranteed savings portfolio as well as the annuity portfolio. While COVID-19 related claims during the year were much lower, there has been a recent resurgence of COVID-19 infections in India and we shall continue to monitor our claims experience.

While our solvency and liquidity positions continue to remain strong, there are challenges, particularly given the current geo-political environment, changes in tax regime and competitive landscape which could potentially impede our business growth and profitability and need to be monitored closely. We believe that a series of actions that we have taken in the recent past such as developing a comprehensive product suite to cater to all customer preferences, greater digital adoption, new partner acquisition and expanding our protection business will keep us well placed to manage some of these uncertainties. As we move forward, we continue to pursue a resilient, agile and growth-oriented strategy by offering suitable products and deploying appropriate risk management practices.

STRATEGIC REVIEW

STRENGTHENING RISK MANAGEMENT

STRENGTHENING OUR CYBER SECURITY

We plan to further strengthen our cyber security posture by ensuring key initiatives in areas listed below:

People: To help employees and senior leadership understand the risks due to ever evolving landscape and their role in risk mitigation

Technology: To ensure sufficient capacity and solution deployment to mitigate/ minimise cyber risk

Processes: To promote resilience, periodic drills for ensuring business continuity and cyber security crisis management; To monitor, integrate, automate and standardise the security activities

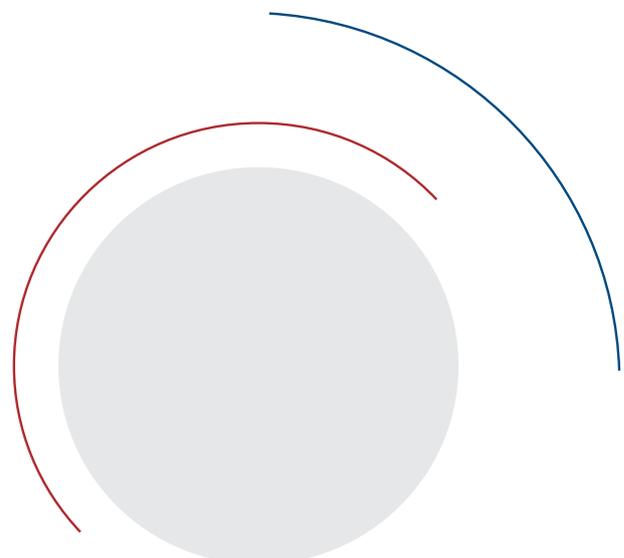

OPPORTUNITIES

Our financial strength, coupled with ongoing transformation, makes us resilient and allows us to profit from new opportunities in a fast-changing business environment. For example, by combining profound customer and market understanding and evolving data-analytics techniques, we are well positioned for growth and productivity gains. With a comprehensive product portfolio and a well-diversified distribution network, our key strategy is to capitalise the opportunities in the emerging environment, without comprising on our risk management approach.

The mortality protection gap for India, which is high compared with the rest of the world, continues to provide significant opportunities for Indian life insurance companies to increase penetration of their protection business. Further, an ageing population and an increase in average life expectancy offers opportunities for life insurers to expand their annuity business. Given our wide distribution network and strong customer proposition, we are increasingly focussing on these product segments.

The vision articulated by the regulator recently is that by the year 2047, the centenary year of India's independence, every citizen should have a life cover, health cover and old-age security. Based on this vision, the regulatory authority has taken several measures with a clear focus on increasing insurance penetration in the country and facilitating ease of doing insurance business. We expect these measures to have a pronounced impact on the growth of the industry.

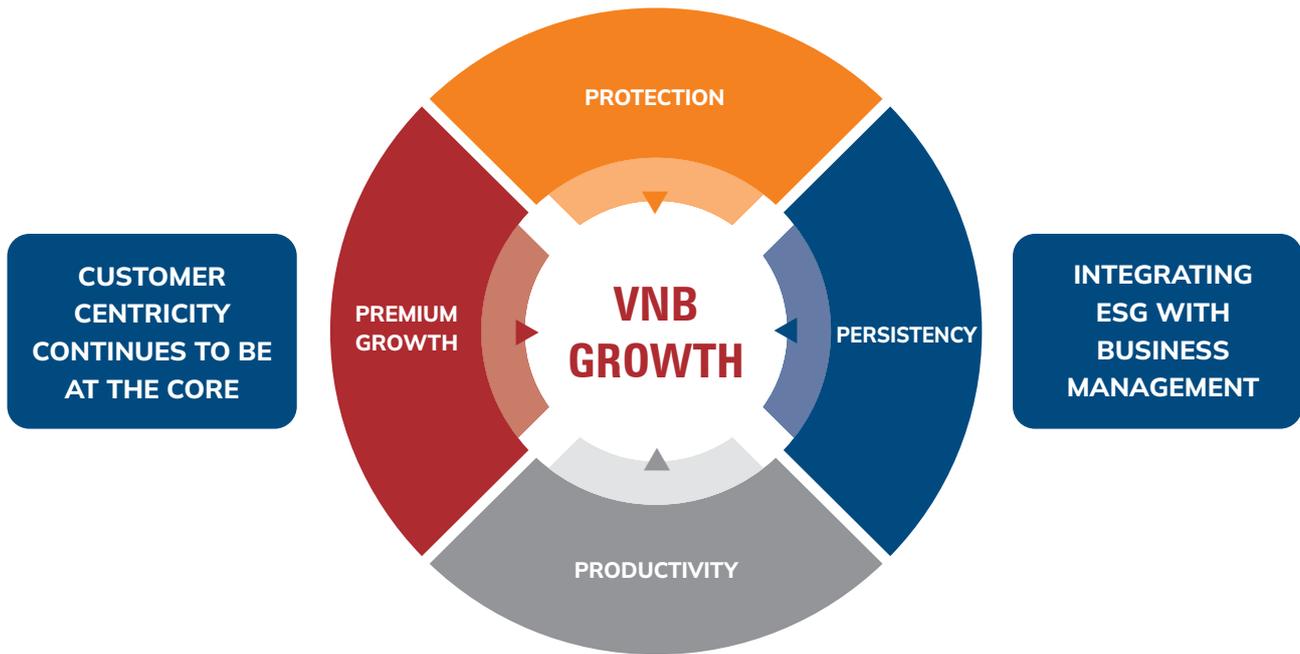

For further details on opportunities envisaged by us, please refer to the section "Opportunities and Threats" under Management Discussion and Analysis in page 151 of this report.

STRATEGIC REVIEW

Our Strategy and Progress

Our primary focus continues to be the growth of the absolute Value of New Business (VNB). We had articulated the aspiration to double the FY2019 VNB by FY2023, building on the 4P strategy of Premium growth, Protection business growth, Persistency improvement and Productivity enhancement, while keeping customer centricity at the core and integrating ESG factors into our business operations.

HOW WE PLAN TO DELIVER ON THIS STRATEGY

We will continue to monitor ourselves against the 4P framework and our performance on these dimensions is what we expect to feed into our VNB growth over time. We will also continue to invest in organisational capabilities such as People, Process, Technology & Analytics, Distribution & Product to enhance our growth trajectory.

WHAT WE ACHIEVED IN FY2023

- Doubling of FY2019 VNB objective achieved in FY2023 with industry leading margins
- We are now a resilient organisation that can successfully seize and capitalise on emerging opportunities, on the back of a well-diversified business mix and a strong balance sheet

BROAD FOCUS AREAS FOR FY2024

- To capitalise on our resilient platform and continue our journey of sustainable growth into the future
- Continue to focus on growing absolute value of new business through 4P strategy

With our customer-centric approach, we had a robust performance across service parameters. Our claim settlement ratio for individual death claims was 95.3% for FY2023. The overall claim settlement ratio* was 98.7% for FY2023. Average time taken for settlement of non-investigated retail death claims stood at 1.2 days in FY2023. Our grievance ratio was 59 per 10,000 new retail business policies issued for FY2023. Our 13th month persistency ratio⁵ was 85.4% for FY2023, which was the highest in last five financial years.

Alignment between our business and people strategy and the consistent investment in the growth and development of our employees have helped us make our human resources a source of our strength and a key competitive advantage. The focus of our key people imperatives has been to strengthen capacity through talent attraction and robust onboarding, develop Capability to enable future-ready talent and enable a Culture underpinned on delivering our employee value proposition of providing a Supportive Environment, providing Learning & Growth and ensuring Fairness & Meritocracy. Based on business requirements, capacity and capability is augmented in business growth, innovation & core roles and supported through a robust capability development framework, that involves structured learning interventions, on-the-job training, job rotation, job enrichment and self-paced virtual learning platforms. A well-defined performance & talent management system ensure alignment to the KPIs of the Company and clarity of purpose across levels, help create a talent pipeline by nurturing high potential talent and enable differentiated rewards to help ringfence talent for the future.

Key elements of our Culture include aligning employees to key organisational imperatives, fostering diversity & inclusion, enabling holistic employee well-being, crowdsourcing innovation and coming together & celebrating. In addition, mechanisms are in place to listen, empathise and respond to employee feedback through employee surveys leading to a periodic review of employee policies, processes & benefits; as well as a robust grievance redressal mechanism to ensure all employee concerns are addressed.

The people strategy has enabled the Company to have leadership stability, with 82% of the senior management

team having served the Company for more than ten years, leadership depth with 96% of senior management having done more than 3 job rotations and leadership cover with 97% of key positions at leadership levels having adequate/moderate leadership cover.

Sustainability is intrinsic to our vision of building an enduring organisation that serves the long-term savings and protection needs of our customers with sensitivity. We are committed to integrating sustainability with our business processes and as a way of doing business. The benefits of imbibing sustainable practices are multifold - attracting more customers, lowering energy and water consumption, having greater social credibility, attracting talent, boosting employee morale, building stronger community relations, overcoming increasing regulatory pressure in the form of better governance. We adopted the ESG framework in 2020 and our ESG initiatives are overseen by the recently amended Board Sustainability and CSR committee. This year we expanded the terms of reference of our Board CSR Committee to include review of sustainability activities and key ESG related disclosures. Under the Board Committee, we have the Executive Sustainability Steering Committee which comprises members of our management committee supported by a dedicated ESG resource. This Committee sets the ESG agenda and reviews progress. We have focussed initiatives in place for each dimension of the ESG framework under the environment (leaving the planet a better place for our next generation), social (giving back to society) and governance pillars (transparency in functioning). Each focus area is anchored by a senior leader who oversees the implementation & reporting of the initiatives and they are supported by a dedicated ESG resource. We are also interacting with various investors and analysts to understand their expectations and incorporate the same in our ESG framework.

For our shareholders, our primary focus continues to be the growth of the absolute Value of New Business (VNB) through the 4P strategy. We will continue to monitor ourselves against the 4P framework and our performance on these dimensions is what we expect to feed into our VNB growth over time. We will also continue to invest in organisational capabilities such as People, Process, Technology & Analytics, Distribution & Product to enhance our growth trajectory.

STRATEGIC REVIEW

PREMIUM GROWTH

The Company endeavours to grow premium through:

- **Deepening penetration in under-served customer segments:** The Company will continue to focus on broadening the customer base through initiatives spanning across both distribution and products.
- **Enhancing distribution:** The Company will look to strengthen its distribution network through a closer mapping of distribution segments with customer segments and products. The Company is also focussed on expanding the distribution network through acquisition of new partners as well investing in creation of new sourcing channels.
- **Focus on pension & annuity:** The Company would continue to cater to the retirement savings need of customers while managing the investment risk appropriately.

Progress

Our Annualised Premium Equivalent (APE) grew by 11.7% from ₹ 77.33 billion in FY2022 to ₹ 86.40 billion in FY2023. Within channel segments, partnership distribution grew by 78.2%, group APE grew by 25.8%, agency grew by 24.7%, bancassurance (ex-ICICI Bank) grew by 23.6% and direct business grew by 6.7% whereas ICICI Bank channel declined by 38% year-on-year. Within product segments, annuity grew by 69%, non-linked savings APE grew by 51.9%, group funds grew by 17.2% and protection APE grew by 14.5% year-on-year. Linked business declined by 17% compared to last year.

PROTECTION BUSINESS GROWTH

We are focussed on expanding the protection and health business across both retail and group segments. This would be done by offering protection products across channels, penetrating the online term insurance market and partnering with loan providers to offer coverage against loans.

Progress

The protection APE grew by 14.5% from ₹ 13.13 billion in FY2022 to ₹ 15.04 billion in FY2023. We have focussed on revival of the retail protection business and this effort has started yielding results with strong y-o-y growth registered in Q4-FY2023. We continue to take advantage of the opportunity available in the group segment, specifically on group term products leading to increased demand for the group term products. Our new business sum assured grew by 34.7% from ₹ 7.73 trillion in FY2022 to ₹ 10.41 trillion in FY2023. We were the private sector market leader with an overall market share increasing from 13.4% in FY2022 to 15% in FY2023.

PERSISTENCY IMPROVEMENT

We believe persistency is probably the most effective indicator of the quality of sale and is a barometer of customer experience. This parameter tracks the percentage of customers renewing their policies. Maintaining a high level of persistency is critical to drive value for both customers as well as shareholders. We would seek to drive persistency improvements across all durations by encouraging long-term behaviour in our customers.

Progress

For FY2023, our persistency ratios for 13th month and 61st month were stable at 85.4% and 65.8% respectively, which is the best in the last five years.

Particulars	FY2022	FY2023

PRODUCTIVITY ENHANCEMENT

Our productivity improvement initiatives are targeted at improving cost ratios. Technology and process re-engineering have been at the centre of our efforts to improve cost ratios. We would continue to leverage the digital platform to improve customer experience and efficiency of our service operations.

Progress

Our total expenses grew by 20.7% y-o-y for FY2023. The absolute expenses are higher as compared to the same period last year due to investments made in order to deliver sustainable growth in the future. Our overall cost to Total Weighted Received Premium (TWRP) stood at 21.5% and the cost to TWRP ratio for the savings business at 14.2% for FY2023. Even with the cost increase, our cost to average assets under management has been stable at 2.6% for FY2023.

VALUE OF NEW BUSINESS (VNB)

For our shareholders, we delivered the articulated objective of doubling the FY2019 Value of New Business (VNB) in FY2023. Our VNB increased from ₹ 21.63 billion in FY2022 to ₹ 27.65 billion in FY2023 registering a growth of 27.8% and VNB margin improved from 28% in FY2022 to 32% in FY2023. VNB for the savings and protection business increased from ₹ 12.39 billion and ₹ 9.24 billion respectively in FY2022 to ₹ 16.78 billion and ₹ 10.87 billion respectively in FY2023.

The diversification in the sources of profit that we have achieved gives us a robust base for the future.

STRATEGIC REVIEW

Financial Capital

KEY HIGHLIGHTS OF FY2023

- Doubling of FY2019 VNB objective achieved in FY2023 with industry leading margins
- High asset quality; zero NPA since inception
- Emerging mortality experience continues to be consistent with expectation

WHAT THIS CAPITAL IMPLIES

The Financial Capital represents the amount of capital employed in the business to support operations and business strategy to generate shareholder value. Our financial resources comprise internal accruals, borrowings and shareholders' equity. Our approach is focussed around profitable and sustainable expansion to maximise value creation.

HOW IT ADDS VALUE TO THE COMPANY

There are no liability issues and the emerging mortality experience is consistent with our expectation. Our asset quality is high. Our solvency levels are strong and well above the regulatory threshold. We have demonstrated a consistent track record of healthy compounding of VNB and added multiple pools of profit. The resilience built across the insurance risk, investment risk, solvency levels and profitability is reflected in our strong balance sheet.

KEY CHALLENGES OF THE CAPITAL

Credit risk, liquidity risk, market risk, mortality and morbidity risk, persistency risk, expense risk, operational risk, reputation risk and sustainability risk

STRATEGIC GROWTH DRIVERS

Our primary focus continues to be the growth of the Value of New Business (VNB) through the 4P strategy of Premium growth, Protection business growth, Persistency improvement and Productivity enhancement.

We have continued to maintain a strong and resilient Balance Sheet since inception. Our shareholders' net-worth increased to ₹ 100.92 billion at March 2023. Our Embedded Value, which also includes the present value of future profits attributable to shareholders from the in-force business, was ₹ 356.34 billion at March 31, 2023.

The solvency ratio was 208.9% at March 31, 2023 against the regulatory requirement of 150%. We started disclosing economic solvency ratio in our quarterly business presentation from Q4-FY2023.

We have built resilience across risk, capital and profitability aspects. There are no liability/reserving issues and the emerging mortality experience is consistent with our expectation. The liquidity and asset-liability positions are monitored regularly. Of the total liabilities, non-participating guaranteed return products comprise only 4.2%. On the fixed income side, only 0.3% of the portfolio has been invested in bonds rated below AA. Our asset quality is high and we have had zero non-performing assets since the inception

of the Company. We use forward rate agreements to hedge interest rate risk for our non-par guaranteed savings portfolio.

STRATEGIC REVIEW

Intellectual Capital

KEY HIGHLIGHTS OF FY2023

- Personalised proposal
- Digital rating sheet
- Integration with ecosystems
- Seamless journey
- Humanoid calling
- Data analytics

WHAT THIS CAPITAL IMPLIES

Technology and Innovation parts of Intellectual Capital stand for cutting-edge digital platforms for customers, partners and employees. Our goal is to continuously embrace ecosystems and technological breakthroughs and introduce innovative use cases within the insurance industry. The investment part of the capital implies the cumulative experience of all the fund managers, research analysts and dealers, backed with technological resources.

HOW IT ADDS VALUE TO THE COMPANY

Digital technology helps to automate manual processes, resulting in increased efficiency and reduced costs. Artificial Intelligence (AI) and Machine Learning (ML) help in offering a seamless sales and service experience to the customers, while Robotic Process Automation (RPA) helps to automate repetitive tasks. Investment part of the capital adds value by ensuring that the funds deliver superior risk-adjusted returns on a consistent basis.

KEY CHALLENGES OF THE CAPITAL

Ecosystem development, accelerating digital transformation, cyber security and ensuring retention.

STRATEGIC GROWTH DRIVERS

On the technology and innovation fronts, providing superior customer experience and empowering distributors are the key growth drivers. Growth drivers for the investment part of the capital are delivering superior risk-adjusted returns that help in APE growth and eventually aiding VNB growth.

DIGITAL LEADERSHIP

Empowering customers and distributors with simplified journeys, choice of platforms and superior experience by leveraging analytics and ecosystems are the core objectives of our digitalisation initiatives.

Our strategy is to leverage the digital landscape and enhance customer experience throughout the policy life-cycle. The strategy is to focus on customer experience right from the time of need analysis, quote generation, purchase journey till the post sales service of queries or requests.

Our digitalisation objective is to be the most admired digitally enabled insurer with a continued focus on the following:

- Create scale with simplicity for customers, distributors and employees
- Enable seamless integration with rapidly evolving ecosystem
- Foster innovation and new technologies to achieve superior business results
- Delight customers with our personalised digital experiences throughout the policy life-cycle

Our Technology Capabilities

Our onboarding digital platform is embedded with Pre-Approved Sum Assured (PASA) which offers a frictionless, contactless and instant issuance opportunity.

This involves analytics-based sharper offerings for a frictionless journey based on segmented risk assessment for paperless onboarding and issuance. With all these solutions, today, we receive over 99% of our new business applications digitally.

Our onboarding process provides us the ability to track the complete digital footprint of sales and customers. Our customers get near real-time view of applications, timely communication over the tenure of their policies; thereby ensuring quick policy issuance and policy kit communication to our customers. This in turn helps us improve our sales management procedures.

Our focus has been to build the best experience for our customers, partners and employees. Over the years, appreciation for technology has multiplied and our user-centred journey now includes multi-conversational interfaces with active stakeholder participation.

We have developed system capabilities to capture all critical data, create design models, make real-time interventions, integrate with ecosystems and provide meaningful insights to scale up our distribution and embed simplicity in our customer experience.

We will continue to use cutting-edge technologies as a key differentiator to stay ahead of the curve and create more value for all our stakeholders.

INTELLECTUAL CAPITAL

Technology advancement is essential to our success as we focus on enhancing our intellectual capital. The foundation of our intellectual capital is made up of our innovative products, strong partner network, profound customer insights, comprehensive technical expertise and our ecosystems. Our Company is thriving on a culture of innovation and a technology-backed foundation that is future-ready.

In order to improve the buying, service and claim experiences for our customers and to maintain our position as their preferred brand among life insurers, we continue to leverage our intellectual capital, particularly our technology and digital enablers.

Superior Customer Experience

Our commitment to customers continues by offering a seamless experience for all their new requirements and service needs on an omni-channel platform. To provide a simple, convenient onboarding and service experience, we have undertaken multiple initiatives:

- Data analytics led Pre-Approved Sum Assured (PASA) offers for faster onboarding and eliminating the need for income and medical documents
- Partner and third-party data for pre-population process for easing application login
- Hyper-personalised journey, built on the pillars of 3Vs – Video, Voice and Vernacular

INVESTMENT PHILOSOPHY AND FUND MANAGEMENT STRATEGY

Investment management is a key function for an insurance company due to the scale of investments on its Balance Sheet and the impact of investment on its profitability. At ICICI Prudential Life Insurance, we pursue investment strategies that focus on creating value for both policyholders and shareholders, attaining an optimum balance between risk and return. The application and success of our investment management framework even amidst a competitive market environment has been our major differentiator across the insurance industry over the years.

Prudent Investment Management

Our integrated investment management philosophy delivers superior risk-adjusted investment returns through risk mitigation, generating a positive impact to benefit society, environment and the communities in which we live and work. Our disciplined and long-term investment approach is managed across market cycles. As one of the key institutional investors in Indian listed companies, we ensure that the businesses we invest in are operating responsibly. We incorporate ESG factors into our investment process in addition to fulfilling our stewardship responsibilities. We currently have Assets Under Management worth ₹ 2.51 trillion.

Fund Management Strategy

We have a clear investment policy in addition to a structured and disciplined investment process for insurance investment management. Our investment approach encompasses a combination of value and growth. The primary objective of ICICI Prudential Life Insurance's investment management team is to

consistently earn superior risk-adjusted returns for its policyholders. Maximising gains while ensuring the safety of every policyholder's principal and stability in returns is our key endeavour. Our set of policies and practices are even more stringent than the ones prescribed by the regulator. Based on our investment framework, we carry out in-depth analysis of companies and relevant sectors. We follow a disciplined approach for investment, which works across market cycles and facilitates in achieving our goals and objectives, while also meeting the expectations of all our stakeholders.

Highly Skilled and Specialised Team

Our clear and disciplined investment framework is populated by highly skilled and leading investment professionals, forming a part of our investment management team. WHAT THIS CAPITAL IMPLIES

The Company strives to deliver its core employee value proposition of a long-term career underpinned on the Cornerstones of providing a Supportive Environment, Learning & Growth and Fairness & Meritocracy. The evolving talent landscape and macro-economic factors led to a re-orientation of the key imperatives for FY2023 to strengthening of capacity, development of capability and fostering a culture underpinned on the Company's Cornerstones.

HOW IT ADDS VALUE TO THE COMPANY

The alignment of the workforce to the Company's Vision, Values and business imperatives is essential for the seamless execution of the business strategy. People are key to strategy execution and the Company continuously invests in the growth and development of its people to create a culture that allows people to feel empowered to contribute, flourish and give their very best. This investment in the growth of its people and the alignment of the people strategy with its business strategy is what the Company believes creates the edge that makes its human resources a source of its strength and a key competitive advantage.

KEY CHALLENGES OF THE CAPITAL

- Deployment of a sustainable talent pipeline
- Continuous upskilling
- Alignment of the workforce to the Key Performance Indicators of the Company
- Building the organisational culture as a competitive advantage, underpinned on the Company's Cornerstones

STRATEGIC GROWTH DRIVERS

Focus on strengthening and re-aligning capacity for risk-calibrated growth and profitability, developing capability to build future-ready talent and fostering a culture to deepen employee engagement and enable delivery of the employee value proposition, i.e., the Company's Cornerstones, are the strategic growth drivers for Human Capital.

INITIATIVES UNDERTAKEN IN FY2023

Serving the needs of customers with sensitivity is at the core of the Company's Vision statement. This holds true for our employees as well. The Company strives to deliver our core employee value proposition of a long-term career underpinned on the Cornerstones of

Providing a Supportive Environment

Learning & Growth

Fairness & Meritocracy at the Workplace

To deliver a seamless and superior employee experience, the employee lifecycle from onboarding to exit has been digitalised by deploying latest technology enablers.

The Company believes that alignment to the Company's Vision, Values, strategic imperatives, goals and culture is essential for the seamless execution of business strategy. Our Human Resource policies, processes and systems are configured to drive alignment across all levels of the organisation. People are key to strategy execution and the Company continuously invests in the growth and development of the people to create a culture that allows people to feel empowered to contribute, flourish and give their very best. It is this investment in the growth of our people and the alignment of the people strategy with the business strategy that the Company believes creates the edge that makes its human resources a source of our strength and a key competitive advantage.

Macro-economic factors and the evolving changes in the talent landscape led by a young workforce, along with employee feedback received through various surveys, led to a re-orientation of the human resources imperatives to strengthen strategy delivery, to our 3C framework of Building Capacity, Capability and Culture.

#1

Strengthening Capacity for risk-calibrated growth and profitability

#2

Developing Capability to address skill gaps and build future-ready talent

#3

Fostering a Culture that deepens employee engagement and enables delivery of the employee value proposition, the Company's Cornerstones

#1: STRENGTHENING CAPACITY

Growing and building talent from within and offering a long-term career constitute the essence of the Company's employment proposition. The Company actively focuses on building a strong bench of internal successors at all levels and this gives a rich source of tacit knowledge, experience and alignment of the culture and values of the organisation. The talent pool is strengthened every year with the intake of fresh graduates from professional institutes and business schools. Additionally, wherever required, capability gaps are bridged by hiring specialist talent laterally. This diversified talent mix of fresh graduates, lateral hires with skills in key functional areas and internally grown talent with valuable experience of processes, systems and relationships across multiple areas have helped the Company build a multi-skilled, multi-generational workforce uniquely positioned for successful execution of the business strategy.

This year, the Company strengthened its overall employee strength by 15% to capacitate for business growth. Close to 10,000 employees were hired with 43% of them being graduates with less than one year of work experience. The Company has a young, enthusiastic and diverse workforce with 29% women employees and over 50% of employees being less than 29 years of age. The Company has significantly enhanced capacity in functions requiring specialist skills. To build a pipeline of young talent, the Company onboarded entry-level Pharmacy graduates in the Underwriting function, Chartered Accountants (CAs) in the Finance and Internal Audit functions and Actuarial professionals towards meeting business requirements and to mitigate attrition.

An **industry-academia model** of "train and hire" was also put in place in FY2023 in partnership with external training institutes, for hiring pharmacy & technology graduates with threshold knowledge levels in the Underwriting and Technology functions. This has ensured not only skilled and productive resources but also a sustained talent pipeline to address the scale of business expansion. This year, 43% of hiring at entry level roles has been done in these functions through the above models.

The Company uses a diversified sourcing strategy for lateral hiring including partnerships with intermediaries such as recruitment process outsourcing partners and recruitment consultants. The Company actively encourages employees to advocate the employer brand and refer those in their network under the "Talent@ Hunt" programme, Company's **employee referral programme**. This year, referrals constituted 26% of the total sourcing mix.

The Company has enabled a **digital, seamless onboarding process** for all new recruits including pre and post-joining documentation, offer letter generation etc. through the in-house applicant tracking system (ATS) - iSmarthire.

STAR, the Company's flagship induction programme for frontline sales professionals has been deployed to ensure employees are adequately skilled to perform in a hybrid working environment. **ASCENT**, a new induction and certification programme designed for developing domain knowledge in Customer Service and Operations has also been deployed this year. New recruits from top-tier business schools undergo the **Business Leadership Programme (BLP)**, an intensive orientation programme, that aims to transition graduate MBAs and other professionals to corporate life from campus. For entry-level management and specialist roles, the Company hires MBAs from top-tier business schools, CAs and other professionally qualified talent. In FY2023, the Company hired over 4,600 graduate/post graduate freshers.

“The STAR program and the continuous support at ICICI Prudential Life Insurance accelerated my learning. I was able to achieve my KPIs and qualify for various internal incentive programmes.”

Muskan Grover,
Associate Financial Services Manager (Amritsar)

#2: CAPABILITY DEVELOPMENT

Learning & Growth is a key employee value proposition and the Company aims to facilitate capability building of employees through classroom and on-the-job training, job rotation opportunities, job enrichment and opportunities for career progression. The Company follows an integrated capability development framework for developing a culture of Excellence. The capability development framework focusses on enhancing the performance and potential of employees based on the Company’s Leadership Anchors of Execution Excellence, Professional Excellence, People Excellence, Service Excellence and Strategic Excellence.

The Company’s integrated multi-platform phygital capability development architecture offers learning through structured onboarding in the form of induction training, domain specific training and behavioural

interventions. The various initiatives in the year have resulted in over 1.3 million learning hours, over 12,000 employees certified and almost all employees covered through at least one training intervention.

The specific programmes include:

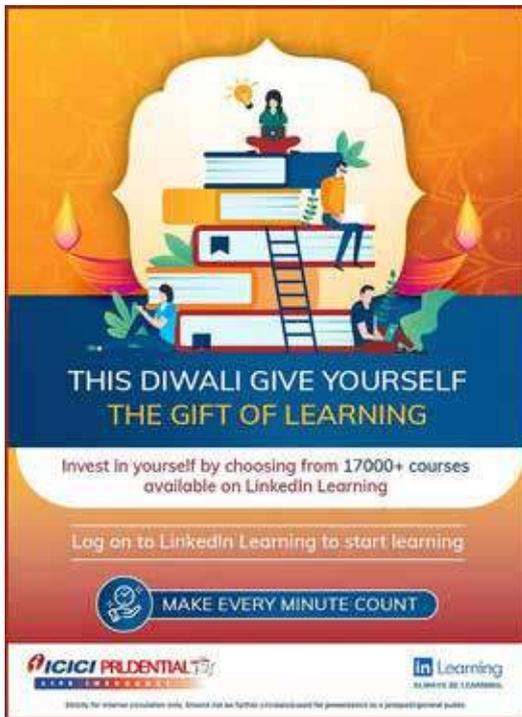

a. Inductions

The Company has a well-established induction programme that enables new recruits (fresher and experienced) to understand the basics of the life insurance sector, the organisation and their roles and responsibilities. **STAR, Ascent and Business Leadership Programme (BLP)** are induction programmes specially designed for new employees in frontline sales, operations and tiered campus hires in sales management, support & operations roles respectively. This year, over 8,000 employees were onboarded through the STAR programme, over 600 employees through the Ascent programme and over 100 employees through the BLP.

b. Domain Training

i. Skill mapping and professional certifications for specialist functions

The Company executed an internal skill mapping exercise, involving the articulation of skill families in specialist functions such as Technology, Business Intelligence, Cybersecurity, Underwriting, Claims, e-commerce etc. with further identification of discrete skills under each skill family. The desired skill proficiency level for each skill was then identified for each role, followed by an assessment of the existing skill proficiency for each employee by the leadership team in the function. Based on these skill gaps, a comprehensive learning architecture has been put in place for these functions.

This year, employees have been trained through self-paced learning modules on online learning platforms such as LinkedIn Learning and Coursera as well as instructor-led programmes with specialist technology training institutions in the areas of Project Management, IT Infrastructure, Cloud & IT Security, Data Analytics, Cyber Security, Process Excellence, Digital Transformation, Python, SQL, Design Thinking etc.

The Company had also focussed on inducting and upskilling employees with **specialised certifications** such as CEH⁵ certification, CISA⁶, CISSP⁷, advanced data science skills in the areas of NLP⁸, Artificial neural networks, Big data, Deep learning etc. The Company also enables professional upskilling through **Education Assistance Policy** that encourages employees in specialist and niche roles to take up certified courses offered by various institutes.

ii. Sales frontline and Operations training

Segmented and targeted initiatives for frontline sales are conducted through Saksham – the flagship programme for knowledge building, upskilling and perspective sharing for all domain inputs for the Sales functions.

⁵ Certified Ethical Hacker

⁶ Certified Information Systems Auditor

⁷ Certified Information Systems Security Professional

⁸ Natural Language Processing

The programme anchors national webinars by subject matter experts and panel discussions on the seven pillars of Product, Process, Markets, Productivity, Selling skills, Digital and Service.

For the operations functions, training programmes on Product and Process, Underwriting and Claims, Regulations and Controls, System overview have been conducted including livesessions by subject matter experts on Underwriting, Claims, internal risk, service, first-time right policy issuance, financial markets and persistency. These interventions have been complemented with e-learning modules and certifications on the **in-house learning management system- Saksham app**.

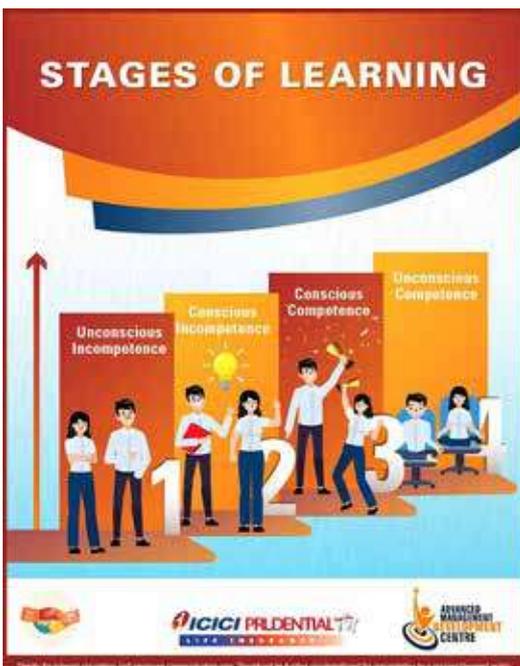

iii. Certification architecture

The Company has instituted an integrated certification architecture aimed at testing the proficiency of frontline sales employees to discharge their role as per expected performance standards. This year, over 12,000 frontline sales employees have been certified across levels.

c. Behavioural Interventions

Management development interventions are conducted for each level within the Company based on the specific needs at that level. These programmes such as Managerial Effectiveness Programme for junior management, Advanced Managerial Effectiveness Programme at middle managerial level aim to build personal effectiveness, team effectiveness and leadership capabilities. A series of Leadership workshops were conducted for the top 20 leaders in FY2022 and FY2023 and a Personal Resilience and Leadership Journey (PRLJ) was initiated for the next two levels of 100+ leaders. These workshops involved tools to build self-awareness, team exercises, conversations with experts from the field of sports and business coaching on the themes of building resilience and leadership through integrity.

In addition to these, this year, over 1,400 employees in the managerial cadre participated in **Development Centres**. The tools in these Development Centres were designed to simulate workplace challenges. Based on their demonstrated behaviour in the Development Centres, employees were given a feedback report outlining their proficiency on the Company's Leadership Anchors. Employees were encouraged to use these feedback reports and craft their development journeys in consultation with their managers keeping in mind the behaviours that are most relevant to their current and likely future roles.

“PRLJ has been the best development session I have ever experienced in my professional career. The self-awareness tools, sessions with external SME’s and modules on the app not only helped me to introspect but also helped me concentrate, relax, strengthen my capabilities and improve overall well-being to be more productive and resilient. The key highlight of the sessions was the simplicity in which concepts were explained with actual life situations in parallel to the cricketing world.”

Beram Gazdar,
Vice President (Mumbai)

The Company has a defined **Internal Job Posting policy** that provides opportunities to employees to move across functions and locations so that they can broaden their skills and knowledge through diverse experiences and have a more holistic understanding of the business. Currently, 50%+ of the total employees have undergone at least one role change in the last five years.

The Company has been able to develop **high quality human capital** having leadership stability, with 82% of the senior management team having served the Company for more than 10 years, leadership breadth with 70% of the positions in senior management filled through internal succession in the last five years balanced with hiring of specialist talent laterally and leadership depth with 96% of senior management in generalist roles having done more than three job rotations.

The Company has an **established performance and talent management framework**. The objectives of the framework are threefold:

- To ensure alignment to the Key Performance Indicators (KPIs) of the Company as set out by the Board and ensure clarity of purpose across levels
- To create a talent pipeline by nurturing high potential talent and
- To enable differentiated rewards and capability development to help ringfence talent for the future

The Company has a structured **Performance Management System (PMS)** anchored on the principles of Fairness and Meritocracy. It enables clarity of goals and alignment between KPIs of the Company as set out by the Board and individual KPIs. Alignment to the Company's strategy and KPIs is cascaded through the Management Committee comprising the Managing Director & CEO and the team reporting to him. This is further cascaded through the Executive Committee comprising the top

36 senior leaders which was strengthened in FY2023 by inducting next-level younger talent for building leadership depth.

The Company enables a **meritocratic culture** through relative assessment of performance and reinforcing performance accountability and linkage to rule-based rewards. Employees in frontline sales and sales management roles can track their performance real-time against their individual KPIs through performance dashboards. These dashboards are available on the PMS microsite of the Company. With an objective to review business quality, integrated dashboards and forums for right-selling practices have been constituted for the sales teams. This helps segment employees in top, middle and bottom cohorts within their roles – frontline sales, first line managers, managers of managers and development actions are taken based on their performance cohort.

“The Company always inspires me to go the extra mile and offers challenging roles that provide learning and growth opportunities. The Company’s rule-based performance and reward actions helped me accelerate my career from an Area manager to Regional manager.”

Ranganatha C,
Regional Manager (Bangalore)

The Company has a well-defined **succession planning** process to facilitate the development and career planning of high potential talent, mitigate vacancy risk arising from attrition and ensure business continuity. A framework is in place for identifying key roles and measuring the depth of leadership cover for each role by identifying successors who can move to the role either immediately or over a period, or by restructuring the role to mitigate vacancy risk and ensure business continuity, where successors are not immediately available to fill the vacancy. Based on the number of successors identified, their readiness to move to the next level role and the feasibility of conducting restructuring in the event of the role holder’s exit, a score called the Leadership Cover Index (LCI) is derived for each key role. An annual exercise is carried out to identify the LCI for each key role along with the talent development actions.

This year, several employee productivity improvement initiatives have been stepped up through investments in digital learning and certification, re-calibration of

manpower based on business needs, job enrichment and job rotation. These have resulted in best-in-class employee productivity and cost ratios in the industry.

#3: FOSTERING CULTURE THAT BUILDS THE COMPETITIVE ADVANTAGE

The Company had undertaken various initiatives during the year to build a unique competitive advantage through the culture, which is underpinned on delivering the employee value proposition of providing a Supportive Environment, enabling Learning & Growth and establishing a Fair and Meritocratic environment. This involved a six-pronged approach as outlined below:

- Aligning employees to organisation imperatives
- Fostering diversity & inclusion
- Enabling employee well-being
- Coming together and celebrating
- Addressing employee concerns through a robust grievance redressal mechanism
- Listening, empathising and responding (employee surveys)

Aligning to Organisation Imperatives

The objective of the Company’s phygital communication framework has been to keep all employees regularly informed on the strategic direction and organisation imperatives and reinforce the employee value proposition. In an endeavour to deliver the Company’s Cornerstones of providing a Supportive Environment, Learning & Growth and Fairness & Meritocracy, extensive communication campaigns were launched during the year through the social intranet Pulse, the employee self-service app ATOM, apart from e-mail and social media workgroups.

A quarterly digital newsletter “iLife” was launched this year. The newsletter has been designed on specific themes of “Innovation”, “Customer service philosophy” and “Resilience”. The newsletter encompasses various sections such as iCare - snapshot of employee initiatives designed to deliver our Cornerstones, iPerform - overview of the Company’s operating and financial performance, iService - peek into the customer service architecture, iProduct - bringing ideas to Life and providing a review of Company’s new product offerings, iCommunicate - snapshot of Company’s key media coverage, iForum - snapshot of business meetings and workshops and iAwards - awards, accolades and success stories of our employees.

In addition to the above, the Chief Distribution Officer runs a monthly engagement initiative – **CDO Speak** on our digital learning platform Saksham and digital campaigns were run on the employee apps – PULSE and ATOM.

Multiple **Coffee and Connect** forums and **townhalls** have been conducted in the corporate office and regional offices covering over 8,000 employees by business heads. The objective of these was to align teams to the business strategy, reaffirm the delivery on our Cornerstones and mobilise teams around organisation imperatives.

“Communication fora such as “Coffee & Connect” were very informative and enriching. The business and HR leaders engaged with employees through communication on the Company’s Vision, Values and Cornerstones in depth along with team building activities.”

Vikas Singh,
Sales Manager (Madhubani)

This year, in line with communicating the employee value proposition with the younger workforce especially in sales frontline roles, a unique forum called Yuva Udaan was launched. The session provided an understanding of the Company’s long-term career proposition, the Vision, Values and Cornerstones and covered over 1,500 employees.

“I really liked the Yuva Udaan session which was conducted last week. I liked the way Mr. Abhishek Joshi informed us about the brand value of the organisation we work with, apart from the presentation, he showed us some informative videos which gave us a lot of confidence and boosted our energy. I would like to thank the team for taking this initiative as it was very effective and informative.”

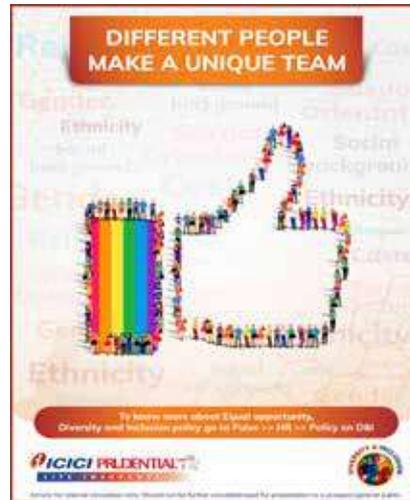

Sheetal Bind,
Agency Manager (Mumbai)

In addition to the above, to enable a **culture of innovation** and to stay ahead in this rapidly changing world, the Company has introduced a digital ideation platform - Pi, which allows for crowdsourcing of new ideas from employees. This year, over 700 employees participated on the platform and over 100 ideas were implemented. The Pi innovation platform was also recognised at the Prudential Global Innovation Awards.

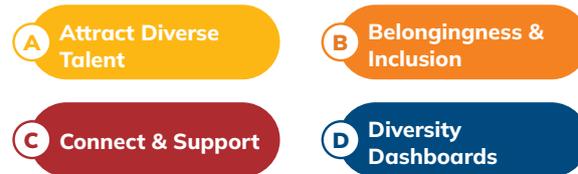

Fostering Diversity & Inclusion

The Company is an **equal opportunity employer** with zero tolerance for any discrimination based on gender, religion, caste, or class. This is implemented through our Talent Acquisition Policy. The Company has taken various steps over the year to foster inclusivity at the workplace. The Diversity & Inclusion agenda was strengthened through the implementation of the **Equal Opportunity, Diversity & Inclusion policy** in FY2021. The policy promotes diversity & inclusion as a culture and allows all employees to bring their authentic selves to work and contribute wholly with their skills, experience and perspectives for creating unmatched value for all stakeholders.

The Company formalised the **Diversity Council** (a seven-member cross-functional team comprising senior leaders and chaired by the Chief Distribution Officer) towards ensuring executive sponsorship and alignment of the equal opportunity, diversity & inclusion agenda. The Diversity Council approves, reviews and monitors all diversity & inclusion initiatives of the Company and has articulated its intent of promoting equal opportunity, diversity & inclusion as a culture with special focus on Women, Persons with Disabilities (PwDs) and LGBTQIA+.

The Company has adopted a four-pillar framework - **‘ABCD framework’** as detailed below to promote a culture of equal opportunity, diversity & inclusion.

a: Attract Diverse Talent

The objective of this pillar is to enhance the diversity quotient by augmenting access to sources of diverse talent pools. The Company strives to maintain a balanced gender representation in campus recruitment for all entry-level roles and professional qualifications like CAs, Actuaries, LLBs, MBAs etc. As a result of focussing on diverse talent profiles, the gender diversity in hiring for the year is 31% and specifically in campus hiring is 43%.

b: Belongingness & Inclusion

With an objective to promote inclusion, employee policies were amended this year to make the policies gender-agnostic and same sex partners were included in the definition of family. In addition, primary caregivers were included for receiving benefits related to crèche facility, childcare while on domestic business travel and leave for adoption/surrogacy.

“ICICI Prudential Life Insurance has supported me during challenges in my career and personal life. I want to thank the Company for openness, guidance and flexibility offered to me. The supportive parental leave practices, such as the special maternity leave under maternity benefit, made me feel like a valued team member and fortified my loyalty to the organisation.”

Shivanjali Mittal,
Associate Vice President (Mumbai)

Unconscious bias workshops were conducted for 800+ managers during the year at junior and mid management levels. The Company, through the Voice of Employee (VoE) survey⁹ FY2023, launched a metric for measuring inclusion known as the Inclusion Index. The Inclusion index for the year stands at 88% based on the top two box scores.

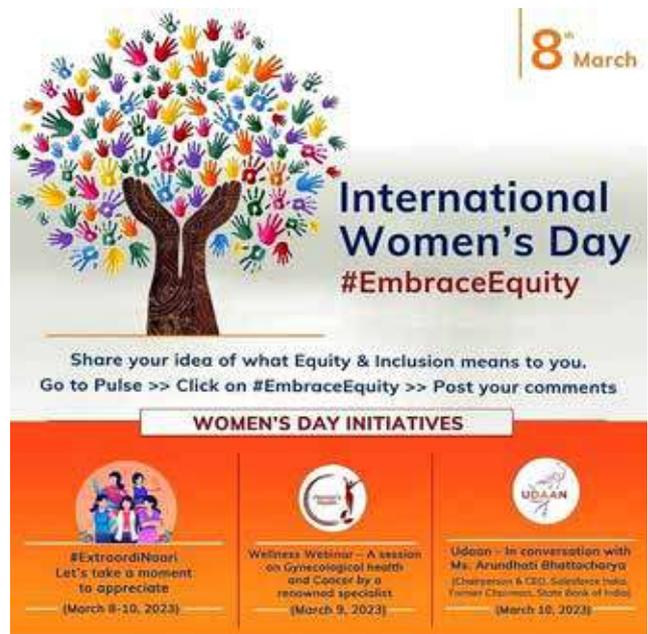

“The Unconscious Bias workshop was beneficial and made me reflect on my own unconscious biases towards certain social groups and situations and how these biases affected my decisions. It gave me an entirely different perspective and since then, I have been working on improving my ability to become conscious of such biases and my behavioural response towards them.”

Monika Shardool Vaghela,
Senior Manager I (Mumbai)

In March 2023, the Company conducted a host of initiatives to celebrate **International Women’s Day**. #EmbraceEquity was the theme of this year’s International Women’s Day and the importance of an equitable environment was emphasised under this campaign. Employees were encouraged to write about what “Equity” meant to them and share it with others on the Company’s social Intranet Pulse. The #ExtraOrdinaryNaari campaign was also run to encourage employees to appreciate exceptional women in their professional and personal life.

⁹ Voice of Employee survey is a biennial employee survey.

c: Connect & Support

The Company has put in place several policies to support life-stage needs as well as to ensure safety and security in the workplace for all employees.

Udaan - A quarterly forum for employees to learn through role-modelling from exemplars who have reached the pinnacle of professional excellence has been launched this year. Sessions were conducted with eminent women leaders such as Dr. Deepa Malik (the paralympic sports champion and Padma Shri & Arjuna awardee), Ms. Sutapa Sanyal (the first woman IPS officer to serve as the Director General of Police in Uttar Pradesh) and Ms. Arundhati Bhattacharya (Chairperson & CEO of Salesforce India). During the session, the speakers shared their journey and life experiences and answered questions from the audience present and from all employees across the country who joined the session through a livestream.

“The Udaan session with Ms. Arundhati Bhattacharya was very enriching. It is a great experience to listen to leaders, especially women who multi-task domestic and parental responsibilities efficiently in addition to excelling in the corporate world. The most relatable part of her talk was when she spoke about her journey as a young mother trying to balance all her tasks. As a young mother myself and others who are working professionals, I can say that such efforts by the Company go a long way to motivate us and fill us with a deep sense of gratitude for the organisation we are associated with.”

Sweta Sharma,
Associate Vice President (Mumbai)

An internal platform - **Women Resource Group** has been created for women colleagues to seek guidance and support on career and life-stage related issues through one-on-one meetings with internal women leaders. Some themes of discussions this year were around navigating careers across life-stages such as marriage and child rearing and carving out a successful career in sales.

d: Diversity Dashboards

The Company formalised tracking of progress on gender diversity through the Diversity Dashboard. These dashboards track hires, exits and the diversity ratio across regions and functions in the Company. In addition to this, the Company also tracks gender equity in performance and pay.

The Company has a **multi-generational workforce** that blends the richness of experience with the energy of youth. Accordingly, the varying need and priorities of each employee cohort are catered to with differentiated propositions. These are enabled through:

Flexibility

Through flexible modes of employment, flexible compensation plans and flexible leave policies catering to various personal, biological and health needs

Family Support

Through policies on health, financial security, support for children, post-retirement benefits and bereavement support to employees' families

Safety, Health and Well-being

Through initiatives around road and fire safety and policies including health insurance, executive health check-ups and mental health counselling

Learning

Through policies on internal job rotation and education assistance and various initiatives on learning and development

To make employee benefits more accessible to employees at a single point, an “Employee Benefits” page was deployed in our HR information system - PACE and ATOM. This feature captures the customised eligibility of respective employee benefits. The employees can avail the specific benefits with just one click.

In addition to the above initiatives, the endeavour of the Company is to further the diversity & inclusion agenda by taking concrete steps to include Persons with Disabilities (PwDs) and LGBTQIA+ cohort in the workforce.

Enabling Employee Well-being

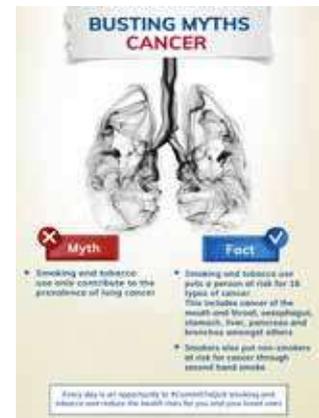

To provide a safe, secure and supportive work environment, the Company has put in place a holistic well-being framework for employees that focusses on physical, mental and financial well-being: a three-pronged approach comprising building awareness, instituting enabling policies and facilitating habit formation.

The COVID-19 pandemic reiterated the importance of health and well-being. Combating the COVID-19 pandemic, the Company enabled employee well-being by conducting onsite and offsite vaccination camps, instituting a reimbursement policy for cost incurred for vaccination, conducting a variety of educational and awareness campaigns with the Chief Medical Officer and setting up a 24x7 COVID-19 helpline desk in addition to in-house app – iWorkSafe to enable employees’ daily health monitoring and social distancing.

a. Building Awareness

Awareness on critical illnesses such as heart related diseases, cancer and diabetes apart from mental health awareness and life-stage based financial needs for building financial literacy have been the key themes for building awareness amongst employees. Webinars on such subjects were delivered via tie-up with service providers and in-house subject matter experts.

- Webinars along with communication campaigns on physical health focussed on numerous issues pertaining to physical health and at the same time also highlighted women-centric health themes. The well-being webinars were conducted on important days such as **World Diabetes Day, International Women’s Day** etc. The focus of these webinars was not only on increasing awareness but also highlighting the importance of preventive measures that enable healthy living.
- Webinars on mental health awareness were organised with the aim to destigmatise mental health through increasing awareness on topics such as mental health awareness, digital and screen detox and stress management.
- As a Company operating in the financial sector, it is imperative that the employee well-being framework includes adequate financial literacy of employees. The webinars conducted were on topics and concepts that cater to life-stage based financial needs of employees such as personal budgeting, maintaining a healthy credit score, benefits of compounding and will-making and succession planning.

“The diabetes session was very useful, it really helps when experts come and talk about these topics. Getting mental well-being conversations at the forefront is the need of the hour. The expert sessions on various aspects of mental health such as building awareness, digital detox, break away from stress etc. that affect our daily lives were interesting.”

Sibasish Samant,
Manager (Cuttack)

In addition to these well-being webinars, the Company also made available complimentary webinars by doctors and healthcare experts on the Company app for employees and customers on physical, mental and emotional well-being.

b. Enabling Policies

The Company continuously works on instituting policies that are customised as per the individual and life-stage needs of employees. An **employee assistance programme**, in tie-up with a service provider is in place to facilitate mental health conversations with qualified professionals. In addition, physical medical tele-consultation is also available through a panel of doctors for employees and their families. Eligible employees are encouraged to avail the **Executive Health Check-up policy** for undergoing their annual health check-up. These nudges go in line to the ongoing initiatives around **World Heart Day, World Breast Cancer Awareness Month, World Diabetes Day and World Cancer Day**.

Apart from eligible employees and their families being covered for hospitalisation through mediclaim cover, the Company also introduced additional voluntary health cover through a service provider for all employees at discounted rates.

c. Facilitating Habit Formation

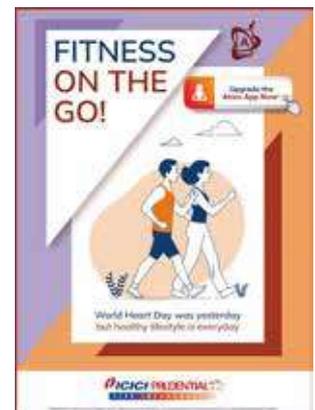

The Company facilitates healthy living as part of our employees' daily lives. On World No Tobacco Day, the **#CommitToQuit** campaign was launched to encourage employees to take a pledge to quit smoking. The campaign not only communicated the ill effects of smoking, but also inspired smokers by sharing stories of employees who had quit smoking. This helped in reminding the importance of employees coming together and encouraging each other to take a step towards healthy living. The campaign was run for registered campaign employees over a period of three months with frequent nudges to quit smoking.

"I would like to thank ICICI Pru Life for coming up with this life changing idea. I had been reflecting to cut down on my smoking. The #committoquit campaign helped me refrain from smoking week over week with every milestone challenge."

Naman Jain,
Development Manager (Meerut)

On **International Yoga Day**, yoga sessions in partnership with a service provider were conducted for all employees to nudge the importance of forming healthy habits for physical well-being. Continuing the effort of providing opportunities to employees for developing healthy living habits, a step challenge 'StayFit' was launched on World Heart Day. This step tracker was made available to employees on the Company's employee self-service app – ATOM.

"#stayfit campaign not only helped me to keep track of my health but also promoted healthy competition amongst the team members. The fact that my efforts in taking care of my health also helped me contribute towards a social cause only added to my overall purpose and motivation."

Jintu Krishna Sharma,
Senior Associate (Guwahati)

In addition to the webinars to destigmatise mental health, the employees were nudged to incorporate habits that help take care of their mental well-being as an unconscious part of their lives. On World Mental Health Day, 'Mental Health Bingo' card and 'I De-stress myself by ___' campaign was launched and displayed at the workplace of all employees across the Company's top¹⁰ 20 offices. The campaigns nudged employees to take small steps that help them take care of their mental well-being by focussing on physical and mindful activities, understanding and processing thoughts and reaching out to loved ones.

While striving towards overall well-being, employees not only had a chance to impact their lives but also to impact society at large by **linking one's well-being to the employee volunteering programme**. With employees participating in the various well-being campaigns such as #committoquit and #stayfit, the Company contributed on behalf of employees' towards causes of health treatment for the underprivileged, for various well-being milestones that employees achieved.

Coming together and Celebrating

a. Celebrating Festivals and Important Days

Important national festivals were celebrated this year physically across regions. A thanksgiving festival – **Utsav** was celebrated across all branches with employees and their families. This year, all the branch and corporate offices were decorated and employees celebrated the spirit of coming together after two years of COVID-19. On **Independence Day**, the Company launched a contest for employees across India to depict the essence of freedom in their own way. Apart from this, other festivals such as **Holi, Diwali, Onam, Pongal, Christmas** and many more were celebrated across branches.

b. Celebrating long-term Careers: Foundation Day

The Company celebrated the 22nd Foundation Day on December 20, 2022, with Mr. M.S. Ramachandran, Chairman as the Chief Guest of the function. The Chairman and the Managing Director & CEO addressed the employees on this occasion. The event concluded with a rendezvous with a special guest for the event, Padma Shri and Arjuna awardee, Dr. Deepa Malik. She shared her experiences as a person with disabilities and how she overcame challenges through resilience and a sense of purpose.

¹⁰ Based on employee headcount

The celebrations began with a special “Animation Workshop” for the children of awardees, held a week prior to the main event, planned for the 248 awardees and their families. Out of 248 awardees – 27 employees were awarded for completing 20 years and 221 employees were awarded for completing 10 years with the Company. The event was also broadcast to all our employees with 8,900+ employees joining the event virtually.

“I am passionate about working for ICICI Pru Life. It brings success, growth and a sense of purpose. The culture and leadership at ICICI Pru Life instils trust and belief in the organisation’s principles. The daily challenges keep me emotionally invested. My family is proud of my work at IPru, which is a source of pride for me as well.”

Shoby Samuel, Senior Vice President (Mumbai)

c. Celebrating Successes:

Tatva – the Company’s rewards and recognition programme reinforces and nurtures a robust customer-centric culture within the organisation. It’s the primary platform to recognise customer service that rewards and recognises employees for their invaluable contribution and living the service philosophy. Various other sales recognition forums are also conducted to celebrate success of employees.

Addressing Employee Concerns through a Robust Grievance Redressal Mechanism

The Company has a grievance redressal process for employees to ensure that all grievances are suitably investigated and action is taken as per due process stipulated in the Employee Service Rules with the principles of natural justice being upheld. The redressal process outlines the method by which employees may register their grievances, the role of the Employee Governance team, the classification of grievances, the process of enquiry, disciplinary action, appeal mechanism and reporting. Employees are encouraged to register any grievance they may have against any employee, agent, partner and customer or report any breach of the Code or any of our Company policies. The Company has instituted the “egov” portal on the Company intranet for employees to record and register their grievances. The portal serves as the repository of all relevant information pertaining to each grievance and for the purpose of monitoring and tracking of all grievances for timely resolution. Employees may also write and submit their grievances over email to employeeassist@iciciprulife.com or raise their grievances through their reporting hierarchy or the Human Resources department.

Listening, Empathising and Responding (Employee Surveys)

The Company endeavours to constantly listen, empathise and respond to employees by seeking feedback from employees on the delivery of the employee proposition through various surveys.

97% response rate | **7 key themes including Inclusion index**

The **Voice of Employee (VoE) survey**, which is conducted biennially has been instituted to capture employee feedback on the Company's Cornerstones of providing a Supportive Environment, Learning & Growth and Fairness & Meritocracy. The survey was conducted on seven key themes. This year and for the first time, a composite Inclusion index was computed, being the average of scores received on three parameters relating to safe and secure workplace, respecting and valuing each other's opinion and fair treatment regardless of gender, age or any other differences. This year, the employees rated the below parameters significantly high¹¹:

- Advocacy in terms of recommending the Company to their friends and family as an organisation to work for
- Alignment to Company's Vision, Values and Strategy and these inspiring them to go the extra mile at work
- Current experience with the Company
- Learning & Growth opportunities through challenging roles
- Adequate freedom to perform
- Safe and secure workplace
- Company providing support in hour of need

Overall NPS: 89% | **Top Talent NPS: 90%**

In addition to this, the Company measures employee engagement through the **Net Promoter Score (NPS) advocacy scores**. The objective of NPS is to capture the advocacy of employees across cohorts (gender, role, location, performance, vintage etc.). This is done through an internal third-party tele-calling service. The data is reported on a monthly basis to the management team.

92% recommend the Company to friends and family | **87% satisfied with overall onboarding journey**

With over 9,000 employees hired in the frontline sales role, an **onboarding survey** was launched with the aim to seek feedback on aspects of understanding of KPIs, system and tools access to perform the job, advocacy, product and process knowledge, support from manager for on-the-job learning etc.

The survey findings are communicated to the leadership team and function heads regularly through various dashboards. For the VoE survey, individual team reports have been generated for all second level supervisory managers. The HR teams conduct focussed group discussions to secure insights and actionable feedback based on the survey scores in specific target markets and functions.

WHAT THIS CAPITAL IMPLIES

Customers: Understanding customers' need and ensure simplification across policy life-cycle.

Distribution: Investing in deepening existing channels and widening the distribution footprint helps maintain a diversified distribution mix. The resultant growth achieved across most channels is due to the relentless focus on distribution expansion.

Communities: The Company's objective is to proactively support meaningful socio-economic development in India and enable a larger number of people to participate in and benefit from India's economic progress.

HOW IT ADDS VALUE TO THE COMPANY

Customers: The growth in renewal and new business premiums year-on-year shows the confidence of our customers. This is evident from the NPS surveys being rated No.1 across all insurers.

Distribution: Our distribution strategy has helped us reduce dependency on any one channel for growth and helped create a platform for sustainable future growth through a well-diversified distribution mix.

Communities: A strong life insurance sector plays a role in the nation's economic development by facilitating mobilisation of savings for investment. We aim to identify critical areas of development that require investments and intervention, which can help to protect communities and realise India's potential for growth and prosperity.

KEY CHALLENGES OF THE CAPITAL

Customers

- To ensure we set new service benchmark Y-o-Y
- Develop innovative offerings and simplify customer engagement

Distribution

- Change in partners priorities on selling insurance products
- Change in customers preferences

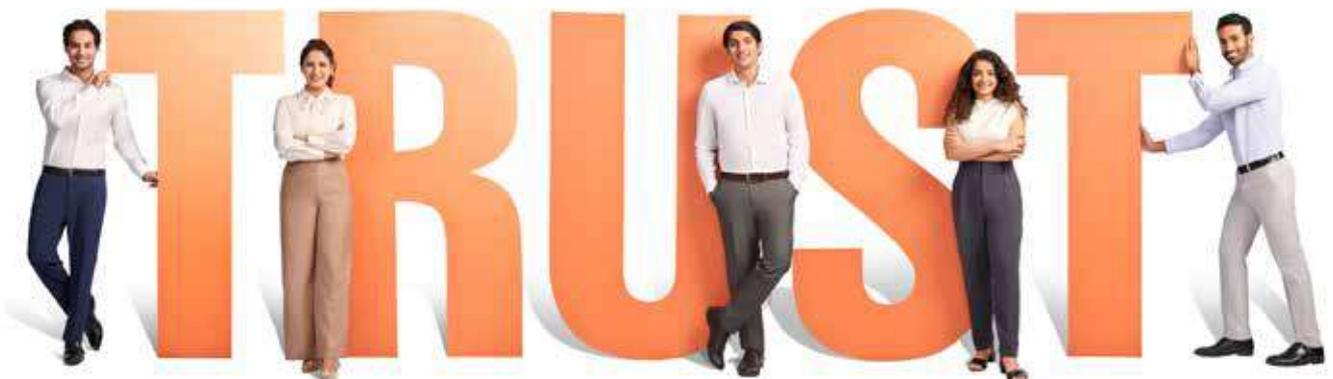

STRATEGIC GROWTH DRIVERS

Customers

Designing the communication across policy life-cycle through email, SMS, banners, FAQ's, chats, WhatsApp etc., would be one of the means to ensure we achieve the desired objective as mentioned above.

Distribution

- **Agency** – Invest and grow
- **Bancassurance** – Build profitability and new tie-ups
- **Partnership Distribution** – Create depth and add width
- **Direct** – Leverage analytics to upsell to our existing customers
- **Emerging Ecosystems** – Partner with non-traditional distributors

CUSTOMERS

Social and Relationship Capital consists of intangibles (shared values, commitments and knowledge) that form the basis of the reputation and trust that we have developed. Our relations with clients, the market and society are underpinned by ethics and independence and are part of our basis for ensuring the quality of our work and the sustainability of the business.

Today, customer service means delivering proactive and immediate support to customers anytime on the channel of their choice — phone, email, text, chat and more. During onboarding and across the policy life-cycle, the Company ensures customers are aware and educated about product features and benefits and the importance of staying invested in the policy for the entire tenure of the policy.

Customers can choose from various online and offline payment options to pay their premiums. To ensure a seamless and convenient experience for premium payment, the Company offers digital and physical standing instructions. The Company was the first in the life insurance industry to offer **Click to pay option and UPI Autopay** options for a smoother payment experience. Doorstep assistance is also offered to customers proactively including senior citizens.

Additionally, we offer call patch benefits for customers encountering payment failures on our website to assist them in successfully making renewal premium payments.

The Company offers liquidity options to customers who have expressed an inability to pay their premiums or decide not to continue their policies.

Periodic engagement programmes are conducted through different modes to keep policyholders aware of the benefits of their policies and other issues related to their area of interest, security measures that they should be aware of and investment related educational series.

We offer a multi-channel service architecture to deliver 24x7 service to our customers based on their preference and need. Video, Voice and Vernacular are the three pillars of personalisation on which we have built our customer engagement architecture.

1. Branch Overview

Customers can walk into any of our offices/branches across the country, the details of which can be obtained from the Branch Locator section on our Website.

At branches, we recognise our customers in need of special considerations and deliver customised and

prioritised services. Personalisation is the key to ensure that customers feel comfortable while availing services. The staff at our branches are well trained to be cognisant of the hassles and inconvenience caused to senior citizens, expectant mothers and those with infants. With claimant's prioritisation, handholding and expectation setting is well managed and branches strive their best to provide a comfortable and hassle-free experience to them.

2. Contact Centre

Customer delight is our first objective and the Contact Centre team strives hard to live by this promise of delivering value to customers and being able to resolve their queries efficiently with zero compromise on quality. We operate on the core philosophy of customer-centricity. We offer long-term savings and protection products to meet different life-stage requirements of our customers. The key focus area of our Contact Centre strategy is to provide convenience to customers. Our Contact Centre team offers a plethora of service options to customers to make their experience seamless. The team has received several awards and accolades which are a testimony to this endeavour. Some of them are as listed below:

Best Work From Home Design in Contact Centre

Contact Centre of the Year Award in Insurance

Customer Centric Innovations in Contact Centre

Below are some unique services we provide at our Contact Centres:

- Facility for senior citizens to directly connect calls with our executives, bypassing the IVR option
- Call patch option is enabled at the Contact Centres in case of any issues while making premium payments
- Through Visual IVR services, the customers calling at the call centre can fulfil their servicing need independently without having to speak to a customer service executive

Our service staff reaches out to customers on a continuous basis and assists them in making timely premium payments. Their collective efforts helped the Company reach a new milestone of ₹ 57 billion in Insta-Renewal collection. This helped a large number of customers secure themselves and their families.

The call centre also engaged with our existing customers to offer them need-based up-sell services, resulting in 11,129 new policies including top-ups with about ₹ 165 million of premiums being collected.

3. Self-Help and Digital Service Enablers

We are constantly improvising on our digital enablers by making them more robust and ensuring state-of-the-art deliverables. Our device-agnostic platform provides access through the website, mobile app, WhatsApp, voice bots, AI-powered Chatbot. It ensures that we can engage with our customers where they want and when they want. The endeavour is to extend it to include more regional languages to be able to serve them in the language they want.

A few of the enhancements are listed below:

Enhancements on the LiGo Chat Bot

To add a personal touch to customer experience, we worked on humanising the digital response. Through live chat options managed by human agents, customers can personalise their chats with minimum open propositions.

Both our chat bot and website are able to identify unsatisfactory customer experiences and provides an option of immediate assistance through a “call-back” option to resolve their issues on priority. Similar developments on our IVR system ensures support by deploying faster transaction modes and aid with immediate call transfer assistance for any unresolved issues.

An instant call patch mechanism has been activated for customers visiting the grievance section on the website.

Few of our intuitive prompts like submission of personal health declaration for lapsed policies, premium due reminders and updating of contact details has gone a long way to benefit our customers.

The system also identifies and interprets common input errors made by customers such as date format and provides an uninterrupted interface and a smooth service experience.

We keep adding to the services offered by Chatbot LiGo and to those available on our WhatsApp business platform to enhance convenience and customer satisfaction.

Mobile App

Enablement of the digital service point has been very popular with our customers. Our mobile app has crossed the milestone of 1.5 million downloads and is one of the best rated in the industry. Today one out of every three service transactions are carried out on our mobile app.

During the year, new digital features were introduced to increase the range of transactions that could be conducted including online annuity opt in, account details updation, linking of policies, unclaimed amount, in line with revised financial goals as well as digital life verification for annuity customers at the click of a button from the comfort of their homes.

4. Milestone-based communications

Our proactive milestone-based communication are designed in such a way that the customers are touch based on every critical policy life-cycle like a renewal premium reminder, premium receipt post payments, maturity information, survival payments etc. Additionally on personal milestones like a birthday, the customers are touch based for a delight. Customers also have various preference of communications mode to choose from like, SMS, email, WhatsApp etc.

5. Grievances

Our Grievance Redressal framework ensures prompt and effective resolution of customers’ grievances. This independent centralised team evaluates every customer grievance in a fair and impartial manner.

Our grievance ratio for FY2023 stands at 59 grievances per 10,000 new business issuance (retail policies).

The grievance redressal team also ensures that customers’ insights and feedback are reviewed with sensitivity to improve our service offerings and customer experiences.

MULTI-CHANNEL - THE FUTURE OF DISTRIBUTION

Customers and partner ecosystems are driving the swift movement and change in the channel environment. Since customer expectations are evolving into a multi-channel world, insurers offer a multi-channel distribution with channel alternatives and choice, whether directly or through partners. Customer interactions are improved through multi-channel distribution. New partnerships will accelerate customer experience, expand distribution reach and the ability to buy seamlessly.

DISTRIBUTOR CONVENIENCE

Through process simplifications, ecosystems integration and technology adoption, we have established industry leading benchmarks in the distribution process.

Using Humanoid BOT technology, we have been able to reach out to our advisor base to inform them about the benefits of being actively associated with us, connecting them with centralised team support and helping them with adequate information.

Our distribution partners are enabled with digital tools to onboard and serve the customers with ease. Their onboarding journeys are simplified by using national repositories such as CKYC for prefilling the application form and doing away with document requirements. With the use of document calculator, our distributors can preempt underwriting requirements upfront and resulting in faster onboarding. The system is capable of checking clients rated-up sum assured and provide medical or any other requirement. We have seen success in ecosystems such as Account Aggregators, having tied up with all service providers to empower customers with ease and a secured way of providing financial documentation.

Distributors are additionally supported through collaboration platforms, Pre-Approved Sum Assured

(PASA) offers, pre-population of application forms from uploaded KYC documents, customised offers to customers and by tele and video verification triggers. An innovative dashboard has been built to provide all-in-one integrated view of sourcing with funnel view till issuance. This dashboard is further powered with persistency and application tracking capabilities to enhance productivity, all within a single view.

The Group Affinity Business portal has been further augmented with capabilities to complete the process of seamless onboarding of members. The portal now handles a large number of onboarding members and also performs various checks like product boundary conditions, premium computation, backend workflow system integration, de-duplication of clients and ensuring reinsurance requirements. The ecosystem for Group Affinity Business is built for scale with appropriate checks.

We have built a state-of-the-art platform enabling ease of integration with ecosystems and partner systems. Additionally, we also support our partners to build customer onboarding journeys on their platform powered by micro services.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

CSR has been a long-standing commitment at ICICI Prudential Life Insurance and forms an integral part of the Company’s activities. The Company’s objective is to proactively support meaningful socio-economic development in India and enable a larger number of people to participate in and benefit from India’s economic progress. It contributes and supports programmes and initiatives keeping ‘protection of life and health’ as the core proposition and cornerstone of all its CSR initiatives. This is in line with the Company’s vision “to build an enduring institution that serves the protection and long-term saving needs of the customers with sensitivity.”

The Company contributes 70% of its annual CSR budget to ICICI Foundation for Inclusive Growth (ICICI Foundation), which takes forward CSR programmes on behalf of the ICICI Group.

ICICI Foundation focusses on the areas of sustainable livelihood through skill development and identified social and environmental projects. During FY2023, the Company supported two programmes through ICICI Foundation, as listed below:

Skill Development through ICICI Academy for Skills

The Company supports ICICI Foundation’s programme on skill development for sustainable livelihood. ICICI Academy for Skills (Academy) provides vocational training to youth from economically weaker sections so that they can undertake economic activity for a sustainable livelihood. The Academy offers industry relevant and job oriented vocational training in 14 technical and office skills at 28 operational centres across the country during FY2023. During the year, the number of centres was rationalised to 26. The Company has supported 831 trainees in FY2023.

IMPACT ASSESSMENT FOR FY2023

- Highly inclusive programme with 41% female trainees attended the training programme
- 73% of trainees continued with their job after joining
- The programmes offered, helped the candidates in improving a range of soft skills, such as confidence building and learning ability
- 70% of trainees have positive perception toward ICICI Foundation/Group after receiving the training programme

Healthcare Programme

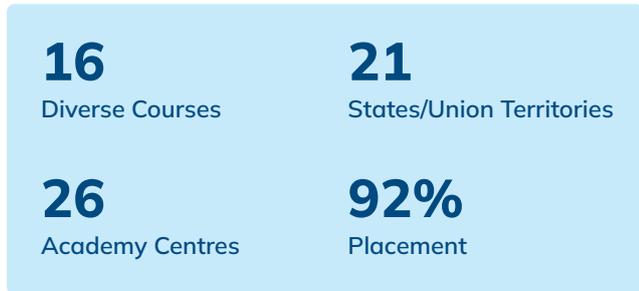

The Company has also undertaken some healthcare initiatives through ICICI Foundation which included providing 3 ambulances to hospitals in Pune, Nagpur and Ahmednagar as well as supporting cardiac surgeries of 5 underprivileged children across Maharashtra, Chhattisgarh, Haryana and Telangana.

More details on ICICI Foundation programmes, can be viewed on the link www.icicifoundation.org

The CSR programmes taken forward by the Company directly or in conjunction with other partners are as follows:

CONSUMER AWARENESS AND EDUCATION

The Company continued its commitment towards awareness of proactive health management, financial preparedness and the significance of having an electronic Insurance Account (eIA). Through its key message

“Listen to your body”, the Company educated consumers to pay attention to the early symptoms of critical health issues, go for regular health check-ups, take necessary action and be financially prepared to win over critical health issues. As part of the campaign, a Health Risk Assessment was developed to increase awareness and engagement with consumers. At the end of the assessment, the consumers received a health score. Basis this score, they were asked to take the relevant next steps. This initiative was disseminated through Facebook, Instagram, LinkedIn, Google display network and affiliate networks. The programme reached out to an estimated 18 million consumers.

HEALTHCARE

Improve Health Outcomes of Underprivileged Children

The Company has partnered with Catalysts for Social Action for a three-year healthcare programme, which aims at improving health outcomes of over 248 underprivileged/orphan/abandoned children living in eight child care homes of Maharashtra. Health parameters such as Haemoglobin (Hb), Body Mass Index (BMI) levels are monitored and necessary health, hygiene and nutrition support is provided to ensure children attain and maintain healthy scores.

“Thank you to team ICICI Prudential Life Insurance for partnering with us in ensuring our children remain healthy. Good health is central to overall development and for their learning. Our partnership with ICICI Prudential Life Insurance has ensured continued support over the years towards some of the most vulnerable children living under Institutional care.”

Anandhi Yagnaraman
CEO - Catalysts for Social Action

Improve Health Outcomes of Underprivileged Children with Special needs Staying in SOS Village of Madhya Pradesh

The Company has partnered with SOS Children's Villages of India to support over 110 underprivileged specially-abled children living in SOS Village home at Khajuri Kalan, Bhopal in Madhya Pradesh. The programme is for a period of three years focussing on improving health outcomes of differently abled children without parental care. For FY2023, the Company supported upgradation and renovation of physiotherapy laboratory including physiotherapy equipment and special devices, which aims at improving health outcome of the children.

“We are grateful to ICICI Prudential Life Insurance for their multi-year partnership in supporting SOS India's work in Khajuri Kalan for special needs children. The generous support has been transformative, enabling us to provide the necessary care and support to these children who require specialised attention. This support will be making a significant impact in their lives. Thank you for making a meaningful difference!”

Sumanta Kumar Kar
CEO - SOS Children's Villages of India

EMPLOYEE VOLUNTEERING

Health Challenge Programme with Tata Memorial Hospital

The Company in FY2023 stepped up programmes for employee volunteering. It encouraged employees to adopt healthy habits including a regime of regular exercise. On behalf of employees who met the goals, the Company supported underprivileged Cancer patients for their treatment. The Company took forward the following programmes:

- **#Committoquit** – Employees took the first step towards a healthier life by registering for the #Committoquit pledge during the Anti-Tobacco campaign launched by the Company.
- **#Stepchallenge** – On the World Heart Day i.e. September 29, the Company had launched the #Stepchallenge programme, wherein employees were encouraged to walk 5,000 steps daily.

The Company had committed to donate on behalf of the employees towards Cancer support for the underprivileged. The Company partnered with Tata Memorial Hospital (TMH), Mumbai to support underprivileged Cancer patients with personalised treatment plans and expert oncologists opinion through online platform. Through this programme, 260 beneficiaries have been supported.

“Tata Memorial Centre (TMC) - Navya is so grateful to ICICI Prudential Life Insurance for its support in FY2022. Together, we have empowered low-income cancer patients from 23 states across India with personalised, evidence-based treatment plans. These patients ranged from 2-year-olds to 95-year-olds suffering from a variety of cancers. Thanks to ICICI Prudential Life Insurance, we were able to offer guidance and cancer care expertise that these patients would not have otherwise had access to. It has truly been a privilege to work with ICICI Prudential Life Insurance towards our shared goals of participation and protection in healthcare. We look forward to impacting many more such lives together!”

Rhea Mehta
Director - Special Initiatives, TMC Navya

The Company also encourages the spirit of giving amongst its employees by providing various volunteering platforms:

- **iCare.iShare Payroll Giving programme** – An online donation platform partnered with GiveIndia, offers employees freedom to contribute monthly to any cause of their choice from their payroll. The Company makes a matching contribution to the donation made by the employee for the Payroll Giving programme.
- **DaanUtsav programme** – The Company celebrates the festival of 'DaanUtsav' in October every year by fulfilling small joys of children living in child care homes with Catalysts for Social Action. This year as well, the employees spread smiles with an effort to fulfil their little joys by donating indoor games, stationery supplies and other essentials.

More than 1,000 employees have participated through the above programmes.

"ICICI Prudential Life Insurance has been a valued partner of the GiveIndia Employee Giving programmes for over 15 years now. Imbibing a culture of giving, ICICI Prudential Life Insurance team has enabled employee contributions to over 50 NGO partners across critical cause areas like Education, Elderly Care and Healthcare. Matching contribution from the organisation has gone a long way to support some credible grass-root organisations towards impact. Give is super proud of our association with ICICI Prudential Life Insurance and we look forward to scaling impact together!"

STRATEGIC REVIEW

Natural Capital

KEY HIGHLIGHTS OF FY2023

- Reduction of carbon footprint within our operations by ~1,633 tonnes
- Year-on-year GHG emission per FTE (Full time employee) has declined from 1.09 tCO₂e in FY2022 to 0.71 tCO₂e in FY2023
- Implementation of green energy at major offices in Mumbai has reduced indirect GHG emissions from purchased electricity
- Disposal of E-waste through government-certified vendors - 36,071 Kg
- Our organisation has engaged an external sustainability consultant to guide and help us estimate our GHG emissions and further support in strengthening climate action at the Company

WHAT THIS CAPITAL IMPLIES

Natural Capital represents the renewable and non-renewable natural resources that are used to operate our business.

HOW IT ADDS VALUE TO THE COMPANY

Being a financial services company, our initiatives are based on the core ethos of responsible consumption and recycling, wherever possible. We operate through 470 offices in India, including one Head Office and two Back-Offices. At some of our offices based in Mumbai, we have transitioned to green energy, with an aim to further reduce our carbon footprint.

INITIATIVES UDERTAKEN IN FY2023

At ICICI Prudential Life Insurance, our efforts in managing our Natural Capital are channelled towards promoting sustainable growth and development, with a focus on reducing energy consumption and treating and recycling waste as effectively as possible.

Due to the nature of our business, the direct impact of our operations on the environment is minimal. However, we continue to focus on the optimum use of all the natural resources (energy, water and paper) in our internal operations in order to minimise our carbon footprint. Demonstrating our commitment to environmental protection and reduction of carbon footprint, we formulated and approved an environment policy.

In FY2023, we reduced carbon footprint within our operations, resulting in a decline in carbon emission

per FTE (full-time employee) to 0.71 tCO₂e – from 1.09 tCO₂e in FY2022. This has been the result of strategic and focussed initiatives directed towards green energy transitioning, reducing energy consumption and paper usage, conserving water and effectively managing solid and e-waste.

We will continue to take concerted efforts to further reduce our carbon footprint, going forward. The Company has engaged external experts to understand where we stand and the way forward to an enhanced ESG integration through a framework set-up and guidance for our Net Zero Journey. Our Scope 1, Scope 2 and partial Scope 3 carbon emissions have been calculated and vetted by an external Sustainability consultant. We are also working towards increasing awareness amongst our employees about our sustainability initiatives.

OUR KEY INITIATIVES

Deploying Inverter Air Conditioners (ACs) and Variable Refrigerant Flow (VRF) ACs vis-à-vis conventional ACs to reduce electricity consumption

35 other offices in Maharashtra have applied for green energy and connections will be obtained soon

Implementing green energy at major offices in Mumbai

Utilising digitalised business processes for an end-to-end paperless journey

Ensuring e-waste disposal of IT assets through government-approved vendors, enabling recycling

STRATEGIC REVIEW

Environmental, Social and Governance (ESG)

(For the detailed ESG Report, refer to ESG Report FY2023 under the Investor Relations section on the Website)

OUR ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG) PRIORITIES

Sustainability is integral to our vision of building an enduring institution that serves the protection and long-term saving needs of customers with sensitivity. Having started our journey in 2020, today we continue to be the highest-ranked ESG Company in Indian insurance industry.

Life insurance is a key requirement for Indian citizens within the current social security framework. It is uniquely positioned as a financial planning tool that helps provide families with a financial safety-net and enables them to achieve their long-term financial goals.

We are committed to integrating sustainability with our business processes and as a way of doing business. Today, we have come a long way since the time we commenced our ESG journey in 2020. In line with one of the best ESG practices, we opted to bring our overall sustainability framework under the Board's purview by amending the terms of reference of our Board Corporate Social Responsibility Committee and renaming it as 'Board Sustainability and Corporate Social Responsibility Committee'.

Our Executive Sustainability Steering Committee periodically reviews our ESG performance and integrates sustainability in ongoing business processes by reviewing ESG initiatives related to a particular focus area and directing the concerned senior leader to oversee the implementation and reporting of the initiatives. Their collective efforts mean that we continue to be the highest-ranked ESG Company in the Indian insurance industry. We are also delighted to share that we have been conferred with the 'Corporate Governance Award' at the 'Dun & Bradstreet ESG Leadership Summit 2023'. We are interacting with various investors and analysts to understand their expectations and incorporating that in our ESG framework.

ENVIRONMENTAL

We operate in the financial services sector and hence, there is minimal direct impact of our operations on the environment. Whilst we operate through 470 offices in India including our corporate office and two back offices, we have made significant strides in digital adoption. Today, 92.5% of our customer service requests are conducted through all digital channels. Our initiatives are primarily focussed on reducing what we consume and recycling wherever possible. We adopt the best-in-class environment-friendly practices for reducing energy consumption, water conservation and waste management.

SOCIAL

Customer-centricity continues to remain the bedrock of everything we do. Our commitment to fairness, transparency, empathy and responsiveness in our engagement and interactions with our customers is inspired by our vision to serve their protection and long-term savings needs. Our customers, employees, shareholders, business partners and the community at large are our stakeholders. All of them have contributed to our growth and success in different ways.

We re-oriented our priorities in FY2023, considering the sprouting changes in the talent landscape led by millennials, with the emerging Gen Z workforce and the macro-economic factors. This included strengthening of capacity through talent attraction and onboarding; development of capability to enable future-ready talent; and fostering a culture underpinned on delivering our employee value proposition. Our employees are committed to adopting the highest business, governance, ethical and legal standards in the conduct of our business operations. For the community at large, our objective is to aim for greater financial inclusion and proactively support meaningful socio-economic development in India, enabling a larger number of people to participate and benefit from India's economic progress.

Directors' Report

TO THE MEMBERS

ICICI Prudential Life Insurance Company Limited

Your Directors have pleasure in presenting the 23rd Annual Report of ICICI Prudential Life Insurance Company Limited (the Company) with the audited statement of accounts for the year ended March 31, 2023 (FY2023).

PERFORMANCE

Industry in FY2023

During the financial year 2023, global economies recovering from the COVID-19 pandemic witnessed another hindrance in the form of a geopolitical conflict which caused significant pricing pressures across economies including India. This resulted in an increase in commodity and energy prices globally, thereby increasing inflationary pressures across most economies including India. COVID-19 restrictions in China as well as geopolitical conflict continued to pose supply side challenges. However, with the calibrated approach of Reserve Bank of India and effective measures taken by the Government of India, the Indian economy was able to gain pace through the rest of the financial year. In this context, the new business Retail Weighted Received Premium (RWRP) for the industry increased by 18.7% from ₹ 875.73 billion in FY2022 to ₹ 1,039.56 billion in FY2023. The market share of private players increased from 62.9% in FY2022 to 65.8% in FY2023.

Company in FY2023

Our objective continues to be that of creation of value for our key stakeholders, namely, customers, employees and shareholders.

Customer-centricity continues to be at the core of everything we do. We offer a well-diversified product suite through a multichannel distribution architecture catering to a wide range of customer segments as well as customer needs. With this customer-centric approach, we have had a robust performance across various customer service parameters. Our claim settlement ratio for individual death claims was 95.3% for FY2023. The overall claim settlement ratio (inclusive of individual and group death claims) was 98.7% for FY2023. Average time taken for settlement of non-investigated retail death claims stood at 1.2 days in FY2023. Our 13th month persistency ratio¹ improved from 84.6% in FY2022 to 85.4% in FY2023, which was the highest in the last five financial years. Our 49th month persistency ratio¹ improved from 63.4% in FY2022 to 63.9% in FY2023, which was the highest in the last five financial years. Our grievance ratio stood at 59 per 10,000 new business policies issued for FY2023.

Alignment between our business and people strategy and the consistent investment in the growth and

development of our employees have helped us make our human resources a source of our strength and a key competitive advantage. The focus of our key people imperatives in FY2023 has been to:

- Strengthen Capacity through talent attraction and robust onboarding,
- Develop Capability to enable future-ready talent, and
- Enable a Culture that delivers our employee value proposition of providing a Supportive Environment, providing Learning & Growth and ensuring Fairness & Meritocracy

In alignment with the business strategy, the Company has augmented capacity for risk-calibrated growth & profitability and invested in core roles as well as innovation-centric roles. This is supported through a robust capability development framework that involves structured learning interventions, skill mapping & professional certifications, on the-job training, job rotation, management development programs and self-paced virtual learning platforms. A well-defined performance & talent management system ensures clarity of purpose across levels and alignment to the Key Performance Indicators of the Company. In addition, it also helps create a talent pipeline by nurturing high-potential talent and enables differentiated rewards to help ring-fence talent.

Key elements of our culture include aligning employees to key organisational imperatives, fostering diversity & inclusion, enabling holistic employee well-being, crowdsourcing innovation and coming together & celebrating. In addition, mechanisms are in place to listen, empathise and respond to employee feedback through employee surveys leading to a periodic review of employee policies, processes & benefits; as well as a robust grievance redressal mechanism to ensure all employee concerns are addressed.

The people strategy has enabled the Company to have leadership stability, with 82% of the senior management team having served the Company for more than ten years, leadership depth with 96% of senior management having done more than three job rotations, and leadership cover with 97% of key positions at leadership levels having adequate / moderate leadership cover.

For our shareholders, we delivered on the objective of doubling the FY2019 Value of New Business (VNB) in FY2023, with a four-year compounded annual growth rate of 20.1% and industry leading margins of 32%. The path taken to achieve the VNB doubling objective was to transform ourselves in the last four years from being a Company focused on ULIPs, distributed primarily through a single channel and catering mostly to affluent

individuals in top tier cities to an organisation offering well-diversified product suite distributed through multichannel architecture catering to a wide range of customer segments as well as customer needs. In FY2023, the Company has a diversified product mix, channel mix and most importantly, the power of a large customer base spread across various income segments. This four-year transformation journey has resulted in well diversified pools of profit, thereby helping us reach our stated objective of doubling of FY2019 VNB. Our primary focus continues to be to deliver growth of absolute VNB through the 4P strategy of Premium growth, Protection business growth, Persistency improvement and Productivity enhancement, while keeping customer centricity at the core. We continue to integrate aspects of Environmental, Social, and Governance (ESG) into the management of our business as well. We believe that this 4P strategy is appropriate in the context of the large insurance opportunity in the country, a facilitative regulatory regime and coupled with our objective to grow absolute VNB.

Premium growth: The Annualised Premium Equivalent (APE) for the Company increased by 11.7% from ₹ 77.33 billion in FY2022 to ₹ 86.40 billion in FY2023. Our new business received premium grew by 12.5% from ₹ 150.36 billion in FY2022 to ₹ 169.22 billion in FY2023. In FY2023, the Company had a market share of 7.2% based on RWRP.

Protection business growth: The Company continued its focus on the protection business, resulting in a new business sum assured growth of 34.7% to ₹ 10.4 trillion in FY2023. The Company's market share based of new business sum assured has increased from 13.4% in FY2022 to 14.3% for FY2023. Retail protection business registered sequential growth for Q2-FY2023, Q3-FY2023 and Q4-FY2023, as well as a year-on-year growth for Q4-FY2023. The Company has continued to leverage the growth opportunity in group protection business in FY2023 as well. As a result, the overall protection APE saw a growth of 14.5% from ₹ 13.13 billion in FY2022 to ₹ 15.04 billion in FY2023.

Persistency improvement: For FY2023, our persistency ratios¹ for 13th month and 49th month stood at 85.4% and 63.9% respectively. Our retail renewal premium stood at ₹ 223.77 billion in FY2023. Our assets under management stood at ₹ 2.5 trillion at March 31, 2023.

Productivity enhancement: Total expenses increased from ₹ 53.63 billion in FY2022 to ₹ 64.75 billion in FY2023. The absolute expenses are higher as compared to the same period last year due to investments made to deliver sustainable future growth. The cost to total weighted received premium (TWRP²) ratio increased from 18.6% in FY2022 to 21.5% in FY2023. Also, the cost to TWRP ratio for savings business stood at 14.2% in FY2023.

Resilient Balance Sheet: The Company has maintained a strong and healthy Balance Sheet throughout its journey. Only 0.3% of the fixed income portfolio has been invested in bonds rated below AA and the Company continues to maintain its track record of not having a single non-performing asset (NPA) in its fixed income portfolio since inception.

Value of New Business (VNB): The outcome of our focus on 4Ps has resulted in our VNB for FY2023 of ₹ 27.65 billion, a growth of 27.8% over FY2022. Embedded value increased from ₹ 316.25 billion at March 31, 2022 to ₹ 356.34 billion at March 31, 2023.

Outlook for the industry and the Company

The size of the Indian life insurance sector was ₹ 6.9 trillion (Source: IRDAI, Annual Report 2021-22) on a total premium basis in FY2022, making it the ninth largest life insurance market in the world and the fourth largest in Asia (Source: Swiss Re sigma No. 4/2022). The total premium in the Indian life insurance sector grew at a CAGR of ~14% between FY2002 and FY2022. Based on retail weighted received premium (RWRP), new business premium of the industry has grown at a CAGR of ~11% during FY2002 to FY2023. This growth can be attributed to efforts toward financial inclusion, rapid digitalisation of financial services powered by high penetration of the internet in the country, rising middle class disposable income, increasing awareness towards retirement planning & long-term savings, push by government incentives on

¹ Persistency calculations in accordance with IRDAI circular on 'Public disclosures by insurers' dated September 30, 2021; 12 month rolling persistency

² TWRP: Total premium less 90% of single premium

various instruments etc. The life insurance penetration of the country has increased from 2.1% in FY2002 to 2.9% in FY2022 (life insurance premium measured as a percentage of gross domestic product). Although the life insurance industry has grown manifold over the last two decades, there is still a huge opportunity to grow further and expand the outreach, with the larger objective of increasing the insurance penetration and improving the insurance density of the country. Given this immense opportunity, a facilitative regulatory regime coupled with India's demographic factors such as a growing middle class, young insurable population, growing awareness of the need for protection & retirement planning, rapid rise in urbanisation and increasing financial savings are expected to aid the growth of the life insurance industry in India.

The Company would continue to focus on its objective of growing value of new business (VNB) through the 4P approach.

Premium growth: The Company would endeavour to grow premium through:

- **Deepening penetration in under-served customer segments:** The Company would continue to focus on broadening the customer base through initiatives spanning across both distribution and products.
- **Enhancing distribution:** The Company would strengthen its distribution through a closer mapping of distribution segments with customer segments and products. The Company is also focused on expanding the distribution network through acquisition of new partners as well investing in creation of new sourcing channels.
- **Focus on pension & annuity:** The Company would continue to cater to the retirement savings need of customers while managing the investment risk appropriately.

Protection business growth: The Company is focused on expanding the health & protection business across both retail and group lines of business. This would be done by offering protection products across channels, penetrating the online term insurance market and partnering with loan providers to offer coverage against loans.

Persistency improvement: The Company would seek to drive persistency improvements across all durations by encouraging long term behaviour in customers.

Productivity enhancement: The Company would focus on cost efficiency and in particular, would leverage the digital platform to improve customer experience and efficiency of service operations.

Our Reach

The Company reaches its customers through 471 offices in 408 locations as of March 31, 2023. On March 31, 2023, the Company had 17,825 employees and 201,472 advisors to cater to the needs of customers. The Company distributes its products through agents, corporate

agents, banks, brokers, proprietary sales force (PSF) and online channels. The digital platform supports ~3.4 million service interactions every month with more than 92.5% of the Company's service interactions done via self-help/digital modes. As on March 31, 2023, there have been over 1.5 million mobile application downloads.

Products

Broadly, the Company's products can be categorised into savings, protection and annuities. Savings products are offered on three platforms - linked, participating and non-participating.

These plan offers life cover as well as savings which is paid either in lump sum in form of regular stream of income.

Protection products are available on retail, group and credit life platforms. These products provide cover for life, disability, critical illness and accidental death.

Annuity products are available on retail and group platform. These products provide a regular stream of guaranteed income.

Claims

The Company settled over 246,273 mortality claims amounting to a total of ₹ 38.51 (Individual ₹ 19.50, Group ₹ 19.01) billion in FY2023 with individual claim settlement ratio of 95.3% and group claim settlement ratio of 98.9%. The overall claims settlement ratio with individual claims and group claims is 98.7%.

Further, the Company has also paid 99,105 maturity claims from its retail business operations and over 200,000 survival benefit claims amounting to ₹ 38.84 billion and ₹ 5.53 billion, respectively for FY2023. Additionally, the Company has settled 347,061 surrender claims from its retail business operations and 129,510 from group business, amounting to a total of ₹ 236.35 billion.

For non-investigated retail death claims, the settlement was completed within an average turnaround time of 1.2 days from the receipt of the last requirement as compared to thirty days allowed by the regulator.

Subsidiary

The Company's wholly owned unlisted subsidiary, ICICI Prudential Pension Funds Management Company Limited (PFM) acts as a pension fund manager under the National Pension System (NPS) with an objective of providing a strategic platform to leverage the substantial pension opportunity in India. Further, the PFM is also registered to serve as a Point of Presence (PoP) entity for distribution of NPS products and servicing.

During FY2023, the subscriber assets managed by PFM increased by 41.8%, from ₹ 116.14 billion at March 31, 2022 to ₹ 164.66 billion at March 31, 2023. Additionally, the PFM enrolled 137,063 new subscribers during the year. PFM continued to be profitable for a second consecutive

year. The profit before tax decreased from ₹ 0.04 billion in FY2022 to ₹ 0.03 billion in FY2023 primarily on account of increase in employee benefit expenses and expenses incurred for building capacity to support future growth. The profit after tax of the PFM decreased from ₹ 0.05 billion in FY2022 to ₹ 0.03 billion in FY2023. The profit after tax in FY2022 includes the recognition of a deferred tax asset arising from carried forward losses and unabsorbed depreciation, in view of the virtual certainty of realisation of this asset. The overall contribution of the subsidiary to the financial results of the Company is not significant currently. The subsidiary is committed towards increasing its presence in the industry and is focused on scaling up the business and revenue.

The Company will make available separate audited financial statements of the subsidiary company to any Member upon request. These documents/details are available on the Company's website (www.iciciprulife.com) and will also be made available for inspection by any Member of the Company at its registered office. A statement containing salient features of the financial statements of the subsidiary company forms part of the financial statements of the Company.

Rural and social business

The Company has micro insurance retail products and group micro insurance products to cater to the protection need of the unorganized and economically vulnerable section of the society.

- The Company has provided risk cover to self-help group (SHG) members predominantly in the rural areas of Tamil Nadu, Maharashtra and Karnataka. These members belong to a group of micro entrepreneurs having homogeneous social and economic background, who come together to avail micro credit for financing their small and micro enterprises.
- The Company partners with micro finance institutions, banks and extends both retail and group micro insurance cover to customers for covering their loss of income risk arising out of unfortunate and untimely demise.
- The Company has deployed dedicated manpower in ICICI Bank branches across the identified/allotted rural markets to deep-mine the opportunity through retail & group products largely aimed at covering the loan portfolio of bank customers. The team engages with the members associated with Bank's SHPIs (Self-Help Promoting Institutions) to educate on need of insurance & selling of micro-insurance products.
- 136,615 policies were issued in rural areas, constituting 22.63% of total policy issuances. The Company also covered 4,497,729 lives as a part of its social sector coverage.

- (b) Policies commensurate with the Company's size and level of complexity to establish standards of conduct, including a code of conduct, whistle blower policy, prevention of harassment in the workplace, conflict of interest, insurance awareness and customer education policy, grievance redressal policy, record maintenance policy, delegation of financial powers, accounting policy, etc.
- (c) Risk and fraud management framework to identify, measure, monitor and control various risks including operational risks, and a framework for identifying, monitoring and control over outsourced activities.
- (d) Independent Internal Audit Department with oversight from the Audit Committee.
- (e) Employee management framework comprises hiring, retention, training, performance evaluation, remuneration structure, compensation, succession planning through leadership cover index, etc.
- (f) Framework to ensure compliance with regulations, laws including compliance certification, regular communication of changes in regulations/ laws, and litigation management. Framework to ensure compliance of internal control over financial reporting.
- (g) Budgeting, monitoring, and reporting of the performance with key performance indicators.
- (h) Information and cyber security policy and information security framework along with framework to ensure business continuity and disaster recovery.

Process controls: These comprise of controls operating at process level with the objective of providing assurance at a transaction recording stage. The salient aspects of the control framework include:

- (a) All business processes having implications on financial results, regulatory and shareholder reporting are subject to quarterly reviews. Any material deficiency is discussed at the Audit Committee meetings.
- (b) The Company has deployed automation in most aspects of transaction processing (including policy administration, investment management, actuarial computations, expense processing, claims management, human resource processes and accounting) to ensure greater control and efficiency.

Information Technology (IT) controls: The Company has in place a robust IT control environment including controls pertaining to change management, system &

database management, access management, master maintenance, interface, job scheduling, and backup and disaster recovery to ensure data integrity and accuracy of information stored in IT systems.

Control over third parties providing services: The Company has a vendor on-boarding process with due diligence, risk assessment, document review and periodic assessment to ensure controls over third-party service providers relevant from a financial reporting perspective. Further, the Board Risk Management Committee has oversight on the implementation of controls and monitors the performance of the outsourced vendors.

Safeguarding of assets: The Company has adequate controls over safeguarding of assets (comprising of investment assets, IT assets and other assets). These controls are based on value and custody of assets.

Review controls: Review controls comprise of multiple levels of oversight over financial reporting by way of a strong reporting and review framework as follows:

- (a) The financials are audited by joint statutory auditors and are reviewed and approved by the Audit Committee and Board. They are also submitted to the Insurance Regulatory and Development Authority of India (IRDAI).
- (b) The Internal Audit Department exercises independent oversight over operational and financial processes. Any significant observations and recommendations are presented to the Audit Committee. The investment operations function is subject to concurrent audit certification and an Investment Risk Management Systems (IRMS) audit once in two years. Any significant findings in the concurrent audit or IRMS audit are presented to the Audit Committee.
- (c) The Company has an effective organisation structure that segregates duties among business groups, thereby, ensuring orderly and efficient conduct of business. Additionally, the Board has constituted various committees responsible for specific operational areas, formulation of policies and frameworks, and identification, assessment and monitoring of principal risks in accordance with the policies and procedures.
- (d) There are senior management controls comprising of high-level controls (HLC) and management review controls (MRC) to monitor and identify any material misstatement. Management exercises review control by way of in-depth reviews of financials, ledger balances, suspense items and payables, liability assumptions, information security, regulatory compliance, communication and reporting, key compliance issues, supervision of risk management function, etc. conducted by the Chief Financial Officer, Appointed Actuary, Head of Information Technology, Head of Operations and Head of Compliance & Risk.

Fraud prevention: The Company has a Board approved fraud risk management policy which is based on 'Insurance Fraud Monitoring Framework' guidelines issued by IRDAI. The Company has an Operational Risk Management Committee (ORMC) which independently monitors frauds. The ORMC reports to the Executive Risk Committee which ultimately reports to the Board Risk Management Committee (BRMC).

- (a) The fraud control framework consists of preventive measures, incident management and awareness activities. Preventive measures include fraud risk assessment for design of processes, investigation triggers across policy life cycle, and proactive use of analytics to identify fraud patterns. Incident management includes recovery of loss, action through law enforcement agencies, detailed investigation and root cause analysis, and fraud incident reporting to BRMC. Awareness includes mandatory induction training and awareness program for employees, regular communication to policy holders, fraud prevention tips on the Company's website, etc.
- (b) The Company ensures implementation of controls to prevent repetition of incidents, financial recovery process, and disciplinary action against involved employees. It also initiates actions through law enforcement authorities based on severity of the incident.
- (c) The Company undertakes several measures from time to time to create awareness amongst its employees and customers against fraudulent practices.

Internal audit and compliance framework

Internal audit:

The Internal Audit Department (IAD) of the Company acts as an independent entity and reports to the Audit Committee of the Board. IAD has an unrestricted access to the Audit Committee Chairperson and the Managing Director and Chief Executive Officer (MD & CEO). The Head-Internal Audit reports directly to the Audit Committee of the Board and administratively reports to the Chief Risk & Compliance Officer. The IAD has developed a Risk Based Audit Plan (RBAP) and the same has been approved by the Audit Committee of the Board. The basic philosophy of risk based audit framework is to provide reasonable assurance to the Audit Committee of the Board and management about the adequacy and effectiveness of the risk management and control framework in the Company. The scope of Internal Audit includes the review of risk management procedures, internal control systems, information systems and governance processes. Key audit observations and recommendations made are reported to and discussed at the Audit Committee of the Board. Implementation of the recommendations is actively monitored.

Compliance:

The Board Audit Committee oversees the compliance framework of the Company. The Company has

formulated various internal policies/procedures, such as the Compliance Policy, Anti-Bribery and Anti-Corruption Policy, Anti-Money Laundering Policy and an employee code of conduct, which govern the day-to-day activities to ensure compliance. The compliance function disseminates the information regarding relevant laws, regulations and circulars related to insurance and anti-money laundering to various functions. It also serves as a reference point for the staff of various functions for seeking clarifications on applicable laws, regulations and circulars issued on these aspects. The compliance team also monitors the adequacy of the compliance framework across the Company with the Internal Audit Department through an integrated risk based audit plan. Key issues observed as a part of this monitoring are reported to the Board Audit Committee and implementation of recommendations is actively monitored. A compliance certificate signed by the Managing Director & CEO, based on the certification from respective functional heads, is placed at the Board Audit Committee and Board of Directors meetings on a quarterly basis.

Risk management

The Company recognises that risk is an integral element of the business and the managed acceptance of risk is essential for generating shareholder value.

The risk governance structure of the Company consists of the Board, the Board Risk Management Committee (BRMC), the Product Management Committee (PMC), the Executive Risk Committee (ERC) and its sub-committees. The risk philosophy of the Company is outlined in the Board approved risk policy which is reviewed by the Board at least annually. The Board risk policy details identification, measurement, monitoring and control standards relating to various individual risks, namely investment (market, credit and liquidity), insurance, operational (including legal, compliance, outsourcing, customer dissonance, business continuity, information and cyber security) and reputation. The Board periodically reviews the potential impact of strategic risks such as changes in macro-economic factors, government policies, regulatory environment and tax regime on the business plan of the Company.

In addition to these risks, the life insurance industry faces a number of emerging risks. While COVID-19 claims during the year were much lower, there has been a resurgence of COVID-19 infections recently in the country and the claims experience will need to be monitored. Geo-political tensions and the potential for disruption to energy supplies are an additional source of uncertainty for financial and commodity markets and trigger for inflation (which could impact credit quality of counterparties, as well as reduce real wages thereby impacting discretionary savings, insurance new business and persistency risk). There are also emerging risks related to ESG (environmental, social and governance) issues. One of the most prominent ESG risks is that of climate change which could potentially have wide-ranging implications including (but not limited to) adverse impact on economic growth and

investment markets and higher than expected claims due to increased risk of future weather related catastrophes, pandemics as well as possible changes in long-term mortality/morbidity rates. Apart from climate change, there are emerging risks associated with public health trends such as increase in obesity related disorders and demographic changes such as population urbanisation and ageing. Other important ESG elements include data privacy which has an increasing material impact on Company's reputation.

The risk management framework of the Company seeks to identify, measure and control its exposures to all these risks within its overall risk appetite. The Company periodically carries out stress testing of its assets and liabilities to identify impact on regulatory and economic solvency, statutory profits and liquidity position. Such testing is used as an aid in identifying significant existing or emerging risks to its financial position, including the potential impact of severe economic shocks and catastrophic events like pandemics, which could materialize as a consequence of several risk factors including climate change and other sustainability risks. The Company has a framework for information and cyber security as well as business continuity management to analyse emerging risks through regular monitoring of the external and internal environment which has been further augmented in the current situation. The Company also has a privacy policy to ensure protection of sensitive personal data or information collected. During the year, the Company has updated the Board risk policy by integrating sustainability risks in the risk management framework. The key aspects of the Company's risk management framework have been outlined below. Further information on the Company's approach to risk management is available in the sections on 'Enterprise Risk Management' and 'Risks and Opportunities' of this Annual Report.

1.1. Investment risk

Investment risk is the risk arising out of variations in the level or volatility of market prices of assets and financial instruments, including the risk arising from any mismatch between assets and liabilities, due to external market and economic factors. The Company faces limited liquidity risk due to the nature of its liabilities. The key mitigation approaches for this risk are as follows:

- (a) Product approval process: Launching new products can significantly alter the risk profile of the Company's Balance Sheet. Investment risks inherent in new products or significant modifications to existing products are identified at product design stage and products are launched only after approval by the ERC and PMC.
- (b) Asset Liability Management (ALM): The Company has detailed Investment Specifications that govern the investment strategy and limits for each fund depending on the profile of the liability backed by those assets. For each category of products,

the Investment Specifications define limits to permissible exposures to various asset classes, duration guidelines for fixed income instruments and minimum investment in liquid assets. The Company uses derivatives to hedge interest rate risk.

- (c) Exposure limits have been defined for companies, groups and industries in accordance with regulatory guidelines and the Company's internal Investment Policy. The Company restricts investments primarily to securities rated AA and above.
- (d) The Company has a liquidity contingency plan in place.
- (e) As part of its ESG philosophy, the Company has implemented a framework for investment decisions that will support mitigation of risks due to climate change as well as other environmental, social and governance risks by factoring these in its investment decisions.

1.2. Insurance Risk

Insurance risk is the risk arising because of variance to the best estimate or because of random fluctuations in the frequency, size and timing of insurance liabilities. Insurance risk comprise the following components: mortality, morbidity, persistency and expense risk. These risks are mitigated through the following:

- (a) Product approval process: Insurance risks inherent in the new products or significant modifications to existing products are identified at product design stage and products are launched only after approval by the ERC and PMC. The Company, in its product design, incorporates product features and uses appropriate policy wordings to mitigate insurance risk.
- (b) Reinsurance: The Company uses appropriate reinsurance arrangements, including catastrophe reinsurance, to manage insurance risk. Such reinsurance arrangements may be used to support risk transfer of sustainability risks as well. The arrangements are with select and financially sound reinsurers. The Company's reinsurance exposures are considered and approved by the ERC periodically.
- (c) Underwriting and claims controls: Underwriting and claims policies and procedures are in place to assess and manage mortality and morbidity risks. The Company seeks to minimise these risks by diversifying its business portfolio and adhering to appropriate and segmented underwriting norms. The Company conducts periodic reviews of both underwriting and claims procedures. Adjustments to the underwriting strategy may be made to allow for any changes in the insurance risk landscape or emerging risks.
- (d) Experience analysis: The Company conducts its experience analysis regularly in order to monitor

trends, gain insights on emerging risks, if any and to ensure that corrective actions can be initiated at the earliest opportunity and that assumptions used in product pricing, reserving and embedded value reporting are in line with the experience. The Company actively monitors its claims experience, persistency levels and expense ratios. During the course of the COVID-19 pandemic, the Company has been closely monitoring the overall mortality experience including the deaths on account of COVID-19.

- (e) **Aligning key performance indicators:** The Company uses appropriate key performance indicators for different levels of hierarchy in sales and operations to align interests and ensure adequate focus on insurance risk especially, persistency and expense.
- (f) **Product contracts:** The Company designs exclusions and terms and conditions in consultation with reinsurers and with due regard to market practices to manage insurance risk, especially mortality and morbidity risk. In order to deal with a changing insurance landscape or emerging risks, new products may be developed with more suitable product features, policy wordings, exclusions and terms and conditions.
- (g) **Repricing:** The Company reserves the right to re-price future new business with IRDAI approval in case of adverse experience, which could materialize due to various factors including sustainability issues.

1.3. Operational risk:

Operational risk is the risk of loss, resulting from inadequate or failed internal processes, people and systems, or from external events.

The Company uses the following approaches to manage operational risk:

- (a) The Company develops and monitors mitigation plans for high risk items identified through the Risk and Control Self-Assessment (R&CSA) conducted for each business function, through analysis of, loss events and review of audit findings.
- (b) The Company continuously monitors internal loss events and ensures adequate mitigation for material impact events.
- (c) The Company actively promotes a risk awareness culture by improving understanding through communication and education. It further engages with law enforcement agencies to create awareness on various insurance frauds and emerging issues
- (d) **Fraud Management:** The Company has a fraud risk management policy that sets out the approach and guidelines for management of fraud risk. The Company follows both a proactive and reactive approach to manage fraud. Proactive management is done by using triggers to identify suspected

frauds and through random sample checks. Reactive management is done through incident management. The Company ensures implementation of controls to prevent recurrence of such incidents, financial recovery whenever applicable and disciplinary action against involved employees in accordance with the Company's Code of Conduct. It also initiates actions through law enforcement authorities based on severity of incidents.

- (e) **Outsourcing Risk:** The Company has an outsourcing policy to ensure effective oversight and adequate due diligence with regard to outsourcing of activities. The Company outsources processes which are permitted based on the regulatory guidelines. The Company carries out required due-diligence for any new vendor empanelment and annual assessment of outsourced vendors.
- (f) **Business Continuity Management (BCM):** The Company has a BCM policy and framework to ensure resilience and continuity of key products and services at a minimum acceptable level. BCM includes systems and processes for management of risk including use of disaster recovery sites and business continuity plans for critical processes which are being tested periodically. The Company has been accredited with the ISO 22301:2019 certification for the business continuity management systems.
- (g) **Information and cyber security:** The Company has an information and cyber security policy and framework that ensures all information assets are safeguarded by establishing comprehensive management processes throughout the organisation. The Company has defence-in-depth approach, and has deployed security solutions like firewalls, intrusion prevention systems, anti-malware solutions, email security, data leakage prevention and web proxy. Vulnerability assessment and penetration testing program for critical information technology applications and infrastructure has been defined, to ensure IT Systems are secured for operations during its life-cycle. Further, cloud security strategy and practices for protecting data and IT infrastructure has been implemented. Cyber security operations centre (SOC) has been set up for proactive monitoring (24x7), incident response, recovery and remediation activities. Cyber security advisories issued by security experts on current geopolitical environment are being monitored and suitable actions are being initiated. Based on the Information Security Management System (ISMS) controls implemented and the assessment conducted by the certification body, the Company has been awarded a certification under ISO 27001:2013 standard.
- (h) **Privacy policy:** The Company has a privacy policy in accordance with Information technology (Reasonable security practices and procedures and

sensitive personal data or information) Rules, 2011. The policy provides the Company's commitment to privacy throughout the life-cycle of the information from collection, processing, sharing, retention and destruction, by taking reasonable steps to protect the confidentiality of the Personal Information provided and protect it from unauthorised access or alteration, disclosure or destruction.

- (i) The Company has adopted highest business, governance, ethical and legal standards. The Whistle blower policy aims to provide a mechanism to ensure that concerns are appropriately raised, independently investigated and addressed.

1.4. Reputation Risk:

Reputation risk is defined as the risk of negative opinion about the financial stability, service levels, integrity, transparency or any other aspect, as perceived by the stakeholders, resulting in a decline in business volumes and eventually impacting continuity of business. The Company has a framework in place for managing reputation risk and periodically monitors various parameters that could impact the reputation of the Company.

⁴ Appointed as the Executive Director & Chief Operating Officer effective May 1, 2023 and as the Managing Director & CEO of the Company with effect from June 19, 2023, subject to the approval of the shareholders.

In terms of the Listing Regulations, the number of Committees (Audit Committee and Stakeholders Relationship Committee) of public limited companies in which a Director is a member/chairperson were within the limits prescribed under Listing Regulations, for all the Directors of the Company. The number of directorships of each independent Director is also within the limits prescribed under Listing Regulations.

Independent Directors

The Board of Directors of the Company at March 31, 2023 comprised nine Directors, out of which five are independent Directors. Further, the Board of Directors of the Company as on the date of this Report comprised ten Directors, out of which five are independent Directors.

All independent Directors have confirmed that they meet the criteria of independence as laid down under Section 149(6) of the CA2013 and the Listing Regulations and have confirmed that their names have been added in the data bank maintained by the Indian Institute of Corporate Affairs for independent directors, in accordance with Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014.

Pursuant to the provisions of Rule 6 of the Companies (Appointment and Qualifications of Directors) Rules, 2014, every individual whose name is so included in the data bank shall pass an online proficiency self-assessment test. However, an individual who has fulfilled the criteria prescribed in the Rule 6(4) of the said Rules, is exempted from passing the online self-assessment test. In view of the same, none of the Independent Directors were required to take the proficiency self-assessment test. The Board at its meeting held on April 20, 2023 has reviewed the submissions received from all the independent Directors and has confirmed that the independent Directors fulfil the criteria laid down by requisite regulations and are independent from the management. Further, based on these disclosures and confirmations, the Board is of the opinion that the Directors of the Company are eminent persons with integrity and have necessary expertise and experience to continue to discharge their responsibilities as the Director of the Company.

Further, pursuant to the provisions of the CA2013, the shareholders in the 19th AGM of the Company held on July 17, 2019, had appointed Ms. Vibha Paul Rishi (DIN: 05180796) as Independent Director of the Company to hold office for five consecutive years with effect from January 1, 2019, to December 31, 2023. As per section 149(10) of the Companies Act, 2013, an independent director shall be eligible for re-appointment upon passing a special resolution by the members of the Company and disclosure of such appointment in the Board's Report.

Accordingly, the Board has recommended the re-appointment of Ms. Vibha Paul Rishi, aged 62 years, as of date, as an Independent Director of the Company, not liable to retire by rotation, for a second term of five

consecutive years commencing from January 1, 2024, till December 31, 2028, for the approval of the members through a special resolution to be passed at the 23rd AGM of the Company. Her brief profile and other details as required under the CA2013 and Listing Regulations pertaining to re-appointment is provided in the Notice of 23rd AGM of the Company and the explanatory statement under section 102 of the CA2013, annexed to it.

Remuneration disclosures pursuant to IRDAI guidelines

Pursuant to IRDAI guidelines on remuneration of non-executive Directors and Managing Director/Chief Executive Officer/Whole-time Directors of Insurers (IRDAI Guidelines) issued vide reference no. IRDA/F&A/GDL/LSTD/155/08/2016 dated August 5, 2016, requires the Company to make the following disclosures on remuneration in the Annual Report:

Compensation policy and practices

1. Qualitative disclosures

a. Information relating to the design and structure of remuneration processes and the key features and objectives of remuneration policy.

(i) Name and mandate of the main body overseeing remuneration:

The Board Nomination and Remuneration Committee (BNRC/Committee) is the body which oversees aspects pertaining to remuneration. The functions of the Committee include identifying persons who are qualified to become Directors and who may be appointed in senior management in accordance with the criteria laid down as well as recommending to the Board their appointment and removal; and formulating the criteria for determining qualifications, positive attributes and independence of a Director; and also devising a policy on diversity of the Board. The Committee ensures that the proposed appointments/re-appointments of key management person or Directors are in conformity with the Board approved policy on retirement/superannuation; scrutinises the declarations of intending applicants before the appointment/re-appointment/election of Directors by the shareholders at the Annual General Meeting; and scrutinises the applications and details submitted by the aspirants for appointment as the key management person. The Committee also formulates criteria and specifies the manner

for effective evaluation of every individual director's performance, and that of the Board and its committees, and reviews its implementation and compliance. The Committee considers the extension or continuation of the term of appointment of the Independent Directors, on the basis of the report of performance evaluation of Independent Directors. In addition, the Committee recommends to the Board the policy relating to the remuneration for the Directors, key management persons and other employees; and recommends to the Board all remuneration, in whatever form, payable to senior management; and considers and approves employee stock option schemes and administers and supervises the same. The Committee ensures that the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the Company successfully; and that the relationship of remuneration to performance is clear and meets appropriate performance benchmarks; along with approving the compensation program and ensuring that remuneration to Directors, key management person and senior management involves a balance between fixed and incentive pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

- (ii) External consultants whose advice has been sought, the body by which they were commissioned and in what areas of the remuneration process:

The Company engaged the services of reputed consulting firms for market benchmarking in the area of compensation.

- (iii) Scope of the Company's remuneration policy (eg. by regions, business lines), including the extent to which it is applicable to foreign subsidiaries and branches.

The Company's Policy on Compensation & Benefits ("Compensation Policy") for Managing Director & CEO, other Whole-time Directors, non-executive Directors, Key Management Person (KMP), Senior Management Personnel (SMP) and other employees was last amended and approved by the BNRC

and the Board at its Meetings held on April 16, 2022.

- (iv) Type of employees covered and number of such employees:

All employees of the Company are governed by the Compensation Policy. The total number of permanent employees governed by the Compensation Policy of the Company at March 31, 2023 was 17,825.

- (v) Key features and objectives of remuneration policy:

The Company has historically followed prudent compensation practices under the guidance of the Board and the BNRC. The Company's approach to compensation is based on the ethos of meritocracy and fairness within the framework of prudent risk management. This approach has been incorporated in the Compensation Policy, the key elements of which are given below:

Effective governance of compensation

The Company follows prudent compensation practices under the guidance of the BNRC and the Board. The decision relating to the remuneration of the Managing Director & CEO (MD & CEO) and other Whole-time Directors is reviewed and approved by the BNRC and the Board. The BNRC and the Board approves the Key Performance Indicators (KPIs) and the performance threshold for payment of performance bonus, if applicable. The BNRC evaluates business performance against the KPIs and on various risk parameters as prescribed by IRDAI. Based on its assessment, it makes recommendations to the Board regarding compensation for MD & CEO and other Whole-time Directors, performance bonus and long-term pay for all eligible employees, including senior management and key management persons.

Alignment of compensation philosophy with prudent risk taking

The Company seeks to achieve a prudent mix of fixed and variable pay, with a higher proportion of variable pay at senior levels. For the MD & CEO and other Whole-time Directors (WTD), compensation is sought to be aligned to both pre-defined performance objectives of the Company as well as prudent risk parameters. In addition, the Company has an Employees Stock Option Scheme aimed at enabling employees to participate in the long-term growth and financial success of the Company through stock option grants that vest over a period of time.

Whether the BNRC reviewed the Company's remuneration policy during the past year, and if so, an overview of any changes that were made

The BNRC reviewed the Company's Compensation and Benefits policy at its meeting held on April 16, 2022. The key changes in the policy are:

- The clause on variable pay for the Managing Director & CEO and Other Whole-time Directors (in Part B of the Compensation Policy) has been modified to defer a minimum of 50% of the bonus amount for Managing Director & CEO and other Whole-time Directors. If the bonus is under ₹ 25 lacs, the deferment shall not be applicable. The deferral period would be spread over a minimum period of three years (deferment period). The frequency of vesting will be on annual basis and the first vesting shall not be before one year from the commencement of deferral period. The vesting shall be no faster than a prorata basis. Additionally, vesting will not be more frequent than on a yearly basis.

b. Description of the ways in which current and future risks are taken into account in the remuneration processes.

- The Company follows prudent compensation practices under the guidance of the Board and the Board Nomination and Remuneration Committee (BNRC). The Company's approach to compensation is based on the ethos of meritocracy and fairness within the framework of prudent risk management. The performance rating assigned to employees is based on assessment of performance delivered against a set of defined performance objectives. These objectives are balanced in nature and comprise a holistic mix of financial, customer, people, process, quality, compliance objectives and/or any other parameters as may be deemed fit.
- For the MD & CEO and other Whole-time Directors, compensation is sought to be aligned to both pre-defined performance objectives of the Company as well as prudent risk parameters.
- For the MD & CEO and other Whole-time Directors, the quantum of bonus does not exceed a certain percentage (as stipulated in the Compensation Policy) of total fixed pay in a year; a minimum of 50% (as stipulated in the Compensation Policy) will be under deferment. If the bonus amount

is under ₹ 25 lacs, the deferment shall not be applicable. The deferral period would be spread over a minimum period of three years (deferment period). The frequency of vesting will be on annual basis and the first vesting shall not be before one year from the commencement of deferral period. The vesting shall be no faster than a prorata basis. Additionally, vesting will not be more frequent than on a yearly basis.

- The deferred part of the variable pay (performance bonus) for Whole-time Directors is subject to malus, under which, the Company will prevent vesting of all or part of the variable pay in the event of an enquiry determining gross negligence or integrity breach.
- In claw back arrangements with Whole-time Directors, the employee agrees to return, in case asked for, the previously paid variable pay to the Company in the event of an enquiry determining gross negligence or integrity breach, taking into account relevant regulatory stipulations.
- For malus and clawback, acts of gross negligence and integrity breach are covered under the purview of the compensation policy. Errors of judgment shall not be construed to be breaches.

c. Description of the ways in which the Company seeks to link performance during a performance measurement period with levels of remuneration

The Company's approach to compensation is based on the ethos of meritocracy and fairness within the framework of prudent risk management. The extent of variable pay for individual employees is linked to individual performance for sales frontline employees and to individual and organisation performance for non-sales frontline employees and employees in the management cadre. For the latter, the performance rating assigned is based on assessment of performance delivered against a set of defined performance objectives. These objectives are balanced in nature, and comprise a holistic mix of financial, customer, people, process, quality and compliance objectives and/or any other parameters as may be deemed fit. For the Managing Director & CEO and other Whole-time Directors, to ensure effective alignment of compensation with prudent risk parameters, the Company takes into account various risk parameters along with other pre-defined performance objectives of the Company.

Employee Stock Option Scheme (ESOS)

The Company granted options to its employees under its Employees Stock Option Scheme, prior to listing, further to the approval of its Employees Stock Option Scheme – 2005. This pre-IPO Scheme shall be referred to as 'ESOS 2005' or 'Scheme'. The Scheme had six tranches namely Founder, 2004-05, 2005-06, 2006-07, Founder II and 2007-08, pursuant to which shares have been allotted and listed in accordance with the in-principle approval extended by the stock exchanges. All six tranches under the pre-IPO Scheme stand lapsed as on March 31, 2023. The Scheme was instituted vide approval of its members at the Extra-Ordinary General Meeting (EGM) dated March 28, 2005 and subsequently amended by the members of the Company vide its EGM dated February 24, 2015.

The Scheme was ratified and amended by the members of the Company at its Annual General Meeting held on July 17, 2017 which is in compliance with the SEBI (Share Based Employee Benefits) Regulations, 2014 (referred to as the 'Revised Scheme').

The meeting of Board Nomination and Remuneration Committee (BNRC) and the Board held on April 24, 2019 had approved the amendment to the definition of "Exercise Period". The revision to the definition was approved by the members of the Company at its Annual General Meeting held on July 17, 2019.

Further, the meeting of Board Nomination and Remuneration Committee (BNRC) and the Board held on April 17, 2021 and April 19, 2021 respectively had approved the increase in the limit of the number of shares issued or issuable since March 31, 2016 pursuant to the exercise of any Options granted to the Eligible Employees issued pursuant to the Scheme or any other stock option scheme of the Company, by 0.90% of the number of shares issued as on March 31, 2016, i.e. from a limit of 2.64% of the number of shares issued as on March 31, 2016 to 3.54%. The revision to the limit was approved by the members of the Company at its Annual General Meeting held on June 25, 2021.

As per the Revised Scheme, the aggregate number of shares issued or issuable since March 31, 2016 pursuant to the exercise of any Options granted to the Eligible Employees issued pursuant to the Scheme or any other stock option scheme of the Company, shall not exceed 3.54% of the number of shares issued at March 31, 2016. Further, pursuant to the Revised Scheme the maximum number of Options that can be granted to any Eligible Employee in a financial year shall not exceed 0.1% of the issued Shares of the Company at the time of grant of Options. The Revised Scheme provides for a minimum period of one year between the grant of Options and vesting of Options. The exercise price shall be determined by the Board Nomination & Remuneration Committee in concurrence with the Board of Directors of the Company on the date the options are granted and shall be reflected in the award confirmation. Shares are allotted/issued to all those who have exercised their Options, as granted by the Board/BNRC of the Company in accordance with the criteria ascertained pursuant to the Company's Compensation and Benefit policy.

Pursuant to the SEBI (Share Based Employee Benefits) Regulations, 2014, the disclosures are available on the website of the Company at the following link <https://www.icicprulife.com/about-us/corporate-policies.html>.

Performance evaluation of Directors, Chairman, the Board and its Committees

The Company, with the approval of its Board Nomination and Remuneration Committee, has put in place a framework for evaluation of the Directors, Chairman, the Board and its Committees.

The performance evaluation was undertaken through an online survey portal. The performance of the Board was assessed on parameters relating to roles, responsibilities and obligations of the Board and functioning of the Committees including assessing the quality, quantity and timeliness of flow of information between the Company management and the Board that is necessary for the Board to effectively and reasonably perform their duties. The evaluation criteria for the Directors was based on their participation, contribution and offering guidance to and understanding of the areas which were relevant to them in their capacity as members of the Board. The evaluation criteria for the Chairman of the Board, besides the general criteria adopted for assessment of all Directors, included leadership abilities, effective management of meetings and preservation of interest of stakeholders. The evaluation criteria for the Committees were based on effective discharge of its terms of reference and their contribution to the functioning of the Board. The Board Nomination and Remuneration Committee evaluated the performance of the Whole-time Director i.e. Managing Director & CEO. The details about the evaluation of the Whole-time Director are further provided under the section titled "Compensation policy and practices."

The Company has complied with all mandatory requirements specified in Regulations 17 to 27 and clauses (b) to (i) of sub regulation 2 of Regulation 46 and some of the non-mandatory requirements pertaining to Corporate Governance stipulated under the Listing Regulations. The Company has adopted non-mandatory requirement regarding the reporting requirement of the internal auditor, which in the Company's instance, reports directly to the Board Audit Committee.

Green Initiatives in Corporate Governance

In line with the 'Green Initiative', the Company has effected electronic delivery of notice of Annual General Meeting and Annual Report to those Members whose e-mail ids were registered with the respective Depository Participants and downloaded from the depositories viz. National Securities Depository Limited/Central Depository Services (India) Limited. The CA2013 and the underlying rules as well as Regulation 36 of the Listing Regulations, permit the dissemination of financial statements and annual report in electronic mode to the Members. The Directors are thankful to the Members for actively participating in the Green Initiative and seek their continued support for effectively implementing the Green Initiative cause.

In order to support the cause, we have been regularly requesting Members to register/update their email ids with their Depository Participants so as to enable the Company to send various communication through electronic mode. We believe and endorse the 'Green Initiative' as it would not only rationalise the use of paper but also ensure prompt communication, avoid loss in transit and have reference value of the communication.

ANNUAL REPORT ON CSR ACTIVITIES

1. Brief outline on Corporate Social Responsibility Policy of the Company:

Corporate Social Responsibility (CSR) has been a long-standing commitment at the ICICI Group and forms an integral part of the Company's activities. The Group's Contribution to social sector development includes several pioneering interventions, and is implemented through the involvement of stakeholders within the Company, the Group and the broader community. ICICI Foundation for Inclusive Growth (ICICI Foundation) was established in 2008 by ICICI Bank with a view to significantly expand the ICICI Group's activities in the area of CSR. Over the past few years ICICI Foundation has developed significant projects in specific areas, and has built capabilities for direct project implementation as opposed to extending financial support to other organizations.

The Company's objective is to proactively support meaningful socio-economic development in India and enable a larger number of people to participate in and benefit from India's economic progress. This is based on the belief that growth and development are effective only when they result in wider access to opportunities and benefit a broader section of society.

The CSR Policy of the Company sets the framework guiding the Company's CSR activities. It outlines the governance structure, operating framework, monitoring mechanism, and CSR activities that would be undertaken. The Board Sustainability and Corporate Social Responsibility (BSCSR) Committee is the governing body that articulates the scope of CSR activities and ensures compliance with the CSR Policy. The Company's CSR activities are largely focused in the areas of education, skill development and sustainable livelihoods, healthcare, financial inclusion and other activities as the Company may choose to select in fulfilling its CSR objectives. The Company supports programs and initiatives keeping "protection" as the core proposition and cornerstone of all its CSR initiatives as "protection" is core to the Company's business.

The Committee at its meeting held on October 17, 2014 had recommended the Corporate Social Responsibility Policy (CSR Policy) to the Board of the Company. The Policy indicates the activities to be undertaken by the Company, towards fulfilling its CSR objectives, in compliance with section 135 of the Companies Act, 2013.

Further, the Committee reviews the CSR Policy annually or as and when required.

2. Composition of BSCSR Committee:

Independent Auditor’s Certificate on Compliance with the Corporate Governance Requirements under Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

TO THE MEMBERS OF ICICI PRUDENTIAL LIFE INSURANCE COMPANY LIMITED

1. This certificate is issued in accordance with the terms of our engagement letter dated 28 June 2022.
2. We have examined the compliance of conditions of Corporate Governance by ICICI Prudential Life Insurance Company Limited (“the Company”), for the year ended 31 March 2023, as stipulated in regulations 17 to 27, clauses (b) to (i) of regulation 46(2) and paragraphs C, D and E of Schedule V of the Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended from time to time (“Listing Regulations”) pursuant to the Listing Agreement of the Company with Stock Exchanges.

Management’s Responsibility

3. The compliance of conditions of Corporate Governance as stipulated under the Listing Regulations is the responsibility of the Company’s Management including the preparation and maintenance of all the relevant records and documents. This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure the compliance with the conditions of Corporate Governance stipulated in the Listing Regulations.

Auditors’ Responsibility

4. Pursuant to the requirements of the Listing Regulations, it is our responsibility to provide a reasonable assurance whether the Company has complied with the conditions of Corporate Governance as stipulated in Listing Regulations for the year ended 31 March 2023.
5. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
6. We conducted our examination of the above corporate governance compliance by the Company in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) and Guidance Note on Certification of Corporate Governance, both issued by the Institute of the Chartered Accountants of India (the “ICAI”), in so far as applicable for the purpose of this certificate. The Guidance Note requires that we comply with

the ethical requirements of the Code of Ethics issued by the ICAI.

7. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above-mentioned Listing Regulations.
9. We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Restriction on use

10. Our obligations in respect of this certificate are entirely separate from, and our responsibility and liability is in no way changed by, any other role we may have as the statutory auditors of the Company or otherwise. Nothing in this certificate, nor anything said or done in the course of or in connection with the services that are the subject of this certificate, will extend any duty of care we may have in our capacity as statutory auditors of the Company.
11. The certificate is addressed and provided to the Members of the Company solely for the purpose of enabling the Company to comply with the requirement of the Listing Regulations and should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this certificate is shown or into whose hands it may come without our prior consent in writing.

Management Discussion and Analysis

I. INDUSTRY AND BUSINESS REPORT

Macroeconomic environment and outlook

Growth and Inflation

Global economies recovering from the COVID-19 pandemic witnessed another hindrance in the form of geopolitical conflict which has been playing out since February 2022. Further, economies across the globe witnessed significant hardships with some of India's neighbouring nations suffering deep financial crisis. Amidst these, the Indian economy was relatively resilient due to the strong domestic demand prevailing within the country.

Due to the prolonged geopolitical conflict, commodity and energy prices increased globally, directly aggravating inflationary pressures across most economies including India. Economies also witnessed additional inflationary pressures due to liberal liquidity policies adopted to help tackle economic effects of the COVID-19 pandemic. US inflation peaked to 9.1%¹ in June 2022 and EU to 10.6%² in October 2022, which cooled down in March 2023 to 5% and 7% respectively, however well above their 2% target. Indian Consumer Price Index (CPI) peaked to 7.8%³ in April 2022 and stayed above the tolerance level of 6% for most of the year. Indian inflation rates however eased significantly to 5.7% in March 2023.

Brent crude price increased to a high of USD 124 per barrel⁴ in June 2022 and stayed above USD 100 per barrel till August 2022. China continued with a zero COVID-19 policy as infections increased in the second half of 2022, resulting in global market concerns of a slowdown in the Chinese economy. This resulted in a decline of commodity and oil prices globally. Brent crude prices eventually declined to an average of USD 84 per barrel in Q4-FY2023. However, retail fuel prices did not see a corresponding decrease. The Central Government had last reduced excise duty in May 2022 and urged State Governments to follow suit to ease price pressures.

While inflation eased in November/December 2022 due to significant correction in food inflation, especially vegetable prices, core inflation remained elevated and was range-bound between 6.2% and 6.4% throughout the year. However, CPI declined to 5.7% in March 2023 with core CPI declining as well to 5.9%. Even before this favourable decline in CPI, RBI opted to pause rate hikes in April 2023 to gauge the impact of cumulative tightening that had been carried out through FY2023. The RBI

Governor stressed that the policy decision was a 'pause and not a pivot'. A further easing in inflation is expected to encourage RBI to extend the 'pause'. RBI will likely take into cognisance other global central banks, especially US Fed policy action, while deciding on any domestic monetary policy action.

The Central Government had announced forward-looking policies during the initial COVID-19 period. The Production Linked Incentive Scheme (PLI) and Free Trade Agreements (FTA) together focused on the sectoral and export-oriented manufacturing. The capital expenditure budgetary allocation for FY2024 saw 37%⁵ year-on-year growth over 23% growth set out for FY2023. Including Internal and Extra Budgetary Resources (IEBR), the capital expenditure growth is projected at 32% year-on-year and 10% year-on-year for FY2024 and FY2023 respectively. The incremental capital expenditure allocation in FY2024 is highest for railways, roads, infra spending by states, and energy. Encouraged by the strong government outlay and favourable policies, private sector is also expected to participate in the capital expenditure led growth story.

Despite the COVID-19 disruptions, Indian domestic demand remained robust. The Gross Domestic Product (GDP) registered 13%⁶ year-on-year growth in Q1-FY2023 with strong growth in private consumption whereas Gross Fixed Capital Formation (GFCF) increased by 21% year-on-year. This trend continued in Q2-FY2023 as well with 6% GDP growth supported by 9% growth in consumption and 10% growth in GFCF. Q3-FY2023 saw 4% growth with 2% growth in consumption and robust 8% growth in GFCF. Manufacturing displayed weakness in the year with services consistently supporting growth. Agriculture had been resilient throughout the COVID-19 times and continued the trend in FY2023, supported by a good monsoon. Exports also saw weakness from July 2022 after robust growth seen in the previous year which also induced pressure on the current account.

The robustness of Indian economic activity was also evident in the credit growth. The system registered a bank credit growth of 16% year-on-year as on April 2023. Industrial credit saw 6% growth as of March 2023 with micro & small industry registering 12% growth, medium-scale industries grew by 20% and large industries by 3%. Personal loans registered 21% growth compared to 13% growth in the same period during previous year.

Financial markets

Inflation pressures persisted across the globe due to elevated and volatile commodity and energy prices linked to geopolitical conflict. Central banks initiated rate hikes aimed at containing inflation. Cumulatively, RBI had increased the interest rate by 250bps, US Federal Reserve by 500bps⁸, European Central Bank (ECB) by 375bps⁹ and Bank of England (BoE) by 415bps¹⁰ till May 2023. Central banks have also reduced their balance sheets to curtail excess liquidity. The Federal Reserve and ECB continue to scale down their balance sheet to support their monetary policy stance of taming inflation.

The Indian rupee depreciated by 8% to ₹ 82 in April 2023 from ₹ 76 in March 2022. Such pressure was witnessed across most emerging economies. The impact of the same was also seen in the forex reserves. The forex reserves remained healthy at USD 584 billion in April 2023.

With elevated inflation and higher government borrowings in FY2023 10-year government bond yield increased to average of 7.2% in April 2023 from 6.8% in March 2022 and 6.2% in March 2021. Equity markets globally declined in FY2023 due to geopolitical uncertainty, rising inflation, fear of recession, central bank rate tightening and slowdown of growth. The Indian equity market (Nifty-50 Index) witnessed volatility in FY2023. In Q1-FY2023, it corrected due to geopolitical conflict but bounced back by Q3-FY2023, to reach an all-time high owing to strong growth expectations, stable macroeconomic conditions, and confidence of retail and domestic Institutional investors (DIIs). In Q4-FY2023, the market declined due to continued hawkish stance of Central Banks, and US bank collapse, resulting in 0.6% decline in FY2023. The period saw net foreign institutional investors (FIIs) outflows of around ₹ 2.0 trillion¹¹ from the Indian equity market, which was counter-balanced by inflows of around ₹ 2.6 trillion by DIIs. In April 2023, net inflows were ₹ 57 billion and ₹ 22 billion for FII and DII, respectively. Net FDI into India in FY2023 till February end was at ₹ 2.3 trillion¹² as against ₹ 2.6 trillion during the same period in FY2022.

FY2023 ended with concerns of financial and credit crisis that emerged in US & EU. The failure of Silicon Valley Bank and Signature Bank exerted stress on financial markets, while the UBS takeover of Credit Suisse provided some relief. Similarly, First Republic Bank was rescued by JP Morgan through acquisition. The central banks are evaluating the cumulative effect of interest rate hikes on inflation and economic activity to determine the future policy direction.

Financial savings

The share of overall domestic savings in the Indian household sector normalised in FY2022 after a strong pick

up in FY2021. Gross financial savings as a percentage of household savings was 56.2% in FY2022.

Particulars ¹²	FY2020	FY2021	FY2022
Nominal GDP (₹ trillion)	201.04	198.30	234.71
Household savings as % of GDP	19.1%	22.4%	19.7%
Gross financial savings as % of household savings	60.5%	68.9%	56.2%
Share of insurance in financial savings	17.1%	16.0%	17.0%

Macroeconomic outlook

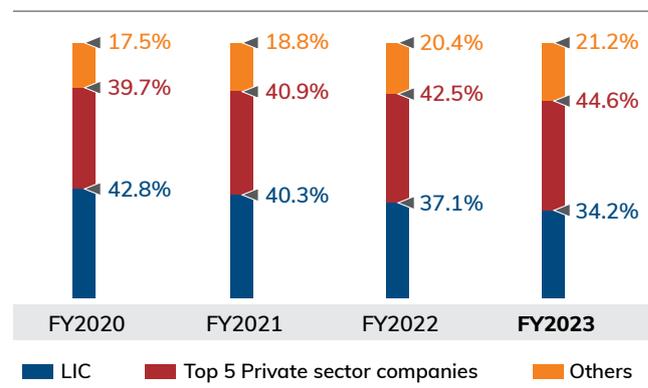

Indian economy is expected to report lower growth in FY2024 due to the higher base of the last two years, steeper interest rates, and a global slowdown. Supportive government policies and the long-term potential of the Indian economy will continue to augur well for capital formation, however other components of GDP like consumption and exports are expected to show lower growth in FY2024. Inflation rates may likely be impacted by extreme weather conditions such as heatwaves and the possibility of an El Nino this year.

Insurance industry structure and developments

The size of the Indian life insurance sector was ₹ 6.9 trillion¹³ on a total premium basis in FY2022, making it the ninth largest life insurance market in the world and the fourth largest in Asia¹⁴. The total premium in the Indian life insurance sector grew at a CAGR of ~14% between FY2002 and FY2022. Based on retail weighted received premium (RWRP), new business premium of the industry has grown at a CAGR of ~11% during FY2002 to FY2023.

The Indian life insurance industry has 23 companies including the Life Insurance Corporation of India (LIC). The top five private sector companies together have 45% of the market share.

Contribution of the life insurance industry

Within Indian financial services, the life insurance industry is uniquely positioned to cover a range of customer needs. The industry offers a variety of savings products across fixed income and equity platforms. It also offers annuity, term plans and defined benefit health plans. The life insurance industry acts as a risk manager by providing cover against mortality and morbidity risks. Life insurance products ensure that the financial goals of an individual are met, irrespective of the occurrence of mortality or morbidity events.

The industry had covered 257 million lives through individual policies and 386 million lives through group policies, providing a total insurance cover (sum assured) of ₹ 256 trillion at March 2022. The total death benefit paid to policyholders in FY2022 stood at ₹ 691.23 billion for the industry.

The Indian life insurance industry plays a key role in channelising household savings to the financial markets.

The industry has been able to leverage its extensive distribution network throughout the country to provide long term funds to both debt and equity markets. The life insurance industry also provides long term capital that is needed for infrastructure projects. The details of investments made in the infrastructure sector by the industry are as under:

Regulatory updates and developments

The key regulatory updates during FY2023 are as detailed below:

- **Use & File (U&F)**

IRDAI has enabled insurers to launch a product/ rider under the U&F procedure for certain new products/riders (except individual non-linked saving, pension, annuity, group non-linked) and for modifications to existing products. This is subject to adequate supervision under a Board approved Product Management and Pricing Policy through a Product Management Committee (PMC). Further, existing products may be modified under U&F with reference to change in benefit rate/ charge/premium rate, upto $\pm 25\%$ on account of change in interest rate assumption (earlier $\pm 15\%$). The PMC has been entrusted with the responsibility of the final approval of the products and documents hitherto being filed with IRDAI shall not be filed with the PMC with effect from April 1, 2023. The PMC will be responsible for ensuring completeness, correctness, and maintenance of records under the U&F procedure. IRDAI may inspect or call these documents for examination.

- **Amendment to intermediaries regulations**

IRDAI has increased the number of tie-ups for Corporate Agents (CAs) from three to nine for each line of business, i.e., Life, General and Health. In this regard, composite CAs have been given the flexibility to tie-up with up to 27 insurers. Further, Insurance Marketing Firms (IMFs) are now allowed to tie-up with six insurers, instead of two. The geographic operation of an IMF has been enhanced from one district to all districts of a state.

- **Relaxation in computation of solvency ratio**

The first Required Solvency Margin (RSM) factor for linked business without guarantees has been reduced from 0.8% to 0.6%. Further the second RSM factor for Pradhan Mantri Jeevan Jyoti Bima Yojana has been reduced from 0.1% to 0.05%.

- **Expenses of Management (EoM) of insurers transacting life insurance business- Regulations, 2023**

The Expenses of Management Regulations, 2023 come into effect from April 1, 2023. The Regulations have revised the allowable EoM limits for premiums received during the year on regular premium policies, single premium individual pure risk policies, policies granting deferred annuity and annuity, paid up policies and lapsed policies under revival period. Additional allowances towards Rural sector, Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY) business or such other schemes and insurtech and insurance awareness expenses have been provided for.

The Regulations also require a Board approved policy on EoM to cover the manner of allocation

and apportionment of expenses of management amongst various business segments, manner in which the compliance with the Policy shall be ensured, measures to bring cost effectiveness in the conduct of business and reduction of the expenses of management on an annual basis, structure of Commission payable in terms of the Regulations on Commission, etc.

Insurers are required to formulate an annual business plan, which shall be approved and monitored at regular intervals by the Board, as notified by IRDAI. Compliance with limits of EoM shall be on an overall basis for Participating and Non-Participating products separately, and not on segmental basis. Insurers may be subject to additional compliances and actions prescribed by IRDAI in case they exceed the specified limits.

- **Payment of Commission Regulations, 2023**

The said regulations are Effective from April 1, 2023. Commission shall include reward paid to agent/ intermediary for soliciting business. The Commission shall not exceed limits specified under Expenses of Management Regulations, 2023. The insurer must have a Board approved policy for payment of commission which should include objectives and principles, fairness and reasonableness of commission structure, encourage good distribution practice, outline governance and oversight mechanism for market conduct and regular reporting to Board on performance and compliance. The returns on payment of commission, should be reviewed by the Board Audit Committee and approved by the Board.

- **Prevention of Money Laundering (Maintenance of Records) Amendment Rules**

The Prevention of Money-laundering (Maintenance of Records) Rules, 2005 have been amended. Accordingly, Non-Profit Organisation shall mean an entity/organisation constituted only for religious/ charitable purposes. Politically exposed persons have been defined to include individuals entrusted with prominent public functions by a foreign country. The threshold for beneficial ownership in companies and trusts has been revised to 10%. Also, customers should update changes in their KYC details to the Company within 30 days.

- **Master Guidelines on Anti Money Laundering (AML)-Combating of Financing of Terrorism**

The definition of client has been revised to include life assured, beneficiary, master policyholder and assignee. The Company is required to collect know-your-customer (KYC) documents from all its existing customers as per extant AML laws within a period of one year and two years for high risk and low risk customers respectively. The insurers are further required to strengthen the level of control for intermediaries.

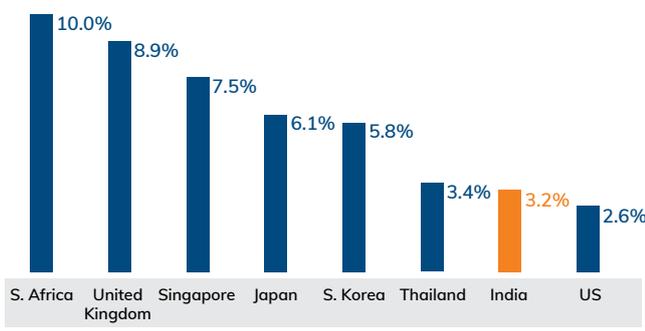

- IRDAI (Other Forms of Capital) Regulations, 2022**
 The Regulations have done away with prior approval from IRDAI for raising other forms of capital. The limit for raising other forms of capital has been increased from 25% to 50% of paid-up equity capital and securities premium. The Regulation has also done away with prior approval from IRDAI for Call-back of instruments after five years if, solvency margin of insurer is 180% after exercising such call-back.
- IRDAI (Registration of Indian Insurance Companies) Regulations, 2022**
 The IRDAI (Registration of Indian Insurance Companies) Regulations, 2022, have been notified. As per the Regulation, promoters of listed insurance companies are allowed to dilute their stake below 50% but not less than 26%, if solvency ratio is above control level of 150% for five years preceding dilution. The Regulations also allow a promoter to be a 'subsidiary company' of another holding company provided it is listed, has its own source of funds, has a net worth of at least ₹ 5.00 billion, and its holding company is not a subsidiary of any other company.

Opportunities and threats

Insurance under-penetration

India's life insurance penetration¹⁵ (premium as % of GDP) was 3.2% in FY2022. At USD 69 in FY2022, the insurance density¹⁵ (premium per capita) in India remains very low as compared to global average of USD 382. The macroeconomic factors such as growth in GDP and rise in per capita income, coupled with India's young and working population, higher financial saving as a percentage of GDP, increasing urbanisation, increase in digitalisation and regulatory developments would continue to aid the growth of the Indian life insurance sector.

Favorable demographics

According to the United Nations estimates, the working population is expected to increase by 14% by the year 2030. With a median age of 28 years, India has a very young population. Both these factors are likely to fuel demand for life insurance products.

Increasing urbanisation

According to United Nations population division estimates, India's urban population is expected to increase by 26% by the year 2030. Increased urbanisation is likely to lead to improvement in the standard of living and better access to financial products such as life insurance.

Financial savings

India has a large pool of household savings and in FY2022, the ratio of household savings to GDP stood at 19.7%. The share of gross financial savings as a proportion of household savings was 56.2% in FY2022. The share of life insurance as a proportion of financial savings

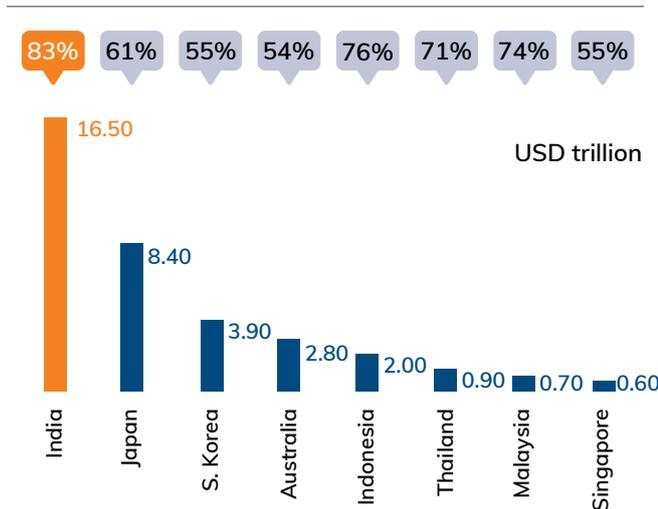

(including currency) in India was 17.2% in FY2022, aided by the improving customer value proposition of insurance products.

High protection gap

According to Swiss Re, the mortality protection gap for India is at USD 16.50 trillion which is relatively higher compared to the rest of the world. Protection coverage ratio which is the ratio between protection gap and protection needs is also very high for India. Sum assured to GDP ratio is significantly lower in India compared to the rest of the world. This provides a significant opportunity for Indian life insurance companies to address this gap and expand their protection business.

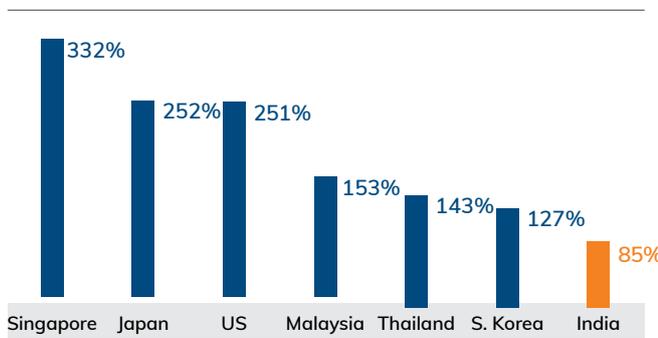

Retail credit has been growing at a CAGR of 16% from FY2014 to FY2022. This provides an additional opportunity for the industry for the credit cover business. This product provides mortality/morbidity cover to borrowers.

Pension opportunity

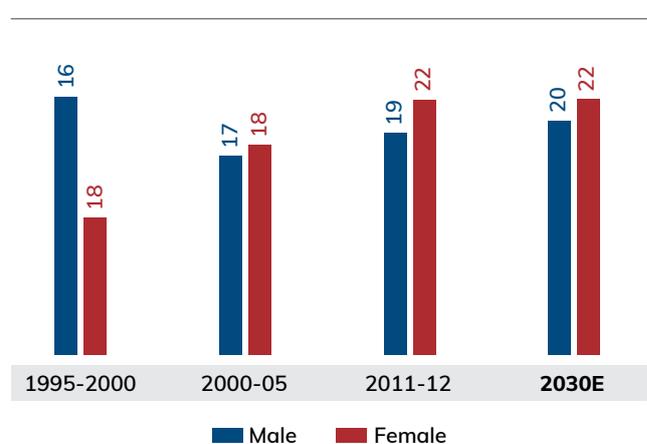

India's pension market is one of the lowest in the world with meagre pension assets of 4.8% of the GDP. Only 11% of the working population in India is covered under the pension scheme.

According to the NSO report 2021, India's elderly population (aged 60 and above) is projected to touch 194 million in 2031 from 138 million in 2021, a 41% increase over a decade, from 2011 to 2021 the growth was 32.7%. Only 23% of this population are either saving or planning to save for their retirement. This leaves 77% Indians primarily dependent on their children instead of their own wealth, which is likely to create a significant deficit with the joint family system giving way to the nuclear family system. Additionally, with an increase in life expectancy, the post-retirement period has increased from 17 years during 2000-2005 to 19 years in 2011-2012 and is further expected to increase to 20 years in 2030 for males. Given that the annuity product can be offered only by life insurance companies, it offers a significant business opportunity for the life insurance industry. While people may look at alternative ways to save for retirement, only an annuity product can provide a guaranteed income for life and hence should take priority in an individual's retirement planning process.

Strategy and performance of the Company

In the context of this overall opportunity detailed above, the Company's primary focus continues to be growth of absolute Value of New Business (VNB) through the 4P strategy of Premium growth, Protection business growth, Persistency improvement and Productivity enhancement, while ensuring focus on customer-centricity and imbibing sustainable practices within our business processes. We believe that this 4P strategy is appropriate in the context of the large life insurance opportunity in the country, coupled with our objective to grow the VNB.

4P strategy

- Premium growth**

We have used a two-pronged strategy to drive premium growth. First, investing in building existing channels and widening the distribution to maintain a diversified distribution mix. Second, continuing to strengthen our product portfolio to address changing consumer preference in a dynamic economic environment.

From a distribution perspective, we are focused on expanding the distribution network and strengthening our reach through a closer mapping of distribution segments with customer segments and products. During the year, we added 33,833 individual advisors. Within the bancassurance channel, during FY2023, we added 13 new banks and with these new bank partnerships, we have now access to more than 17,500 partner bank branches for distribution of our products. We added 113 non-bank partnerships in the year and have more than 900 non-bank partnerships at March 31, 2023.

We strengthened our product portfolio by introducing ICICI Pru Gold, a participating, non-linked life insurance product. With ICICI Pru Gold, we have combined saving benefits along with protection, where customer gets income up to 99 years and an option to earn immediate income which addresses their liquidity needs. We also launched a participating savings product 'Sukh Samruddhi' which provides customers with dual benefits of guaranteed benefits and growth potential in the form of bonuses. Besides, the life cover continues for the entire duration of the policy, including the income period, providing financial security to the family.

Our new business premium increased by 12.5% year-on-year from ₹ 150.36 billion in FY2022 to ₹ 169.22 billion in FY2023. Our Annualised Premium Equivalent (APE) increased by 11.7% year-on-year from ₹ 77.33 billion in FY2022 to ₹ 86.40 billion in FY2023. Within product segments, non-linked

savings grew by 51.9%, annuity APE grew by 69.0%, group funds APE grew by 17.2%, and protection APE grew by 14.5% year-on-year in FY2023. The unit linked business declined by 17.0% year-on-year in FY2023.

Annualised Premium Equivalent (APE) (in ₹ billion)	FY2022	FY2023
Savings	64.20	71.36
Linked	37.38	31.02
Non-linked	21.21	32.21
Annuity	3.00	5.07
Group	2.61	3.06
Protection	13.13	15.04
Total	77.33	86.40

- Protection business growth**

We are focused on expanding the protection business across both retail and group lines of business. This would be done by offering protection products across channels, penetrating the online term insurance market and partnering with loan providers to offer coverage against loans. During the year, we continued to take a risk calibrated approach to underwriting. Retail protection business witnessed sequential growth in Q2-FY2023 and Q3-FY2023 followed by a strong year-on-year growth in Q4-FY2023. We continued to leverage the opportunity in group protection business. As a result, the protection APE increased by 14.5% year-on-year from ₹ 13.13 billion in FY2022 to ₹ 15.04 billion in FY2023. With our focus on increasing the customer value proposition by adding critical illness and accidental death benefit riders in both retail protection as well as savings plans, our new business sum assured grew by 34.7% year-on-year from ₹ 7.73 trillion in FY2022 to ₹ 10.4 trillion in FY2023. We were one of the leading players in new business sum assured with our overall market share increasing from 13.4% in FY2022 to 14.3% in FY2023.

Annualised Premium Equivalent (APE) (₹ billion)	FY2022	FY2023
Retail protection	3.94	3.26
Credit Life	3.52	4.81

• Persistency improvement

Maintaining a high level of persistency is critical to drive value for both customers as well as shareholders. We seek to achieve improvements in persistency across all cohorts by encouraging long term customer behavior. For FY2023, our persistency ratio for 13th month improved to 85.4%, 37th month improved to 71.5%, 49th month improved to 63.9% and 61st month improved to 65.8% in March 2023, which is the best in the last five years. Our 25th month persistency ratio improved stood at 77.1% in FY2023.

Particulars	FY2022	FY2023
13 th month	84.6%	85.4%
25 th month	77.3%	77.1%
37 th month	66.9%	71.5%
49 th month	63.4%	63.9%
61 th month	54.7%	65.8%

In accordance with IRDAI circular on 'Public disclosures by insurers' dated September 30, 2021; 12 month rolling persistency

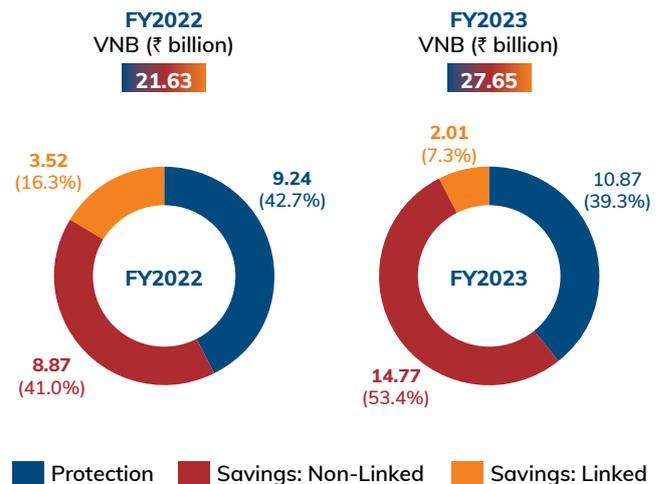

• Productivity enhancement

In FY2023, our absolute expenses have been higher as compared to last year due to investments made in order to deliver sustainable growth in the future. Our total expenses grew by 20.7% year-on-year. Excluding advertisements and publicity expenses, the increase in total expenses is 14.4% year-on-year, which are broadly in line with the APE growth. The cost to total weighted received premium (TWRP), stood at 21.5% and the cost to TWRP ratio for the savings business stood at 14.2% for FY2023. Even with the cost increase, our cost to average assets under management has been stable at 2.6% for the financial year 2023.

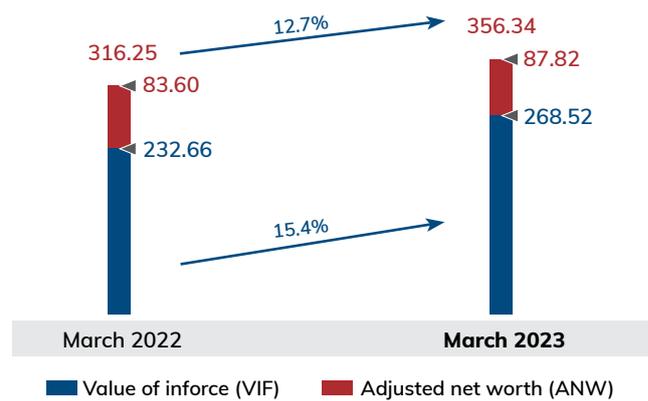

Particulars	FY2022	FY2023
Cost/TWRP	18.6%	21.5%
Cost/Average AUM	2.4%	2.6%
Cost/TWRP (Savings Line of Business)	12.8%	14.2%

Value of New Business (VNB)

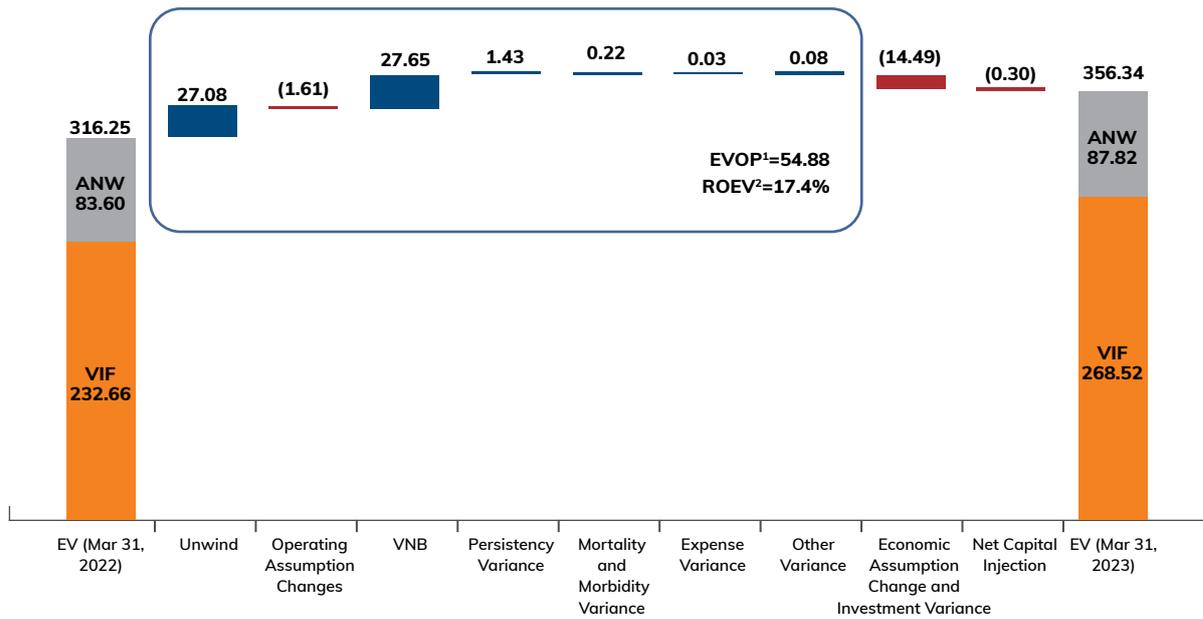

VNB is the present value of expected future earnings attributable to the shareholders from new policies written during the given period. Our VNB increased from ₹ 21.63 billion in FY2022 to ₹ 27.65 billion in FY2023 exhibiting a growth of 27.8% year-on-year. The new business margin improved from 28.0% in FY2022 to 32.0% in FY2023 primarily due to increase in APE mix of non-linked savings from 32.6% in FY2022 to 45.2% in FY2023.

VNB (₹ billion)

Embedded Value

The Embedded Value (EV) is a measure of the consolidated value of the shareholders' interest in the life insurance business. It is calculated as the sum of the Company's adjusted net worth (ANW) and the value of in-force business (VIF). The VIF includes the present value of future profits attributable to shareholders from the in-force business of the Company (which includes the new business written during the previous year). The calculation of VIF also reflects adjustments for various risks within the business. Our EV increased from ₹ 316.25 billion at March 31, 2022 to ₹ 356.34 billion at March 31, 2023, with a year-on-year growth of 12.7%. This growth was led by a 15.4% year-on-year growth in VIF.

- 1: EVOP is the embedded value operating profit net of tax
 - 2: ROEV is the return on embedded value net of tax
- EV Results prepared as per APS 10 and reviewed by Milliman Advisors LLP
Componants may not add up to the total due to rounding off

Embedded Value Operating Profit (EVOP) for the year increased from ₹ 31.92 billion in FY2022 to ₹ 54.88 billion in FY2023 with a year-on-year growth of 71.9%. The operating assumption change impact was ₹ (1.61) billion primarily due to revision in group term premiums in the post COVID-19 environment. Persistency variance for FY2023 was ₹ 1.43 billion on the back of an improved persistency across most cohorts. Besides EVOP, there was ₹ (14.49) billion impact on EV through economic assumption change and investment variance, due to shift in the yield curve and equity market movement.

Solvency

Our solvency ratio at March 31, 2023 was 208.9%, that is well above the regulatory minimum required level of 150%.

Company outlook

Though the life insurance industry has grown manifold over the last two decades, there is still a huge opportunity to grow further and expand reach, with the larger objective of increasing insurance penetration and improving insurance density of the country.

Given this immense opportunity, with a favourable regulatory regime coupled with India's demographic factors such as a growing middle class, young insurable population, rise in working population, improving per capita income, increasing urbanisation, increasing digitalisation and growing awareness of the need for protection & retirement planning, the future looks promising for the life insurance industry.

The large protection gap in India coupled with a low sum assured to GDP ratio suggests significant opportunities for the protection business. Retail credit growth provides further opportunity for the credit protect business. We expect to be able to leverage both these trends to grow our protection business at a rate higher than our savings business growth rate over a medium term.

Through various customer awareness initiatives, we expect to drive continued improvement in persistency and quality parameters that will ultimately help customers get the intended benefits from their policies.

We continue to invest in technology, which is central to our strategy, thereby helping us to provide better value to our customers. Additionally, data sciences, analytics and innovation have enabled us to leverage data and information, which helps us in improving our various processes such as distribution, operations, etc. and to identify new growth opportunity. We expect these initiatives to result in improving productivity.

Risks and concerns

Indian life insurance industry is highly competitive with 23 companies operating in the market. Indian consumer demands are changing continuously which requires companies to modify their offerings in alignment with customer needs. This poses an opportunity as well as risk to the industry as inability to meet the consumer demand would hamper the growth.

Some key macroeconomic factors and policy measures which could pose risk to the industry are as under:

- 1) Higher interest rate creating stress on the global financial system
- 2) Slowdown in GDP and GDP per capita growth rates
- 3) Geo-political conflict worsening global economic and financial environment, exacerbating inflationary pressures globally
- 4) Global slowdown of the financial market and economies contributing to weakness in the Indian financial and economic environment
- 5) Weak credit environment and economic challenges leading to increased credit risk within fixed income portfolio
- 6) Superior return on physical savings
- 7) Inferior fund performance in comparison to other savings instruments

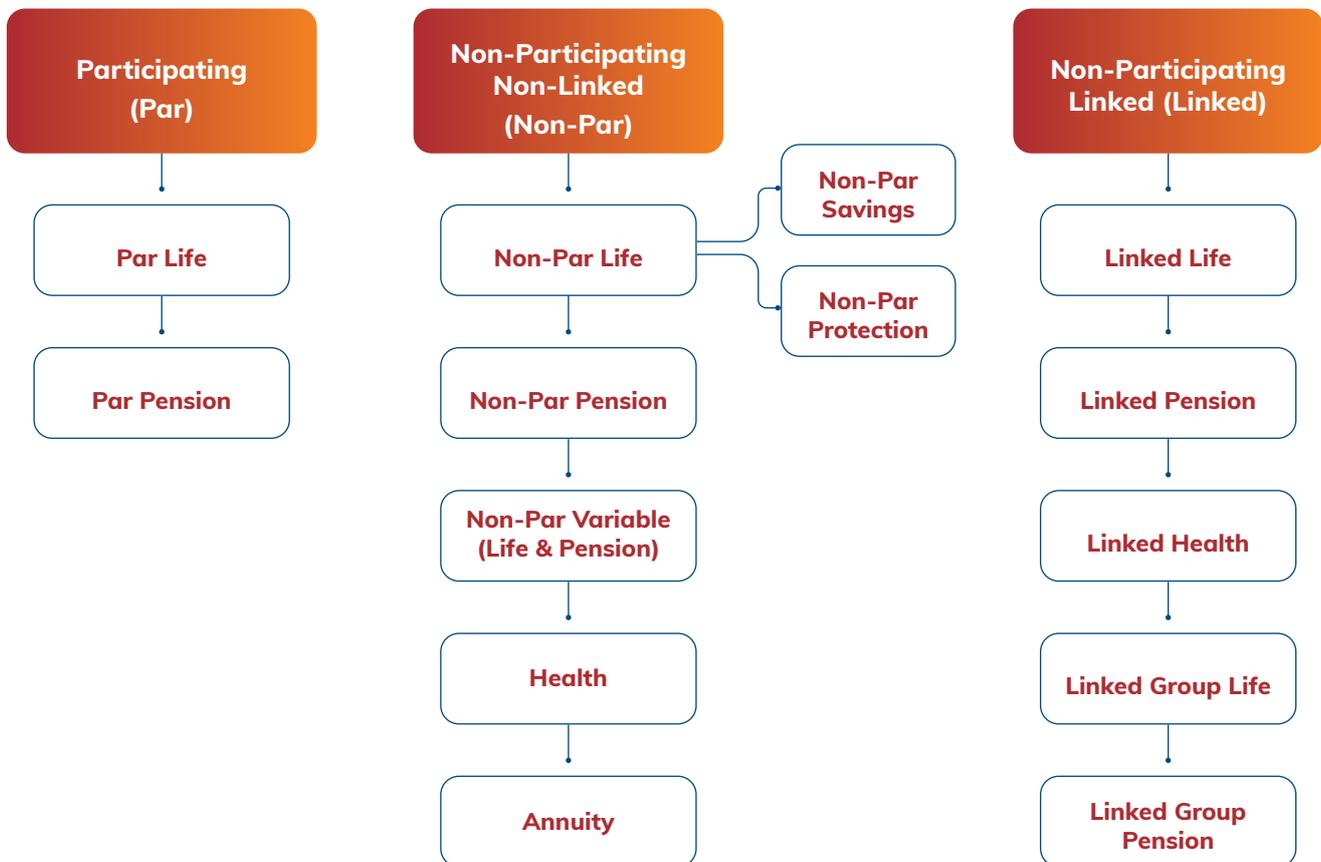

- 8) Changes in tax rate structure for the industry and its products
- 9) Possibility of tax demands from the revenue authorities based on their interpretation of their findings during investigation / assessments on the Insurance companies
- 10) Highly co-ordinated cyber-attacks leading to loss of confidentiality and thereby causing adverse impact

The Company recognises that risk is an integral element of the business and controlled administration of risk is essential for generation of shareholder value. The Company has instituted an enterprise risk management framework which details the governance and management of all aspects of risks. A detailed review of our risk exposures to market, credit, liquidity, insurance, operational, reputation and other emerging risks, as well as the key control processes is set out in the 'Enterprise Risk Management' section of this Report in page 172.

II. DISCUSSION ON FINANCIAL PERFORMANCE AND ANALYSIS OF FINANCIAL STATEMENTS

A. Overview of Lines of Business (LOB)

The Company operates in various lines of business in retail and group segment. A brief description of the products under each line of business is given below:

1. Participating (Par) products - These are products where the policyholder is entitled to 90% share of the surplus emerging in the participating funds and the balance 10% share of surplus belongs to the shareholders. The participating fund is managed by the Company and the surplus emerging in the fund is added back to the policies in the form of bonuses. The shareholders' profits arising on the participating business depend on the total bonuses declared to policyholders on an annual basis. Currently, shareholders' share of profit is one-ninth of the bonus declared to the policyholders. Any balance surplus in this segment is accumulated under the head 'Funds for future appropriation' in the Balance sheet, to be distributed to policyholders and shareholders in the future. The amount of bonuses declared to policyholders is influenced by the actual returns on investments and the expectation of future rates of return. The Company has participating life and participating pension lines of business.

2. Non-participating (non-par) non-linked products - These products provide pre-defined benefits at the policy's inception for specified events and the policyholder is not entitled to any share in the surplus that arises from the investment fund. Any surplus that emerges in the non-participating business is transferred to shareholders' accounts based on the Appointed Actuary's recommendation. Non-participating non-linked products include non-participating life, non-participating pension, non-participating variable (life and pension), annuity, protection, health, etc.

a. Non-participating life:

Non-participating savings – Non-participating savings plans are endowment assurance contracts that pay a benefit upon the life assured surviving the stipulated date or on the life assured's death before maturity. These plans meet the long-term savings needs of customers and the life cover component ensures that the customer's family is financially secure.

Non-participating protection – Non-participating protection plans are contracts that pay a specified amount on the occurrence of certain events such as death, disability or critical illness during the policy's term. These cost-effective protection plans provide a 360-degree financial safety net to customers and their families by paying a lump sum amount when an event covered under the product occurs.

b. Non-participating pension - These products help customers build a retirement corpus and pay a specified benefit or interest from time to time.

c. Non-participating variable (Life & Pension) - These products offer benefits that are partially or wholly dependent on the performance of an approved external index or benchmark.

d. Annuity - Annuities provide a series of guaranteed payouts to the annuitant at regular intervals in return for a certain sum paid upfront or the option to pay premium for a certain period. A deferred annuity is a contract to pay out regular amounts of benefit to the annuity holder at the end of the deferred period (the vesting date) when annuity payment commences for a specified period of time such as number of years or for life. An immediate annuity is a contract to pay out regular amounts of benefit wherein the contract commences payments immediately after commencement of the contract.

e. Health - These products provides a fixed benefit on specified health events such as the diagnosis of a specified illness.

Of the above, protection business includes term assurance and health line of business for both retail and group.

3. Non-participating (non-par) linked products - These products provide returns that are directly linked to the performance of an approved index or the value of the underlying assets. The investment risk in these products is borne by the policyholder. The products have a transparent charge structure, including the charge for either life cover or health cover. Any surplus that arises in the case of non-participating linked business is transferred to shareholders' accounts based on the recommendation of the Appointed Actuary. The Company has linked life, pension, health, and group line of business.

B. Standalone financial statements

a. Results from operations:

The Company's financial statements comprise two primary accounts - the Revenue account (also known as the policyholders' account) and the Profit and loss account (also known as the shareholders' account). The Revenue account contains the income and expenses related to policyholders, and the surplus generated in this account is appropriated to the Profit and loss account based on the recommendation of the Appointed Actuary. A deficit in any line of business in the Revenue account is funded from the Profit and loss account. Other than the transfers to and from the Revenue account, the Profit and loss account contains the income and expenses pertaining to shareholders. The surplus remaining in the Revenue account, which has not been appropriated to the Profit and loss account,

is held as Funds for future appropriations (FFA) and is reflected in the Balance Sheet. Funds for Future Appropriation represent funds that have not been explicitly allocated to either policyholders or shareholders at the balance sheet date.

The various lines of business disclosed in the Revenue account are as per the requirements of IRDAI regulations. However, for analysis of our Revenue account, it can be viewed from three broad lines of business as given above i.e., participating, non-participating (including non-participating life, non-participating pension, non-participating

variable life, non-participating pension, annuity, protection, health), and linked. Shareholders' profits in participating lines of business depend on the total bonuses declared to policyholders on an annual basis. Currently, one-ninth of the bonus declared to policyholders is transferred to shareholders. In the non-participating line of business, profits arise primarily from premium and investment income net of expenses, claims, and policyholders' liabilities. In the linked business, profits primarily arise from charges levied on the policyholders' fund net of expenses, claims, and policyholders' liabilities.

Element-wise analysis of the Revenue account and Profit and Loss account is given below:
1. Gross premium (Revenue account)

The following table sets forth, for the periods indicated, the summary of gross premium income:

Line of business	₹ billion							
	FY2022				FY2023			
	First year	Renewal	Single	Total	First year	Renewal	Single	Total

¹ Group includes policy sourced to group customers under par, non-par, and linked line of business.

The gross premium increased by 6.6% from ₹ 374.58 billion in FY2022 to ₹ 399.33 billion in FY2023 primarily on account of an increase in group single premium and retail initial and renewal premium in the non-participating segment.

The total retail premium increased from ₹ 307.32 billion in FY2022 to ₹ 313.17 billion in FY2023 primarily on account of an increase in non-participating business.

The total group premium increased from ₹ 67.26 billion in FY2022 to ₹ 86.16 billion in FY2023 primarily on account of an increase in group micro insurance, superannuation and credit life businesses.

2. Reinsurance (Revenue account)

Reinsurance premium ceded increased by 21.0% from ₹ 11.37 billion in FY2022 to ₹ 13.76 billion in FY2023 primarily on account of an increase in group protection business; in line with new business growth. The reinsurance premium accepted increased from ₹ 0.6 million in FY2022 to ₹ 28.4 million in FY2023.

3. Investment income (Revenue account)

The following table sets forth, for the periods indicated, summary of income from investments:

(₹ billion)

Particulars	FY2022			FY2023		
	Non-linked ¹	Linked	Total	Non-linked ¹	Linked	Total

Investment income (net)	50.78	198.68	249.46	56.07	43.03	99.10

¹ Includes participating and non-participating line of business

Non-linked: The investment income of the non-linked line of business increased from ₹ 50.78 billion in FY2022 to ₹ 56.07 billion in FY2023 primarily on account of an increase in the interest income corresponding to an increase in interest-earning assets, partly offset by a decrease in the net profit on sale of investments.

Linked: The investment income of the linked line of business decreased from ₹ 198.68 billion in FY2022 to ₹ 43.03 billion in FY2023. The investment income for the linked line of business includes income on the unit-linked portfolio which has decreased from ₹ 197.82 billion in FY2022 to ₹ 42.03 billion in FY2023 and is directly passed on to the policyholders with the corresponding changes in the fund reserve. The decrease in the investment income of the unit-linked portfolio is primarily on account of a decrease in the unrealised gains/ (losses) resulting from mark-to-market valuation of assets held. This was driven by relatively lower equity market performance during FY2023, as the S&P BSE100 decreased in FY2023 by 0.7% as compared to an increase of 19.2% in FY2022. The unrealised gain of the linked line of business decreased from ₹ 22.89 billion in FY2022 to ₹ (72.74) billion in FY2023.

4. Other Income (Revenue account)

Other income includes fees and charges and other miscellaneous income. The other income increased from ₹ 1.13 billion in FY2022 to ₹ 1.51 billion in FY2023 primarily on account of an increase in interest income on policy loans in line with the increase in the loans given to policyholders against policies.

5. Contribution from shareholders' account (Revenue account):

Contribution from Shareholders' account represents the funding from the Profit and loss account (Shareholders' account) to various lines of business in case of a deficit in any line of business and also includes spends in excess of Expense of Management limit (Refer note 3.51 of schedule 16).

Contributions from Shareholders' account decreased from ₹ 21.61 billion in FY2022 to ₹ 18.02 billion in FY2023 primarily on account of lower death claims partly offset by higher new business strain¹⁴ in the non-participating savings segment.

6. Commission expense (Revenue account)

The following table sets forth, for the periods indicated, summary of commission expense:

(₹ billion)

Particulars	FY2022	FY2023
First year commission	10.34	11.66
Single commission	1.45	1.58
New business commission	11.79	13.24
Renewal commission	4.12	4.28
Total commission	15.91	17.52
Rewards ¹	0.82	1.12
Total Commission including Rewards	16.73	18.64
Commission rate ²	5.5%	5.8%

¹ Represents rewards as defined under IRDAI (Payment of commission or remuneration or reward to Insurance agents and Insurance intermediaries) regulations, 2016.

² Commission/(total premium- 90% of single premium).

The total commission, including rewards expenses, increased from ₹ 16.73 billion in FY2022 to ₹ 18.64 billion in FY2023 due to an increase in commission rates from 5.5% in FY2022 to 5.8% in FY2023.

The new business commission increased from ₹ 11.79 billion in FY2022 to ₹ 13.24 billion in FY2023 primarily on account of an increase in the first year premium. Renewal commission marginally increased from ₹ 4.12 billion in FY2022 to ₹ 4.28 billion in FY2023 in line with increase in renewal premium.

¹⁴ New business strain arises when the premium paid at the commencement of a contract is not sufficient to cover the initial expenses including acquisition costs and any mathematical reserve that our Company needs to set up at that point.

7. Operating expense relating to insurance business (Revenue account)

The following table sets forth, for the periods indicated, summary of operating expenses relating to insurance business:

Particulars	₹ billion)	
	FY2022	FY2023
Employee related expenses	11.97	14.46
Advertisement & sales related expenses	14.46	18.71
Other expenses	10.35	12.74
Total operating expenses	36.78	45.91

The total operating expenses relating to insurance business increased from ₹ 36.78 billion in FY2022 to ₹ 45.91 billion in FY2023.

Employee-related expenses increased from ₹ 11.97 billion in FY2022 to ₹ 14.46 billion in FY2023. This was primarily due to an increase in employee headcount, which increased from 15,530 at March 31, 2022 to 17,825 at March 31, 2023.

Advertisement and sales related expenses increased from ₹ 14.46 billion in FY2022 to ₹ 18.71 billion in FY2023 primarily on account of an increase in the advertisement and publicity related expenses in FY2023.

The other expenses increased from ₹ 10.35 billion in FY2022 to ₹ 12.74 billion in FY2023 primarily on account of an increase in professional charges to support business.

8. Goods and service tax charge on linked charges (Revenue account)

The Goods and service tax (GST) charge on linked charges represents the tax payable on the charges collected on linked products, which is collected from policyholders. The GST charge on linked charges decreased by 4.3% from ₹ 6.91 billion in FY2022 to ₹ 6.61 billion in FY2023.

9. Benefits paid (net) and interim bonus paid (Revenue account)

The following table sets forth, for the periods indicated, summary of benefits paid:

Particulars	₹ billion)	
	FY2022	FY2023
Surrender claims	204.07	235.52
Maturity and annuity claims	45.7	42.44
Mortality (death) claims	56.21	34.62
Survival benefits and other claims ¹	8.53	9.24
Amount recovered from reinsurers	(20.92)	(11.78)
Total	293.59	310.04

¹ Includes interim bonus paid.

Benefits paid (net of reinsurance) and interim bonus paid increased from ₹ 293.59 billion in FY2022 to ₹ 310.04 billion in FY2023. The increase was primarily on account of an increase in surrender claims from ₹ 204.07 billion in FY2022 to ₹ 235.52 billion in FY2023, partly offset by a decrease in mortality (death) claims from ₹ 56.21 billion in FY2022 to ₹ 34.62 billion in FY2023. The COVID-19 related death claims (net of reinsurance) decreased from ₹ 10.17 billion in FY2022 to ₹ 0.41 billion in FY2023.

10. Change in valuation of policy liabilities (Revenue account)

The following table sets forth, for the periods indicated, summary of the changes in valuation of liabilities:

Particulars	₹ billion)	
	FY2022	FY2023
Gross: Policy liabilities (non-unit/mathematical reserves)	97.04	155.23
Amount ceded in reinsurance	37.63	11.01
Amount accepted in reinsurance ¹	-	0.01
Change in non-unit/mathematical reserves (net) (A)	134.67	166.25
Fund reserve	127.71	(53.09)
Funds for discontinued policies	(4.54)	(14.99)
Change in fund reserve (B)	123.17	(68.08)
Total change in the valuation of policy liabilities (A+B)	257.84	98.17

¹ Change in valuation of policy liabilities in respect of reinsurance accepted in non-participating line of business amounts to ₹ 5,436 thousand for the year ended March 31, 2023 (₹ 43 thousand for FY2022)

Change in non-unit/mathematical reserves (net of amount ceded in reinsurance) increased from ₹ 134.67 billion in FY2022 to ₹ 166.25 billion in FY2023 reflecting the new business written and change in valuation assumptions.

Change in fund reserve (including discontinued policies), which represents liability carried on account of units held by unit-linked policyholders, decreased from ₹ 123.17 billion in FY2022 to ₹ (68.08) billion in FY2023 primarily due to lower investment returns.

11. Provision for taxation (Revenue account)

The provision for taxation shown in the Revenue accounts represents tax charged on the total surplus (grossed up for bonus) of the participating line of business in the Revenue account, in line with the Company's accounting policy and the directions issued by IRDAI. The provision for taxation increased from ₹ 1.66 billion in FY2022 to ₹ 1.84 billion in FY2023 primarily on account of an increase in the allocation of bonus to participating policyholders.

12. Surplus after tax (Revenue account) and Net transfer to shareholders' account

As a result of the above changes in income and expenses, surplus after tax in the Revenue account increased from ₹ 21.90 billion in FY2022 to ₹ 23.02 billion in FY2023.

The surplus generated in the Revenue account after setting aside fund for future appropriation is transferred to Profit and loss account (Shareholders account) based on the recommendation of the Appointed Actuary. The net transfer to shareholders' account increased from ₹ (0.01) billion in FY2022 to ₹ 2.14 billion in FY2023. The remaining surplus of ₹ 2.86 billion in FY2023 was retained as a fund for future appropriation.

Segment-wise net transfer to shareholders' account is as under:

Particulars	(₹ billion)	
	FY2022	FY2023
Participating business	1.01	1.01
Non-participating business	(16.61)	(15.28)
Linked business	15.59	16.41
Net transfer to/(from) shareholders' account	(0.01)	2.14

Participating business: The surplus in the Revenue account for the participating line of business is net of bonus and interim bonus. The surplus (grossed up for bonus) increased from ₹ 10.27 billion in FY2022 to ₹ 12.97 billion in FY2023. The shareholders' profits in participating business depend on the total bonuses declared to the policyholders. Currently, one-ninth of the bonus declared to policyholders is transferred to shareholders. The transfer to shareholders for the participating line of business remained same for FY2023 amounting to ₹ 1.01 billion.

Non-participating business: The surplus in the Revenue account for non-participating line of business arises primarily from premium and investment income net of expenses, claims, and policyholders' liabilities. The deficit in the non-participating line of business before contribution from shareholders decreased from ₹ 16.61 billion in FY2022 to ₹ 15.28 billion in FY2023 primarily on account of lower death claims partly offset by higher new business strain in the non-participating savings business.

Linked business: The surplus in the Revenue account for the linked lines of business arises primarily from charges levied on the policyholders' fund net of expenses, claims and policyholders' liabilities. The surplus in linked line of business before contribution from shareholders increased from ₹ 15.59 billion in FY2022 to ₹ 16.41 billion in FY2023 primarily on account of decrease in investment income, partly offset by decrease in policyholders' liabilities.

13. Investment and other income (Profit and loss account)

The following table sets forth, for the periods indicated, summary of income from investments:

Particulars	(₹ billion)	
	FY2022	FY2023
Interest, dividend and rent	5.04	6.07
Profit/(loss) on sale of investments	5.21	2.82
Accretion of discount/ (amortisation of premium)	(0.14)	(0.12)
Provision for diminution in the value of investments	(1.28)	(0.92)
Investment income (net)	8.83	7.85
Other income	0.02	0.01
Total income	8.85	7.86

Investment income (net) decreased from ₹ 8.83 billion in FY2022 to ₹ 7.85 billion in FY2023 primarily on account of decrease in profit/ (loss) on the sale of investments. Interest, dividend and rent increased from ₹ 5.04 billion in FY2022 to ₹ 6.07 billion in FY2023 primarily on account of an increase in interest income due to an increase in the interest-earning assets. Profits and losses are realised as the portfolio is realigned based on the market conditions and expected attractiveness of securities and sectors. During FY2023, the profit on the sale on investments (net of loss on the sale of investments and provision for diminution in value of investments) decreased from ₹ 3.93 billion in FY2022 to ₹ 1.90 billion in FY2023.

Other income decreased from ₹ 0.02 billion in FY2022 to ₹ 0.01 billion in FY2023.

14. Expenses other than those directly related to insurance business (Profit and loss account)

Expenses other than those directly related to the insurance business increased from ₹ 0.94 billion in FY2022 to ₹ 1.02 billion in FY2023 primarily on account of an increase in the provision for doubtful debts in FY2023. Corporate social responsibility expenses (CSR expenses) are charged to Profit and loss account and decreased from ₹ 0.07 billion in FY2022 to ₹ 0.04 billion in FY2023.

15. Provision for tax (Profit and loss account)

Tax on other than participating line of business and shareholders income is shown in Profit and loss account. Provision for tax has increased from ₹ 0.36 billion in FY2022 to ₹ 0.86 billion in FY2023 on account of increase in taxable surplus computed as per Income tax Act, 1961.

16. Profit after tax (Profit and loss account)

Profit after tax increased from ₹ 7.54 billion in FY2022 to ₹ 8.11 billion in FY2023 primarily due to increase in surplus from non-participating segment.

b. Financial position

The following table sets forth, for the periods indicated, the financial position of the Company:

Particulars	₹ billion)	
	March 31, 2022	March 31, 2023

1. Shareholders fund & capital position

The following table sets forth, for the periods indicated, the details of shareholders' fund of the Company:

Particulars	₹ billion)	
	March 31, 2022	March 31, 2023
Equity share capital	14.37	14.39
Share premium	34.83	35.30
Balance of profit in profit and loss account	40.78	48.09
Fair value change account	1.34	2.80
Revaluation reserve	0.31	0.34
Shareholders' fund (net-worth)	91.63	100.92
Solvency ratio	204.5%	208.9%

During FY2023, there were no capital infusions except for the exercise of stock options to employees under the Employee Stock Option Scheme.

The net worth of the Company increased from ₹ 91.63 billion at March 31, 2022 to ₹ 100.92 billion at March 31, 2023 primarily on account of an increase in the balance of profit in the profit and loss account.

The balance of profit in profit & loss account increased from ₹ 40.78 billion in FY2022 to ₹ 48.09 billion in FY2023 on account of profit for the year.

The Company had performed an independent valuation of its investment property, which resulted in an increase in revaluation reserve from ₹ 0.31 billion (Historical cost: ₹ 3.65 billion; revalued amount: ₹ 3.97 billion) at March 31, 2022 to ₹ 0.34 billion (Historical cost: ₹ 3.65 billion; revalued amount: ₹ 3.99 billion) at March 31, 2023.

Fair value change account represents the unrealised gains/loss on equity securities and mutual funds and it increased from ₹ 1.34 billion at March 31, 2022 to ₹ 2.80 billion at March 31, 2023. The movement in the fair value change account is a function of the performance of the equity markets and the mix of equity and mutual funds in the portfolio.

The Company had a solvency ratio of 208.9% at March 31, 2023, compared to the regulatory minimum required level of 150%.

2. Borrowings

The Company had issued non-convertible debentures of ₹ 12.00 billion in FY2021 with coupon rate of 6.85% per annum payable annually. The outstanding balance at March 31, 2023 was ₹ 12.00 billion. Further, the Company has been identified as a Large Corporate as per the criteria under the SEBI circular SEBI/HO/DDHS/CIR/P/2018/144, whereby the Company shall raise not less than 25% of its incremental borrowings by way of issuance of debt securities. There were no incremental borrowings during the year. (Refer note 3.24 of schedule 16)

3. Policyholders' fund

Fair value change account and revaluation reserve - investment property

Fair value change account decreased from ₹ 28.27 billion at March 31, 2022 to ₹ 27.96 billion at March 31, 2023. The movement in the fair value change account is a function of the performance of the equity markets and the mix of equity and mutual funds in the portfolio.

The Company had performed an independent valuation of the investment property and consequently investment property was valued at ₹ 0.90 billion at March 31, 2023 (₹ 0.87 billion at March 31, 2022). During FY2023, the Company transferred an investment property held in the participating pension fund to the participating life fund to align with the liquidity requirements of the fund. As a result of this transfer, the revaluation reserve held in the participating pension fund was recognised in the Profit on sale/ redemption of investments in the Revenue Account, resulting in a decline in the revaluation reserve from ₹ 0.68 billion at March 31, 2022 to ₹ 0.36 billion at March 31, 2023.

Policy liabilities

The following table sets forth, for the periods indicated, summary of policy liabilities:

Particulars	₹ billion)	
	March 31, 2022	March 31, 2023
Non-unit liabilities (mathematical reserves)	736.82	903.07
Provision for linked liabilities (fund reserves)	1,405.41	1,352.32
Funds for discontinued policies	103.25	88.26
Policy liabilities	2,245.48	2,343.65

The movement in policy liabilities is explained in the element-wise analysis of the Revenue account.

Funds for future appropriation (FFA)

The following table sets forth, for the periods indicated, summary of funds for future appropriation:

Particulars	₹ billion)	
	March 31, 2022	March 31, 2023
Non-linked	13.84	16.69
Total	13.84	16.69

FFA increased from ₹ 13.84 billion in FY2022 to ₹ 16.69 billion in FY2023 on account of an increase in the undistributed surplus of participating line of business.

4. Investments

The following table sets forth, for the periods indicated, summary of investments:

Particulars	₹ billion)	
	March 31, 2022	March 31, 2023
Shareholders' investments	98.54	98.51
Policyholders' investments (non-linked)	773.88	943.11
Asset held to cover linked liabilities	1,508.66	1,440.58
Total Investments	2,381.08	2,482.20

Total investments increased from ₹ 2,381.08 billion at March 31, 2022 to ₹ 2,482.20 billion at March 31, 2023. The shareholders' investments marginally decreased from ₹ 98.54 billion at March 31, 2022 to ₹ 98.51 billion at March 31, 2023.

The increase in policyholders' non-linked investments is largely attributable to net inflows into the fund. In case of the Asset held to cover linked liabilities, the decrease is primarily attributable to unrealised losses due to equity market performance and net outflows during the year.

The investment held in unit linked funds (Asset held to cover linked liabilities) at March 31, 2023 was 58.0% of the total investment assets as against 63.4% at March 31, 2022. Further, of the total

investment assets at March 31, 2023, 44.9% of the assets were held as equity at March 31, 2023 as against 47.4% at March 31, 2022.

5. Loans

The Company has seen a growth in loan against policies from ₹ 9.40 billion at March 31, 2022 to ₹ 13.14 billion at March 31, 2023 primarily on account of the higher number of policyholders availing this facility. The Company has performed an impairment assessment and no impairment has been recognised based on this assessment.

6. Fixed assets

Fixed assets increased from ₹ 4.87 billion at March 31, 2022 to ₹ 5.96 billion at March 31, 2023.

7. Net current assets

(i) Details of current assets

The following table sets forth, for the periods indicated, summary of current assets:

Particulars	₹ billion)	
	March 31, 2022	March 31, 2023
Income accrued on investments	14.90	19.01
Assets held for unclaimed amount of policyholders ¹	10.60	9.86
Cash and bank balances	6.70	7.71
Balance due from reinsurers	5.11	2.54
Outstanding premium	2.86	3.60
GST unutilised credit	2.86	2.66
Advance taxes and tax deducted at source	1.48	1.57
Sundry debtors (Investments) ²	1.06	1.57
Prepayments	0.46	0.38
Deposits	0.38	2.35
Other advances and receivables ³	2.64	5.92
Total	49.05	57.17

¹ Including income on unclaimed amount of policyholders

² Represents receivables towards investments sold

³ Includes other advances net of provision for doubtful advance, other receivables net of provision for doubtful receivables, agents balance net of provision for doubtful agent balances, due from subsidiary and advances to employees.

The explanation for key elements is as mentioned below:

Income accrued on investments increased from ₹ 14.90 billion at March 31, 2022 to ₹ 19.01 billion at March 31, 2023.

Pursuant to IRDAI circular on "Handling of unclaimed amounts pertaining to policyholders", the Company has created a single segregated fund to manage all unclaimed amount. **Assets held for the unclaimed amount of policyholders** decreased from

₹ 10.60 billion at March 31, 2022 to ₹ 9.86 billion at March 31, 2023 on account of efforts undertaken by the Company to connect with customers and disburse amount out of the unclaimed fund.

Cash and bank balances increased from ₹ 6.70 billion at March 31, 2022 to ₹ 7.71 billion at March 31, 2023.

Balance due from reinsurers represents the amount receivable from reinsurers for claims, net of reinsurance premium payable for reinsurance ceded. It also includes reinsurance premium receivable, net of claims under reinsurance accepted business. The balance due from reinsurers decreased from ₹ 5.11 billion at March 31, 2022 to ₹ 2.54 billion at March 31, 2023, on account of reduction in death claim and consequent reduction in recovery from reinsurers'.

Outstanding premium represents the premium due but not received on participating & non-participating, non-linked products at March 31 and which are within the grace period. It increased from ₹ 2.86 billion at March 31, 2022 to ₹ 3.60 billion at March 31, 2023.

GST unutilised credit represents GST input tax credit which will be utilised in the future for set-off against payment of GST liabilities. It decreased from ₹ 2.86 billion at March 31, 2022 to ₹ 2.66 billion at March 31, 2023.

Advance taxes and tax deducted at source increased from ₹ 1.48 billion at March 31, 2022 to ₹ 1.57 billion at March 31, 2023.

Sundry debtors (investments) represents the sales proceeds pending to be received (but not overdue) on sale of investment securities. It increased from ₹ 1.06 billion at March 31, 2022 to ₹ 1.57 billion at March 31, 2023.

Deposits increased from ₹ 0.38 billion at March 31, 2022 to ₹ 2.35 billion at March 31, 2023 primarily on account of tax deposits.

(ii) Details of current liabilities

The following table sets forth, for the periods indicated, summary of current liabilities:

Particulars	₹ (billion)	
	March 31, 2022	March 31, 2023
Policyholders' claims payable	12.85	8.00
Sundry creditors ¹	11.04	19.97
Unclaimed amount of policyholders ²	10.60	9.86
Unallocated premium (including premium received in advance)	8.02	6.80

Particulars	₹ (billion)	
	March 31, 2022	March 31, 2023
Goods and Service tax/ Service tax payable	3.44	3.84
Payable to unit fund ³	1.87	2.31
Payable to agents (agents balances)	1.83	3.43
Provision for leave encashment and gratuity	0.26	0.26
Balance due to other reinsurers	0.13	0.16
Other liabilities ³	2.46	2.25
Total	52.50	56.88

¹ Including due to holding company, expenses payable and payable towards investments purchased.

² Including interest on unclaimed amount of policyholders.

³ Including TDS payable and other deposits.

The explanation for key elements is as mentioned below:

Policyholders' claims payable represents amounts payable to the policyholders for all claims (death, maturity, survival, surrender, foreclosure, annuity, etc.) that are intimated to the Company and are outstanding due to pending investigation as a part of the normal claims process or pending due to incomplete documentation from the policyholders. The decrease in claims payable from ₹ 12.85 billion at March 31, 2022 to ₹ 8.00 billion at March 31, 2023 is primarily on account of decrease in death claims payable.

Sundry creditors representing creditors for expenses and investment increased from ₹ 11.04 billion at March 31, 2022 to ₹ 19.97 billion at March 31, 2023 primarily on account of an increase in expenses payable from ₹ 7.59 billion at March 31, 2022 to ₹ 14.65 billion at March 31, 2023.

The details of **unclaimed amounts of policyholders** including breakup and ageing at March 31, 2023, and March 31, 2022 is given in note 3.6 and 3.7 of Schedule 16: Significant accounting policies and notes forming part of the financial statements for the year ended March 31, 2023.

Unallocated premium including premium received in advance primarily represents premium received from customers where policy issuance is in progress or pending due to requirements awaited from customers. It decreased from ₹ 8.02 billion at March 31, 2022 to ₹ 6.80 billion at March 31, 2023.

Goods and Service tax/Service tax payable primarily represents goods and service tax payable in respect of services rendered by the Company.

Payable to unit fund increased from ₹ 1.87 billion at March 31, 2022 to ₹ 2.31 billion at March 31, 2023. The amount represents payable to unit-linked policyholders account from shareholders account,

which is transferred to the unit-linked policyholders account immediately on the next banking day and hence held as a current liability.

Payable to agents represents the amount payable to insurance agents, brokers, insurance marketing firms and web aggregators towards commission. The amount outstanding is primarily attributable to the business sourced during the last month of the financial year.

8. Contingent liability

The contingent liability decreased from ₹ 9.83 billion at March 31, 2022 to ₹ 6.98 billion at March 31, 2023. The contingent liability decreased primarily on account of decrease in uncalled portion of partly paid securities due to payments made during the year from ₹ 7.00 billion at March 31, 2022 to ₹ 4.78 billion at March 31, 2023 and decrease in contingent liability with respect to taxation matters from ₹ 1.54 billion to ₹ 0.01 billion.

c. Cash flow statement

The following table sets forth, for the periods indicated, a summary of the cash flows:

Particulars	₹ (billion)	
	FY2022	FY2023
Net cash generated from/(used in) operating activities	18.31	0.88
Net cash generated from/(used in) investing activities	(8.15)	(11.47)
Net cash generated from/(used in) financing activities	(3.19)	(1.12)

Cash flows from operating activities:

Net cash flows generated from operating activities decreased from ₹ 18.31 billion in FY2022 to ₹ 0.88 billion in FY2023 primarily on account of an increase in policy benefits paid from ₹ 306.73 billion in FY2022 to ₹ 328.09 billion in FY2023 and other operating expenses from ₹ 67.83 billion in FY2022 to ₹ 73.86 billion offset in part by an increase in premium and other receipts from ₹ 417.01 billion in FY2022 to ₹ 435.62 billion in FY2023.

Cash flows from investing activities:

Net cash flows used in investing activities increased from ₹ 8.15 billion in FY2022 to ₹ 11.47 billion in FY2023 on account of increase in the investments in money market instruments offset in part by increase in dividend, interest and rent income.

Cash flows from financing activities:

Net cash flows used in financing activities decreased from ₹ 3.19 billion in FY2022 to ₹ 1.12 billion in FY2023 primarily due to lower dividend payout during the year.

d. Key financial ratios

The following table sets forth, for the periods indicated, the key financial ratios excluding the ratios that are mentioned in the above sections:

Particulars	FY2022	FY2023
Persistence ratio ¹		
- 13 th month	84.6%	85.4%
- 49 th month	63.4%	63.9%
Expense ratio ²	18.6%	21.5%
Solvency ratio	204.5%	208.9%

¹ Calculations are in accordance with the IRDAI circular IRDA/ACT/CIR/GEN/21/02/2010 dated February 11, 2010

² Total cost including commission excluding interest on sub debt/ (total premium-90% of Single premium).

Persistence ratio: The Company has a strong focus on improving the quality of business and customer retention, which is reflected in our best in class 13th month persistence ratio. Our 13th month persistence ratio stood at 85.4% for FY2023. The 49th month persistence ratio stood at 63.9%.

Expense ratio: The cost to total weighted received premium (TWRP) ratio stood at 21.5% in FY2023 compared to 18.6% in FY2022 primarily on account of increase in expenses relating to advertisement and publicity and employee remuneration.

Solvency ratio: The Company had a solvency ratio of 208.9% at March 31, 2023, compared to the regulatory minimum required level of 150%.

C. Consolidated financial results and subsidiary performance

The Company has a wholly-owned subsidiary, ICICI Prudential Pension Funds Management Company Limited (PFM). The PFM is licensed by the Pension Funds Regulatory and Development Authority as a Pension Fund Manager under the National Pension System (NPS). The PFM had also obtained registration as a Point of Presence (PoP) for NPS distribution and servicing.

Pension fund industry

The total assets under management (AUM) of the pension fund industry has grown from ₹ 7,365.93 billion at March 31, 2022 to ₹ 8,988.65 billion at March 31, 2023, a growth of 22.0% in FY2023. Inflows largely comprises funds from the government sector, however, private sector grew at a faster pace as compared to overall industry. The AUM from the government sector, private sector, Atal Pension Yojana and National Pension System lite segments

was ₹ 7,068.23 billion, ₹ 1,106.12 billion, ₹ 267.00 billion and ₹ 49.15 billion respectively.

Business

The subscribers' funds managed by the PFM increased from ₹ 116.14 billion at March 31, 2022 to ₹ 164.66 billion at March 31, 2023, an increase of 41.8% during the year.

The PFM has a market share of 14.9% in the private sector AUM at March 31, 2023.

The net worth of PFM at March 31, 2023 stands at ₹ 0.58 billion (at March 31, 2022 ₹ 0.55 billion). The net worth increased on account of profit during the year.

For the year ended March 31, 2023, the PFM registered a profit, however the same decreased from ₹ 0.05 billion in FY2022 to ₹ 0.03 billion in FY2023. The decrease in profit was primarily on account of increase in employee benefit expenses and expenses incurred for building capacity to support future growth and for establishing independence, primarily in technology and digital enhancements. The overall contribution of the subsidiary to the financial results of the Company is not significant currently, however it has started showing positive signs. The subsidiary is committed towards increasing its presence in the industry and is focused on scaling up the business and revenue.

Basis of consolidation

The consolidated financial statements are prepared in accordance with the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014, section 129(4) of the Companies Act, 2013. The financials are consolidated on a line-by-line basis in accordance with AS 21 on 'Consolidated Financial Statements'. These consolidated financial statements for the Group are prepared in accordance with the principles and procedures for preparation and presentation of consolidated financial statements as laid down under the Accounting Standard (AS) 21, "Consolidated Financial Statements" and are presented in the same format as that of the Holding Company. The financial statements of the Holding Company and its subsidiary have been combined on a line-by-line basis by adding together similar items of assets, liabilities, income and expenses in respective components of financial statements after eliminating intra-group balances, transactions and resulting unrealised profits/losses. The Policyholders' account specifically dealing with direct insurance business governed by IRDAI regulations has retained its distinct independent form in these consolidated financial statements.

The consolidated profit after tax for the Company increased from ₹ 7.59 billion in FY2022 to ₹ 8.13 billion in FY2023.

III. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The internal controls of the Company are commensurate with the business requirements, its scale of operation and applicable statutes to ensure orderly and efficient conduct of business. These controls have been designed to provide a reasonable assurance with regard to maintaining proper accounting controls, safeguarding of assets, prevention, and detection of frauds and errors, ensuring operating effectiveness, reliability of financial reporting, and compliance with applicable regulations.

In most aspects of operations and processes, the Company has deployed automation for control and efficiency. The Company operates in a robust IT control environment with adequate controls focused on reconciliation between systems, auto checks to avoid any duplicate data upload, reconciliation of all jobs run at the beginning and end of day, matching of trial balance and ensuring no unposted entries in the system monthly. The IT change management work flow is tracked in an application and changes moved to production only after user acceptance testing sign off by business teams. The Company has an automated control over access management with addition/deletion/modification of access to IT environment as per defined authorisation matrix. The reconciliation of user rights in applications is conducted every quarter as part of access management. In conjunction with the IT controls, all financial transactions also have a compensating detective controls (system exception reports, maker checker, etc.) at the process level. These controls are covered under the IFC framework which is aligned with Internal Control Framework 2013 given by the Committee of Sponsoring Organisations (COSO) of the Treadway Commission and tested at regular intervals for design and operating effectiveness.

There had been no material changes in the process level controls or activities conducted in the financial statement closing process of the Company. The Company had tested all material controls over financial reporting at March 31, 2023 and found them to be operating effectively.

In addition, internal audits are undertaken to reviews significant operational areas regularly. The Audit Reports, submitted by the Internal Auditors, are reviewed by the Audit Committee and corrective action is initiated to strengthen the controls and enhance the effectiveness of the existing systems. Statutory and Internal Auditors are also invited to the Audit Committee meetings to ascertain their views on the adequacy of internal control systems. The management believes that strengthening internal controls is a continuous process and it will, therefore, continue its efforts to keep pace with changing business needs and environment.

Enterprise Risk Management

The Company recognises that risk is an integral element of the business and managed acceptance of risk is essential for generation of shareholder value. The Company's acceptance of risk is dependent on the return on risk-adjusted capital and consistency with its strategic objectives. Having accepted a risk, the Company may cede or hedge it where this is cost effective. In general therefore, the Company's control procedures and systems are designed to manage risk, rather than eliminate it. However, at certain times, there may also exist some risks for which the Company has no tolerance and which are actively avoided.

The Company has in place a risk management framework with the following aims:

- Determining the risk profile of the Company i.e. the aggregate level of risks that the Company has undertaken in pursuit of profitable business.
- Identification, measurement, monitoring and control of risk for the purpose of protecting the interests of key stakeholders.
- Enhancing the Company's ability to identify and pursue opportunities that offer attractive risk-adjusted returns by providing transparent, accurate and timely risk information.
- Embedding risk-based decision making in key management processes and fostering a culture of risk awareness.
- Limiting the Company's exposure to adverse outcomes through risk limits.
- Ensuring compliance with regulatory requirements.
- Focusing on ensuring that it possesses the appropriate capabilities and experience in managing and transferring risks.
- Minimising reputational risk.

RISK GOVERNANCE FRAMEWORK

The risk governance structure of the Company consists of the Board, the Board Risk Management Committee (BRMC), the Product Management Committee (PMC), the Executive Risk Committee (ERC) and its supporting committees.

The risks faced by the Company are classified into market, credit, liquidity, insurance, operational and reputation. In addition to these risks, the life insurance industry faces a number of emerging risks. While COVID-19 claims during the year were much lower, there has been a resurgence of COVID-19 infections recently in the country and the claims experience will need to be monitored. Geo-political tensions and disruption to energy supplies continue to be additional sources of

uncertainty for financial and commodity markets and trigger for inflation (which could impact credit quality of counterparties, as well as reduce real wages thereby impacting discretionary savings, insurance new business and persistency risk).

There are also emerging risks related to ESG (environmental, social and governance) issues. For the Company, governance, ethics and sustainability are the overall responsibility of the Board, with its Committees playing key roles in identifying, mitigating and managing ESG risks and other material issues. One of the most prominent ESG risks is that of climate change which could potentially have wide ranging implications including (but not limited to) adverse impact on economic growth and investment markets and higher than expected claims due to increased risk of future weather related catastrophes, pandemics as well as possible changes in long-term mortality/morbidity rates. The Company continues to work towards developing its understanding of ESG risks, including climate change and remaining aware of industry best practice as it develops. The current industry consensus, is for insurers to treat climate risk as an amplifier of existing risk categories rather than a new risk category. Accordingly, sustainability risks including climate-related risks are integrated in our risk management framework and are part of our Board approved Risk Policy ("the Policy"). For the impact of ESG risks on the asset side, the Company has implemented a framework for investment decisions that will support mitigation of risks due to climate changes as well as other environmental, social and governance risks by factoring these in its investment decisions. While climate change can also impact morbidity, mortality and persistency and thus, the Company's liabilities, it is expected that the impacts will emerge gradually, and through a change in future assumptions earlier than through actual incidences. The longer-term impact to the Company should be managed by its ability to reprice contracts and develop new products if required. Apart from climate change, there are other emerging risks associated with public health trends such as increase in obesity related disorders and demographic changes such as population urbanisation and ageing. Another increasingly important ESG aspect is that of data privacy which could potentially have a material impact on the Company's reputation. The risk management framework of the Company seeks to identify, measure and control its exposures to all these risks within its overall risk appetite.

The risk philosophy of the Company is outlined in the Board approved risk policy ('the Policy') which is reviewed by the Board at least annually. The Policy details identification, measurement, monitoring and control standards relating to the various individual risks. The Policy covers aspects related to:

- i) Financial Risk Management or Asset Liability Management ('ALM'): covering market risk, credit risk, liquidity risk and insurance risk
- ii) Operational Risk Management: covering fraud risk, compliance risk, legal risk, outsourcing risk, customer risk and measurement and control of operational loss
- iii) Reputation Risk Management

In addition to the above, the Board has approved the following policies that assist in managing some of the above risks:

- Reinsurance Policy
- Underwriting Policy
- Outsourcing Policy
- Fraud Risk Management Policy
- Information & Cyber Security Policy
- Business Continuity Management Policy

This framework in conjunction with the three lines of defence helps the Company manage risk. The key responsibilities of each line are laid out below:

The risk management model of the Company comprises a four-stage continuous cycle, namely the identification and assessment, measurement, monitoring and control of risks.

1. RISK IDENTIFICATION

The Company identifies its risk exposure through a variety of techniques and processes, including:

- 1) Stress testing of the current financial condition of the Company. The Company periodically carries out stress testing of its assets and liabilities to identify impact on the regulatory and economic solvency position. Such testing is used as an aid in analyzing the Company's resilience, assessing the effectiveness of risk controls and identifying significant existing or emerging risks to its financial position, such as severe economic shocks and catastrophic events like pandemics, which could materialize as a consequence of several risk factors including climate change and other emerging risks.
- 2) Product development process by way of analysis of the sensitivity of profit margins and of profit patterns to market and insurance risks.
- 3) Business planning process by way of analysis of the sensitivity of the projected solvency and emergence of profit to market and insurance risks.
- 4) Tracking of key liquidity risk indicators.
- 5) The Board of the Company periodically reviews the potential impact of strategic risks such as changes in macro-economic factors, government policies, regulatory environment and tax regime on the business plan of the Company. The Company has a framework in place for identifying business concentration risk and it actively engages in diversification of business across various drivers including distribution partners and product segments.

- 6) Risk and Control Self-Assessment (RCSA) to identify and assess operational risks in terms of their likelihood and impact for each business unit within the Company. The RCSA activity is done with due cognisance to any loss events or audit findings.
- 7) The Company evaluates legal and regulatory risk by monitoring the implementation of relevant requirements and monitoring for any deviations.
- 8) Reputation risk is monitored based on trends in regulatory orders (if any), media mentions, customer complaints and legal cases.

2. RISK MEASUREMENT

The Company uses the following approaches to measure its risk exposure.

- 1) Economic capital requirement (ECR): ECR is an appropriate measure of risk exposure for market, credit and insurance risks. ECR is measured by calculating the reduction in available economic capital (market value of assets less realistic liabilities) under extreme economic and non-economic scenarios. The stresses are benchmarked to European Insurance and Occupational Pensions Authority (EIOPA) standards as they develop, subject to appropriate adjustments for local conditions and the Company's stage of development.
- 2) Risk to the growth of the EV: The Company considers risks that impede future growth of the EV like insufficient new business profit growth and over-run in acquisition or renewal expenses, caused by adverse deviation of actual unit costs from planned unit costs.
- 3) Risk to the statutory position: The Company considers the impact of market risk on its statutory position and assesses the quality of its ALM by performing a resilience test periodically on the quasi-regulatory balance sheet. The quasi regulatory balance sheet is obtained by marking to market the assets on the regulatory balance sheet. The liabilities are determined with reference to the market value of assets and by preserving the margins for adverse deviation in accordance with applicable regulation and professional guidance. The quasi-regulatory balance sheet is subjected to economic shocks and the solvency ratios and free assets under the stress scenarios monitored.
- 4) Liquidity ratio of highly liquid assets to near-term liabilities is tracked in order to assess the liquidity position.
- 5) Operational and fraud losses are measured as a proportion of profit before tax to identify

the extent of deviation from the agreed tolerance limit. In addition, key operational risk indicators are tracked.

- 6) Reputation risk score is calculated based on a methodology of rating various parameters impacting the reputation of the Company such as regulatory concerns, media mentions, customer complaints and legal cases.

3. RISK MONITORING

The ERC reviews all the risks and presents a risk report to the BRMC on a quarterly basis. The PMC reviews product risks prior to launch of new products / product modifications and provides an update to the BRMC on a quarterly basis. The BRMC informs the Board of the key findings.

4. RISK CONTROL

Identified risks are managed by one or more of the following techniques

- Retention (acceptance);
- Avoidance;
- Transfer or;
- Reduction (mitigation).

The nature of the controls implemented and the level of control exercised are based upon the:

- Potential severity of the risk;
- Frequency of the risk occurring;
- Cost of implementing controls relative to the significance of the risk;
- Risk appetite.

a. Market risk:

1. Launching new products can significantly alter the risk profile of the Company's balance sheet. Market risks inherent in the new products or significant modifications to existing products are identified at the product design stage and a risk report is placed before the ERC and PMC. The products are launched only after approval by the ERC and PMC.
2. Asset Liability Management (ALM): Asset-liability management involves minimising the risk due to mismatches in assets and liabilities. Mismatches could arise either due to asymmetric changes in the value of assets and liabilities as a consequence of changes in macroeconomic factors such as interest rates, or due to asynchronous cash inflows and outflows. The Company has developed detailed investment specifications that govern the investment strategy and limits for each fund depending on the profile of the liability backed by those assets. For each category of products, the investment specifications specify limits to permissible exposures to various asset classes

along with duration guidelines for fixed income instruments. The investment specifications are designed to achieve the risk versus return objectives and policyholders' reasonable expectations while maintaining the risk within the Company's risk appetite and with due consideration of regulatory requirements. The mitigation strategies for different portfolios are as follows:

i. Category 1: Non-linked business where the benefits to policyholders are based on performance of the underlying investments

For these funds the Company's asset allocation strategy, which includes investments in equities, is designed to achieve the twin objectives of managing risks arising from guarantees and optimising policyholder returns, subject to regulatory constraints. Asset Liability Management (ALM) is done through regular monitoring of the equity backing ratio and debt duration against limits as applicable. The bonus declaration mechanism for participating products also helps in the smoothing of the volatility of the investment returns.

ii. Category 2: Non-linked business where the benefits and premiums are fixed at the start of the contract

The liabilities for these lines of business are obligations to policyholders or to meet expenses and have to be met either at a fixed time or on the occurrence of a contingency. The Company manages the risk on such products by investing only in fixed income instruments. Further, a combination of duration matching and cash flow matching approaches is used to mitigate asset liability mismatches. The Company uses interest rate derivatives to hedge interest rate risk. In particular, a forward rate agreement (FRA), which is a particular type of interest rate derivative, allows the Company to lock in now the interest rates at which the future premiums would be invested.

iii. Category 3: Linked products with guarantees

The Company uses a mix of stochastic and deterministic approaches to calculate the cost for providing the guarantee and holds a reserve on this account. The Company manages the investment risk arising from these products by setting limits on the equity backing ratio and debt duration.

iv. Category 4: Linked products without guarantees

The linked portfolio without guarantees has minimal investment risk to the solvency

of the Company. These funds are managed with respect to an appropriate benchmark index and do not require any active ALM.

b. Credit risk:

The Company manages the credit risk of its investments through the following measures:

1. Exposure limits for companies, groups and industries in accordance with IRDAI norms and limits as per its own Investment Policy;
2. Restricting investments primarily to securities rated AA and above;
3. Engagement with select and financially sound reinsurers as per internal guidelines for reinsurance. The credit risk on reinsurance contracts are reviewed when the Company plans to enter into a relationship with a new reinsurer, or in case of significant events like credit rating downgrades of existing reinsurers;
4. Approved counter-parties are used to minimize settlement risk

c. Liquidity risk:

The Company faces limited liquidity risk due to the nature of its liabilities. The Company has put the following mitigants in place:

1. The Investment Specifications as a part of the asset liability management framework provide guidelines to manage liquidity risk by specifying the minimum investment in highly liquid assets, taking account of constraints on the fungibility of assets among funds, and by specifying cash flow matching for certain funds.
2. The Company has a liquidity contingency plan, which addresses the following
 - a) Identifying mitigants to liquidity stress arising out of contingencies;
 - b) Communication and action protocol;
 - c) Restoring normality in the event of any contingency;
3. New products are launched only after approval by the ERC and PMC.

The ERC also evaluates the impact of market liquidity on any hedging or asset allocation strategy required by the product.

d. Mortality, Morbidity and Longevity risks:

The Company uses the following approaches to manage its mortality and morbidity risk:

1. **Developing new products:** The Company designs exclusions and terms and conditions in consultation with reinsurers and with due regards to market practices to manage the mortality, morbidity and longevity risks.

In order to deal with a changing insurance landscape or emerging risks, new products could be developed with more suitable product features, policy wordings, exclusions and terms and conditions.

2. **Product approval process:** Launching new products can significantly alter the risk profile of the Company's balance sheet. Insurance risks inherent in the new products or significant modifications to existing products are identified at the product design stage and products are launched only after approval by the ERC and PMC.
3. **Reinsurance:** The Company uses appropriate reinsurance arrangements, including catastrophe reinsurance, to manage insurance risk. Such reinsurance arrangements can support in risk transfer of emerging risks as well. The Company's reinsurance exposures are considered and approved by the ERC periodically.
4. **Re-pricing:** The Company also reserves the right to re-price future new business with IRDAI approval in case of adverse experience, which could materialize due to various factors including sustainability risks.
5. **Underwriting and claims controls:** Underwriting procedures and processes are in place to identify risk at the time of acceptance of the contract for different classes of business. A review of the underwriting strategy is carried out periodically. The underwriting strategy can be adjusted to allow for any changes in the insurance risk landscape or emerging risks. Claims procedures are also in place to assess and manage the risks at the claims stage, which are reviewed periodically.
6. **Experience analysis:** The Company periodically reviews the actual experience relative to the expected experience for mortality, morbidity and longevity. Such a review will provide the Company insights on emerging risks if the Company faces any. During the course of the ongoing COVID-19 pandemic, the Company has been closely monitoring the overall mortality experience including the deaths on account of COVID-19.
7. **Review of bases:** The Company conducts a review at least annually of the bases of assumptions, which are used for various purposes such as valuation, pricing etc. to assess any change in risk profile. A widespread increase in mortality or morbidity, for example as a result of climate changes or emergence on new diseases, may require the Company to re-evaluate its assumptions.

e. Persistency risk:

The Company uses the following approaches to manage the risk:

1. **Experience analysis:** The Company conducts its experience analysis regularly to ensure that corrective action can be initiated at the earliest opportunity and that assumptions used in product pricing and embedded value reporting are in line with experience.
2. **Product features:** The Company uses features like loyalty bonuses and additional allocation of units to encourage policyholders to continue with the policy.
3. **Service initiatives:** The Company uses a combination of proactive and reactive interventions to manage persistency. The interventions could include attaching direct debit or ECS mandates at new business stage, sending communication via different media such as emails to customers and distributors and reminders and telephonic interviews with customers.
4. **Aligning key performance indicators:** The Company uses different key performance indicators for different levels of hierarchy in sales and operations to align interests and ensure adequate focus on persistency.

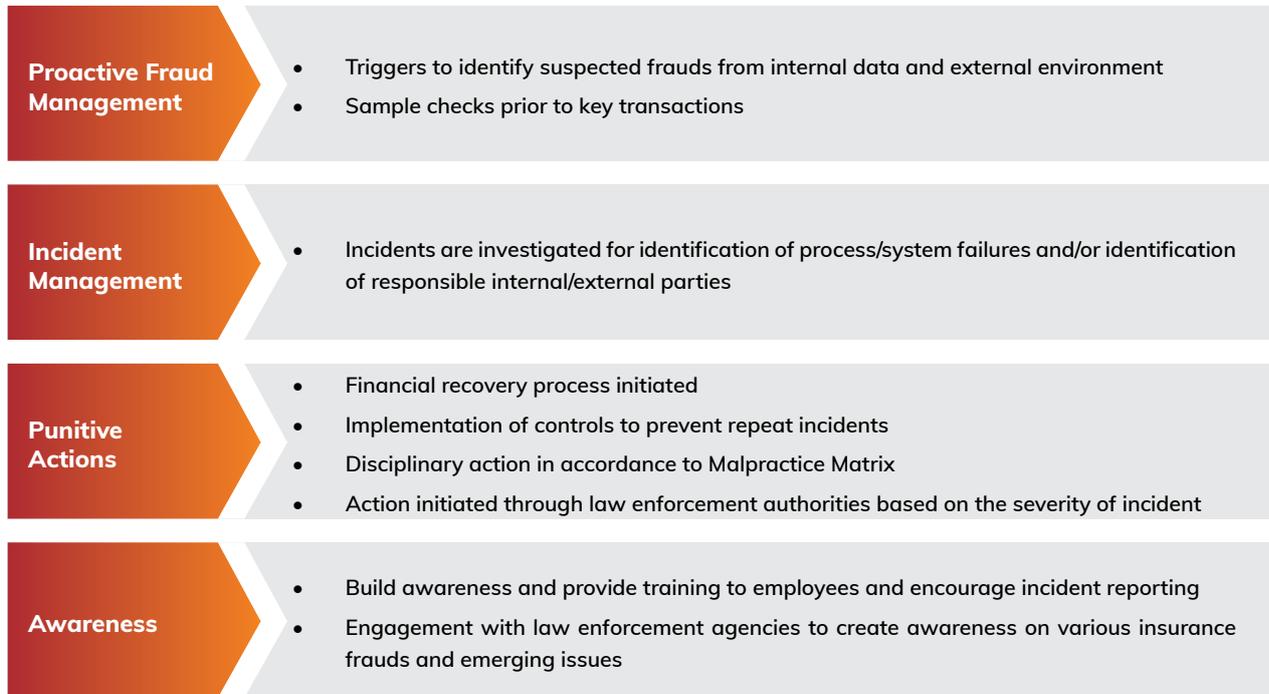

f. Expense risk:

The Company uses the following approaches to manage the risk:

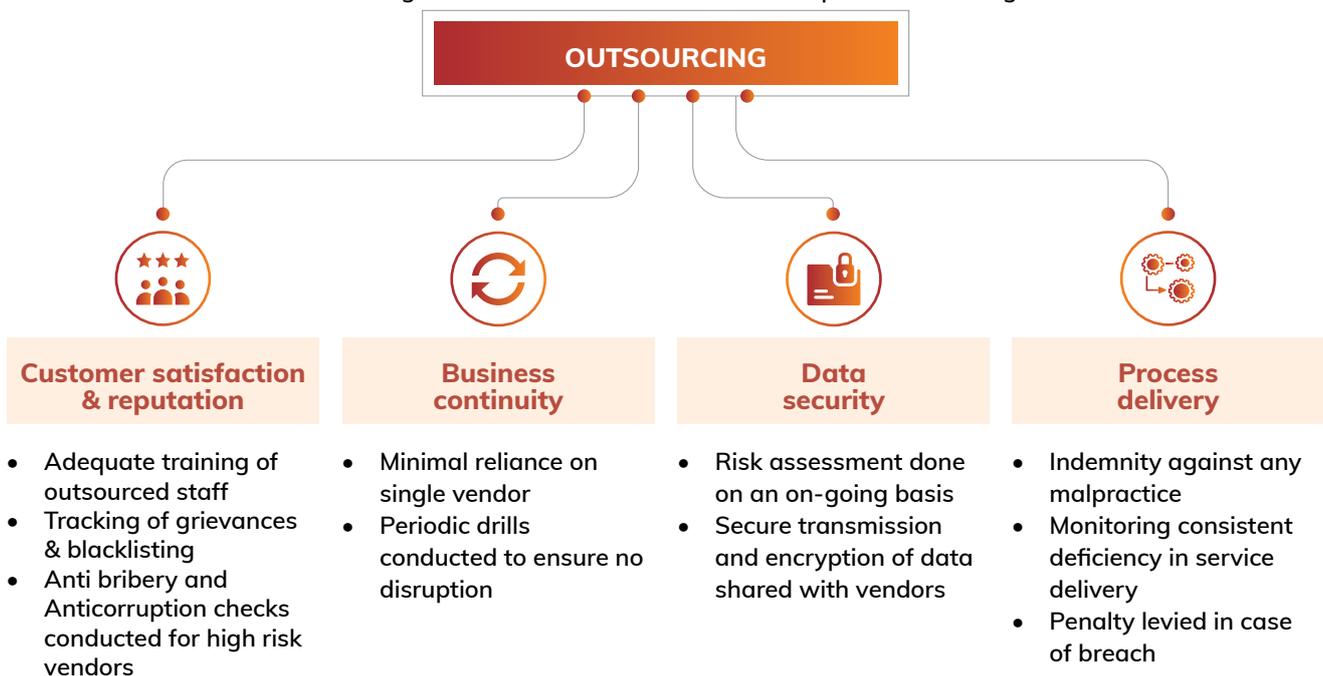

1. **Experience analysis:** The Company actively monitors its expense levels, which are then fed back into new product pricing, calculation of reserves and management reporting. In case of any adverse deviations between actual unit costs and planned unit costs, mitigation measures are taken.
 2. **Aligning key performance indicators:** The Company uses different key performance indicators to align interests and ensure adequate focus on expense.
- g. Operational risk:** The Company uses the following approaches to manage the risk:
- i. Mitigation plans are developed for high risk items identified and monitored by the risk committees
 - ii. The Company actively promotes a risk awareness culture by improving understanding through communication and education among management, employees, contractors and vendors. Appropriate training material is developed and cascaded to improve knowledge and promote a strong operational risk practice.

Further, risk champions have been nominated across various functions who support the risk management teams to identify risks proactively and create an awareness culture within such functions.

- iii. The Company also has in place policies to manage operational risk like Whistle-blower policy, Code of Conduct for employees, Code of Conduct for Prevention of Insider trading, Anti Money Laundering and Counter financing of Terrorism policy and Anti-Bribery and Anti-Corruption Policy.
- iv. **Fraud Risk Management:** The Company ensures adherence to Fraud prevention framework laid down by the regulator and directives under Companies Act 2013. The following approach has been adopted to prevent fraud:

- v. **Outsourcing Risk:** Processes of the Company are outsourced, where it is convinced of the advantages by entering in such arrangements, as permitted under IRDAI (Outsourcing of Activities by Indian Insurers) Regulations 2017 (“the regulation”). The Company has an Outsourcing policy and it follows the below operating framework for the required due-diligence for any new activity or vendor empanelment. The Company has constituted an Outsourcing Committee which oversees the compliance to the regulation.

vi. Business Continuity Management (BCM): The Company has a Business Continuity Management (BCM) framework and policy to ensure resilience and continuity of key products and services at minimum acceptable level and safety of human resources. The Company regularly test disaster recovery plans and update the business continuity plans based on the learnings and assessment of evolving risks. As part of the BCM framework, business impact analysis and risk assessment is conducted to assess the likely impact on the Company's business processes due to adverse events like, natural disaster, pandemic, technical disruption, cyber-attack, administrative decisions like lockdown, etc. The Company has been accredited with the ISO 22301:2019 certification for the business continuity management systems. The key BCM objectives and the framework are depicted below.

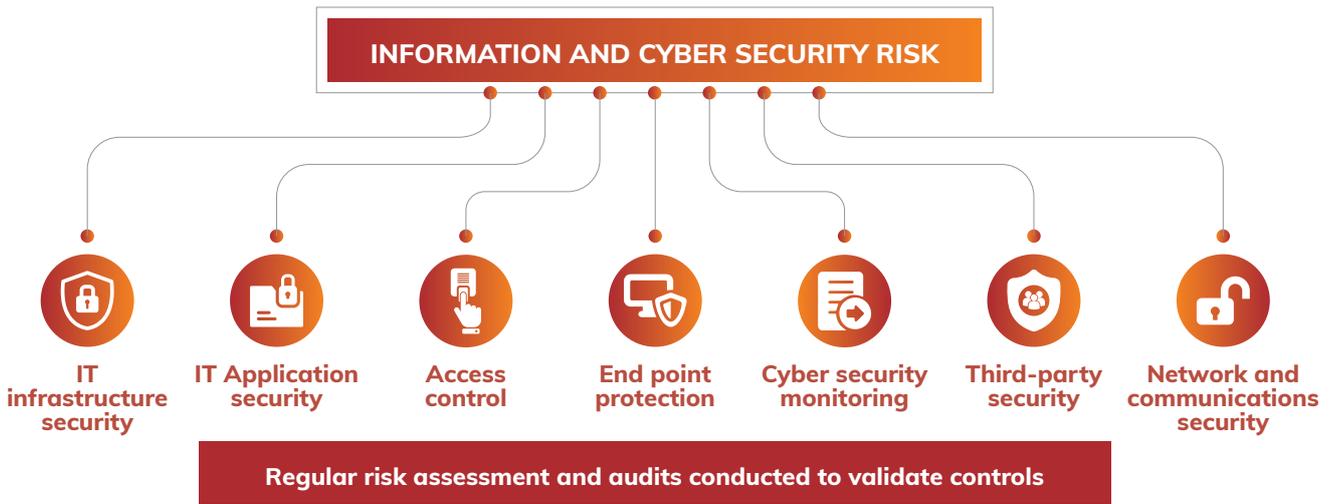

Safety of personnel	Availability of information	Continuity of critical processes	Crisis communication
<ul style="list-style-type: none"> Disaster management protocol Employee training and awareness Assessment and testing 	<ul style="list-style-type: none"> Back-up for all critical information Disaster recovery plan Periodic testing 	<ul style="list-style-type: none"> Identify critical functions Minimum resources defined Business continuity plan testing 	<ul style="list-style-type: none"> Employee level communication Alternative locations/transcript for customers Inform regulator/management

vii. Information and Cyber Security: The Company has an information and cyber security framework and policy that ensures all information assets are safeguarded by establishing comprehensive management processes throughout the organisation and information is protected adequately through appropriate controls and proactive measures. The Company has considered defence-in-depth approach and has implemented security solutions like firewall, Intrusion prevention system, anti-malware solutions, email security, end point security, network access control (NAC) and internet proxy. The Company has mechanism in place to monitor cyber security events to detect and respond to any threats to its network, application and infrastructure. A disciplined and focused application security program is in place, to regularly conduct vulnerability assessment of critical IT applications and infrastructure. The Company also collaborates with threat intel partners, which allows to proactively identify and address cyber risks. Considering the dynamic nature of the technology ecosystem and emerging cyber threats, Information and Cyber Security controls are periodically benchmarked with the help of external consultants to identify new areas and risk, so that control effectiveness can be improved. An awareness programme is in place, covering the aspects related to data security and privacy, such as 'Do's and Don'ts in the areas of privacy & confidentiality, workplace responsibilities, password and email security as well as information and cyber security. Further, employee onboarding and induction process includes information and cyber security aspects. Special focused Cybersecurity workshops are conducted for the leadership teams. Cyber crisis management plan is implemented which covers material crisis scenarios and a mechanism to address five phases, namely identification, containment, remediation, recovery and debrief.

Based on the Information Security Management System (ISMS) controls implemented and the assessment conducted by the certification body, we have been awarded a certification under the ISO 27001:2013 standard.

The Company's Privacy policy is in accordance with Information technology (Reasonable security practices and procedures and sensitive personal data or information) Rules, 2011. The policy provides the Company's commitment to privacy throughout the life-cycle of the information from, collection, processing, sharing, retention and destruction, by taking reasonable steps to protect the confidentiality of the Personal Information provided.

The Company also engages external consultants and experts regularly, to reassess the controls and solutions implemented and improve the effectiveness.

h. Reputation risk: Reputation risk can be defined as the risk of negative opinion about the financial stability, service levels, integrity, transparency or any other aspect, in the minds of the stakeholders, resulting in a decline in business volumes and eventually impacting continuity of business.

The Company has defined a reputation risk framework and periodically monitors various parameters that could impact the reputation of the Company. The Company uses various approaches to manage reputation risk such as faster resolution of customer grievances, root cause analysis of complaints and identification of issues through proactive management of adverse feedbacks in the media.

Management Report

8. RISK MANAGEMENT

The Company recognises that risk is an integral element of the business and the managed acceptance of risk is essential for generating shareholder value.

The risk governance structure of the Company consists of the Board, the Board Risk Management Committee (BRMC), the Executive Risk Committee (ERC) and its sub-committees. The risk philosophy of the Company is outlined in the Board approved risk policy which is reviewed by the Board at least annually. The Board risk policy details identification, measurement, monitoring and control standards relating to various individual risks, namely investment (market, credit and liquidity), insurance, operational (including legal, compliance, outsourcing, customer dissonance, business continuity, information and cyber security) and reputation. The Board periodically reviews the potential impact of strategic risks such as changes in macro-economic factors, government policies, regulatory environment and tax regime on the business plan of the Company.

In addition to these risks, the life insurance industry faces a number of emerging risks. While COVID-19 infections and deaths showed a declining trend for a large part of the year, there has been a resurgence recently and the claim experience will need to be continuously monitored. Geo-political tensions and the potential for disruption to energy supplies are an additional source of uncertainty for financial and commodity markets and trigger for inflation (which could impact credit quality of counterparties, as well as reduce real wages thereby impacting discretionary savings, insurance new business and persistency risk). There are also emerging risks related to ESG (environmental, social and governance) issues. One of the most prominent ESG risks is that of climate change which could potentially have wide-ranging implications including (but not limited to) adverse impact on economic growth and investment markets and higher than expected claims due to increased risk of future weather related catastrophes, pandemics as well as possible changes in long-term mortality/morbidity rates. Apart from climate change, there are emerging risks associated with public health trends such as increase in obesity related disorders and demographic changes such as population urbanisation and

ageing. Other important ESG elements include data privacy which has an increasing material impact on Company's reputation.

The risk management framework of the Company seeks to identify, measure and control its exposures to all these risks within its overall risk appetite. The Company periodically carries out stress testing of its assets and liabilities to identify impact on regulatory and economic solvency, statutory profits and liquidity position. Such testing is used as an aid in identifying significant existing or emerging risks to its financial position, including the potential impact of severe economic shocks and catastrophic events like pandemics, which could materialize as a consequence of several risk factors including climate change and other sustainability risks. The Company has a framework for information and cyber security as well as business continuity management to analyse emerging risks through regular monitoring of the external and internal environment which has been further augmented in the current situation. The Company also has a privacy policy to ensure protection of sensitive personal data or information collected. During the year, the Company has updated the Board risk policy by integrating sustainability risks in the risk management framework. The key aspects of the Company's risk management framework have been outlined below. Further information on the Company's approach to risk management is available in the sections on 'Enterprise Risk Management' and 'Risks and Opportunities' of the Annual Report.

8.1. Investment risk

Investment risk is the risk arising out of variations in the level or volatility of market prices of assets and financial instruments, including the risk arising from any mismatch between assets and liabilities, due to external market and economic factors. The Company faces limited liquidity risk due to the nature of its liabilities. The key mitigation approaches for this risk are as follows:

- (a) **Product approval process:** Launching new products can significantly alter the risk profile of the Company's Balance Sheet. Investment risks inherent in new products or significant modifications to existing products are identified at product design stage and products are launched only after approval by the ERC.
- (b) **Asset Liability Management (ALM):** The Company has detailed Investment Specifications that govern the investment strategy and limits for each fund depending on the profile of the liability backed by those assets. For each category of products, the Investment Specifications define limits to permissible exposures to various asset

classes, duration guidelines for fixed income instruments and minimum investment in liquid assets. The Company uses derivatives to hedge interest rate risk.

- (c) Exposure limits have been defined for companies, groups and industries in accordance with regulatory guidelines and the Company's internal Investment Policy. The Company restricts investments primarily to securities rated AA and above.
- (d) The Company has a liquidity contingency plan in place.
- (e) As part of its ESG philosophy, the Company has implemented a framework for investment decisions that will support mitigation of risks due to climate change as well as other environmental, social and governance risks by factoring these in its investment decisions.

8.2. Insurance Risk

Insurance risk is the risk arising because of variance to the best estimate or because of random fluctuations in the frequency, size and timing of insurance liabilities. Insurance risk comprise the following components: mortality, morbidity, persistency and expense risk. These risks are mitigated through the following:

- (a) **Product approval process:** Insurance risks inherent in the new products or significant modifications to existing products are identified at product design stage and products are launched only after approval by the ERC. The Company, in its product design, incorporates product features and uses appropriate policy wordings to mitigate insurance risk.
- (b) **Reinsurance:** The Company uses appropriate reinsurance arrangements, including catastrophe reinsurance, to manage insurance risk. Such reinsurance arrangements may be used to support risk transfer of sustainability risks as well. The arrangements are with select and financially sound reinsurers. The Company's reinsurance exposures are considered and approved by the ERC periodically.
- (c) **Underwriting and claims controls:** Underwriting and claims policies and procedures are in place to assess and manage mortality and morbidity risks. The Company seeks to minimise these risks by diversifying its business portfolio and adhering to appropriate and segmented underwriting norms. The Company conducts periodic reviews of both underwriting and claims procedures. Adjustments to the underwriting strategy may be made to allow

for any changes in the insurance risk landscape or emerging risks.

- (d) **Experience analysis:** The Company conducts its experience analysis regularly in order to monitor trends, gain insights on emerging risks, if any and to ensure that corrective actions can be initiated at the earliest opportunity and that assumptions used in product pricing, reserving and embedded value reporting are in line with the experience. The Company actively monitors its claims experience, persistency levels and expense ratios. During the course of the ongoing COVID-19 pandemic, the Company has been closely monitoring the overall mortality experience including the deaths on account of Covid-19.
- (e) **Aligning key performance indicators:** The Company uses appropriate key performance indicators for different levels of hierarchy in sales and operations to align interests and ensure adequate focus on insurance risk especially, persistency and expense.
- (f) **Product contracts:** The Company designs exclusions and terms and conditions in consultation with reinsurers and with due regard to market practices to manage insurance risk, especially mortality and morbidity risk. In order to deal with a changing insurance landscape or emerging risks, new products may be developed with more suitable product features, policy wordings, exclusions and terms and conditions.
- (g) **Repricing:** The Company reserves the right to re-price future new business with IRDAI approval in case of adverse experience, which could materialize due to various factors including sustainability issues.

8.3. Operational risk:

Operational risk is the risk of loss, resulting from inadequate or failed internal processes, people and systems, or from external events.

The Company uses the following approaches to manage operational risk:

- (a) The Company develops and monitors mitigation plans for high risk items identified through the Risk and Control Self-Assessment (R&CSA) conducted for each business function, through analysis of, loss events and review of audit findings.
- (b) The Company continuously monitors internal loss events and ensures adequate mitigation for material impact events.

- (c) The Company actively promotes a risk awareness culture by improving understanding through communication and education. It further engages with law enforcement agencies to create awareness on various insurance frauds and emerging issues
- (d) **Fraud Management:** The Company has a fraud risk management policy that sets out the approach and guidelines for management of fraud risk. The Company follows both a proactive and reactive approach to manage fraud. Proactive management is done by using triggers to identify suspected frauds and through random sample checks. Reactive management is done through incident management. The Company ensures implementation of controls to prevent recurrence of such incidents, financial recovery whenever applicable and disciplinary action against involved employees in accordance with the Company's Code of Conduct. It also initiates actions through law enforcement authorities based on severity of incidents.
- (e) **Outsourcing Risk:** The Company has an outsourcing policy to ensure effective oversight and adequate due diligence with regard to outsourcing of activities. The Company outsources processes which are permitted based on the regulatory guidelines. The Company carries out required due-diligence for any new vendor empanelment and annual assessment of outsourced vendors.
- (f) **Business Continuity Management (BCM):** The Company has a BCM policy and framework to ensure resilience and continuity of key products and services at a minimum acceptable level. BCM includes systems and processes for management of risk including use of disaster recovery sites and business continuity plans for critical processes which are being tested periodically.
- (g) **Information and cyber security:** The Company has an information and cyber security policy and framework that ensures all information assets are safeguarded by establishing comprehensive management processes throughout the organisation. The Company has defence-in-depth approach, and has deployed security solutions like firewalls, intrusion prevention systems, anti-malware solutions, email security, data leakage prevention and web proxy. Vulnerability assessment and penetration testing program for critical information technology applications and infrastructure has been defined, to ensure IT Systems are secured for operations during its life-cycle. Further, cloud security strategy and practices for protecting data and IT infrastructure has

been implemented. Cyber security operations centre (SOC) has been setup for proactive monitoring (24x7), incident response, recovery and remediation activities.. Cyber security advisories issued by security experts on current geopolitical environment are being monitored and suitable actions are being initiated.

- (h) **Privacy policy:** The Company has a privacy policy in accordance with Information technology (Reasonable security practices and procedures and sensitive personal data or information) Rules, 2011. The policy provides the Company's commitment to privacy throughout the life-cycle of the information from, collection, processing, sharing, retention and destruction, by taking reasonable steps to protect the confidentiality of the Personal Information provided and protect it from unauthorised access or alteration, disclosure or destruction.
- (i) The Company has adopted highest business, governance, ethical and legal standards. The Whistle blower policy aims to provide a mechanism to ensure that concerns are appropriately raised, independently investigated and addressed.

8.4. Reputation Risk:

Reputation risk is defined as the risk of negative opinion about the financial stability, service levels, integrity, transparency or any other aspect, as perceived by the stakeholders, resulting in a decline in business volumes and eventually impacting continuity of business. The Company has a framework in place for managing reputation risk and periodically monitors various parameters that could impact the reputation of the Company.

9. OPERATIONS ABROAD

The Company has one representative office in Dubai, United Arab Emirates. This representative office does not contract liability overseas and all the policies are underwritten and issued in India.

10. CLAIMS

The average time taken by the Company from the date of submission of the final requirement by the claimant to dispatch of claim payment, in respect of mortality and morbidity claims, was as follows:

Period	Average time taken for claim settlement (in days)
FY2023	4
FY2022	5
FY2021	5

11. VALUATION OF INVESTMENTS

11.1. Shareholders and Other than unit linked policyholders' funds

We hereby certify that as prescribed under the IRDAI (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations 2002 and orders/ directions issued by IRDAI thereafter, all securities for shareholders and other than unit linked funds are valued as mentioned below:

Debt securities (including government securities and redeemable preference shares): All debt securities including government securities and redeemable preference shares are considered as 'held to maturity' and stated at historical cost, subject to amortisation of premium or accretion of discount over the remaining period to maturity effective interest rate method.

Money market instruments: Money market instruments like commercial paper, certificate of deposits and treasury bills are valued at historical cost, subject to accretion of discount over the remaining period to maturity based on effective interest rate method.

Equity shares, equity ETFs and Mutual funds: Listed equity shares and equity exchange traded funds (ETF) at the Balance Sheet date are stated at fair value being the last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case the securities are not

listed on NSE, the last quoted closing price on BSE Limited ('BSE') is used). Unlisted equity shares are stated at acquisition cost less impairment, if any. Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Non-traded and thinly traded equity share are valued at last available price on NSE/BSE or the value derived using valuation principle of net worth per share, whichever is lower. Mutual fund units are valued based on the previous days' net asset values. Unrealised gains/losses arising due to changes in the fair value of listed equity shares, and mutual fund units are taken to the "Fair Value Change Account" in the Balance Sheet.

Real estate – investment property: Investment property is held to earn rental income or for capital appreciation and is not occupied by the Company. Investment property is initially valued at cost including any directly attributable transaction costs. Investment property is revalued at least once in every three years. The change in carrying amount of investment property is taken to "Revaluation reserve" in the Balance Sheet.

Venture funds: Investments in venture fund units are valued at historical cost.

Reverse repo and tri-party repo: Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Fixed deposits: Fixed deposits with banks are valued at cost.

The Company assesses at each Balance Sheet date whether there is any evidence of impairment of any investments. In case of impairment, the carrying value of such investment is reduced to its fair value and the impairment loss is recognised in the Revenue/Profit and Loss account after adjusting it with previously recognised revaluation reserve/fair value change account. However, at the Balance Sheet date if there is any indication that a previously recognised impairment loss no longer exists, then such loss is reversed and the investment is restated to that extent.

The Forward Rate Agreement (FRA) contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of the contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till FRA contract settlement date, discounted by the INR-Overnight Index Swap (OIS) rate curve.

11.2. Unit Linked funds

We certify that the investments in linked business are valued on mark-to-market basis.

Debt securities (including Government securities): Central and State government securities are valued as per the valuation price provided by Credit Rating Information Services of India Limited ('CRISIL').

Debt securities other than government securities with a residual maturity over 182 days are valued on a yield to maturity basis, by using spreads over the benchmark rate (based on the matrix released by CRISIL on a daily basis) to arrive at the yield for pricing the security.

Debt securities with a residual maturity upto 182 days are valued at last valuation price plus the difference between the redemption value and last valuation price, based on effective interest rate method over the remaining period to maturity of instrument (based on the matrix released by the CRISIL on daily basis).

Securities with call option are valued at the lower of the value as obtained by valuing the security upto final maturity date or the call option date. In case there are multiple call options, the security is valued at the lowest

value obtained by valuing the security at various call dates or upto the final maturity date (based on the matrix released by the CRISIL).

Securities with put option are valued at the higher of the value as obtained by valuing the security upto final maturity date or the put option date. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security at various put dates or upto the final maturity date (based on the matrix released by CRISIL).

The Securities with both put and call option on the same day would be deemed to mature on the put/call date and would be valued on a yield to maturity basis, by using spreads over the benchmark rate based on the matrix released by CRISIL. Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Money market instruments: Money market instruments like commercial paper, certificate of deposits and treasury bills are valued at historical cost, subject to accretion of discount over the period of maturity/holding based on effective interest rate method.

Equity shares, redeemable preference shares, equity ETFs and mutual funds: Listed equity shares, redeemable preference shares and equity ETF are valued at market value, being the last quoted closing price on NSE (in case of securities not listed on NSE, the last quoted closing price on BSE is used). Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities. Non-traded and thinly traded equity share are valued at last available price on NSE/BSE or the value derived using valuation principle of net worth per share, whichever is lower.

Mutual fund units are valued based on previous day's net asset value.

Venture fund: Venture fund units are valued at the latest audited net asset value of the respective fund.

Fixed deposits: Fixed deposits with banks are valued at cost.

Unrealised gains and losses are recognized in the revenue account as prescribed by IRDAI (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations 2002.

Independent Auditor’s Report

To the Members of
ICICI Prudential Life Insurance Company Limited

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

OPINION

We have audited the accompanying standalone financial statements of ICICI Prudential Life Insurance Company Limited (the “Company”), which comprise the Balance Sheet as at 31 March 2023, the Revenue Account (also called the “Policyholders’ Account” or the “Technical Account”), the Profit and Loss Account (also called the “Shareholders’ Account” or the “Non-Technical Account”) and the Receipts and Payments Account for the year then ended, and notes to standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required in accordance with the Insurance Act, 1938 (the “Insurance Act”), as amended from time to time, including amendment brought by Insurance Laws (Amendment), Act 2015 the Insurance Regulatory and Development Authority Act, 1999 (the “IRDA Act”), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors’ Report of Insurance Companies) Regulations, 2002 (the “IRDA Financial Statements Regulations”), orders/ directions/ circulars issued by the Insurance Regulatory and Development Authority of India (the “IRDAI”) and the Companies Act, 2013 (the “Act”), to the extent applicable, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in

India, of the state of affairs of the Company as at 31 March 2023, its net surplus, its profit and its receipts and payments for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (“SAs”) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Companies (Audit and Auditors) Rules, 2014 (“Rules”) thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current year. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters below to be the key audit matters to be communicated in our report.

Information Technology (IT) systems	
Key audit matter	How our audit has addressed the key audit matter
<p>The Company is highly dependent on information technology systems and controls to process and record large volume of transactions, such that there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being materially misstated.</p> <p>Further, IT systems are accessible to employees on a remote basis which could result in increasing challenges around data protection.</p>	<p>We have involved our IT specialists in our assessment of the IT systems and controls over financial reporting, which included carrying out the following key audit procedures:</p> <ul style="list-style-type: none"> Understood General IT Controls (GITC) over key financial accounting and reporting systems (referred to as “in-scope systems”) which covered access controls, program/ system changes, program development and computer operations i.e., job processing, data/ system backup and incident management; Tested controls over IT infrastructure covering user access including privilege users and system changes;

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's management and Board of Directors are responsible for the other information. The other information comprises the Management Report but does not include the financial statements and our auditor's report thereon, which we obtained prior to the date of the auditor's report, and the Director's Report, Corporate Governance, Management Discussion and Analysis and Enterprise Risk Management report, which is expected to be made available to us after that date.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Director's Report, Corporate Governance, Management Discussion and Analysis and Enterprise Risk Management report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

MANAGEMENT'S AND BOARD OF DIRECTORS RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, net surplus/deficit, profit/loss and receipts and payments of the Company in accordance with the accounting principles generally accepted in India, including the provisions of the Insurance Act, the IRDA Act, the IRDA Financial Statements Regulations and orders/directions/circulars issued by the IRDAI in this regard and Accounting Standards specified under section 133 of the Act, to the extent applicable. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy

and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current year and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

The actuarial valuation of liabilities for life policies in force and policies in respect of which premium has been discontinued but liability exists as at 31 March 2023 is the responsibility of the Company's Appointed Actuary

(the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at 31 March 2023 has been duly certified by the Appointed Actuary and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with the Authority. Accordingly, we have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists in the standalone financial statements of the Company.

Our opinion is not modified in this respect of this matter.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by IRDA Financial Statements Regulations, we have issued a separate certificate dated 20 April 2023 certifying the matters specified in paragraphs 3 and 4 of Schedule C to the IRDA Financial Statements Regulations.
2. As required by the IRDA Financial Statements Regulations read with Section 143(3) of the Act, we report that:
 - (i) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (ii) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (iii) As the Company's financial accounting system is centralized, no returns for the purpose of our audit are prepared at the branches and other offices of the Company;
 - (iv) The Standalone Balance Sheet, the Standalone Revenue Account, the standalone profit and loss account and the standalone receipts and payment account dealt with by this Report are in agreement with the books of account;
 - (v) The actuarial valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at 31 March 2023 has been duly certified by the Appointed Actuary. The Appointed Actuary has also certified that, in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by IRDAI and the Institute of Actuaries of India in concurrence with the Authority;

- (vi) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards prescribed under Section 133 of the Act, to the extent not inconsistent with the accounting principles prescribed in the IRDA Financial Statements Regulations and orders/ directions/ circulars issued by IRDAI in this regard;
- (vii) In our opinion and to the best of our information and according to the explanations given to us, investments have been valued in accordance with the provisions of the Insurance Act, the IRDA Financial Statements Regulations and orders/ directions/ circulars issued by IRDAI in this regard;
- (viii) In our opinion, the accounting policies selected by the Company are appropriate and are in compliance with the Accounting Standards specified under Section 133 of the Act, to the extent they are not inconsistent with the accounting principles as prescribed in the IRDA Financial Statements Regulations and orders/directions/circulars issued by the IRDAI in this regard;
- (ix) On the basis of written representations received from the directors as on 31 March 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2023 from being appointed as a director in terms of Section 164(2) of the Act;
- (x) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A"; and
- (xi) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- (a) The Company has disclosed the impact of pending litigations as at 31 March 2023 on its financial position in its standalone financial statements – Refer Schedule 16 note 3.2 to the standalone financial statements;
- (b) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Schedule 16 note 3.48 to the standalone financial statements;
- (c) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company;
- (d) (i) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company; or
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries (refer schedule 16 note 3.53(a) to the standalone financial statements).
- (ii) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:
- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party; or
 - provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries (refer schedule 16 note 3.53(b) to the standalone financial statements).
- (iii) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to the notice that has caused them to believe that the representations under sub-clause (d) (i) and (ii) contain any material misstatement.
- (e) The dividend declared or paid during the year by the Company is in compliance with section 123 of the Act.
- (f) As proviso to rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable for the Company only with effect from 1 April 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 is not applicable.

3. With respect to the matter to be included in the Auditor's Report under section 197(16) of the Act, in our opinion and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act read with Section 34A of the Insurance Act, 1938. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act read with Section 34A of the Insurance Act, 1938. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure A

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF ICI PRUDENTIAL LIFE INSURANCE COMPANY LIMITED FOR THE YEAR ENDED 31 MARCH 2023

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE AFORESAID STANDALONE FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013

(Referred to in paragraph 2 (x) under "Report on Other Legal and Regulatory Requirements" section of our report of even date)

In conjunction with our audit of the standalone financial statements of ICI Prudential Life Insurance Company Limited (the "Company") as of and for the year ended 31 March 2023, we have audited the internal financial controls with reference to the standalone financial statements of the Company as of that date.

MANAGEMENT'S AND BOARD OF DIRECTORS RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under Insurance Act, 1938 (the "Insurance Act"), as amended from time to time, including amendment brought by Insurance Laws (Amendment), Act 2015, the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/ directions/circulars issued by the Insurance Regulatory and Development Authority of India (the "IRDAI") and the Companies Act, 2013 (the "Act"), to the extent applicable.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to

standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with

generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to the standalone financial statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

OTHER MATTER

The actuarial valuation of liabilities for life policies in force and policies in respect of which premium has been discontinued but liability exists as at 31 March 2023 has been certified by the Appointed Actuary as per the IRDA Financial Statements Regulations, and has been relied upon by us, as mentioned in paragraphs "Other Matter" of our audit report on the standalone financial statements for the year ended 31 March 2023. Accordingly, our opinion on the internal financial controls with reference to the standalone financial statements does not include reporting on the design and operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation.

Our opinion is not modified in respect of this matter.

Independent Auditor's Certificate

in accordance with Schedule I(B)(11)(d) of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 dated 1 August 2016.

1. This certificate is issued in accordance with terms of our engagement letter dated 28 June 2022 with ICICI Prudential Life Insurance Company Limited (the "Company").
2. As per the requirements of the Schedule I(B)(11)(d) to the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 dated 1 August 2016 (the "Regulations"), we are required to issue a certificate regarding the application of the Net Asset Value ("NAV") for applications received as at 31 March 2023.

MANAGEMENT'S RESPONSIBILITY

3. The Management of the Company is responsible for compliance with the Regulations for application of NAV as at 31 March 2023 which includes preparation and maintenance of all accounting and other relevant supporting records and documents. This responsibility includes the design, implementation and maintenance of internal controls relevant to the application of NAV for applications received as at 31 March 2023.
4. The Management of the Company is responsible for complying with conditions stated in the Regulations.

AUDITOR'S RESPONSIBILITY

5. Pursuant to the requirements of this certificate, our responsibility is to provide reasonable assurance as to whether:
 - (a) The applications received on 31 March 2023 upto 3.00 p.m. have been stamped and processed with NAV of 31 March 2023;
 - (b) The applications received on 31 March 2023 after 3.00 p.m. have been stamped and processed with NAV of 3 April 2023 (first business working day post 31 March 2023); and
 - (c) The Company has declared NAV for 31 March 2023, which is a business day, on a basis consistent with its accounting policy as disclosed in its audited standalone financial statements for the year ended 31 March 2023.
6. We have jointly audited standalone financial statements of the Company as of and financial year ended 31 March 2023 on which we issued an unmodified audit opinion vide our report dated 20 April 2023. Our audits of these standalone financial statements were conducted in accordance with the Standards on Auditing specified under Section

143(10) of the Companies Act, 2013 and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India (the "ICAI"). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free of material misstatement. Our audits were not planned and performed in connection with any transactions to identify matters that may be of potential interest to third parties.

7. In this connection, we have performed the following procedures:
 - a) Obtained the list of applications for New business, Renewal premium, Top up, Surrender, Freelook cancellation, Fund switches, Withdrawal and Partial withdrawal received in respect of Unit linked products on 31 March 2023 (together referred to as "Application Forms") from the Company;
 - b) Selected samples of Application Forms from listing mentioned in paragraph 7(a) above and verified whether:
 - i) The applications received on 31 March 2023 upto 3.00 p.m. have been appropriately stamped and processed with NAV of 31 March 2023;
 - ii) The applications received on 31 March 2023 after 3.00 p.m. have been appropriately stamped and processed with NAV of 3 April 2023 (first business working day post 31 March 2023); and
 - iii) The NAV applied for applications received on 31 March 2023 is traced to the respective NAV declared by the Company.
 - c) We have read the certificate dated 10 April 2023 of the concurrent auditor of the Company, M/s. Chokshi & Chokshi LLP, Chartered Accountants which has been furnished to us certifying compliance with Regulation 5 of Schedule I(B); and
 - d) Obtained representation from the Management that the Company has declared 31 March 2023 as a business day for accepting Application Forms and that it has declared NAV for 31 March 2023.

8. We conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) (the "Guidance Note") issued by the ICAI. The Guidance Note requires that we comply with the independence and other ethical requirements of the Code of Ethics issued by the ICAI.
9. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

OPINION

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of preparation

The accompanying standalone financial statements are prepared and presented under the historical cost convention, unless otherwise stated, and on accrual basis of accounting, in accordance with accounting principles generally accepted in India (Indian GAAP). The company has prepared the standalone financial statements in compliance with the accounting standards notified under section 133 of the Companies Act 2013, and amendments and rules made thereto, to the extent applicable and in accordance with the provisions of the Insurance Act, 1938, as amended from time to time, including amendment brought by Insurance laws (Amendment) Act, 2015, Insurance Regulatory and Development Authority Act, 1999, the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 and various orders/directions/circulars issued by the IRDAI from time to time and the practices prevailing within the insurance industry in India. Accounting policies applied have been consistent with those followed in the previous year.

The management evaluates all recently issued or revised accounting pronouncements on an ongoing basis.

2.2. Use of estimates

The Company's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities, and disclosures relating to contingent liabilities as on the date of the financial statements. The estimates and assumptions used in the accompanying standalone financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

2.3. Revenue recognition

2.3.1. Premium income

Premium for non-linked policies is recognised as income (net of goods and service tax) when due from policyholders. For unit linked business, premium is recognised as income when the associated units are created. Premium on lapsed policies is recognised as income when such policies are reinstated.

Products having regular premium paying plans with limited premium payment term and/or pre-determined policy term are treated as regular business with due classification of premium into first year and renewal. Premium income on products other than aforesaid is classified as single premium.

Top up premiums are considered as single premium.

2.3.2. Reinsurance premium ceded

Reinsurance premium ceded is accounted in accordance with the terms and conditions of the relevant treaties with the reinsurer. Profit commission on reinsurance ceded is netted off against premium ceded on reinsurance.

2.3.3. Reinsurance premium accepted

Reinsurance premium accepted is accounted in accordance with the terms and conditions of the relevant treaties/arrangements with the insurer.

2.3.4. Income from investments

Interest income on investment

Interest income on investments is recognised on accrual basis. Amortisation of premium or accretion of discount on debt securities is recognised over the remaining term of such instruments on the basis of effective interest rate method.

Dividend income

Dividend income, in respect of other than unit linked business, is recognised when the right to receive dividend is established. Dividend income, in respect of unit linked business, is recognised on the 'ex-dividend date'.

Schedules

forming part of standalone financial statements (continued)

Fees received on lending of equity shares under Securities Lending and Borrowing scheme (SLB) is recognised as income over the period of the lending on a straight-line basis.

Lease rentals on investment property

Lease rentals on investment property is recognised on accrual basis and include only the realised rent and does not include any notional rent, as prescribed by IRDAI (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002. Costs related to operating and maintenance of investment property are recognised as expense in the Revenue Account or Profit and Loss Account, when incurred.

Profit or loss on sale/redemption of debt securities

Profit or loss on sale/redemption of debt securities for other than unit linked business is the difference between the sale consideration net of expenses and the weighted average amortised cost as on the date of sale. Profit or loss on sale/redemption of debt securities for unit linked business is the difference between the sale consideration net of expenses and the weighted average book cost as on the date of sale.

Profit or loss on sale/redemption of equity shares, exchange traded fund (ETF) and mutual fund

Profit or loss on sale/redemption of equity shares, equity exchange traded fund (ETF) and mutual fund units is the difference between the sale consideration net of expenses and the weighted average book cost as on the date of sale. In respect of other than unit linked business, the profit or loss also includes the accumulated changes in the fair value previously recognised in Balance Sheet as "Fair Value Change Account".

2.3.5. Income from unit linked policies

Income from unit linked policies, which includes fund management charges, policy administration charges, mortality charges and other charges, if any, are recovered from the unit linked funds in accordance with terms and conditions of policies issued and are recognised when due.

2.3.6. Fees and charges

Fees and charges include policy reinstatement fee and loan processing fee which are recognised on receipt basis.

Interest income on policy loans is also included in fees and charges which is recognised on an accrual basis.

2.4. Acquisition cost

Acquisition costs are costs that vary with and are primarily related to acquisition of insurance contracts. It consists of costs like commission, stamp duty, policy issuance, employee cost and other related costs pertaining to the acquisition of insurance contracts. These costs are expensed in the period in which they are incurred.

2.5. Employee benefits

2.5.1. Short term employee benefits

Employee benefits payable within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, bonuses, short term compensated absences and other non-monetary benefits are recognised in the period in which the employee renders the related service. All short term employee benefits are accounted on undiscounted basis.

2.5.2. Long term employee benefits: Post-employment

The Company has both defined contribution and defined benefit plans.

Defined contribution plan

Superannuation and National Pension Scheme- The Company has a defined contribution scheme for Superannuation and National Pension Scheme for employees who opt for it. The Superannuation scheme is managed by ICICI Prudential Life Insurance Company Limited Superannuation Scheme and the National Pension Scheme is managed and administered by pension fund management companies licensed by the Pension Funds Regulatory and Development Authority ('PFRDA'). The contributions made to both the schemes are on a monthly basis, when due, and charged to Revenue Account and Profit and Loss Account on an undiscounted basis during the period in which the employee renders the related service. The Company does not have any further obligation beyond the contributions made to the funds.

Defined benefit plans

Gratuity and Provident fund are defined benefit obligations.

Gratuity: The gratuity benefit payable to the employees of the Company is as per the provisions of the Payment of Gratuity Act, 1972 or the Company's gratuity plan, whichever is higher. The gratuity liability of the Company is actuarially determined by an independent actuary at each Balance Sheet date using projected unit credit method.

The Company contributes towards net liabilities to ICICI Prudential Life Insurance Company Limited Employees' Group Gratuity Cum Life Insurance Scheme.

The Company recognises the net obligation of the Scheme in Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS) 15 (revised 2005), 'Employee benefits'. The discount rate used for actuarial valuation is based on Government securities yield. Actuarial gains or losses arising from change in actuarial assumptions or experience adjustments (the effects of difference between the previous actuarial assumptions and what has actually occurred) are

Schedules

forming part of standalone financial statements (continued)

recognised in the Revenue account and Profit or Loss account for the period in which they emerge. Estimated rate of return on plan assets is based on the expected average long-term rate of return on investments of the Fund during the estimated term of the obligations.

Provident fund: The Company's defined benefit obligation towards interest rate guarantee on the exempt provident fund is actuarially determined by an independent actuary and measured in accordance with the Guidance Note (GN 29) on Valuation of Interest Rate Guarantees on Exempt Provident Funds under AS 15 (Revised) issued by The Institute of Actuaries of India. The contribution paid or payable is charged to the Revenue Account and Profit or Loss Account during the period in which the employee renders the related service.

2.5.3. Other long term employee benefits

Other long term employee benefits includes accumulated compensated absences that are entitled to be carried forward for future encashment or availment, at the option of the employee subject to the rules framed by the Company and includes long term retention incentive payable to employees on fulfilment of criteria prescribed the Company. The Company's liability towards accumulated compensated absences entitlement outstanding at the close of the year and long-term retention incentive are determined actuarially, by an independent actuary using projected unit credit method and are recognised as a liability at the discounted present value of the obligation as at the Balance Sheet date. The Company assumes net liability for the above in accordance with AS-15 (Revised). Actuarial gains or losses arising from change in actuarial assumptions or experience adjustments (the effects of difference between the previous actuarial assumptions and what has actually occurred) are recognised in the Revenue account and Profit or Loss account in the period in which they emerge.

2.5.4. Employee share based payments

The Employee Stock Option Scheme ('the Scheme') provides that eligible employees are granted options to subscribe to equity shares of the Company which vest in a graded manner. The vested options may be exercised within a specified period.

The Company follows the intrinsic value method to account for its share-based employee compensation plans in accordance with the Guidance Note on Accounting for Share based Payments, issued by the Institute of Chartered Accountants of India (ICAI). Intrinsic value is measured as the excess, if any, of the fair market price of the underlying shares over the exercise price on the grant date and amortised over the vesting period. The fair market price is the latest closing price, immediately prior to the grant date, on the stock exchange on which the shares of the company are listed.

If the shares are listed on more than one stock exchange, then, the stock exchange where there is highest trading volume on the said date is considered.

2.6. Operating leases

Leases where the lessor effectively retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating lease including escalations are recognised as an expense, on a straight line basis, over the lease term in Revenue/ Profit and Loss Account over the non-cancellable lease term.

2.7. Borrowing costs

Borrowing costs are charged to the Profit and Loss Account in the period in which these are incurred.

2.8. Provision for doubtful debts

The Company regularly evaluates the probability of recovery and provides for doubtful deposits, advances and others receivables in accordance with the Company's policy which is in line with the IRDAI regulations.

2.9. Benefits paid

Benefits paid comprise of policy benefits and claim settlement costs, if any.

Death and rider claims are accounted for on receipt of intimation. Survival, maturity and annuity benefits are accounted when due. Withdrawals and surrenders under non linked policies are accounted on the receipt of intimation. Withdrawals and surrenders under unit linked policies are accounted in the respective schemes when the associated units are cancelled. Amount payable on lapsed/discontinued policies are accounted for on expiry of lock-in-period of these policies. Surrenders, withdrawals and lapsation are disclosed at net of charges recoverable. Claim settlement cost, legal & other fees form part of claim cost, wherever applicable.

Reinsurance claims are accounted for in the period in which the claim is intimated.

Repudiated claims and other claims disputed before the judicial authorities are provided for on prudent basis as considered appropriate by the management.

2.10. Policy liability valuation

The actuarial liabilities, for all inforce policies and policies where premiums are discontinued but a liability exists as at the valuation date, are calculated in accordance with the accepted actuarial practice, requirements of Insurance Act, 1938, as amended from time to time, regulations notified by the Insurance Regulatory and Development Authority of India, relevant Guidance Notes and Actuarial Practice Standards of the Institute of Actuaries of India.

The prescribed method of valuation is the Gross Premium Valuation (GPV). The reserve held represents the net

Schedules

forming part of standalone financial statements (continued)

present value of benefits and expenses less premiums. The following is the broad method of the valuation:

- The reserves are calculated on a per policy basis.
- Any negative reserves are zeroised, so that a policy is not treated as an asset.
- The minimum value of reserves is the higher of the guaranteed surrender value, non-guaranteed surrender value and zero.
- For Linked business, unit liabilities are fully matched and a non-unit reserve is also held which includes provisions for any costs of guarantees provided under the products.
- GPV under non-linked participating policies have a reference to the asset share of policies at valuation date.

The liabilities for group one-year renewable policies are calculated on an unexpired risk premium basis. For non-linked group savings products, account value is held as liabilities.

Valuation parameters are set prudently and include a margin for adverse deviation (MAD) as required under APS7 issued by Institute of Actuaries of India.

2.11. Funds for Future Appropriations (FFA)

The Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date.

No Funds for Future Appropriations is held for other funds

2.12. Investments

Investments are made and accounted for in accordance with the Insurance Act, 1938, Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, Investments – Master circular, Investment Policy of the Company and various other circulars/notifications issued by the IRDAI in this context from time to time.

Investments are recorded at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes interest accrued as on the date of purchase.

Broken period interest paid/received is debited/credited to income accrued on investments and deposits.

Bonus entitlements are recognised as investments on the 'ex- bonus date'.

Rights entitlements are recognised as investments on the 'ex-rights date'.

Any front end discount on investments is reduced from the cost of such investments.

2.12.1. Classification

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them off within twelve months from the Balance Sheet date are classified as short-term investments.

Investments other than short-term investments are classified as long-term investments.

2.12.2. Valuation - Other than Unit Linked Funds Debt securities (including Government securities and redeemable preference shares):

All debt securities including government securities and redeemable preference shares are considered as 'held to maturity' and stated at historical cost, subject to amortisation of premium or accretion of discount over the remaining period to maturity on effective interest rate method.

Money Market Instruments:

Money market instruments like commercial paper, certificate of deposits and treasury bills are valued at historical cost, subject to accretion of discount over the remaining period to maturity based on effective interest rate method.

Equity shares, equity ETFs and Mutual funds:

Listed equity shares and equity exchange traded funds (ETF) at the Balance Sheet date are stated at fair value being the last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case the securities are not listed on NSE, the last quoted closing price on BSE Limited ('BSE') is used). Unlisted equity shares are stated at acquisition cost less impairment, if any. Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Non-traded and thinly traded equity share are valued at last available price on NSE/BSE or the value derived using valuation principle of net worth per share, whichever is lower.

Mutual fund units are valued based on the previous days' net asset values.

Unrealised gains/losses arising due to changes in the fair value of listed equity shares and mutual fund units are taken to the "Fair Value Change Account" in the Balance Sheet.

Schedules

forming part of standalone financial statements (continued)

Real estate – investment property:

Investment property is held to earn rental income or for capital appreciation and is not occupied by the Company. Investment property is initially valued at cost including any directly attributable transaction costs. Investment property is revalued at least once in every three years. The change in carrying amount of investment property is taken to “Revaluation reserve” in the Balance Sheet.

Venture funds:

Investments in venture fund units are valued at historical cost.

Reverse repo and tri-party repo:

Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Fixed deposits:

Fixed deposits with banks are valued at cost.

Impairment of Investments:

The Company assesses at each Balance Sheet date whether there is any evidence of impairment of any investments. In case of impairment, the carrying value of such investment is reduced to its fair value and the impairment loss is recognised in the Revenue/Profit and Loss account after adjusting it with previously recognised revaluation reserve/fair value change account. However, at the Balance Sheet date if there is any indication that a previously recognised impairment loss no longer exists, then such loss is reversed and the investment is restated to that extent.

2.12.3. Valuation - Unit Linked Funds

Debt securities (including Government securities):

Central and State government securities are valued as per the valuation price provided by Credit Rating Information Services of India Limited (CRISIL).

Debt securities other than government securities with a residual maturity over 182 days are valued on a yield to maturity basis, by using spreads over the benchmark rate (based on the matrix released by CRISIL on daily basis) to arrive at the yield for pricing the security.

Debt securities with a residual maturity upto 182 days are valued at last valuation price plus the difference between the redemption value and last valuation price, based on effective interest rate method over the remaining period to maturity of instrument. (based on the matrix released by the CRISIL).

Securities with call option are valued at the lower of the value as obtained by valuing the security upto final maturity date or the call option date. In case there are

multiple call options, the security is valued at the lowest value obtained by valuing the security at various call dates or upto the final maturity date (based on the matrix released by the CRISIL)

Securities with put option are valued at the higher of the value as obtained by valuing the security upto final maturity date or the put option date. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security at various put dates or upto the final maturity date (based on the matrix released by CRISIL)

The securities with both put and call option on the same day would be deemed to mature on the put/call date and would be valued on a yield to maturity basis, by using spreads over the benchmark rate based on the matrix released by CRISIL. Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Money market instruments:

Money market instruments like commercial paper, certificate of deposits and treasury bills are valued at historical cost, subject to accretion of discount over the period of maturity/holding based on effective interest rate method.

Equity shares, redeemable preference shares, equity ETFs and Mutual Funds:

Listed equity shares, redeemable preference shares and equity ETF are valued at market value, being the last quoted closing price on NSE (in case of securities not listed on NSE, the last quoted closing price on BSE is used). Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Non-traded and thinly traded equity share are valued at last available price on NSE/BSE or the value derived using valuation principle of net worth per share, whichever is lower.

Mutual fund units are valued based on previous day's Net Asset Value.

Venture funds:

Venture fund units are valued at the latest audited net asset value of the respective fund.

Fixed deposits:

Fixed deposits with banks are valued at cost.

Unrealised gains and losses are recognised in the Revenue account as prescribed by IRDAI (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002.

Schedules

forming part of standalone financial statements (continued)

2.12.4. Transfer of investments

Transfer of investments from Shareholders' account to the Policyholders' account to meet the deficit in the Policyholders' account is made at the cost price or market price, whichever is lower. In case of debt securities including money market instruments, all transfers are made at the lower of the market price and the net amortized cost.

The transfer of investments between unit linked funds is done at the price as specified below.

- a. In case of equity, preference shares, ETFs and Government Securities market price of the latest trade.
- b. In case of securities mentioned in (a) if the trade has not taken place on the day of transfer and for all other securities not part of (a) previous day valuation price.

Transfer of investments are not carried out between non-linked policyholders' funds except for a transfer of investment property from participating pension fund to participating life fund on 10th August, 2022. This transfer was made to comply with IRDAI (Investment) regulations, 2016 and align with the liquidity requirements of the fund.

2.12.5. Provision for Non-Performing Assets (NPA)

An asset is classified as a NPA if the interest and/ or installment of principal remain overdue for more than 90 days at Balance Sheet date. Provision is made in the Revenue Account and Profit and Loss Account based on the guidelines prescribed by IRDAI investment regulations.

2.13. Interest rate derivatives

Interest rate derivative contracts are used for hedging of highly probable forecasted transactions on insurance contracts and investment cash flows in life, pension and annuity business. The Company follows hedge accounting in accordance with the 'Guidance Note on Accounting for Derivative Contracts' issued by the Institute of Chartered Accountants of India (ICAI) and IRDAI Investment Master Circular as amended from time to time.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective and strategy for undertaking the hedge, nature of risk being hedged, identification of the instrument and the hedged item and the methods used to assess the hedge effectiveness. Hedge effectiveness is the extent to which changes in the fair value or the cash flows of the hedging instrument offset changes in the fair value or the cash flows of the hedged item. Hedge effectiveness is ascertained at the time of inception of the hedge and on each reporting date.

The Forward Rate Agreement (FRA) contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of the contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till FRA contract settlement date, discounted by the INR-Overnight Index Swap (OIS) rate curve.

The Company follows cash flow hedge accounting for interest rate derivatives. The portion of the fair value gain/loss on the interest rate derivative that is determined to be an effective hedge is recognised directly in 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet under policyholders' funds and the portion that gets determined as ineffective hedge or ineffective portion of effective hedge, based on the hedge effectiveness assessment is recognized in the Revenue Account under head "Transfer/Gain on revaluation/Change in fair value".

The accumulated gains or losses that were recognised directly in the 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet are reclassified into the Revenue Account, in the same period or periods during which income on the investments acquired from underlying forecasted cash flow is recognized in the Revenue Account. In the event that all or any portion of gain or loss, recognised directly in the 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Revenue Account.

2.14. Loans

Loans are stated at historical cost less repayments, subject to provision for impairment, if any.

Loans are classified as short term in case the maturity is less than twelve months. Loans other than short term are classified as long term.

2.15. Fixed assets and Impairment

2.15.1. Tangible assets and depreciation

Tangible assets are stated at acquisition cost less accumulated depreciation and impairment loss, if any. Cost includes the purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities) and any cost directly attributable to bring the asset to its working condition for its intended use and other incidental expenses incurred upto that date. Subsequent expenditure incurred on tangible assets is expensed out except where such expenditure results in an increase in future benefits from the existing assets beyond its previously assessed standard of performance.

Schedules

forming part of standalone financial statements (continued)

The useful life of various category of assets is as below:

Asset	Useful life (years)
Office buildings on freehold land	60
Improvement to leasehold properties	60 years or lease period whichever is lower
Furniture and fixtures	5 to 10
Office equipment	5 to 10
Information technology equipment	3
Communication networks and servers	6
Motor vehicles	5

Schedule II of the Companies Act 2013 specifies the useful life of eight years for motor vehicle. As per Company policy, the motor vehicle is transferred to employee on completion of five years or at written down value (WDV) in case of separation of employee before five years. Accordingly, the Company has depreciated the motor vehicle over five years. Assets costing upto ₹ 5,000 are considered to be immaterial in value and hence fully depreciated in the month of acquisition.

Depreciation is provided using straight-line method ('SLM') prorated from the date of being ready to use, upto the date of sale, based on estimated useful life for each class of asset.

2.15.2. Intangibles

Intangible assets comprising software are stated at cost less amortisation. Significant expenditure on improvements to software are capitalised when it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably. Subsequent capital expenditures are amortised over the remaining useful life of original software. Software expenses are amortised using SLM over a period of 4 years from the date of being ready to use.

2.15.3. Capital work in progress

Assets not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses.

2.15.4. Impairment of assets

Management periodically assesses, using external and internal sources, whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset unit is made. Impairment occurs where the carrying value of the asset exceeds the recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from

the continuing use of the asset and its ultimate disposal. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of depreciable historical cost.

2.16. Taxation

2.16.1. Direct taxes

Income tax expense comprises of current tax (i.e. amount of tax for the year determined in accordance with the Income Tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

Current tax is the amount expected to be paid to the tax authorities after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961.

The Company calculates tax for the participating lines of business in order to ensure that the expenses pertaining to and identifiable with a particular line of business are represented as such to enable a more appropriate presentation of the financial statements. Accordingly, tax charge/credit on surplus/deficit arising from the participating line of business is disclosed separately in the Revenue account.

The deferred tax asset and liabilities are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised and carried forward only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. However, deferred tax asset in respect of unabsorbed depreciation or carried forward loss are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonable / virtually certain (as the case may be) to be realised.

2.16.2. Indirect taxes

Goods and Services tax liability on life insurance service is set-off against the respective input tax credits available from tax paid on input services for each state. Un-utilised credits, if any, are carried forward under "Advances and other assets" for future set-off, where there is reasonable certainty of utilisation.

2.17. Provisions and contingencies

Provision is recognised when the company has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are determined on the basis of best estimate of the outflow of economic resources required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

A disclosure of a contingent liability is made when there is a possible obligation or present obligations that may, but probably will not, require an outflow of resources or it cannot be reliably estimated. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognised nor disclosed.

2.18. Segmental reporting

Identification of segments

Based on the primary segments identified under IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002 ('the Regulations') read with AS 17 on "Segmental Reporting" notified under section 133 of the Companies Act 2013 and rules thereunder, the Company has classified and disclosed segmental information separately for Shareholders' and Policyholders'. Within Policyholders', the businesses are further segmented into Participating (Life and Pension), Non-Participating (Life and Pension), Non-Participating variable (Life and Pension), Annuity, Health and Linked (Life, Pension, Health and Group).

There are no reportable geographical segments, since all business is written in India.

Allocation/ Apportionment methodology

The allocation and apportionment of revenue, expenses, assets and liabilities to specific segments is done in the following manner, which is applied on a consistent basis.

- Revenue, expenses, assets and liabilities that are directly identifiable to the respective segments, are allocated on actual basis;
- Other revenue, expenses (including depreciation and amortisation), assets and liabilities that are not directly identifiable to a respective segment are apportioned based on one or combination of some of the relevant drivers which includes:
 - Number of policies
 - Weighted annualised first year premium income
 - Annualised premium since inception
 - Sum assured
 - Total premium income
 - Medical cases
 - Funds under management

- Commission
- Total operating expenses (for assets and liabilities)
- Use of asset (for depreciation expense)

The accounting policies used in segmental reporting are the same as those used in the preparation of financial statements.

2.19. Foreign exchange transactions

Initial recognition: Foreign currency transactions are recorded in Indian Rupees, by applying to the foreign currency amount the exchange rate between the Indian Rupee and the foreign currency at the date of the transaction.

Conversion: Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences: Exchange differences arising on such conversions are recognised as income or as expenses in the period in which they arise either in the Revenue Account or the Profit and Loss Account, as the case may be.

2.20. Earnings per share

Basic earnings per share are calculated by dividing the profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the profit or loss after tax for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value. Dilutive potential equity shares are determined independently for each period presented.

2.21. Cash and Cash Equivalents

Cash and cash equivalents for the purpose of Receipts and Payments account include cash and cheques in hand, bank balances, liquid mutual funds and other investments with original maturity of three months or less which are subject to insignificant risk of changes in value. Receipts and Payments Account is prepared and reported using the Direct Method in accordance with Accounting Standard (AS) 3, "Cash Flow Statements" as per requirements of Master Circular of IRDAI (Preparation of Financial Statements and Auditors' Report of Insurance Companies) regulations, 2002.

2.22. Unclaimed amount of policyholders

Pursuant to IRDAI circular no. IRDA/F&A/CIR/CLD/114/05/2015 dated May 28, 2015, IRDA/F&A/CIR/CPM/134/07/2015 dated July 24, 2015 on "Handling of unclaimed amounts pertaining to policyholders" ("the Regulations") and IRDA/F&A/CIR/Misc/282/11/2020 dated November 17, 2020, the Company has created a single segregated fund to manage all unclaimed monies.

Unclaimed amount of policyholders' liability is determined on the basis of NAV of the units outstanding as at the valuation date.

Assets held for unclaimed amount of policyholders and unclaimed amount of policyholders' liability are considered as current assets and current liabilities, respectively and are disclosed in Schedule 12 "Advances and Other Assets" and Schedule 13 "Current Liabilities".

Income on unclaimed amount of policyholders is accreted to the unclaimed fund and is accounted for on an accrual basis, net of fund management charges, and is disclosed under the head "Interest on unclaimed amounts" in Schedule 4 "Benefits paid" in Revenue account.

The unclaimed of policyholders which are more than 120 months as on 30 September every year, are transferred to the Senior Citizens' Welfare Fund (SCWF) on or before 01 March of that financial year.

3.3. Actuarial method and assumptions

The actuarial liability in respect of both participating and non-participating policies is calculated using the gross premium method, using assumptions for interest, mortality, morbidity, expense and inflation and, in the case of participating policies, future bonuses together with allowance for taxation and allocation of profits to shareholders. These assumptions are determined as prudent estimates at the date of valuation including allowances for possible adverse deviations.

The liability for the unexpired portion of the risk for the non-unit liabilities of linked business and attached riders is the higher of the liability calculated using discounted cash flows and the unearned premium reserve.

An unexpired risk reserve and a reserve in respect of claims incurred but not reported is held for contracts wherein there is a possibility of lag in intimation of claims.

The unit liability in respect of linked business is the value of the units standing to the credit of policyholders, using the Net Asset Value ("NAV") prevailing at the valuation date.

A brief of the assumptions used in actuarial valuation is as below:

- The interest rates used for valuing the liabilities are in the range of 4.99% to 6.58% per annum. The interest rates used at March 31, 2022 were in the range of 3.67% to 6.30% per annum.
- Mortality rates used are based on the published "Indian Assured Lives Mortality (2012 – 2014) Ult." mortality table for assurances and "Indian Individual Annuitant's Mortality Table (2012-15)" table for annuities adjusted to reflect expected experience. Morbidity rates used are based on CIBT 93 table, adjusted for expected experience, or on risk rates provided by reinsurers.
- Expenses are provided for at least at the current levels in respect of renewal expenses, with no allowance for any future improvement.
- Per policy renewal expenses are assumed to inflate at 4.90% per annum. The expense inflation assumption used at March 31, 2022 was 4.59%.
- The bonus rates for participating business to be declared in the future is consistent with the valuation assumptions.
- The tax rate applicable for valuation at March 31, 2023 is 14.56% per annum. The tax rate applicable for valuation at March 31, 2022 was 14.56% per annum.

Certain explicit additional provisions are made, which include the following:

- Reserves for additional expenses that the Company may have to incur if it were to close to new business twelve months after the valuation date.
- Reserves for guarantees available to individual and group insurance policies.
- Reserves for cost of non-negative claw back additions.
- Reserves for free look option given to policyholders calculated using a free look cancellation rate of 2.30% as on March 31, 2023. The free look cancellation assumption used at March 31, 2022 was 2.20%.
- Reserves for lapsed policies eligible for revivals.
- An additional reserve is held for incurred but not reported claims.

3.4. Funds for Future Appropriations ('FFA')

The balance of participating FFA of ₹ 16,692,745 thousand (March 31, 2022: ₹ 13,833,234 thousand) is not available for distribution to the shareholders. Such amount is classified under Funds for Future appropriations in the Balance Sheet.

3.5. Claims settled and remaining unpaid

Claims settled and remaining unpaid for a period of more than six months at March 31, 2023 is ₹ 73,399 thousand (March 31, 2022: ₹ 34,292 thousand). These claims remain unpaid awaiting receipt of duly executed discharge documents from the claimants or litigation pending.

3.6. Reconciliation of unclaimed amounts of policyholders

Pursuant to IRDAI circular No. IRDA/F&A/CIR/CLD/114/05/2015 dated May 28, 2015 and IRDA/F&A/CIR/CPM/134/07/2015 dated July 24, 2015 on "Handling of unclaimed amounts pertaining to policyholders", the Company has created a single segregated fund to manage all the unclaimed monies. The amount in such unclaimed fund has been invested in money market instruments and /or fixed deposit of scheduled banks.

The amount in the unclaimed fund has been disclosed in schedule 12 as "Assets held for unclaimed amount of policyholders". Investment income accruing to the unclaimed fund has been credited to the fund and disclosed as 'Other Income under Linked Life segment in the Revenue Account. Such investment income net of fund management charges ('FMC') is paid/ accrued as "interest on unclaimed amounts" in schedule 4 of the financial statements as "Benefits paid".

(b) Defined benefit plans

(i) Gratuity

General description of defined benefit plan

This is a funded defined benefit plan for qualifying employees under which the Company makes a contribution to the ICICI Prudential Life Insurance Company Limited Employees' Group Gratuity Cum Life Assurance Scheme. The plan provides for a lump sum payment as determined in the manner specified under The Payment of Gratuity Act, 1972 or the Company's gratuity scheme, whichever is higher, to the vested employees. The benefit vests after a minimum prescribed period of continuous service at retirement or on death while in employment or on termination of employment. Defined benefit obligations are actuarially determined at each quarterly Balance Sheet date using the projected unit credit method as required under Accounting Standard (AS) 15 (Revised), "Employee benefits". Actuarial gains or losses are recognised in the Revenue Account.

(ii) Provident fund

Provident fund benefits are aimed at providing security to staff members and their dependents on retirement, disability or death. Both employee and the company contribute an equal percentage of the basic salary, a part of which is towards Government administered pension fund and balance portion is contributed to the fund administered by trustees. The provident fund is managed by ICICI Prudential Life Insurance Company Employees' Provident Fund Trust.

The minimum rate at which the annual interest is payable by the trust to members is prescribed by the Government. The Company has an obligation to make good the shortfall, if any, between the Government prescribed rate and actual return earned by the provident fund.

3.19. Employee Stock Option Scheme ("ESOS")

The Company granted options to its employees under its Employees Stock Option Scheme, prior to listing, since approval of its Employees Stock Option Scheme – 2005. This pre-IPO Scheme shall be referred to as 'ESOS 2005' or 'Scheme'. The Scheme had six tranches namely Founder, 2004-05, 2005-06, 2006-07, Founder II and 2007-08, pursuant to which shares had been allotted and listed in accordance with the in-principle approval extended by the stock exchanges. All six tranches under the pre-IPO Scheme stand lapsed as on March 31, 2023. The Scheme had been instituted vide approval of its Members at the Extra-Ordinary General Meeting (EGM) dated March 28, 2005 and had been subsequently amended by the Members of the Company vide its EGM dated February 24, 2015.

The Scheme was ratified and amended by the members of the Company at its Annual General Meeting held on July 17, 2017 which is in compliance with the SEBI (Share Based Employee Benefits) Regulations, 2014 (referred to as the 'Revised Scheme').

The meeting of Board Nomination and Remuneration Committee (BNRC) and the Board held on April 24, 2019 had approved the amendment to the definition of "Exercise Period". The revision to the definition was approved by the members of the Company at its Annual General Meeting held on July 17, 2019.

Schedules

The disclosures for year ended March 31, 2023, are given below:

Remuneration to MD/CEO/WTD:

Qualitative disclosures:

A) Information relating to the bodies that oversee remuneration.

Name, composition and mandate of the main body overseeing remuneration:

The Board Nomination and Remuneration Committee (BNRC/Committee) is the body which oversees aspects pertaining to remuneration. The functions of the Committee include identifying persons who are qualified to become Directors and who may be appointed in senior management in accordance with the criteria laid down and recommending to the Board their appointment & removal and formulating a criteria and specifying the manner for effective evaluation of every individual director's performance, evaluation of the performance of the Board and its Committees, and reviewing its implementation and compliance; considering to extend or continue the term of appointment of the Independent Directors, on the basis of the report of performance evaluation of Independent Directors; recommending to the Board a policy relating to the remuneration for the Directors, key management persons and other employees; recommending to the Board all remuneration, in whatever form, payable to senior management; ensuring that the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the Company successfully; ensuring that the relationship of remuneration to performance is clear and meets appropriate performance benchmarks; approving the compensation program and ensuring that remuneration to Directors, key management persons and senior management involves a balance between fixed and incentive pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals; formulating the criteria for determining qualifications, positive attributes and independence of a Director; devising a policy on diversity of the Board; considering and approving employee stock option schemes and administering & supervising the same; ensuring that the proposed appointments/re-appointments of key management persons or Directors are in conformity with the Board approved policy on retirement/superannuation; scrutinising the declarations of intending applicants before the appointment/re-appointment/election of Directors by the shareholders

at the annual general meeting; and scrutinising the applications and details submitted by the aspirants for appointment as the key management person.

External consultants whose advice has been sought, the body by which they were commissioned and in what areas of the remuneration process:

The Company employed the services of reputed consulting firms for market benchmarking in the area of compensation.

Scope of the Company's remuneration policy (e.g. by regions, business lines), including the extent to which it is applicable to foreign subsidiaries and branches:

The Company's Policy on Compensation & Benefits ("Compensation Policy") for Managing Director & CEO, Other wholetime Directors, non-executive Directors, Key Management Person (KMP), Senior Management Personnel (SMP) and other employees was last amended and approved by the BNRC and the Board at its Meeting held on April 16, 2022.

Type of employees covered and number of such employees:

All employees of the Company are governed by the Compensation Policy. The total number of permanent employees governed by the Compensation Policy of the Company at March 31, 2023 was 17,825.

B) Information relating to the design and structure of remuneration process.

Key features and objectives of remuneration policy:

The Company has historically followed prudent compensation practices under the guidance of the Board and the BNRC. The Company's approach to compensation is based on the ethos of meritocracy and fairness within the framework of prudent risk management. This approach has been incorporated in the Compensation Policy, the key elements of which are given below:

Effective governance of compensation:

The Company follows prudent compensation practices under the guidance of the BNRC and the Board. The decision relating to the remuneration of the Managing Director and CEO (MD & CEO) and other wholetime Directors is reviewed and approved by the BNRC and the Board. The BNRC and the Board approves the Key Performance Indicators (KPIs) and the performance threshold for payment of performance bonus, if applicable. The BNRC assesses business performance against the KPIs and on various risk parameters as prescribed by IRDAI. Based on its assessment, it makes recommendations to the Board regarding compensation for MD & CEO and other wholetime Directors, performance bonus and long-term pay for all eligible employees, including senior management and key management persons.

Schedules

forming part of standalone financial statements (continued)

Alignment of compensation philosophy with prudent risk taking:

The Company seeks to achieve a prudent mix of fixed and variable pay, with a higher proportion of variable pay at senior levels. For the MD & CEO and other wholetime Directors, compensation is sought to be aligned to both pre-defined performance objectives of the Company as well as prudent risk parameters. In addition, the Company has an Employees Stock Option Scheme aimed at enabling employees to participate in the long-term growth and financial success of the Company through stock option grants that vest over a period of time.

Whether the Remuneration Committee reviewed the firm's remuneration policy during the past year, and if so, an overview of any changes that were made:

The BNRC reviewed the Company's Compensation policy at its meeting held on April 16, 2022. The key changes in the policy are:

- The clause on variable pay for the Managing Director & CEO and Other wholetime Directors (in Part B of the Compensation Policy) has been modified to defer a minimum 50% of the bonus amount for Managing Director & CEO and other wholetime Directors. If the bonus is under ₹ 25 lakhs, the deferment shall not be applicable. The deferral period would be spread over a minimum period of three years (deferment period). The frequency of vesting will be on annual basis and the first vesting shall not be before one year from the commencement of deferral period. The vesting shall be no faster than a prorata basis. Additionally, vesting will not be more frequent than on a yearly basis.

Description of the ways in which current and future risks are taken into account in the remuneration processes.

- The Company follows prudent compensation practices under the guidance of the Board and the Board Nominations & Remuneration Committee (BNRC). The Company's approach to compensation is based on the ethos of meritocracy and fairness within the framework of prudent risk management. The performance rating assigned to employees is based on an assessment of performance delivered against a set of defined performance objectives. These objectives are balanced in nature and comprise a holistic mix of financial, customer, people, process, quality, compliance objectives and/or any other parameters as may be deemed fit.
- For the MD & CEO and other wholetime Directors, compensation is sought to be aligned to both pre-defined performance objectives of the Company as well as prudent risk parameters.

- For the MD & CEO and other wholetime Directors, the quantum of bonus does not exceed a certain percentage (as stipulated in the Compensation Policy) of total fixed pay in a year; a minimum of 50% (as stipulated in the Compensation Policy) will be under deferment. If the bonus amount is under ₹ 25 lakhs, the deferment shall not be applicable. The deferral period would be spread over a minimum period of three years (deferment period). The frequency of vesting will be on annual basis and the first vesting shall not be before one year from the commencement of deferral period. The vesting shall be no faster than a prorata basis. Additionally, vesting will not be more frequent than on a yearly basis.
- The deferred part of the variable pay (performance bonus) for wholetime Directors is subject to malus, under which, the Company will prevent vesting of all or part of the variable pay in the event of an enquiry determining gross negligence or integrity breach.
- In clawback arrangements with wholetime Directors, the employee agrees to return, in case asked for, the previously paid variable pay to the Company in the event of an enquiry determining gross negligence or integrity breach, taking into account relevant regulatory stipulations.
- For malus and clawback, acts of gross negligence and integrity breach are covered under the purview of the compensation policy. Errors of judgment shall not be construed to be breaches.

Description of the ways in which the Company seeks to link performance during a performance measurement period with levels of remuneration.

The Company's approach to compensation is based on the ethos of meritocracy and fairness within the framework of prudent risk management. The extent of variable pay for individual employees is linked to individual performance for sales frontline employees and to individual & organisation performance for non-sales frontline employees & employees in the management cadre. For the latter, the performance rating assigned is based on assessment of performance delivered against a set of defined performance objectives. These objectives are balanced in nature, and comprise a holistic mix of financial, customer, people, process, quality and compliance objectives and/or any other parameters as may be deemed fit. For the MD & CEO and other wholetime Directors, to ensure effective alignment of compensation with prudent risk parameters, the Company takes into account various risk parameters along with other pre-defined performance objectives of the Company.

E) Disclosures on risk exposure in Interest rate derivatives:

i. Interest rate derivative hedging instruments: Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. Interest rate derivatives include forward rate agreements, interest rate swaps and interest rate futures. The Company during the financial year has entered into forward rate agreement (FRA) derivative instrument to hedge exposure due to interest rate sensitivity for highly probable forecasted transactions. These hedges were entered only for hedging purpose to hedge the interest rate risk. This hedge is carried in accordance with its established policies, strategy, objective and applicable regulations.

ii. Derivative policy, process and hedge effectiveness assessment: The Company has a well-defined Board approved derivative policy and standard operating procedures setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives. The policy includes the risk measurement and monitoring, processes to be followed and controls thereon. The accounting treatment has been documented and ensures a process of periodic effectiveness assessment and accounting in accordance with applicable accounting standard issued by the Institute of Chartered Accountants of India (ICAI).

The Company has clearly defined roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest rate derivative exposures. The overall policy, risk management framework for the Interest rate derivatives are monitored by the Board Risk Management Committee.

iii. Scope and nature of risk identification, risk measurement, and risk monitoring: The derivative policy as approved by the Board identify risk associated with interest rate derivatives transactions and sets appropriate market risk limits such as stress testing and value-at-risk limits. Financial risks of the derivative portfolio are measured and monitored on periodic basis.

3.52. Ind AS Implementation

Pursuant to IRDAI letter 100/2/Ind AS- Mission Mode/2022-23/1 dated July 14, 2022, a disclosure on the strategy for Ind AS implementation and progress in this regard is given below:

In January 2020, IRDAI issued a circular stating that the effective implementation date of Ind AS in the Indian insurance sector would be decided after the finalisation of IFRS 17 by International Accounting Standards Board (IASB). In June 2020, IASB notified the amended IFRS 17 with an effective date on or after January 1, 2023. ICAI issued an exposure draft of amendments in Ind AS 117 Insurance contracts in February 2022 which corresponds to amendments in IFRS 17. The amended Ind AS 117 is currently under the process of notification.

Schedules

forming part of standalone financial statements (continued)

During FY2023, IRDAI issued various directives on IFRS/Ind AS implementation and constituted an expert committee with members from ICAI, Institute of Actuaries of India (IAI), and the insurance industry to address implementation issues. The final date of Ind AS implementation for the insurance sector is yet to be announced by IRDAI.

The Company has implemented IFRS 17 as part of consolidation for its foreign promotor and has prepared the opening Balance Sheet at January 1, 2022 as well as the financial statements for half year ended June 30, 2022. The Company expects to leverage this experience to comply with any additional requirements that may be stipulated in the final notification of Ind AS 117 and Ind AS 109.

Independent Auditor's Report

**To the Members of
ICICI Prudential Life Insurance Company Limited**

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

OPINION

We have audited the consolidated financial statements of ICICI Prudential Life Insurance Company Limited (hereinafter referred to as the "Holding Company") and its subsidiary "ICICI Prudential Pension Funds Management Company Limited" (Holding Company and its subsidiary together referred to as the "Group"), which comprise the Consolidated Balance Sheet as at 31 March 2023, the Consolidated Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Consolidated Profit and Loss Account (also called the "Shareholders' Account" or the "Non-Technical Account") and Consolidated Receipts and Payments Account for the year then ended and notes to consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of the other auditor on separate financial statements of such subsidiary as were audited by the other auditor, the aforesaid consolidated financial statements give the information required by the Insurance Act, 1938 (the "Insurance Act"), as amended from time to time, including amendment brought by Insurance Laws (Amendment), Act 2015 the

Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/ directions/ circulars issued by the Insurance Regulatory and Development Authority of India (the "IRDAI") and the Companies Act, 2013 (the "Act"), to the extent applicable, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2023, its consolidated net surplus, its consolidated profit and its consolidated receipts and payments for the year then ended.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of audit report of the other auditor referred to in sub-paragraph (b) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters below to be the key audit matters to be communicated in our report.

Information Technology (IT) systems	
Key audit matter	How our audit has addressed the key audit matter
<p>The Holding Company is highly dependent on information technology systems and controls to process and record large volume of transactions, such that there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being materially misstated.</p> <p>Further, IT systems are accessible to employees on a remote basis which could result in increasing challenges around data protection.</p>	<p>We have involved our IT specialists in our assessment of the IT systems and controls over financial reporting, which included carrying out the following key audit procedures:</p> <ul style="list-style-type: none"> Understood General IT Controls (GITC) over key financial accounting and reporting systems (referred to as "in-scope systems") which covered access controls, program/ system changes, program development and computer operations i.e., job processing, data/ system backup and incident management; Tested controls over IT infrastructure covering user access including privilege users and system changes;

| <p>Due to the pervasive nature, complexity and importance of the impact of the IT systems and related control environment on the Holding Company's financial statements, we have identified testing of such IT systems and related control environment as a key audit matter for the current year audit.</p> | <ul style="list-style-type: none"> • Evaluated design and operating effectiveness for in- scope systems and application controls which covered segregation of duties, system interfaces, completeness and accuracy of data feeds and system reconciliation controls; • Evaluated policies and strategies adopted by the Holding Company in relation to operational security of key information infrastructure, data and client information management and monitoring and crisis management; and • Assessed whether controls have remained unchanged during the year or were changed after considering controls around change management process. |

| <p>The Holding Company's investment portfolio consists of Policyholders investments (unit linked and non-linked) and Shareholders investments. The Holding Company's investment portfolio represents 99 percent of the Group's total assets as at 31 March 2023.</p> <p>Investments are valued in accordance with provisions of the Insurance Act, the IRDA Financial Statements Regulations, orders/ directions/ circulars issued by IRDAI and/ or policies approved by the Board of Directors of the Company (collectively the "accounting policy").</p> <p>Investments in unit linked portfolio of INR 1,440,580,565 thousands are valued based on observable inputs as per their accounting policy and gains/losses are recognized in Revenue account. These unit linked portfolio investments do not represent higher risk of material misstatement, however, are considered to be a key audit matter due to their materiality to the consolidated financial statements.</p> <p>Investments in non-linked and shareholders portfolio of INR 1,041,577,196 thousands are valued as per their accounting policy, based on which:</p> <ul style="list-style-type: none"> • the unrealized gains/ losses arising due to changes in fair value of listed equity shares and mutual fund units are recorded in the "Fair Value Change Account" in the Balance Sheet; and • debt securities and unlisted equity shares are valued at historical cost. <p>Further, investments in the non-linked and shareholders portfolio are assessed for impairment as per the Holding Company's investment policy which involves significant management judgement. There may be increased economic stress on account of external factors, which may impact the valuation of these investments.</p> <p>Accordingly, valuation of investments (including impairment assessment) was considered to be one of the areas which required significant auditor attention and was one of the matter of most significance in the consolidated financial statements.</p> | <p>We have carried out the following key audit procedures:</p> <ul style="list-style-type: none"> • Understood the Holding Company's process and tested the controls on the valuation of investments; • Tested the design, implementation and operating effectiveness of key controls over the valuation process, including the Holding Company's assessment and approval of assumptions used for valuation including key authorization and data input controls thereof; • Assessed valuation methodologies with reference to the Accounting Policy and the Holding Company's Board approved valuation policy; • For selected samples of listed investments, performed independent price checks using external quoted prices and by agreeing the inputs which were used in the Holding Company's valuation techniques to external data; • For selected samples of cost measured investments, we have tested the Holding Company's assessment of impairment and evaluated whether the same was in accordance with the Holding Company's updated impairment policy; and • Evaluated how the Holding Company has factored the impact of economic stress in investment valuation process (including impairment assessment). |

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the Management Report but does not include the financial statements and our auditor's report thereon, which we have obtained prior to the date of the auditor's report, and the Director's Report, Corporate Governance, Management Discussion and Analysis and Enterprise Risk Management report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Director's Report, Corporate Governance, Management Discussion and Analysis and Enterprise Risk Management report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

MANAGEMENT'S AND BOARD OF DIRECTORS RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated net surplus/ deficit, consolidated profit/ loss and the consolidated receipts and payments of the Group in accordance with the accounting principles generally accepted in India, including the provisions of the Insurance Act, the IRDA Act, the IRDA Financial Statements Regulations and orders/directions/circulars issued by the IRDAI in this regard, and Accounting Standards specified under section 133 of the Act, to the extent applicable.

The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for

safeguarding the assets of each Company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and the Board of Directors of the companies included in the Group are responsible for assessing the ability of the each Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is responsible for overseeing the financial reporting process of the Group.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional

omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to consolidated financial statements and the operating effectiveness of such controls based on our audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting in preparing of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entity included in the consolidated financial statements of which we are the independent auditors. For the other entity included in the consolidated financial statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (b) of the section titled 'Other Matters' in this audit report.

We believe that the audit evidence obtained by us along with the consideration of audit report of the other auditor referred to in sub-paragraph (b) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

- (a) The actuarial valuation of liabilities for life policies in force and policies in respect of which premium has been discontinued but liability exists as at 31 March 2023 is the responsibility of the Holding Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at 31 March 2023 has been duly certified by the Appointed Actuary and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by IRDAI and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists for these financial statements.
- (b) We did not audit the financial statements of a subsidiary company, whose financial statements reflect total assets (before consolidation adjustments) of ₹ 651,672 thousand as at 31 March 2023, total

revenues (before consolidation adjustments) of ₹ 164,459 thousand and net cash inflow (before consolidation adjustments) amounting to ₹ 33,792 thousand for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditor whose report has been furnished to us by the Holding Company's Management, and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of such subsidiary and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the audit report of the other auditor.

Our opinion on the consolidated financial statements, and our Report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the report of the other auditor.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditor on separate financial statement of the subsidiary as were audited by other auditor, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:

Annexure A

A TO THE INDEPENDENT AUDITOR'S REPORT OF THE CONSOLIDATED FINANCIAL STATEMENTS OF ICICI PRUDENTIAL LIFE INSURANCE COMPANY LIMITED FOR THE YEAR ENDED 31 MARCH 2023

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE AFORESAID CONSOLIDATED FINANCIAL STATEMENTS UNDER CLAUSE (i) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013

(Referred to in paragraph 1(vi) under "Report on Other Legal and Regulatory Requirements" section of our report of even date)

In conjunction with our audit of the consolidated financial statements of ICICI Prudential Life Insurance Company Limited as of and for the year ended 31 March 2023, we have audited the internal financial controls with reference to consolidated financial statements of ICICI Prudential Life Insurance Company Limited (hereinafter referred to as "the Holding Company") and its subsidiary company "ICICI Prudential Pension Funds Management Company Limited", which is a company incorporated in India under the Companies Act, 2013 as of that date.

MANAGEMENT'S AND BOARD OF DIRECTORS RESPONSIBILITIES FOR INTERNAL FINANCIAL CONTROLS

The respective Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under Insurance Act, 1938 (the "Insurance Act"), as amended from time to time, including amendment brought by Insurance Laws (Amendment), Act 2015, the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/ directions/circulars issued by the Insurance Regulatory and Development Authority of India (the "IRDAI") and the Companies Act, 2013 (the "Act"), to the extent applicable.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor of the subsidiary in terms of their report referred to in the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

A Company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A Company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of

records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Holding Company and its subsidiary company incorporated in India, have in all material respects, adequate internal financial controls with reference to consolidated financial statements and such

internal financial controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note.

OTHER MATTERS

- a. The actuarial valuation of liabilities for life policies in force and policies in respect of which premium has been discontinued but liability exists as at 31 March 2023 has been certified by the Holding Company's Appointed Actuary as per the IRDA Financial Statement Regulations, and has been relied upon by us, as mentioned in "Other Matters" paragraph of our audit report on the consolidated financial statements of the Group for the year ended 31 March 2023. Accordingly, our opinion on the internal financial controls with reference to consolidated financial statements does not include reporting on the design and operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation.
- b. Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to the subsidiary company, which is a company incorporated in India, is based on the corresponding report of the auditor of such subsidiary company incorporated in India.

Our opinion is not modified in respect of the above matters.

2. Summary of significant accounting policies

2.1. Basis of Consolidation

These consolidated financial statements for the Group are prepared in accordance with the principles and procedures for preparation and presentation of consolidated financial statements as laid down under the Accounting Standard (AS) 21, "Consolidated Financial

Statements" and are presented in the same format as that of the Holding Company. The financial statements of the Holding Company and its subsidiary have been combined on a line-by-line basis by adding together similar items of assets, liabilities, income and expenses in respective components of financial statements after eliminating intra-group balances, transactions and resulting unrealised profits/ losses. The Policyholders' account specifically dealing with direct insurance business governed by IRDAI regulations has retained its distinct independent form in these consolidated financial statements.

2.2. Basis of preparation

The accompanying consolidated financial statements are prepared and presented under the historical cost convention, unless otherwise stated, and on the accrual basis of accounting, in accordance with accounting principles generally accepted in India ('Indian GAAP'). The Group has prepared the financial statements in compliance with the accounting standards notified under section 133 of the Companies Act 2013, and amendments and rules made thereto, to the extent applicable and in accordance with the provisions of the Insurance Act, 1938, as amended from time to time, including amendments brought by Insurance laws (Amendment) Act, 2015, Insurance Regulatory and Development Authority Act, 1999, the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations, 2002 and various orders/directions/circulars issued by the IRDAI from time to time and the practices prevailing within the insurance industry in India. Accounting policies applied have been consistent with those followed in the previous year.

The management evaluates all recently issued or revised accounting pronouncements on an ongoing basis.

2.3. Use of estimates

The Group's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities, and disclosures relating to contingent liabilities as on the date of the financial statements. The estimates and assumptions used in the accompanying consolidated financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

2.4. Revenue recognition

2.4.1. Premium income

Schedules

forming part of Consolidated financial statements (continued)

are recognised in the period in which the employee renders the related service. All short term employee benefits are accounted on undiscounted basis.

2.6.2. Long term employee benefits: Post-employment

The holding company has both defined contribution and defined benefit plans.

Defined contribution plan

Superannuation and National Pension Scheme- The holding company has a defined contribution scheme for Superannuation and National Pension Scheme for employees who opt for it. The Superannuation scheme is managed by ICICI Prudential Life Insurance Company Limited Superannuation Scheme and the National Pension Scheme is managed and administered by pension fund management companies licensed by the Pension Funds Regulatory and Development Authority ('PFRDA'). The contributions made to the both the schemes are on a monthly basis, when due, and charged to Revenue Account and Profit and Loss Account on an undiscounted basis during the period in which the employee renders the related service. The holding company does not have any further obligation beyond the contributions made to the funds.

Defined benefit plans

Gratuity and Provident fund are defined benefit obligations.

Gratuity: The gratuity benefit payable to the employees of the holding company is as per the provisions of the Payment of Gratuity Act, 1972 or the holding company's gratuity plan, whichever is higher. The gratuity liability of the holding company is actuarially determined by and independent actuary at each Balance Sheet date using projected unit credit method.

The holding company contributes towards net liabilities to ICICI Prudential Life Insurance Company Limited Employees' Group Gratuity Cum Life Insurance Scheme.

The holding company recognises the net obligation of the Scheme in Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS) 15 (revised 2005), 'Employee benefits'. The discount rate used for actuarial valuation is based on Government securities yield. Actuarial gains or losses arising from change in actuarial assumptions or experience adjustments (the effects of difference between the previous actuarial assumptions and what has actually occurred) are recognised in the Revenue account and Profit or Loss account for the period in which they emerge. Estimated rate of return on plan assets is based on the expected average long-term rate of return on investments of the Fund during the estimated term of the obligations.

Provident fund: The holding company's defined benefit obligation towards interest rate guarantee on the exempt provident fund is actuarially determined by and independent actuary and measured in accordance with the Guidance Note (GN 29) on Valuation of Interest Rate Guarantees on Exempt Provident Funds under AS 15 (Revised) issued by The Institute of Actuaries of India. The contribution paid or payable is charged to the Revenue Account and Profit or Loss Account during the period in which the employee renders the related service.

2.6.3. Other long term employee benefits

Other long term employee benefits includes accumulated compensated absences that are entitled to be carried forward for future encashment or availment, at the option of the employee subject to the rules framed by the holding company and includes long term retention incentive payable to employees on fulfilment of criteria prescribed the holding company. The holding company's liability towards accumulated compensated absences entitlement outstanding at the close of the year and long-term retention incentive are determined actuarially, by an independent actuary using projected unit credit method and are recognised as a liability at the discounted present value of the obligation as at the Balance Sheet date. The holding company assumes net liability for the above in accordance with AS-15 (Revised). Actuarial gains or losses arising from change in actuarial assumptions or experience adjustments (the effects of difference between the previous actuarial assumptions and what has actually occurred) are recognised in the Revenue account and Profit or Loss account in the period in which they emerge.

2.6.4. Employee share based payments

The Employee Stock Option Scheme ('the Scheme') provides that eligible employees are granted options to subscribe to equity shares of the holding company which vest in a graded manner. The vested options may be exercised within a specified period.

The Company follows the intrinsic value method to account for its share-based employee compensation plans in accordance with the Guidance Note on Accounting for Share based Payments, issued by the Institute of Chartered Accountants of India (ICAI) Intrinsic value is measured as the excess, if any, of the fair market price of the underlying shares over the exercise price on the grant date and amortised over the vesting period. The fair market price is the latest closing price, immediately prior to the grant date, on the stock exchange on which the shares of the company are listed. If the shares are listed on more than one stock exchange, then, the stock exchange where there is highest trading volume on the said date is considered.

Schedules

forming part of Consolidated financial statements (continued)

2.7. Operating leases

Leases where the lessor effectively retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating lease including escalations are recognised as an expense, on a straight line basis, over the lease term in Revenue/ Profit and Loss Account over the non-cancellable lease term.

2.8. Borrowing costs

Borrowing costs are charged to the Profit and Loss Account in the period in which these are incurred.

2.9. Provision for doubtful debts

The Company regularly evaluates the probability of recovery and provides for doubtful deposits, advances and others receivables in accordance with the Company's policy which is in line with the IRDAI regulations.

2.10. Benefits paid

Benefits paid comprise of policy benefits and claim settlement costs, if any.

Death and rider claims are accounted for on receipt of intimation. Survival, maturity and annuity benefits are accounted when due. Withdrawals and surrenders under non linked policies are accounted on the receipt of intimation. Withdrawals and surrenders under unit linked policies are accounted in the respective schemes when the associated units are cancelled. Amount payable on lapsed/discontinued policies are accounted for on expiry of lock-in-period of these policies. Surrenders, withdrawals and lapsation are disclosed at net of charges recoverable. Claim settlement cost, legal & other fees form part of claim cost wherever applicable.

Reinsurance claims are accounted for in the period in which the claim is intimated.

Repudiated claims and other claims disputed before the judicial authorities are provided for on prudent basis as considered appropriate by the management.

2.11. Policy liability valuation

The actuarial liabilities, for all inforce policies and policies where premiums are discontinued but a liability exists as at the valuation date, are calculated in accordance with the accepted actuarial practice, requirements of Insurance Act, 1938, as amended from time to time, regulations notified by the Insurance Regulatory and Development Authority of India, relevant Guidance Notes and Actuarial Practice Standards of the Institute of Actuaries of India.

The prescribed method of valuation is the Gross Premium Valuation (GPV). The reserve held represents the net present value of benefits and expenses less premiums. The following is the broad method of the valuation.

- The reserves are calculated on a per policy basis.
- Any negative reserves are zeroised, so that a policy is not treated as an asset.
- The minimum value of reserves is the higher of the guaranteed surrender value, non-guaranteed surrender value, and zero.
- For Linked business, unit liabilities are fully matched and a non-unit reserve is also held which includes provisions for any costs of guarantees provided under the products.
- GPV under non-linked participating policies have a reference to the asset share of policies at valuation date.

The liabilities for group one-year renewable policies are calculated on an unexpired risk premium basis. For non-linked group savings products, account value is held as liabilities.

Valuation parameters are set prudently and include a margin for adverse deviation (MAD) as required under APS7 issued by Institute of Actuaries of India.

2.12. Funds for Future Appropriations (FFA)

The Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date.

No Funds for Future Appropriations is held for other funds.

2.13. Investments

Investments are made and accounted for in accordance with the Insurance Act, 1938, Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, Investments – Master circular, Investment Policy of the Company and various other circulars/notifications issued by the IRDAI in this context from time to time.

Investments are recorded at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes interest accrued as on the date of purchase.

Broken period interest paid/received is debited/credited to income accrued on investments and deposits.

Bonus entitlements are recognised as investments on the 'ex- bonus date'.

Schedules

forming part of Consolidated financial statements (continued)

Rights entitlements are recognised as investments on the 'ex-rights date'.

Any front end discount on investments is reduced from the cost of such investments.

2.13.1. Classification

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them off within twelve months from the Balance Sheet date are classified as short-term investments.

Investments other than short-term investments are classified as long-term investments.

2.13.2. Valuation - Other than Unit Linked Funds

Debt securities (including Government securities and redeemable preference shares):

All debt securities including government securities and redeemable preference shares are considered as 'held to maturity' and stated at historical cost, subject to amortisation of premium or accretion of discount over the remaining period to maturity on effective interest rate method.

Money Market Instruments:

Money market instruments like commercial paper, certificate of deposits and treasury bills are valued at historical cost, subject to accretion of discount over the remaining period to maturity based on effective interest rate method.

Equity shares, equity ETFs and Mutual funds:

Listed equity shares and equity exchange traded funds (ETF) at the Balance Sheet date are stated at fair value being the last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case the securities are not listed on NSE, the last quoted closing price on BSE Limited ('BSE') is used). Unlisted equity shares are stated at acquisition cost less impairment, if any. Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Non-traded and thinly traded equity share are valued at last available price on NSE/BSE or the value derived using valuation principle of net worth per share, whichever is lower.

Mutual fund units are valued based on the previous days' net asset values.

Unrealised gains/losses arising due to changes in the fair value of listed equity shares and mutual fund

units are taken to the "Fair Value Change Account" in the Balance Sheet.

Real estate – investment property:

Investment property is held to earn rental income or for capital appreciation and is not occupied by the Company. Investment property is initially valued at cost including any directly attributable transaction costs. Investment property is revalued at least once in every three years. The change in carrying amount of investment property is taken to "Revaluation reserve" in the Balance Sheet.

Venture funds:

Investments in venture fund units are valued at historical cost.

Reverse repo and tri-party repo:

Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Fixed deposits:

Fixed deposits with banks are valued at cost.

Impairment of Investments:

The Company assesses at each Balance Sheet date whether there is any evidence of impairment of any investments. In case of impairment, the carrying value of such investment is reduced to its fair value and the impairment loss is recognised in the Revenue/Profit and Loss account after adjusting it with previously recognised revaluation reserve/fair value change account. However, at the Balance Sheet date if there is any indication that a previously recognised impairment loss no longer exists, then such loss is reversed and the investment is restated to that extent.

2.13.3. Valuation - Unit Linked Funds

Debt securities (including Government securities):

Central and State government securities are valued as per the valuation price provided by Credit Rating Information Services of India Limited (CRISIL).

Debt securities other than government securities with a residual maturity over 182 days are valued on a yield to maturity basis, by using spreads over the benchmark rate (based on the matrix released by CRISIL) to arrive at the yield for pricing the security.

Debt securities with a residual maturity upto 182 days are valued at last valuation price plus the difference between the redemption value and last valuation price, based on effective interest rate method over the remaining period to maturity of instrument. (based on the matrix released by the CRISIL).

Schedules

forming part of Consolidated financial statements (continued)

Securities with call option are valued at the lower of the value as obtained by valuing the security upto final maturity date or the call option date. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security at various call dates or upto the final maturity date (based on the matrix released by the CRISIL)

Securities with put option are valued at the higher of the value as obtained by valuing the security upto final maturity date or the put option date. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security at various put dates or upto the final maturity date (based on the matrix released by CRISIL)

The securities with both put and call option on the same day would be deemed to mature on the put/call date and would be valued on a yield to maturity basis, by using spreads over the benchmark rate based on the matrix released by CRISIL. Investments in reverse repo and tri-party repo are valued at cost plus interest accrued.

Money market instruments:

Money market instruments like commercial paper, certificate of deposits and treasury bills are valued at historical cost, subject to accretion of discount over the period of maturity/holding based on effective interest rate method.

Equity shares, redeemable preference shares, equity ETFs and Mutual Funds:

Listed equity shares, redeemable preference shares and equity ETF are valued at market value, being the last quoted closing price on NSE (in case of securities not listed on NSE, the last quoted closing price on BSE is used). Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

Non-traded and thinly traded equity share are valued at last available price on NSE/BSE or the value derived using valuation principle of net worth per share, whichever is lower.

Mutual fund units are valued based on previous day's Net Asset Value.

Venture funds:

Venture fund units are valued at the latest audited net asset value of the respective fund.

Fixed deposits:

Fixed deposits with banks are valued at cost.

Unrealised gains and losses are recognised in the Revenue account as prescribed by IRDAI (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002.

2.13.4. Valuation – Pension fund management business

Short term investments are carried at lower of cost or fair value determined on an individual investments basis. Long term investments are carried at cost.

2.13.5. Transfer of investments

Transfer of investments from Shareholders' account to the Policyholders' account to meet the deficit in the Policyholders' account is made at the cost price or market price, whichever is lower. In case of debt securities including money market instruments, all transfers are made at the lower of the market price and the net amortized cost.

The transfer of investments between unit liked funds is done at the price as specified below.

- In case of equity, preference shares, ETFs and Government Securities market price of the latest trade.
- In case of securities mentioned in (a) if the trade has not taken place on the day of transfer and for all other securities not part of (a) previous day valuation price.

Transfer of investments are not carried out between non-linked policyholders' funds except for a transfer of investment property from participating pension fund to participating life fund on 10th August, 2022. This transfer was made to comply with IRDAI (Investment) regulations, 2016 and align with the liquidity requirements of the fund.

2.13.6. Provision for Non-Performing Assets (NPA)

An asset is classified as an NPA if the interest and/ or installment of principal remain overdue for more than 90 days at Balance Sheet date. Provision is made in the Revenue Account and Profit and Loss account based on the guidelines prescribed by IRDAI investment regulations.

2.14. Interest rate derivatives

Interest rate derivative contracts are used for hedging of highly probable forecasted transactions on insurance contracts and investment cash flows in life, pension and annuity business. The Company follows hedge accounting in accordance with the 'Guidance Note on Accounting for Derivative Contracts' issued by the Institute of Chartered Accountants of India (ICAI) and IRDAI Investment Master Circular as amended from time to time.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective and strategy

Schedules

forming part of Consolidated financial statements (continued)

for undertaking the hedge, nature of risk being hedged, identification of the instrument and the hedged item and the methods used to assess the hedge effectiveness. Hedge effectiveness is the extent to which changes in the fair value or the cash flows of the hedging instrument offset changes in the fair value or the cash flows of the hedged item. Hedge effectiveness is ascertained at the time of inception of the hedge and on each reporting date.

The Forward Rate Agreement (FRA) contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of the contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till FRA contract settlement date, discounted by the INR-Overnight Index Swap (OIS) rate curve.

The Company follows cash flow hedge accounting for interest rate derivatives. The portion of the fair value gain/loss on the interest rate derivative that is determined to be an effective hedge is recognised directly in 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet under policyholders' funds and the portion that gets determined as ineffective hedge or ineffective portion of effective hedge, based on the hedge effectiveness assessment is recognized in the Revenue Account under head "Transfer/Gain on revaluation/Change in fair value".

The accumulated gains or losses that were recognised directly in the 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet are reclassified into the Revenue Account, in the same period or periods during which income on the investments acquired from underlying forecasted cash flow is recognized in the Revenue Account. In the event that all or any portion of gain or loss, recognised directly in the 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Revenue Account.

2.15. Loans

Loans are stated at historical cost less repayments, subject to provision for impairment, if any.

Loans are classified as short term in case the maturity is less than twelve months. Loans other than short term are classified as long term.

2.16. Fixed assets and Impairment

2.16.1. Tangible assets and depreciation

Tangible assets are stated at acquisition cost less accumulated depreciation and impairment loss, if any. Cost includes the purchase price net of any trade

discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities) and any cost directly attributable to bring the asset to its working condition for its intended use and other incidental expenses incurred upto that date. Subsequent expenditure incurred on tangible assets is expensed out except where such expenditure results in an increase in future benefits from the existing assets beyond its previously assessed standard of performance.

The useful life of various category of assets is as below:

Asset	Useful life (years)
Office buildings on freehold land	60
Improvement to leasehold properties	60 years or lease period whichever is lower
Furniture and fixtures	5 to 10
Office equipment	5 to 10
Information technology equipment	3
Communication networks and servers	6
Motor vehicles	5

Schedule II of the Companies Act 2013 specifies the useful life of eight years for motor vehicle. As per Company policy, the motor vehicle is transferred to employee on completion of five years or at written down value (WDV) in case of separation of employee before five years. Accordingly, the Company has depreciated the motor vehicle over five years. Assets costing upto ₹ 5,000 are considered to be immaterial in value and hence fully depreciated in the month of acquisition.

Depreciation is provided using straight-line method ('SLM') prorated from the date of being ready to use, upto the date of sale, based on estimated useful life for each class of asset.

2.16.2. Intangibles

Intangible assets comprising software are stated at cost less amortisation. Significant expenditure on improvements to software are capitalised when it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably. Subsequent capital expenditures are amortised over the remaining useful life of original software. Software expenses are amortised using SLM over a period of 4 years from the date of being ready to use.

2.16.3. Capital work in progress

Assets not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses.

Schedules

forming part of Consolidated financial statements (continued)

2.16.4. Impairment of assets

Management periodically assesses, using external and internal sources, whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset unit is made. Impairment occurs where the carrying value of the asset exceeds the recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and its ultimate disposal. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of depreciable historical cost.

2.17. Taxation

2.17.1. Direct taxes

Income tax expense comprises of current tax (i.e. amount of tax for the year determined in accordance with the Income Tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

Current tax is the amount expected to be paid to the tax authorities after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961.

The Company calculates tax for the participating lines of business in order to ensure that the expenses pertaining to and identifiable with a particular line of business are represented as such to enable a more appropriate presentation of the financial statements. Accordingly, tax charge/credit on surplus/deficit arising from the participating line of business is disclosed separately in the Revenue account.

The deferred tax asset and liabilities are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised and carried forward only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. However, deferred tax asset in respect of unabsorbed depreciation or carried forward loss are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonable / virtually certain (as the case may be) to be realised.

2.17.2. Indirect taxes

Goods and Services tax liability on life insurance service is set-off against the respective input tax credits available from tax paid on input services for each state.

Unutilised credits, if any, are carried forward under "Advances and other assets" for future set-off, where there is reasonable certainty of utilisation.

2.18. Provisions and contingencies

Provision is recognized when the company has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined based on the basis of best estimate of the outflow of economic resources required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

A disclosure of a contingent liability is made when there is a possible obligation or present obligations that may, but probably will not, require an outflow of resources or it cannot be reliably estimated. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognised nor disclosed.

2.19. Segmental reporting

Identification of segments

Based on the primary segments identified under IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002 ('the Regulations') read with AS 17 on "Segmental Reporting" notified under section 133 of the Companies Act 2013 and rules thereunder, the Company has classified and disclosed segmental information separately for Shareholders' and Policyholders'. Within Policyholders', the businesses are further segmented into Participating (Life and Pension), Non-Participating (Life and Pension), Non-Participating variable (Life and Pension), Annuity, Health and Linked (Life, Pension, Health and Group).

There are no reportable geographical segments, since all business is written in India.

Allocation/ Apportionment methodology

The allocation and apportionment of revenue, expenses, assets and liabilities to specific segments is done in the following manner, which is applied on a consistent basis.

- Revenue, expenses, assets and liabilities that are directly identifiable to the respective segments are allocated on actual basis;
- Other revenue, expenses (including depreciation and amortisation), assets and liabilities that are not directly identifiable to a respective segment are apportioned based on one or combination of some of the relevant drivers which includes:

Schedules

forming part of Consolidated financial statements (continued)

- Number of policies
- Weighted annualised first year premium income
- Annualised premium since inception
- Sum assured
- Total premium income
- Medical cases
- Funds under management
- Commission
- Total operating expenses (for assets and liabilities)
- Use of asset (for depreciation expense)

The accounting policies used in segmental reporting are the same as those used in the preparation of financial statements.

2.20. Foreign exchange transactions

Initial recognition: Foreign currency transactions are recorded in Indian Rupees, by applying to the foreign currency amount the exchange rate between the Indian Rupee and the foreign currency at the date of the transaction.

Conversion: Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences: Exchange differences arising on such conversions are recognised as income or as expenses in the period in which they arise either in the Revenue Account or the Profit and Loss Account, as the case may be.

2.21. Earnings per share

Basic earnings per share are calculated by dividing the profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the profit or loss after tax for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value. Dilutive potential equity shares are determined independently for each period presented.

2.22. Cash and Cash Equivalents

Cash and cash equivalents for the purpose of Receipts and Payments account include cash and cheques in hand, bank balances, liquid mutual funds and other investments with original maturity of three months or less which are subject to insignificant risk of changes in value. Receipts and Payments Account is prepared and reported using the Direct Method in accordance with Accounting Standard (AS) 3, "Cash Flow Statements" as per requirements of Master Circular of IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) regulations, 2002.

2.23. Unclaimed amount of policyholders

Pursuant to IRDAI circular no. IRDA/F&A/CIR/CLD/114/05/2015 dated May 28, 2015, IRDA/F&A/CIR/CPM/134/07/2015 dated July 24, 2015 on "Handling of unclaimed amounts pertaining to policyholders" ("the Regulations") and IRDA/F&A/CIR/Misc/282/11/2020 dated November 17, 2020, the Company has created a single segregated fund to manage all unclaimed monies.

Unclaimed amount of policyholders' liability is determined on the basis of NAV of the units outstanding as at the valuation date.

Assets held for unclaimed amount of policyholders and unclaimed amount of policyholders' liability are considered as current assets & current liabilities, respectively and are disclosed in Schedule 12 "Advances and Other Assets" and Schedule 13 "Current Liabilities".

Income on unclaimed amount of policyholders is accreted to the unclaimed fund and is accounted for on an accrual basis, net of fund management charges, and is disclosed under the head "Interest on unclaimed amounts" in Schedule 4 "Benefits paid" in Revenue account.

The unclaimed of policyholders which are more than 120 months as on 30 September every year, are transferred to the Senior Citizens' Welfare Fund (SCWF) on or before 01 March of that financial year.

3.2. Pending litigations

The Company's pending litigation comprises of claims against the Company primarily by the customers and proceedings pending with Tax authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a material adverse effect on its financial statements at March 31, 2023. Refer note 3.1 for details on contingent liabilities.

In respect of litigations, where the management assessment of a financial outflow is probable, the Company has made a provision of ₹ 1,077,754 thousand at March 31, 2023 (March 31, 2022: ₹ 884,859 thousand).

3.3. Actuarial method and assumptions

The actuarial liability in respect of both participating and non-participating policies is calculated using the gross premium method, using assumptions for interest, mortality, morbidity, expense and inflation, and in the case of participating policies, future bonuses together with allowance for taxation and allocation of profits to shareholders. These assumptions are determined as prudent estimates at the date of valuation including allowances for possible adverse deviations.

The liability for the unexpired portion of the risk for the non-unit liabilities of linked business and attached riders is the higher of the liability calculated using discounted cash flows and the unearned premium reserve.

An unexpired risk reserve and a reserve in respect of claims incurred but not reported is held for contracts wherein there is a possibility of lag in intimation of claims.

The unit liability in respect of linked business is the value of the units standing to the credit of policyholders, using the Net Asset Value ('NAV') prevailing at the valuation date.

A brief of the assumptions used in actuarial valuation is as below:

- The interest rates used for valuing the liabilities are in the range of 4.99% to 6.58% per annum. The interest rates used at March 31, 2022 were in the range of 3.67% to 6.30% per annum.
- Mortality rates used are based on the published "Indian Assured Lives Mortality (2012 – 2014) Ult." mortality table for assurances and "Indian Individual Annuitant's Mortality Table (2012-15)" table for annuities adjusted to reflect expected experience. Morbidity rates used are based on CIBT 93 table, adjusted for expected experience, or on risk rates provided by reinsurers.

Schedules

forming part of Consolidated financial statements (continued)

- c) Expenses are provided for at least at the current levels in respect of renewal expenses, with no allowance for any future improvement.
- d) Per policy renewal expenses are assumed to inflate at 4.90% per annum. The expense inflation assumption used at March 31, 2022 was 4.59%.
- e) The bonus rates for participating business to be declared in the future is consistent with the valuation assumptions.
- f) The tax rate applicable for valuation at March 31, 2023 is 14.56% per annum. The tax rate applicable for valuation at March 31, 2022 was 14.56% per annum.

Certain explicit additional provisions are made, which include the following:

- a) Reserves for additional expenses that the Company may have to incur if it were to close to new business twelve months after the valuation date.
- b) Reserves for guarantees available to individual and group insurance policies.
- c) Reserves for cost of non-negative claw back additions.
- d) Reserves for free look option given to policyholders calculated using a free look cancellation rate of 2.30% as on March 31, 2023. The free look cancellation assumption used at March 31, 2022 was 2.20%.
- e) Reserves for lapsed policies eligible for revivals.
- f) An additional reserve is held for incurred but not reported claims.

3.4. Reconciliation of unclaimed amounts of policyholders

Pursuant to IRDAI circular No. IRDA/F&A/CIR/CLD/114/05/2015 dated May 28, 2015 and IRDA/F&A/CIR/CPM/134/07/2015 dated July 24, 2015 on "Handling of unclaimed amounts pertaining to policyholders", the Company has created a single segregated fund to manage all the unclaimed monies. The amount in such unclaimed fund has been invested in money market instruments and /or fixed deposit of scheduled banks.

The amount in the unclaimed fund has been disclosed in schedule 12 as "Assets held for unclaimed amount of policyholders". Investment income accruing to the unclaimed fund has been credited to the fund and disclosed as 'Other Income under Linked Life segment in the Revenue Account. Such investment income net of fund management charges ('FMC') is paid/ accrued as "interest on unclaimed amounts" in schedule 4 of the financial statements as "Benefits paid".

Reconciliation of unclaimed amounts of policyholders:

Further in accordance with the master circular IRDA/F&A/CIR/Misc/282/11/2020 issued by the IRDAI on November 17, 2020, the details of unclaimed amounts and investment income at March 31, 2023 is tabulated as under:

(b) Defined benefit plans

(i) Gratuity

General description of defined benefit plan

This is a funded defined benefit plan for qualifying employees under which the Company makes a contribution to the ICICI Prudential Life Insurance Company Limited Employees' Group Gratuity Cum Life Assurance Scheme. The plan provides for a lump sum payment as determined in the manner specified under The Payment of Gratuity Act, 1972 or the Company's gratuity scheme, whichever is higher, to the vested employees. The benefit vests after a minimum prescribed period of continuous service at retirement or on death while in employment or on termination of employment. Defined benefit obligations are actuarially determined at each quarterly Balance Sheet date using the projected unit credit method as required under Accounting Standard (AS) 15 (Revised), "Employee benefits". Actuarial gains or losses are recognised in the Revenue Account.

3.13. Employee Stock Option Scheme ("ESOS")

The Company granted options to its employees under its Employees Stock Option Scheme, prior to listing, since approval of its Employees Stock Option Scheme – 2005. This pre-IPO Scheme shall be referred to as 'ESOS 2005' or 'Scheme'. The Scheme had six tranches namely Founder, 2004-05, 2005-06, 2006-07, Founder II and 2007-08, pursuant to which shares had been allotted and listed in accordance with the in-principle approval extended by the stock exchanges. All six tranches under the pre-IPO Scheme stand lapsed as on March 31, 2023. The Scheme had been instituted vide approval of its Members at the Extra-Ordinary General Meeting (EGM) dated March 28, 2005 and had been subsequently amended by the Members of the Company vide its EGM dated February 24, 2015.

The Scheme was ratified and amended by the members of the Company at its Annual General Meeting held on July 17, 2017 which is in compliance with the SEBI (Share Based Employee Benefits) Regulations, 2014 (referred to as the 'Revised Scheme').

The meeting of Board Nomination and Remuneration Committee (BNRC) and the Board held on April 24, 2019 had approved the amendment to the definition of "Exercise Period". The revision to the definition was approved by the members of the Company at its Annual General Meeting held on July 17, 2019.

Further, the meeting of Board Nomination and Remuneration Committee (BNRC) and the Board held on April 17, 2021 and April 19, 2021 respectively had approved the increase in the limit of the number of shares issued or issuable since March 31, 2016 pursuant to the exercise of any Options granted to the Eligible Employees issued pursuant to the Revised Scheme or any other stock option scheme of the Company, by 0.90% of the number of shares issued as on March 31, 2016, i.e. from a limit of 2.64% of the number of shares issued as on March 31, 2016 to 3.54%. The revision to the limit was approved by the members of the Company at its Annual General Meeting held on June 25, 2021.

As per the Revised Scheme, the aggregate number of shares issued or issuable since March 31, 2016 pursuant to the exercise of any Options granted to the Eligible Employees issued pursuant to the Scheme or any other stock option scheme of the Company, shall not exceed 3.54% of the number of shares issued at March 31, 2016. Further, pursuant to the Revised Scheme the maximum number of Options that can be granted to any Eligible Employee in a financial year shall not exceed 0.1% of the issued Shares of the Company at the time of grant of Options. The Revised Scheme

Schedules

d) A net amount of ₹ 1,029,473 thousand for the year ended March 31, 2023 (March 31, 2022: ₹ 968,092 thousand) was recognised in the Revenue Account being the portion of loss determined to be ineffective portion of the effective hedge. The amount that was removed from the cash flow hedge reserve account during the year ended March 31, 2023 in respect of forecast transaction for which hedge accounting had previously been used but is no longer expected to occur is ₹ Nil (March 31, 2022: ₹ Nil). The hedged forecast transactions are expected to occur over the outstanding tenor of underlying policy liabilities and corresponding hedging gain/loss will accordingly flow to the Revenue Account.

e) Disclosures on risk exposure in Interest rate derivatives:

- Interest rate derivative hedging instruments: Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. Interest rate derivatives include forward rate agreements, interest rate swaps and interest rate futures. The Company during the financial year has entered into forward rate agreement (FRA) derivative instrument to hedge exposure due to interest rate sensitivity for highly probable forecasted transactions. These hedges were entered only for hedging purpose to hedge the interest rate risk. This hedge is carried in accordance with its established policies, strategy, objective and applicable regulations.
- Derivative policy, process and hedge effectiveness assessment: The Company has a well-defined Board approved derivative policy and standard operating procedures setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives. The policy includes the risk measurement and monitoring, processes to be followed and controls thereon. The accounting treatment has

Schedules

forming part of Consolidated financial statements (continued)

been documented and ensures a process of periodic effectiveness assessment and accounting in accordance with applicable accounting standard issued by the Institute of Chartered Accountants of India (ICAI).

The Company has clearly defined roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest rate derivative exposures. The overall policy, risk management framework for the Interest rate derivatives are monitored by the Board Risk Management Committee.

iii. Scope and nature of risk identification, risk measurement, and risk monitoring: The derivative policy as approved by the Board identify risk associated with interest rate derivatives transactions and sets appropriate market risk limits such as stress testing and value-at-risk limits. Financial risks of the derivative portfolio are measured and monitored on periodic basis.

f) Risk exposure in Forward Rate Agreement

A hedge is deemed effective, if it has a high statistical correlation between the change in value of the hedged item and the hedging instrument (FRA). Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account. The tenor of the hedging instrument may be less than or equal to the tenor of underlying hedged transaction.

Embedded Value Results

This report on Embedded Value Results ("EV Results") as at March 31, 2023 has been prepared by the Company and the results presented in the report have been reviewed by Milliman Advisors LLP.

1 BASIS OF PREPARATION

The Embedded Value (EV) is a measure of the consolidated value of the shareholders' interest in the life insurance business. The EV Results have been prepared based on the Indian Embedded Value (IEV) methodology and principles as set out in Actuarial Practice Standard 10¹ (version 1.02) (APS10) issued by the Institute of Actuaries of India (IAI). As APS10 is applicable for the limited purpose of an Initial Public Offering (IPO), compliance with APS10 is limited to the methodology and principles used to develop the EV Results presented in this report. The EV methodology is broadly in line with the Market Consistent Embedded Value² (MCEV) principles used in Europe.

A detailed description of the EV methodology is provided in section 3.

3 METHODOLOGY

The EV consists of the two following components:

- Adjusted net worth (ANW), consisting of:
 - Free surplus (FS) allocated to the covered business; and
 - Required capital (RC).
- Value of in-force covered business (VIF).

3.1 Covered business

The business covered under the EV Results (covered business) includes all business that has been written by the Company including the life assurance and pensions business, accident and health-insurance business and group business.

The business written by ICICI Prudential Pension Funds Management Co. Ltd., a subsidiary of ICICI Prudential which writes pensions fund management business, is not included as covered business. The value of ICICI Prudential Pension Funds Management Co. Ltd is reflected in ANW based on the value at which it is carried in the audited financial statements of the Company, which is ₹ 577.5 mn as at March 31, 2023.

3.2 RC

RC is the value of assets attributed to the covered business over and above that which is required to back the liabilities for covered business, the distribution of which to shareholders is restricted.

The level of RC is set equal to the amount required to be held to meet supervisory requirements or otherwise encumbered by supervisory or legal restrictions that prevent its distribution. The amount of RC is presented from the shareholders' perspective and is net of the funds for future appropriation (FFAs) and the book value of subordinated debt, to the extent allowed by the regulations to meet the RC.

3.3 FS

The FS is the market value of any assets allocated to, but not required to support, the in-force covered business as at the valuation date.

The FS has been determined as the adjusted net worth of the Company, less the RC as defined above. The adjusted net worth of the Company is calculated as the net shareholders' funds as per the audited financial statements, adjusted so as to revalue to market value those assets and those liabilities that are dependent on asset values, which are not at market value in the audited financial statements. The mark to market adjustment is net of tax applicable.

In respect of the subordinated debt capital raised by the Company through a private placement of non-convertible debentures (NCDs), the difference between the book value and the market value of liability associated with the NCDs is reflected in the FS.

The FFA, which comprises all funds which have not been explicitly allocated either to policyholders or to shareholders at the valuation date, is reported under policyholder funds. The shareholders have a 10% interest in the non-linked FFA accrued in respect of participating business. The value of the shareholders' interest in the FFA is included in the VIF, at its market value, and therefore does not form part of the ANW.

3.4 VIF

The VIF represents the present value of the shareholders' interest in the earnings distributable from the assets allocated to the covered business after sufficient allowance for the aggregate risks in the business. The VIF consists of the following components:

- the present value of future profits (PVFP); adjusted for
- the time value of financial options and guarantees (TVFOG);
- the frictional costs of required capital (FC); and
- the cost of residual non-hedgeable risks (CRNHR).

PVFP

The PVFP is the present value of projected distributable profits to shareholders arising from the in-force covered business, determined by projecting the post taxation shareholder cash flows from the in-force covered business and the assets backing the associated liabilities. The distributable profits also include the release to shareholders of the amounts from the FFA. For one-year renewable group term business, any future profits arising from the expected renewals from existing members are included in the PVFP.

For products with reviewable rates and charges, the projection of future cash flows assumes that the rates and charges as at the valuation date remain unchanged.

The projection of future distributable profits arising from the covered business is carried out using best estimate non-economic assumptions and market consistent economic assumptions.

Distributable profits are determined by reference to liabilities determined in accordance with the statutory requirements for life insurance companies.

The Company holds 'global reserves' calculated outside of its actuarial models as at the valuation date. Wherever appropriate, the shareholders' interest in the assets backing such global reserves is calculated by assuming a suitable release pattern of such reserves.

TVFOG

The TVFOG reflects the value of the additional cost to shareholders that may arise from the embedded financial options and guarantees attaching to the covered business. The intrinsic value of such options and guarantees is reflected in the PVFP.

A stochastic approach is used to determine the TVFOG using methods and assumptions consistent with the underlying embedded value. The economic assumptions used in determining the TVFOG ensure that the projected cash flows are valued in line with the price of similar cash flows that are traded in the capital markets.

FC

The VIF includes an allowance for the FC of RC for the covered business. This FC represents investment

management expenses and taxation costs associated with holding the RC. The investment costs have been reflected as an explicit deduction from the gross investment return.

CRNHR

The CRNHR is an allowance for risks to shareholder value to the extent that these are not already allowed for in the TVFOG or the PVFP. In particular, the CRNHR makes allowance for:

- asymmetries in the impact of the risks on shareholder value; and
- risks that are not allowed for in the TVFOG or the PVFP (e.g. operational risk).

The CRNHR reflects operational risk, catastrophe mortality/morbidity risk and mass lapsation risk. The CRNHR has been determined using a cost of capital approach. The CRNHR is the present value of a notional cost of capital charge levied on the projected capital in respect of the residual non-hedgeable risks. Allowance has been made for the benefit of diversification among the non-hedgeable risks, other than operational risk.

3.5 New business and renewals

The VIF includes the value attributable to shareholders considering the expected renewal premiums on the in-force business, including any foreseeable variations in the level of renewal premiums, but excludes any value relating to future new business (i.e. the new business that may be written after the applicable valuation date).

The VNB reflects the additional value to shareholders created through the activity of writing new business over the stated period ending on the valuation date, and includes the value from the expected renewal premiums on that new business.

The new business comprises both individual and group policies sold during the reporting period, including the expected renewal premiums and expected future contractual alterations to those contracts. It also includes the non-contractual single premium payments received during the reporting period. New business for one year renewable group term business and group micro business includes business from new members that have joined an existing scheme or a new scheme during the financial year, and the VNB includes the value arising from the renewal premiums expected from new members. The VNB is calculated in the same way as the VIF, with appropriate allowance for changes in the ANW during the reporting period.

The VNB is determined as at March 31, 2023 and takes into account acquisition commissions and acquisition expenses actually incurred in the full year to March 31, 2023.

3.6 Analysis of movement of EV

A brief description of the various components is provided below

Components	Description
Expected return on existing business	(1) Expected investment income at opening reference rate on VIF and ANW; and (2) Expected excess 'real world' investment return over the opening reference rate on VIF and ANW.
Operating assumption changes	This is the impact of updating of non-economic assumptions, on both best estimate and statutory bases, to those adopted in the closing EV.
VNB added during the period	This is as described in section 3.5 above
Operating experience variance	The variance arising from discontinuance and mortality / morbidity is analysed at a policy level, by considering the actual change in the policy status from the opening EV to the closing EV dates. The operating experience variance captures the difference between the actual and expected experience and is calculated in the following order: <ol style="list-style-type: none"> Discontinuance rates Mortality / morbidity rates Expenses
Economic assumption changes and investment variance	Economic assumption changes reflect the update of the reference rate yield curve, inflation and valuation economic assumptions from opening EV to closing EV. The investment variance is the difference between the actual investment return and the expected 'real world' rates for existing business as at March 31, 2022 and the closing and opening reference rates (the reference rates at the end of each month during which the new business is sold) for new business written during FY2023.
Capital contributions / (dividends paid out)	These are the actual capital infusions / dividends paid out to the shareholders, including the dividend distribution tax incurred (if any) during the period.

3.7 Sensitivities

Sensitivity analyses are carried out for one parameter at a time and do not include changes in other parameters not explicitly mentioned as part of the sensitivity.

The key assumption changes represented by each of the sensitivities and their impact on EV and VNB are provided in section 2.

4 ASSUMPTIONS

The projections of future shareholder cash flows expected to emerge from covered in-force and new business have been determined using best estimate assumptions. These assumptions (both economic and non-economic) are reviewed annually and have been updated as appropriate.

4.1 Economic assumptions

Investment returns and discount rates used in the calculation of opening and closing EV are based on reference rates at March 31, 2022 and March 31, 2023 respectively. The PVFP before TVFOG is calculated assuming that assets earn,

before tax and investment management expenses, the reference rates assumed, and by discounting all cash flows using the reference rates assumed which are gross of tax and investment management expenses. The reference rates are derived from the zero coupon yield curve as published on the Clearing Corporation of India Limited³ website, by adjusting the published yields so that they derive the market value of the Company's government bond portfolio. The reference rates assumed in the calculation of EV are set out below:

Tenor (years)	Reference rate (one year forward rates)	
	March 31, 2022	March 31, 2023
1	4.35%	7.23%
5	7.90%	7.49%
10	8.36%	7.56%
15	7.97%	7.65%
20	7.57%	7.70%
25	7.28%	7.73%
30	7.09%	7.74%

Investment returns and discount rates used in the calculation of VNB are based on the CCIL published yield curves for each month of sale of new business, adjusted so that they derive the then market value of the Company's government bond portfolio.

4.2 Non-economic assumptions

Demographic assumptions

The best estimate assumptions for persistency, mortality and morbidity have been derived based on the Company's own experience. An allowance for future improvements in respect of mortality has been made for annuities.

Commission and Expense assumptions

The expense assumptions have been derived based on the Company's actual expenses during FY2023 with no anticipation of productivity gains or cost efficiencies. The fixed renewal expenses are inflated from FY2024 onwards using the best estimate inflation rate assumed.

The commission rates under different products are based on the actual commission payable (if any) to the distributors.

Tax rates

In determining the EV Results, allowance has been made for future taxation costs expected to be incurred by the Company. This includes both corporate taxes and Goods and Services Tax ("GST").

The taxation costs reflected in the EV Results make an allowance for the fact that the Company is allowed to reduce its taxable income by dividend income earned, subject to a maximum of the dividend declared and distributed⁴.

Re: Milliman's opinion on the Embedded Value results as at 31 March 2023 ("Opinion")

Dear Members of the Board

INTRODUCTION

ICICI Prudential Life Insurance Company Limited ('ICICI Prudential', 'the Company') has prepared embedded value calculations following the methodology and principles set out in the Actuarial Practice Standard 10 (version 1.02) ("APS10") issued by the Institute of Actuaries of India. These calculations consist of the following (together referred to as the "Results"):

- Indian Embedded Value ("IEV") as at 31 March 2023;
- the value of one year of new business ("VNB") for new business sold during the year ending 31 March 2023;
- an analysis of the movement of IEV from 31 March 2022 to 31 March 2023; and
- various sensitivity results on the IEV as at 31 March 2023 and the VNB for business sold during the year ending 31 March 2023.

The Results, along with the methodology and assumptions that have been used to prepare the Results, have been summarised by the Company in the Annual Report ("Report") that accompany this Opinion.

SCOPE OF SERVICES

Milliman Advisors LLP ('Milliman', 'we', 'us', 'our') has been engaged by ICICI Prudential Life Insurance Company Limited ('ICICI Prudential', 'the Company') to carry out a review and certification of the Results. Our scope of work includes the following:

- a review of the methodology and assumptions used by the Company in developing the Results

for compliance with the relevant principles set out in APS10;

- a review of the Company's actuarial models (covering the calculation of IEV, VNB, analysis of movement and sensitivity results) used to develop the Results for a selection of model points covering the more material products comprising the value of in-force business ("VIF") and VNB; and
- a detailed review of the aggregation templates used by the Company to develop the Results, which also included a review of the process used to conduct the analysis of movement of IEV and various sensitivity analyses.

OPINION

Based on the work carried out and subject to the reliances and limitations mentioned below, I am of the opinion that the Results have been developed in all material respects in accordance with the methodology and principles set out in APS10. In particular:

- the methodology used to develop the Results is reasonable and in line with APS10;
- the assumptions (economic and non-economic) used to develop the Results have been developed substantially in line with the requirements of APS10, using the Company's operating experience (for non-economic assumptions), and are reasonable;
- the Results have been prepared materially in accordance with the methodology and assumptions described in the Report, and with the accounting information presented in the financial statements;

- the Results have been prepared materially in accordance with the requirements of APS10.

RELIANCES AND LIMITATIONS

This opinion has been prepared solely for use by ICICI Prudential for inclusion in the Report for the year ending 31 March 2023. It should not be relied upon for any other purpose. Milliman does not intend to create a legal duty to any third party recipient of its work.

We have relied on information supplied by the management and staff of ICICI Prudential. Reliance was placed on, but not limited to, the general accuracy of all the information provided to us.

We have obtained a management representation letter from ICICI Prudential, stating that, to the best of ICICI Prudential's knowledge, the data and information provided to us is accurate and complete and that there are no material inaccuracies or omissions therein.

An actuarial assessment of the components of value of a life insurance company will not necessarily be consistent with the value of a life insurance company or a portfolio in the open market and should not be interpreted in that manner.

The Results are based on a series of assumptions as to future operating experience. It should be recognised that actual experience will differ from these assumptions on account of changes in the operating and economic environment and natural variations in experience. To the extent that actual experience is different from the assumptions, the future projected profits from which the

Results are derived will also differ. The Report includes various sensitivity results to illustrate how vulnerable the IEV and VNB results are to changes in assumptions for the key risks. The Results shown are presented at the valuation dates stated and no warranty is given by Milliman that future experience after these valuation dates will be in line with the assumptions made.

Milliman is not a tax expert and is not able to provide tax or accounting advice. Accordingly, it is acknowledged that no reliance will be placed on Milliman, its Partners, or employees with respect to any tax or accounting issue. The allowance for taxation reflected in the Results is based on the Company's interpretation of applicable tax regulations. The Results do not reflect any allowance for withholding or other taxes (if any) that may apply to the payment of future shareholder dividends or on remittances out of India.

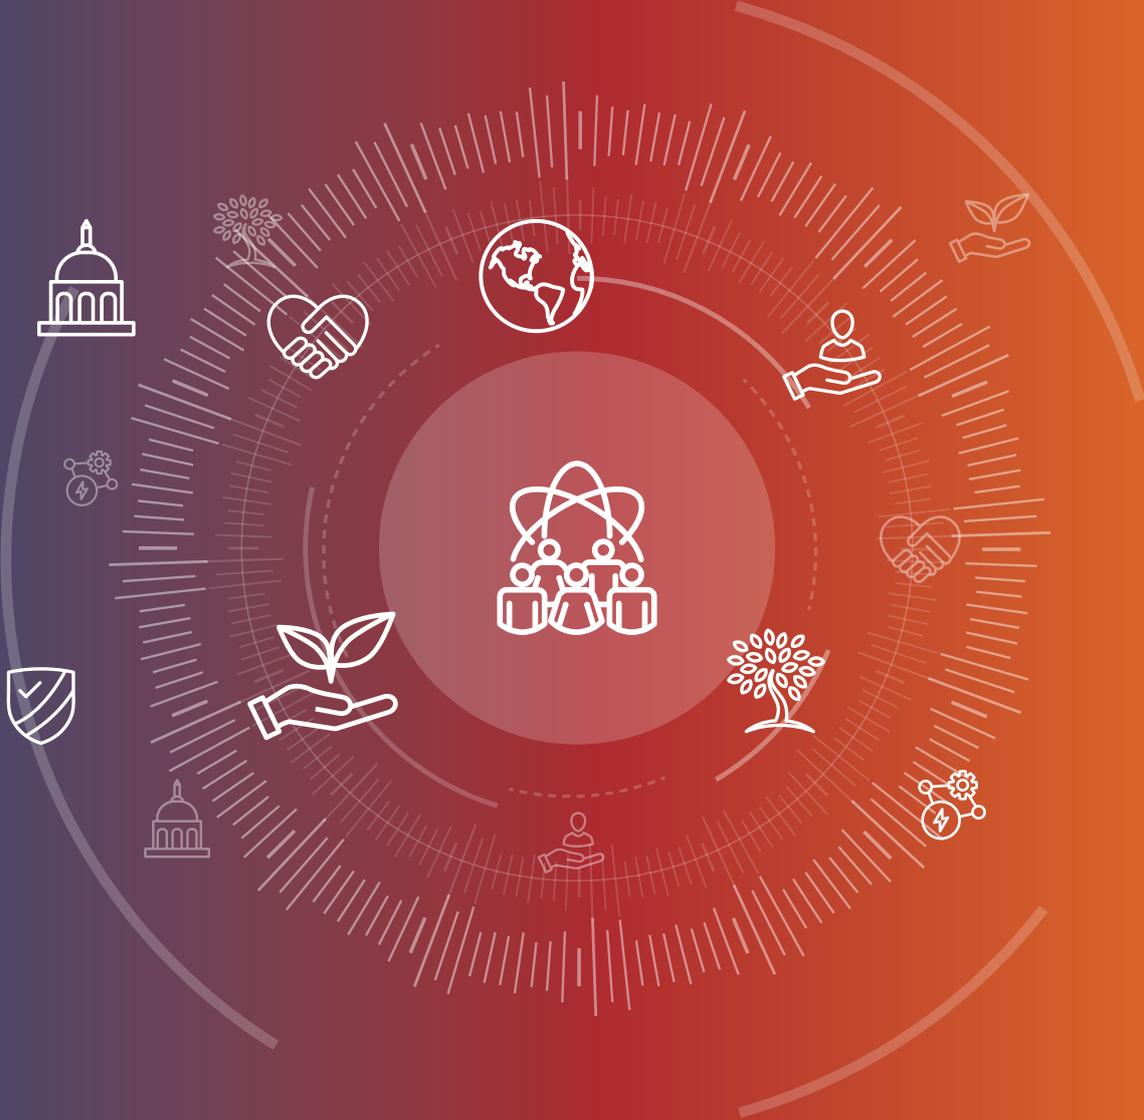

The Results have been determined on a going concern basis, and assume a stable economic, legal and regulatory environment going forward. Any change in the general operating environment would add a high degree of uncertainty to the Results.

Unless explicitly stated, the Results do not consider any external (including regulatory) developments after the valuation date of 31 March 2023.

Yours faithfully,

Richard Holloway FIAI

BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT FY2023

FOREWORD

It gives us immense pleasure to welcome you to the second edition of our Business Responsibility and Sustainability Report (the Report). The Covid-19 pandemic brought in its wake a 'new normal' - a fundamental shift in our economic and social lives and with it a heightened awareness of the environmental and social implications of our business practices.

In May 2021, the Securities and Exchange Board of India introduced new requirements for listed companies to strengthen their sustainability reporting. We voluntarily adopted the Report in FY2022 to align our disclosures with the regulatory framework. Through this Report, we have attempted to demonstrate our commitment to embed ESG considerations as a part of our business strategy by providing comprehensive information about the material aspects of the Company as per the prescribed format.

We believe our Report is a statement of our commitment to govern business with ethics, transparency and accountability, while being responsive to our customers and other stakeholders.

We would like to take this opportunity to affirm that we are committed to integrating ESG parameters in our business practices in line with evolving stakeholder expectations and regulatory sustainability requirements.

Governance, leadership and oversight

7. Statement by director responsible for the business responsibility and sustainability report, highlighting ESG-related challenges, targets and achievements:

Sustainability principles are integrated in our business activities and have guided our vision to build an enduring institution that serves the protection and long-term saving needs of customers. Integral to our business, our sustainability framework is structured on the three principles of Environmental - initiatives and offerings that reduce our carbon footprint; Social - responsible conduct towards all stakeholders along with product and service offerings that benefit the society especially the marginalised sections of society; and Governance - transparent practices that promote trust amongst all our stakeholders.

We believe that in the backdrop of the prevailing social security framework in India, life insurance is an imperative as a financial tool to protect the financial future of citizens. Being in the business of life insurance, we offer unique financial planning opportunities for families to supplement their savings and achieve long-term financial goals. We are committed to fulfilling our responsibility to the society and the environment and we have endeavoured to ensure that Indian families have access to adequate financial protection.

----------------------	-------------------------------	-------------------------------	-------------------------------	-------------------------------	-------------------------------	-------------------------------	-------------------------------	-------------------------------	-------------------------------

We have come a long way from 2020 when we commenced our ESG journey and have since persisted in addressing areas of improvement and initiating disclosures on our ESG practices. Our collective efforts mean that, as of May 2023, we continue to be the highest ranked ESG Company in the Indian insurance industry, according to both MSCI² and Sustainalytics³. We are also delighted to bring to your attention that we have been conferred with the 'Corporate Governance' award at the 'Dun & Bradstreet ESG Leadership Summit 2023'. Working closely with investors and analysts, we strive to take forward our ESG programme by understanding expectations and ways to incorporate the ESG norms deeper into our practices and products.

8. Details of the highest authority responsible to oversee implementation of the Business Responsibility policy (ies).
 N. S. Kannan
 Designation: Managing Director & CEO
 DIN: 00066009
 Category: Executive Director

9. Does the Company have a specified Committee of the Board/Director responsible for decision-making on Sustainability-related issues? (Yes/No). If yes, provide details.
 Yes.
 This year we expanded the terms of reference of our Board Corporate Social Responsibility Committee to include review of sustainability activities and key ESG-related disclosures. The Committee was accordingly renamed as Board Sustainability and Corporate Social Responsibility Committee (BSCSR Committee). Under the BSCSR Committee, we have the Executive Sustainability Steering Committee which comprises members of our management committee supported by a dedicated ESG resource. This Committee sets the ESG agenda and reviews progress. Each ESG focus area is anchored by a senior leader who oversees implementation of initiatives mandated by our Sustainability Steering Committee.
 We have a risk governance structure which consists of the Board, the Board Risk Management Committee and the Executive Risk Committee which is supported by appropriate sub-committees. Sustainability risk forms a part of our Board risk policy.

NOTES TO THE PRINCIPLES

P1 d) **Employee Service Rules:**
 The Employee Service Rules have been framed with the objective of defining the terms and conditions of appointment and service, the rules of conduct that employees need to adhere to at the workplace and to lay down the procedure of disciplinary proceedings in the event of any breach of any policy governing employee conduct at the workplace that may be defined from time to time and also any statutory or regulatory laws as may exist.

P2 The Company complies with the Insurance Regulatory and Development Authority of India (IRDAI) regulations on policies and products thereby contributing to consumer protection. Due regulatory approvals are taken prior to the launch of any product.

The Company demonstrates its commitment to provide products and services in a safe and sustainable manner through the following Board-approved policies:

a) **Product Suitability Policy:**
 The Product Suitability Policy sets out the framework of the Company in accordance with the circulars issued by IRDAI on (a) Benefit illustration and (b) other market conduct and to ensure that the products recommended to customers are suitable and addresses their insurance and investment objectives.

From the product offering perspective, the Company has designed a suitability matrix based on multiple parameters like life stage needs, risk profile etc. Within certain sales channels, only specific products (specially-designed micro insurance products, targeting socially and economically weaker sections) are offered to customers belonging to vulnerable segments. Based on various demographic, financial and health parameters disclosed by the customer, the underwriting process calculates a fair price for the coverage to be assigned to the customer. The Board Customer Service and Policyholders' Protection Committee periodically reviews the framework in place, to ensure the suitable products are recommended to customers to meet their insurance and investment objectives.

b) **Board Underwriting Policy:**
 The Board Underwriting Policy sets out the underwriting approach for management of the mortality and morbidity risk of the Company. Based on various demographic, financial and health parameters disclosed by the customer, the underwriting process calculates a fair price for the coverage to be assigned to the customer. The matters referred under Policy are periodically reviewed by the Executive Risk Committee and Board Risk Management Committee.

c) **Grievance Redressal Policy:**
 The objective of the Company's grievance redressal policy is to ensure that all customers are treated fairly at all times, all queries, requests and complaints, raised by customers are dealt with courtesy, accuracy and resolved in time and the customers are made aware of their rights to enable them to opt for alternative remedies, in the event of their being dissatisfied with the Company's response or resolution to the complaint. The summary of grievances is reviewed by the Board Customer Service and Policyholders' Protection Committee and reported to the Board of Directors of the Company.

d) **Fraud Risk Management Policy:**
 The Policy sets out the roles and responsibilities and the processes to detect fraud, manage response to reported or suspected fraud and deploy measures to prevent or minimise the risk of fraud.

Fraud Risk Management Policy aims to safeguard the reputation of the Company which may get affected due to fraud perpetrated by intermediaries (insurance agent/corporate agent/other intermediaries) against the insurer, policyholders, customers, beneficiaries. Periodic identification, measurement, control and monitoring of fraud risk are reported to the Executive Risk Committee. The ERC reports the key findings to the Board Risk Management Committee every quarter.

LEADERSHIP INDICATORS

1. Awareness programmes conducted for value chain partners on any of the Principles during the financial year.

NIL

2. Does the Company have processes in place to avoid/manage conflict of interests involving members of the Board?

The Company has adopted a Framework for managing Conflict of Interest which articulates several measures taken by the Company in ensuring that conflict of interest is handled in an appropriate manner, at the individual employee level, at the level of Board of Directors and at the Company level. The following four principles govern the Framework for managing Conflict of Interest:

- Protection of customer's interests;
- Transparency and accountability;
- Promoting institutional and individual/personal responsibility; and
- Organisational culture.

PRINCIPLE 2: BUSINESSES SHOULD PROVIDE GOODS AND SERVICES IN A MANNER THAT IS SUSTAINABLE AND SAFE.

ESSENTIAL INDICATORS

- 1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impact of product and processes to total R&D and capex investments made by the Company.**

Considering the Company's nature of business, R&D outlay and capital expenditure were primarily to investments in information technology. Accordingly, investments were made by way of addition to capital assets in the form of IT infrastructure like equipment, software and communication networks to give impetus to the Company's digital initiatives. The share of investments in R&D and capex on account of information technology was 89.4% (85.6% in FY2022) of total addition to fixed assets by the Company.
- 2. Does the Company have procedures in place for sustainable sourcing? If yes, what percentage of inputs were sourced sustainably?**

The nature of the Company's business is to provide insurance and pension. Therefore, consumption of resources is limited to running its operations.
- 3. Describe the processes in place to safely reclaim the Company's products for reusing, recycling and disposing at the end of life for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.**

As a financial services Company, whilst there is limited scope for using recycled material as inputs for various business processes, the Company continually seeks out opportunities to recycle waste. E-waste such as computers, printers, switches, scanners have been the primary e-waste generated in the Company. Nearly 47,369 kgs of e-waste generated has been disposed through authorised recyclers since FY2021 and 36,071 kgs in FY2023. Re-cycling certificates have been received from selected government authorised e-waste vendors.

The Company has e-waste collection bins at 50 branches pan India for employees and visitors to deposit their e-waste so it can be disposed through certified E-waste vendors.

The Company has taken multiple initiatives for minimising usage of single-use plastic water bottles, which have been replaced with reusable water jars and glasses, across our offices. The Company has also replaced plastic garbage bags with bio-degradable bags and plastic dustbins with steel ones. Re-usable plates are used at the cafeteria in the corporate and back office which house the largest number of employees to promote sustainability.
- 4. Whether Extended Producer Responsibility (EPR) is applicable to the Company's activities (Yes/ No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.**

Not applicable.

LEADERSHIP INDICATORS

- 1. Has the Company conducted Life Cycle Perspective/Assessments (LCA) for its services? If yes, provide the details.**

No, the Company has not conducted any LCA for its services.
- 2. If there is any significant social or environmental concerns and/or risks arising from production or disposal of products/services, as identified in the Life Cycle Perspective/Assessments (LCA) or through any other means, along with action taken for mitigation.**

Not applicable.
- 3. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).**

NIL.
- 4. Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled and safely disposed:**

All employees of the Company undergo an annual performance appraisal process as determined by the Company. The Company has an established performance and talent management framework. The objectives of this framework are three-fold: a) To ensure alignment to the Company's Key Performance Indicators (KPIs) as set out by the Board and ensure clarity of purpose across levels, b) To create a talent pipeline by nurturing high potential talent, c) To enable differentiated rewards and capability development to help ring fence talent for the future. The Company has a structured performance management process aligned to the Company KPIs as set out by the Board. These are then cascaded in the form of functional KPIs through the Balanced Scorecard process and further as individual KPIs based on the nature of role and responsibilities.

The Company has a well-defined succession planning process to facilitate the development and career planning of high potential talent, mitigate vacancy risk arising from attrition and ensure business continuity. A framework is in place for identifying key roles and measuring the depth of leadership cover for each role by identifying successors who can move to the role either immediately or over a period of time or by restructuring the role to mitigate vacancy risk and ensure business continuity, where successors are not immediately available to fill the vacancy. Based on the number of successors identified, their readiness to move to the next level role and the feasibility of conducting restructuring in the event of the role holder's exit, a score called the Leadership Cover Index (LCI) is derived for each key role. An annual exercise is carried out to identify the LCI for each key role along with the talent development actions and is reviewed annually by the Board Nomination and Remuneration Committee.

10. Health and safety management system

a. Whether an occupational health and safety management system has been implemented by the Company (Yes/No). If yes, the coverage of such system?

The Company has stringent guidelines to ensure safety of its employees and property. These include policies on fire safety that cover rules pertaining to fire-fighting equipment, emergency exits, floor marshals for each office, fire drills and other safety parameters for office maintenance and a process for regular certification on all parameters for each office. Adherence to the Health, Safety & Environment guidelines is confirmed by branches on a monthly basis and is regularly reviewed internally. There are periodic checks on electrical and fire safety parameters by an external agency and the issues highlighted are rectified immediately. To provide a safe, secure, and supportive work environment, the Company has put in place a holistic well-being framework for employees focussing on physical, mental and financial well-being. Various initiatives are undertaken around the three-pronged approach that involves building awareness, instituting enabling policies and facilitating habit formation.

Building awareness

Well-being webinars on various topics were delivered through a tie-up with service providers and in-house subject matter experts to build awareness around critical illnesses, such as heart-related diseases, cancer, diabetes, women-centric health themes etc. The well-being webinars were conducted on World Diabetes Day, International Women's Day etc. The webinars also highlighted the importance of preventive measures to enable healthy living habits. In addition, mental health awareness was strengthened through webinars on mental health, digital and screen detox, stress management etc. Life stage-based financial needs was also a key theme for building awareness and financial literacy amongst employees, with topics of personal budgeting, maintaining a healthy credit score, benefits of compounding and will-making and succession planning being covered during the year.

Enabling policies

Various policies are in place to encourage employees to focus on their health and well-being in a proactive manner. Medical tele-consultation is available for employees and their families through a panel of doctors. In addition, an employee assistance program, in tie-up with a service provider, is in place to facilitate mental health conversations with qualified professionals. Nudges to employees were enabled around these policies on the occasions of World Heart Day, World Breast Cancer Awareness Month, World Diabetes Day and World Cancer Day. In addition, the Company has adopted policies on employee benefits for protection of health and well-being such as Group term insurance and personal accident insurance. The Company encourages employees to take on additional health insurance coverage for self and family through a service provider at discounted rates. All employees and their immediate families are eligible for hospitalisation coverage and annual health check-up based on age and tenure criteria.

Facilitating habit formation

The Company facilitated the formation of healthy living habits as part of employees' daily lives, through specific initiatives in FY2023. On World No Tobacco Day, the #CommitToQuit campaign was launched to encourage employees to take a pledge to quit smoking. The campaign not only communicated the ill effects of smoking, but also inspired smokers to quit smoking through the sharing of stories by other employees who had stopped smoking. A follow-up campaign was run for those who registered to quit smoking, with frequent nudges and encouragement being provided over a period of three months to facilitate their journey in the campaign.

On International Yoga Day, yoga sessions in partnership with a service provider were conducted for employees to encourage the formation of healthy habits. In addition, a step tracking program 'StayFit' was launched on World Heart Day. This step tracker was made available to employees on the Company's employee self-service app ATOM. Around mental health, employees were nudged to incorporate habits that help take care of their mental well-being. On World Mental Health Day, the 'Mental Health Bingo' card and 'I De-stress myself by ...' campaigns were launched for all employees across the Company's top 20 offices. The campaigns nudged employees to take small steps around physical activities, mindfulness, understanding and processing thoughts and reaching out to loved ones.

4. Does the Company have a focal point (Individual/Committee) responsible for addressing human rights impact or issues caused or contributed to by the business (Yes/No)

The Chief of Human Resources oversees and addresses any issue arising from any human rights impact or issues caused or contributed to by the business.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Company has several Board-approved policies and internal guidelines to redress grievances related to human rights issues.

With regard to internal mechanisms centred around the policies, the Company has constituted the Governance team as a part of the Human Resources function to ensure that all employee-related grievances are suitably investigated and action is taken as per due process stipulated in the Employee Service Rules. Employees are encouraged to register any grievance that they may have against any employee, agent, partner and customer or report any breach of the Code or any of the Company policies.

The Company has instituted “egov” portal on the Company’s intranet for employees to record and register their grievance. The egov portal serves as the repository of all relevant information pertaining to each grievance and for purpose of monitoring and tracking of all grievances for timely resolution. Employees may also write their grievance over email to employeeassist@iciciprulife.com or raise their grievance through their line hierarchy or Human Resources. Anonymous grievances are also recorded in the egov portal. On receipt of the grievance, the Governance team examines the nature and type of the grievance and accordingly, classifies the same under five categories – Fraud, Behaviour, Other Code violation, Policy or Process violation and Sexual Harassment. For grievances pertaining to sexual harassment, the Internal Complaints Committee (ICC) is constituted in line with the provisions of The Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013 to investigate the case.

The Company has a Board-approved Grievance Redressal Policy for customers that includes the redressal framework for ensuring prompt and effective resolution of grievances. The service recovery team is responsible for investigating, evaluating and deciding on the resolution of grievances. The service recovery team operates as an independent central grievance redressal unit to ensure that the resolution provided for each and every grievance is done in a fair and impartial manner. The Company offers multiple channels to report grievances such as branches, e-mail/letter, website/mobile app, contact centre, sourcing intermediary and social media. The Company’s approach to grievance resolution includes a thorough review of the profile and concerns of the customer, the product offered, fact-finding and evidence gathering both from the customer and sourcing intermediary (as maybe applicable). The Company aims to offer the best possible solution to the customer after taking into account the findings of the investigation and extant policies, rules and guidelines. In case of dissatisfaction with the resolution, the customer has the option to escalate to the next level for redressal.

6. Number of complaints on the following issues made by employees

Category	FY2023			FY2022		
	Filed during the year	Pending resolution at the end of the year	Remarks	Filed during the year	Pending resolution at the end of the year	Remarks

* The complaints have been investigated as per The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

**The one pending complaint as on March 31, 2023, stands resolved as on the date of the report.

*** The four pending complaints as on March 31, 2022 were resolved subsequently.

7. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

The Company's employee promise is built on the cornerstones of fairness and meritocracy, learning and growth and providing a supportive environment. The essence of fairness and meritocracy constitutes strict adherence to a rules-based policy framework that is non-discriminatory and offers equal opportunity to all individuals irrespective of their gender, religion, caste, race, age, community, physical ability or sexual orientation. The Company endeavours to ensure a safe, secure and congenial work environment, so that employees can deliver their best without inhibition. The Company has put in place a robust grievance redressal process for investigation of employee concerns pertaining to workplace harassment and sexual harassment and has instituted a code of conduct, employee service rules and The Prevention of Sexual Harassment at the Workplace policy that clearly delineates employee responsibilities and acceptable employee conduct. Together, these constitute the foundation for promotion of a diverse and inclusive culture at the workplace.

The Prevention of Sexual Harassment at the Workplace policy includes guidelines to prevent adverse consequences to complainants:

- a) Any concerns can be expressed or reported without any fear of retaliation. The Internal Complaints Committee maintains confidentiality of the identity of involved parties.
- b) Privacy during Committee meetings are ensured to maintain confidentiality.
- c) In addition, the option to change the current location of posting and/or avail of leave during the interim period until the investigation is completed is provided to the complainant.

PRINCIPLE 9: BUSINESSES SHOULD ENGAGE WITH AND PROVIDE VALUE TO THEIR CONSUMERS IN A RESPONSIBLE MANNER

ESSENTIAL INDICATORS

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback

The grievance redressal policy for customers includes a redressal framework to ensure prompt and effective resolution of grievances. The service recovery team, which is an independent central grievance redressal team, is responsible for investigation and evaluation of the grievance as well as taking the decision for resolution, in a fair and impartial manner. The Company offers multiple channels to report grievances such as branch, e-mail, letter, website, mobile application, contact centre, sourcing intermediaries and social media. The process to manage a customer's grievance includes a thorough review of the customer's concern and investigation through fact-finding and evidence. The Company offers the best possible solution after a review of the customer's profile and product offered after taking feedback from the sourcing intermediary (as applicable). If a customer is not satisfied with the resolution, he or she can escalate it to the Company touchpoint (level 01), Grievance Redressal Officer (level 02) and Grievance Redressal Committee (level 03).

External avenues such as the Ombudsman office and the IRDAI are also available to the policyholder, details of which are made available on the Company website and in the policy document.

The Company has a digital grievance management platform to upload, respond and monitor disposal of customer grievances.

The process of complaint redressal from grievance registration to resolution is as follows:

Registration of Complaint

The Company's digital complaint management platform collates the complaints received through emails, website or social media. The complaints are registered with the service recovery team, which is an independent central grievance redressal (GR) body. Complaints received through the IRDAI or National Consumer Helpline are also directed to the GR team.

Complaint Acknowledgement

On registration of a complaint, an acknowledgement is sent to the customer informing that the complaint is being investigated and assuring that a response shall be provided within the regulatory turnaround time.

Assignment of Complaint

The GR team investigates the facts and the evidence. Depending on the subject of the complaint, the GR team also directs the complaint to the department concerned as part of its investigation efforts. Response received by the department is then evaluated.

Complaint Evaluation

The facts of the case are noted and the area of concern is reviewed. All complaints are handled by the GR team to ensure a prompt, fair and an effective resolution. The team analyses the problem and assesses the root cause of the conflict. The team takes a decision for the resolution of the complaint. Feedback is also provided to the relevant department to ensure that the same problem does not recur.

Resolution

The customer is informed of the decision by the GR team and the steps for resolution. If a customer is not satisfied with the resolution, they can escalate the issue to the Grievance Redressal Officer and beyond that to the Grievance Redressal Committee.

The GR team monitors the redressal of all complaints and the quality of response provided to the customer. It also monitors pendency and regularly shares its analysis with the Company. The summary of grievances are reviewed by the Board Customer Service and Policyholders' Protection Committee and reported to the Board of Directors of the Company.

4. Details of instances of product recalls on account of safety issues.

NIL.

5. Does the Company have a framework/policy on cyber security and risks related to data privacy. If available, provide a web-link of the Policy.

Yes, the Company has an information and cyber security framework that ensures all information assets are safeguarded by establishing policy and comprehensive management processes throughout the organisation so that customer and business information is protected adequately through appropriate controls and proactive measures.

The Information and Cyber Security Policy (the Policy) has been approved by the Board and the Company has put in place an internal governance committee to review the information and cyber security programme. The Policy is available to internal stakeholders on the Company's intranet.

The Company's internal governance body, the Information and Cyber Security Committee (ICSC), oversees and guides the implementation of suitable controls. The ICSC reports to the Executive Risk Committee. Updates on Information Security related matters are also discussed at the Board Risk Management Committee every quarter and the Committee's guidance is sought, in this regard.

The controls include deployment of security solutions like firewall, intrusion prevention system, anti-malware solutions and data loss prevention. A programme for vulnerability assessment of critical information technology applications and infrastructure has been put in place, to proactively identify issues and address it timely. Further, monitoring mechanism, has been put in place to monitor cyber security events. This helps the Company to detect and speedily respond to any threats to its network, application and infrastructure.

The Company has a privacy policy in accordance with Information Technology (Reasonable security practices and procedures and sensitive personal data or information) Rules, 2011. The policy provides the Company's commitment to privacy throughout the life-cycle of the information from collection, processing, sharing, retention and destruction, by taking reasonable steps to protect the confidentiality of the personal information and protect it from unauthorised access or alteration, disclosure or destruction. Privacy policy is hosted on Company's website (Link: <https://www.icicprulife.com/privacy-policy.html>)

6. Provide details of any corrective actions taken or underway on issues relating to advertising and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty/action taken by regulatory authorities on safety of products/ services.

In this regard, no material corrective action was required to be taken by the Company in FY2023 other than the following measures for mitigation of customer grievances related to potential mis-selling, as indicated below:

- Persistency as one of the key factors in determining the performance of the agent;
- Intensive training programmes are conducted through which the frontline sales force and partners are provided different types of training including customer need analysis. Most product training modules also identify the target customer segment for each product which helps the sales teams to sell the right product;
- Product suitability is conducted at the time of sale to ensure that the policyholder is offered the appropriate plan;
- In cases of Bancassurance business, products are recommended to customers based on their risk profile as mandated by banking regulations;
- Channel-based verification through phone call or digital mode is done prior to policy issuance;
- Various controls at the policy on-boarding stage have been introduced over the years at the Company level. These safety mechanisms shift from physical application forms to digital forms, digital customer declaration consent, capturing of customer contact details at the on-boarding stage, data pre-population for corporate banks, KYC verification through credit bureaus and partner integration have all helped to ensure smooth on-boarding of customers;
- Policyholders are kept proactively updated on key policy details through SMS/email throughout the policy life cycle;
- The Company updates the policy status of the policyholders through SMS at all relevant milestones on receipt of the proposal form, intimation on issuance of policy and despatch of the policy document;
- The Company communicates key features of the policy through a key feature document (KFD) sent along with the policy document. This communication highlights the key features of the product, including product type, premium amount, premium paying term and policy term. The communication is sent in different languages like English, Hindi, Marathi, Tamil for region-specific plans;
- The Company engages and sensitises intermediaries on instances of mis-selling and has discontinued its business with broker channels having a high incidence of mis-selling complaints. Within certain sales channels, only specific products (specially-designed micro insurance products, targeting socially and economically weaker sections) are offered to customers belonging to vulnerable segments.

LEADERSHIP INDICATORS

1. Channels/platforms where information on products and services of the Company can be accessed (provide web link, if available).

Information relating to all the products and services provided by the Company are available on the Company's website, www.iciciprulife.com. In addition, the Company actively uses various social media and digital platforms to disseminate information on its products and services.

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

Quarterly communication is sent to active customers to educate them on spurious calls even though the spurious call disclaimer forms part of all customer communications. Communication promoting in-house digital platforms that provide various customer services is sent to customers periodically.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

The Company has in place a communication mechanism to inform customers in advance about relocation of branch or branch closure along with details of the alternate servicing branch. In case of any natural calamity, a communication is sent to customers informing them of assistance with claim processing that also promotes various touchpoints to enable faster and hassle-free processing of claims in a multilingual format. During pandemic, communications were sent at various intervals to promote self-help and digital modes of services.

4. Does the Company display product information about the product over and above what is mandated as per local laws? If yes, provide details in brief. Did the Company carry out any survey on consumer satisfaction relating to the major products/services of the Company, significant locations of operation of the Company or the Company as a whole?

To continuously improve the quality of insurance products and services delivered to its customers thus resulting in a highly recommended and trusted brand, the Company has in place a robust framework for managing customer experience. This framework involves a holistic measurement system which not only captures customer satisfaction through CSAT studies but also measures how many customers are likely to recommend the brand to others, by conducting regular Net Promoter Score surveys after experiences such as purchasing a new insurance policy or making a claim. The Company on a continuous basis captures the experience of customers buying a new life insurance policy or transacting across various touchpoints. As part of this exercise, once the customer's transaction is completed, feedback is solicited using multiple mechanisms such as out-calling, e-mail, SMS, IVR, pop-up on the logout page of the secured website, mobile app and on chat-bot. In addition, a rigorous internal process ensures that insights generated from the measurements are reviewed across multiple levels within the organisation and translated into actions such as process and system improvements, for enhancing various facets of customer experience.

5. Provide the following information relating to data breach.

a. Number of instances of data breaches along with impact.

No data breach reported in FY2023.

b. Percentage of data breaches involving personally identifiable information of customers.

No data breach reported in FY2023.
