12. Overview of the entity’s material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Occupational Health and Safety (OHS)	Risk	Occupational Health and Safety (OHS) pose significant risks to the Company’s operations. The Company understands the potential impact of workplace accidents, injuries, and environmental pollution on its workers and employees. By prioritizing OHS, the Company aims to mitigate these risks and ensure the sustainable growth of the Company’s business.	The Company regularly assesses risks through periodic health and safety reviews at all plant locations. Training programs are provided to workers and employees, ensuring compliance with relevant laws and regulations to establish a safe and healthy work environment. The Company has also implemented a comprehensive grievance redressal mechanism to effectively address concerns related to Health and Safety.	Negative
2.	Social responsibility towards society	Opportunity	The Company sees social responsibility towards society as an opportunity. By investing in initiatives that promote sustainability, diversity, and education, the Company strives to enhance its reputation, build goodwill, and gain a competitive advantage. Additionally, the Company’s efforts can have a positive impact on the communities where we operate, promoting economic development and sustainability. Overall, social responsibility is both a moral obligation and a strategic opportunity that we are committed to pursuing.		Positive
3.	Energy Management	Opportunity	The Company recognizes that energy management presents a valuable opportunity to enhance efficiency, profitability, and environmental impact. By developing and implementing a robust energy management strategy, the Company can identify areas of waste and optimize energy usage, resulting in cost reduction and improved financial performance.		Positive

			Additionally, prioritizing energy efficiency and sustainability contributes to enhancing the Company's brand reputation.		
4.	Reduction in emission of carbon and other hazardous gases	Opportunity	<p>With the increasing awareness of the environmental impact of industrial activities, there is a growing demand for sustainable solutions that minimize harm to the environment. The Company recognizes this trend and is committed to investing in and developing low-carbon technologies and eco-friendly processes. By doing so, the Company aims to become a leader in the sustainable manufacturing industry, meeting the evolving needs of customers and contributing to long-term success and profitability.</p> <p>Furthermore, reducing emissions of carbon and other hazardous gases offers not only environmental benefits but also potential cost savings. Through the adoption of energy-efficient technologies, waste reduction, and process optimization, the Company can achieve operational efficiencies and financial savings. Additionally, prioritizing sustainability can help the Company comply with stricter environmental regulations, mitigating the risk of penalties or litigation.</p>		Positive
5.	Supply Chain Management	Risk	<p>The Company understands that supply chain management is a potential risk. Any disruption in the flow of raw materials, transportation or logistics can cause delays in the manufacturing processes, resulting in loss of productivity and revenue. In addition, market uncertainties, political instability, and natural disasters can also pose significant risks to the supply chain. Procurement can be negatively impacted by the supply chain's high dependency on a limited number of suppliers or vendors</p>	<p>The Company has established long-standing relationships with multiple suppliers/vendors. Continuous discussions and communication are maintained with these suppliers/vendors to ensure uninterrupted production and timely availability of required supplies. The Company focuses on building resilience to disruptions, and proactive risk management.</p>	Negative

6.	Risk Management and Cyber Security	Risk	The Company is exposed to cyber-attacks, data breaches, and ransomware, which can result in financial loss, damage to reputation, and loss of customer trust.	The Company has established a comprehensive Risk Management Policy to effectively manage and mitigate risks. This policy provides a framework for addressing various risk-related issues. In addition, the Company has implemented a robust cybersecurity policy, prioritizing the identification and resolution of cybersecurity threats. Complemented by a well-defined IT policy, the Company takes proactive measures to prevent incidents and minimize potential damages.	Negative
7.	Water Management	Opportunity	The Company strives to develop innovative water management solutions, aiming to reduce overall water consumption, lower operating costs, and improve environmental performance. These efforts enable the Company to comply with regulations, enhance its reputation, and improve market competitiveness.		Positive
8.	Human Rights	Risk	Ignoring or violating human rights can result in negative media attention, consumer backlash, legal action, supply chain disruptions, reduced innovation, and decreased profitability. It is crucial to address these risks proactively to avoid negative consequences and promote a sustainable business future.	The Company prioritizes the protection of human rights through well-defined policies and practices, which are integral to the Company's Code of Conduct. To ensure compliance, the Company provides comprehensive training programs to employees specifically covering human rights topics	Negative
9.	Product Quality and Safety	Opportunity	Product quality and safety are crucial for an industrial component manufacturing Company to maintain customer trust, comply with regulations, and mitigate risks. A product defect or safety issue can lead to financial loss, legal consequences, damage to reputation, and loss of customer trust. Therefore, the Company strives to invest in quality control measures, comply with regulations and standards, and continuously improve product quality and safety through research and development.		Positive

At Jai Corp, we firmly believe in the importance of sustainable development and uphold a strong focus on environmental, social, and governance (ESG) parameters. Recognizing the impact our operations have on the environment, we are dedicated to minimizing any adverse effects while promoting responsible practices.									

We have implemented various measures to minimize our carbon footprint throughout our business operations. These efforts encompass adopting energy-efficient technologies, optimizing production processes, and exploring renewable energy sources. By actively working towards reducing carbon emissions, we contribute to global initiatives in combating climate change.

Apart from carbon reduction, we place great emphasis on mitigating other environmental impacts. This entails implementing sustainable waste management practices, conserving water resources, and promoting biodiversity conservation. We consistently encourage our supply chain partners to identify opportunities for reducing their environmental footprint.

Our commitment to sustainable development extends beyond environmental considerations. We strive to be responsible corporate citizens by actively engaging with the needs of society. This includes supporting local communities, promoting fair labor practices, and ensuring the health and safety of our employees and stakeholders.

We remain dedicated to our vision of sustainable growth and are continually striving to improve our practices. Thank you for your support and collaboration as we work towards a better future for all.

R&D	The Company understands that it has not yet allocated funds for research and development to improve the environmental and social effects of its operations. However, the Company is aware of the importance of these efforts and plans to carefully consider them in the future.		
Capex			
	Moving forward, the Company is committed to exploring and prioritizing investment opportunities that align with its dedication to sustainability and responsible business practices. It will thoroughly evaluate its current operations, environmental impact, and social influence to find ways for improvement.		
	The Company recognizes the benefits of investing in sustainable technologies and practices for long-term value. It is determined to find innovative solutions that enhance its environmental and social impact while also benefiting its stakeholders.		

2. Does the entity have procedures in place for sustainable sourcing? (Yes/No) b. If yes, what percentage of inputs were sourced sustainably?

Yes, the Company has established procedures for sustainable sourcing. Specifically, the polymers, namely polypropylene and polyethylene, are 100% sustainably sourced from a domestic manufacturer of petrochemical products. Thorough planning is conducted, taking into account the production plan, to ensure that the materials are sourced accordingly. The primary raw materials, PP/HD/LD, are obtained from domestic manufacturers of petrochemical products, while a small quantity of ancillary materials is procured from local vendors. These sourcing practices reflect the Company's commitment to sustainability and responsible procurement.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

(a) Plastics (including packaging): The Company has implemented processes to safely reclaim plastic products for reuse, recycling, and disposal at the end of their lifecycle. This involves segregating plastic waste based on type and ensuring proper collection and storage. The Company enhances its recycling capabilities, transforming collected plastic waste into valuable resources for reuse. Moreover, the Company actively explores innovative strategies to reduce plastic packaging, encouraging the adoption of recycled materials and actively participating in circular economy initiatives. Through these proactive measures, the Company takes a holistic approach to minimize plastic waste generation and actively contribute to a more sustainable future.

(b) E-waste: The Company has established procedures for the safe reclamation of electronic waste (e-waste). This includes proper collection, storage, and transportation of electronic products that have reached the end of their life. The Company ensures compliance with relevant regulations and collaborates with authorized e-waste recyclers. These recyclers utilize environmentally sound methods to extract valuable components and materials while ensuring the safe disposal of hazardous substances. The Company promotes awareness among employees and stakeholders regarding the proper disposal of e-waste and encourages responsible e-waste management practices.

(c) Hazardous waste: As part of its commitment to environmental stewardship, the Company has implemented stringent processes for handling hazardous waste. This includes identifying and segregating hazardous materials generated during manufacturing processes, storage in designated containers, and adherence to applicable safety and disposal regulations. The Company engages licensed and certified waste management vendors for the collection, transportation, treatment, and disposal of hazardous waste.
