Nagarnar Steel Plant Ready to Begin Ops

Process for disinvestment started while it was under construction

Tweeh Mishra
@timesgroup.com

New Delhi: Twenty years after the first foundation stone was laid, the Nagarnar Steel plant, built at an investment around ₹24,000 crore, is set to begin operations in the coming few weeks, a top government official told ET.

The plant is also in line for disinvestment, the process for which started while it was under construction. "There are no concerns about project viability and completion any more. This should help in fetching a better price for disinvestment, if the process goes through," the official said.

Post-commissioning, the day-to-day operations of the steel plant will be managed by ACCON Limited, another public sector undertaking. According to officials aware of the plan, iron-ore for this project

will be sourced from NMDC's mines while the required coking coal will be imported.

The first foundation stone for this 3-million-tonne-per-annum (mtpa) steel plant was laid in 2003 by then deputy PM K. Advani. This project was aimed at integrating Naxalbit Bastar (in Chattisgarh) with economic progress of the rest of India. Land for this plant was acquired by the Chattisgarh government in the early 90s.

It was initially planned that NMDC Steel Authority of India Limited (SAIL) and Rashbia Ispat Nigam Limited (RINL) will implement this project.

But by 2008, it was decided that NMDC alone will complete the project. Another foundation stone for this project was laid in the same year by then Steel Minister Ram Vilas Paswan and Chattisgarh Chief Minister Raman Singh.

Subsequently, a fresh push for completing the project was made in 2019 but hurdles such as cost overruns for it continued to plague execution. In 2022, Paswan and Singh once again laid the foundation stone for the plant.

Each time the plan was to complete the steel plant within the coming four years.

The Centre, in October 2022, decided to disinvest the Nagarnar Steel Plant.

Later in October 2022, NMDC Steel Limited (NSL), the steel plant's holding company was demerged from the parent company.

The Centre's plan to divest stake in NSL is being opposed by the Chattisgarh government that has also offered to buy the Centre's 50.79% stake to maintain the public sector status of NSL. NMDC will be offered 10% stake in NSL, post divestment. The remaining stake in this listed entity is with non-promoter entities.

Gaming Cos Write to Centre, Seek Distinction from Fantasy Sports on Tax

Chennai: Close to 100 online casual skill gaming companies have written to the Ministry of Finance and all GST Council Members seeking distinction on tax treatment from fantasy sports citing fundamental differences in business models

and how they generate revenues. "The gaming companies with a combined user base of over 400 million users, urged not to be clubbed with games of chance in their submission," the statement from the companies read. "They also highlight the representation that GST on Deposits would result in closure of all continuous game formats that have very weak price elasticity as up to 25% of the deposit money is withdrawn back by the user in a way of winnings. The representation that was made by companies that represent Esports, card games and casual games claimed that in the case of fantasy sports, players do not play live against each other.

LS Passes MMDR Amendment Bill

New Delhi: The Lok Sabha Friday passed the Mines and Minerals (Development and Regulation) Amendment Bill, 2023, which seeks to open up mineral exploration for critical and deep-seated minerals for the private sector and empower the Centre to exclusively auction mining leases.

Union minister for coal and mines Pralokaj Joshi moved the bill for consideration and passage in the lower house

amid protests by Opposition over Manipur. Under the existing framework, state governments own mineral rights. Even in case of conduct of auction by the central government, the mineral concession shall be granted to the selected bidders by the state government only and the auction premium and other statutory payments shall accrue to the state government," Joshi had said while introducing the bill in LS.

As per the statement of objects and reasons for the bill, it would help hasten the pace of auction and early production of critical minerals such as lithium, cobalt and graphite that are crucial for electric vehicles and batteries. Nickel, platinum, and tin-bearing minerals are also among the 26 that are proposed to be brought under the ambit of the Centre.
