Indian Automotive Industry Performance – Q1 FY22

Commentary

- Y-o-Y volume grew as last year was complete lockdown for most part of the Quarter.
- Onset of second wave of covid-19 had an adverse impact on automobile production for the quarter, the production volumes declined by 35.1% Q-o-Q to 48.30 Mn in Q1 FY22 from 74.43 Mn in Q4 FY21
- Volumes were impacted by:-
 - Lockdown in most of the states in phases during the Quarter
 - Lower Consumer Sentiment

We remain cautiously optimistic for the remaining part of the financial year and hoping for slow but gradual recovery both in Economy as well as Automotive sales supported by higher spend on infrastructure and normal monsoon.

Consolidated Performance – Q1FY22

(Rs. Million)	Q1	Q1	Q4
	FY22	FY21	FY21
Operating Revenue	5,586	1,780	7,941
Growth %		213.8%	(29.7)%

<i>Margin (%)</i>	5.5%	(11.4)%	11.2%

PAT from continuing operations	71	(363)	546
<i>Margin (%)</i>	1.3%	(19.4)%	6.8%

Commentary

Overall Revenue of Rs. 5,586 million for the Quarter:

- Continued operation showed growth of 213.8% Y-o-Y and decline of 29.7% Q-o-Q
- Export helped us in Resilient Business performance and better than the Industry growth despite challenging macro-economic scenario

EBITDA margin at 5.5% in Q1 FY22 :-

- Impacted by lower fixed cost absorption due to second wave impacting the industry
- Lower Aftermarket Sales, Product Mix and Lag of Commodity price indexation had adverse impact
- Company continues to implement several cost control measures for fixed cost

Net Profit of Rs. 71 million

- Share of **profit** in JV of Rs. 26 million in Q1 FY22 as against loss of Rs. 58 million in Q1 FY21

Mechatronics, Aftermarket and Others

(in Rs. mn)

- The growth in revenue is seen Y-o-Y as last year was complete lockdown due to 1st wave of Covid.
- The de-growth in revenue Q-o-Q is seen due to second wave of Covid. Lower than market fall as export supported the vertical.
- EBITDA margin came at 8.8% due to
 - Lower operating leverage
 - Supported by various cost control measures

Information & Connected Systems

(in Rs. mn)

- The growth in revenue is seen Y-o-Y as last year was complete lockdown due to 1st wave of Covid.
- The de-growth in revenue Q-o-Q is seen due to second wave of Covid.
- EBITDA margin at 0.5% due to
 - Lower operating leverage as capacity utilization has fallen below 50%.
 - Adverse product mix, lag of commodity indexation
 - Supported by various cost control measures
