Insecticides (India) Limited's Research & Development Centre at Chopanki, Rajasthan gets prestigious GLP Certification by DST, Govt. of India

- This Certification is being given for the test facility of the Research & Development Centre
- At Present there are only 52 GLP Certified Test Facilities of NGCMA, India

New Delhi, 6th July, 2022: Adding another feather to its cap, **Insecticides (India) Limited (IIL)**, the country's leading crop protection company, has been given the prestigious GLP (Good Laboratory Practise) compliance certification for one of its Research Lab at Chopanki, Rajasthan by National Good Laboratory Practice (GLP) Compliance Monitoring Authority (NGCMA) of Department of Science & Technology (DST), Government of India.

This is a highly coveted accreditation so far awarded to just 51 labs in India. IIL's Chopanki, Rajasthan-based lab is now the 52nd in India to receive this Certification.

Commenting on the milestone, **Mr. Rajesh Aggarwal, Managing Director, IIL**, said, "We are committed to agricultural research and development since inception and work tirelessly to provide the latest technology to our farmers. Our efforts and the uttermost care we take in adhering to all good practices that are anticipated out of a world-class labs are reflected in this latest certification for our Chopanki R&D lab. With this, we look forward to get an edge for our research and registrations in India and globally. NGCMA GLP compliance certification has been acknowledged by major nations worldwide."

Dr. Mukesh Kumar, Vice President also mentioned "GLP certification has been given to our Research Facilities at Chopanki by the name of Sanskriti Research Foundation. GLP is a reputed certification which an R&D Laboratory receives, to produce authentic Data. There are only 52 certified Test facilities of NGCMA, India which are producing the data for the Chemical registration for India and in other countries. This will add a credibility to the research and its findings, globally."

Insecticides (India) Limited's three QA(Quality Assurance) Labs & QC(Quality Control) at Chopanki, Dahej and Samba have already been recognised by the National Accreditation Board for Testing and Calibration Laboratories (NABL) which shows its adherence to the standards and process in the pursuit of the best quality products. NABL is Mutual Recognition Arrangements (MRA) signatory to ILAC as well as APAC for the accreditation of Testing and Calibration Laboratories (ISO/IEC 17025). Such MRA reduces technical barrier to trade and facilitates acceptance of test/ calibration results between countries which MRA partners represent.

Today IIL has four different streams of state of the art R & D Facilities at different locations that includes new product discovery, backward integration, new combinations and formulations and Biologicals. IIL has been granted with 13 product patents and 4 process patents so far and more than 12 patents are under process. The company was recently granted two significant patents for novel agrochemical compounds as well.

About Insecticides (India) Limited :

Insecticides (India) Ltd. (IIL), is a BSE and NSE listed, India's leading and one of the fast growing Crop care and nutrition companies. IIL has emerged as a front-line performer in India's crop care market and is all set to grow impressively.

IIL owns the prestigious "Tractor Brand" which is highly popular among the farmers. This umbrella brand of its agro products signifies the company's deep connection with the farming community. Leading products of IIL are Pulsor, Green Label, Hakama, Monocil, Lethal Gold, Hercules, Sofia, Hachiman, Kunoichi, Shinwa and Torry

IIL has state-of-the-art formulation facilities at Chopanki (Rajasthan), Samba & Udhampur (Jammu & Kashmir) and Dahej (Gujarat). IIL also has technical synthesis plants at Chopanki and Dahej to manufacture technical grade chemicals also providing competitive edge by backward integration.

IIL has its 4 different R&D Centres working on different themes including the new product discovery R&D Centre in JV with OAT Agrico Co. Ltd. Japan.

IIL has also set up a Biological R&D Centre and manufacturing unit at Shamli, UP which has rolled out biological products such as Mycoraja and KK Pro.

IIL foundation is an CSR initiative by IIL which works closely with Indian farmers to impart them knowledge regarding modern agricultural practices and techniques as one of the focus objectives.
