VMC announces 10% property tax rebate to tide over crisis

ADITIRAJA
VADODARA, MAY 26

INA desperate attempt to replenish its dwindling funds, the Vadodara Municipal Corporation (VMC), for the first time, announced a 10% rebate for citizens who pay their advance property tax for the current financial year between June 1 and 30. The cash-strapped civic body is in further crisis due to the Covid-19 lockdown with several of its projects getting stalled.

VMC officials say that Tuesday's announcement will encourage many residents to pay their property tax on time. Speaking to The Indian Express, Deputy Municipal Commissioner SK Patel said, "The rebate is an immediate relief. It is valid only for the current financial year for those who have no pending dues. Anyone who has cleared past dues or is willing to clear them along with the penalties will also be eligible for this rebate for the current year. The rebate will be calculated on the spot for physical payments in ward offices and by our online payment deals as well so that the citizens pay 10% less to begin with."

Patel said the move is to benefit both the VMC and the citizens. "We are planning to make use of social media and newspapers to ensure that the message about the rebate reaches the people. Property tax is one of our biggest incomes," Patel said, stating that in the last financial year 2019-20, the VMC earned Rs 454 crore against the estimated Rs 474 crore through property tax collections.

"This year too, we are expecting a similar income. We also have another major source of income through town planning and we

Road carpeting work under way in Vadodara on Tuesday. Bhupendra Rana

will try to ensure that it is smoothly executed," Patel said.

It was just recently that the VMC, which has been in a hand-to-mouth existence for several years now, managed to stabilise its finances. However, the lockdown and suspension of development projects exhausted all its funds and incurred a liability of about Rs 70 crore per month, including salaries of staff amounting to Rs 45 crore.

Chief Accountant Santosh Tiwari said, "We could sail through the months of March and April because we had reserves but the months ahead are tough. At the moment, there may not be issues in paying salaries as we have a monthly octroi grant of Rs 26.8 crore regularly given by the state government."

However, several officials rue that the grant has been stagnant at the amount since octroi was

abolished in 2003. Tiwari said, "Our annual growth with octroi was pegged at a compounded 18%. Had there been a corresponding increase in the octroi grant, we would have been self-sufficient."

According to Patel, the VMC has also planned to raise Rs 100 crore via bond sale to tide over the financial crisis. This sum, primarily, is meant for the ongoing Amrut Yojana that aims to link the water network in the city.

The suspension of development projects has affected several ongoing housing projects that are meant to rehabilitate over 2,000 displaced families in the city. While the VMC has a monthly expenditure of Rs 15 lakh towards the 480-odd families of Kalyan Nagar who were displaced in

November 2014 and are awaiting their rehabilitation homes to be ready, Patel said that the liability of paying the rent allowances to other families lies with the developers under the Public Private Partnership (PPP) model.

"Ultimately, the VMC will have to compensate the developer by allowing some relaxation in the premium amount of the land. So the civic body will bear the cost. We are also planning to open up more of our commercial plots for development to generate income," Patel said.

On May 6, Congress corporator and former deputy mayor Chirag Zaveri from Vadodara wrote a letter to Gujarat Chief Minister Vijay Rupani, seeking Rs 500 crore for the cash-strapped VMC.

RAJKOT TO THIRUVANANTHAPURAM

First Shramik train from Gujarat to Kerala leaves with over 1,200 migrants

EXPRESS NEWS SERVICE
AHMEDABAD, MAY 26

THE FIRST Shramik train from Gujarat to Kerala left the state with over 1,200 stranded migrants on Tuesday. Despite being a point-to-point train, the Thiruvananthapuram-bound train originated at Rajkot and made multiple stops in the state, picking up migrants along the way, official sources said.

The train which started from Rajkot with 300-odd passengers, stopped at Ahmedabad to pick up over 270 migrants including those from Gandhinagar and Mehsana, 62 from Vadodara and 568 from Surat. Passengers who boarded this train from Ahmedabad said

they had to pay Rs 885 for a ticket. Anu Jacob Kurshingal, a 26-year-old academician who lost her job during the lockdown, said that passengers in Ahmedabad were herded into the train bogies like cattle. "Firstly, we were made to wait at the GMDC ground. From there, we boarded the bus to

the railway station. Then, we had to spend more than three hours within the bus and later they made us stand in neatly-drawn circles outside the railway station and videographed us. As we stepped on to the railway platform, we were herded into the bogies of the waiting train like sheep and cattle. There was no social distancing during boarding or inside the train. No health check was conducted," said Anu after boarding the train at 4 am.

"Having suffered the trauma of lockdown in a new city, the way we were treated was the last nail in the coffin. I will never return," said Anu who had come to Ahmedabad for a job in December 2019. After the lockdown was an-

nounced, she stopped getting paid by her employers. More than 5,000 migrants in Gujarat, including students and workers who lost their jobs, have listed themselves on the Non-Resident Keralites Affairs (NORKA) website of the Kerala Government.

On Tuesday, a Shramik train from Gandhidham to Visakhapatnam also made multiple stops at Ahmedabad, Vadodara and Surat to pick passengers for the destinations of Rajamundry, Srikakulam, Vijayawada and Visakhapatnam. This train carried about 1,209 migrants.

On Tuesday, 17 trains carrying 20,677 migrants left the state. So far, 901 Shramik trains from Gujarat have transported 13.12 lakh migrants.

Supply chain blocks, lack of labour push MSMEs in Chennai to the brink

The second of a five-part series focuses on how the lockdown has compounded the woes of already-struggling firms

T E NARASIMHAN & GIREESH BABU
Chennai (Ambattur), 26 May

S Ashokan, proprietor of Srivari Alloys, in the Ambattur Industrial Estate in Chennai, is running his factory with only around 15 per cent of his workforce, even though he is allowed to function with 33 per cent.

Almost 80 per cent of workers are from other districts and another 10 per cent are migrant labourers, and a majority of them are not able to get back to work either due to the lockdown or fear of the growing number of Covid-19 positive cases in Chennai. Srivari Alloys, manufactures aluminium alloys, high pressure die castings and precision machine components, and supplies to companies such as TVS Motor, Simpson & Company, TAFE, among others.

"I have 40 machines that used to run in three shifts, of which, only eight are now running on one shift," says Ashokan, whose company had a turnover of ₹45 crore last year. "My fixed expenses (rentals and wages) were around ₹60 lakh even during the lockdown period. Plus, I have to pay an EMI of ₹13 lakh per month for my loans," he says, adding orders from the passenger car industry had been down by almost 50 per cent for nearly six months. The lockdown has only compounded his woes.

A LOOK AT AMBATTUR ESTATE

1,167 acres taken by Ambattur Industrial Estate
2,400 units, of which around 200 are tiny
20,000 micro, small units in the peripheries
95 factories are in the auto, allied industries
75% of the manpower is from other places

₹26,000 crore Business done by 17 industrial estates in Tamil Nadu

T E Soundararajan, owner of Fluidtech, a medium-scale company, has a similar story to tell. The company, which manufactures furnaces, has around 90 employees, but is now running with only 18 people. The non-availability of workers with specialised skills has become a huge problem. Though Fluidtech has arranged for vehicles to pick up around 5-10 workers daily, this is an additional cost, points out Soundararajan.

Supply chain is another concern, as many of the sub-contractors are not functioning as yet, and because their work is specialised, it cannot be

assigned to other companies either.

Soundararajan feels that the central government's relief package to mitigate the crisis faced by industry in the wake of the lockdown to tackle the coronavirus pandemic, will not solve the problems of the micro, small and medium enterprises (MSMEs). The additional loans may not be of much use for smaller units, he says, adding that the moratorium announced by RBI also means little since they would have to pay interest after the moratorium period.

Indeed, most entrepreneurs

in the major industrial estates of Chennai are unimpressed with the government's economic package. "If this is the level of measures (under the ₹20 trillion package) the government is offering, I am afraid it is all over for the MSMEs," says A N Sajeesh, president of Ambattur Industrial Estate Manufacturers Association (AIEMA).

"If I borrow funds, it should be for investments, not to repay my existing loans. If I am forced to borrow to repay my loans, it is a point of no return. What the government has given us as a stimulus, is further borrowings to repay your existing borrow-

ings," says Sajeesh.

S Shanmugam, managing partner at India Industries, an industrial and auto components manufacturer, which supplies to TVS Motor, feels that the moratorium on loans is a good move, but banks should not charge interest after the moratorium period. Their factory, which used to employ 60 people, now has around six to 10 workers, who are mostly carrying out maintenance work.

"The government should have given one year's moratorium without interest. Industry has been paying taxes for 72 years, why can't the government waive taxes from industry at least for one year during these tough times," asks Shanmugam. He adds that while the Centre has announced additional loans for MSMEs, many will find it difficult to get banks to approve them.

The Tamil Nadu government's Small Industries Development Corporation Limited (SIDCO) industrial estate in Ambattur houses about 2,400 units and most of them are MSMEs. And in and around the estate, there are around 20,000 micro and small outfits which depend on business from the industrial estate. Almost 95 per cent of the units in Ambattur are devoted to auto and allied industries and more than 90 per cent of its revenue comes from this sector. And almost 75 per cent of the industrial estate's manpower has traditionally come from other states.

But it is not only Ambattur which is struggling with lack of manpower, lack of orders and supply chain issues. S Dilli, proprietor of Sri Chellaianman Industries in Thiru Vi Ka Industrial Estate, Guindy in Chennai, which produces sheet metal shearing and folding job-work, says that though he opened his unit two weeks ago, the order flow is dry. Also, in place of the six workers he had before, he has just two now. The other four were migrants and have gone away.

Similarly, Sri Raghavendra Fabrications, which manufactures shearing, folding and press components and is a sub-contractor to ICF and Chennai Corporation, used to have around six to eight workers from Chennai and its outskirts. M Manohar, the proprietor, says he has had only one worker since he opened up a few days ago. With no public transportation, the others cannot come to work.

Small units are facing other pressures, too. Some are being asked to forego GST, while those with limited workers are battling to retain their orders and not have them given to competitors. "While we are paying GST, those who are placing orders are demanding that we offer products without GST. We definitely cannot exempt GST," says Manohar. He, too, doesn't believe the Centre's announcements will result in any actual support for the MSMEs. "Only the influential and large players will be able to get something. For people like us, there is no hope," he says with despair.

Hurdles in land acquisition? NHA to scrap part of contract

MEGHA MANCHANDA
New Delhi, 26 May

To reduce build-up of arbitration cases, the National Highways Authority of India (NHAI) has asked its project managers to cancel portions of the proposed contracts in case of hurdles in the land acquisition process.

NHAI Chairman Sukhbir Singh Sandhu, in a letter to the authority's regional offices and project director, has said the matter of land acquisition should not be left pending as it leads to litigation cases in the future.

"In future, the stipulated land would be acquired and handed over encumbrance free to the contractor in time or that part of the project will be cancelled if the land is not handed over," Sandhu wrote in the letter, a copy of which is with *Business Standard*.

Such disputes mostly land in arbitration, for which contracts have provision. It is not just the projects that get delayed but also the invested money — either of the government or the private party — gets stuck in the dispute. It is learnt that not just for future projects, the NHAI has done the same for some project stretches in the past.

"The idea is to stay away from any future litigation and arbitration, because then questions are raised as to why NHAI did not address the issue if the land was not fully acquired," said an official. Sandhu has asked his regional offices for a stricter maintenance of land

Sebi slaps ₹7-lakh fine on NHA for disclosure lapses

The Securities and Exchange Board of India (Sebi) on Tuesday imposed a penalty of ₹7 lakh on the National Highways Authority of India (NHAI) for delay in making timely disclosure about financial results. Sebi had conducted an examination in the matter of NHAI from financial year 2015-16 to 2018-19.

During its investigation, Sebi found that NHAI delayed filing of its half-yearly financial results by four days to 78 days between 2015-16 to 2018-19. PTI

acquisition progression data. NHAI's concern for the arbitration matters and its related claims can be gauged from the fact that at the start of 2020, the authority had set a target of settling arbitration claims worth ₹70,000 crore through the reconciliation method in January.

The process began with NHAI settling an arbitration claim worth about ₹650 crore with Infrastructure Leasing & Financial Services (IL&FS) for nearly ₹200 crore through a conciliation process.

Public GDP ratio could scale new high

KRISHNA KANT & INDIVIAL DHASMANA
Mumbai/New Delhi, 26 May

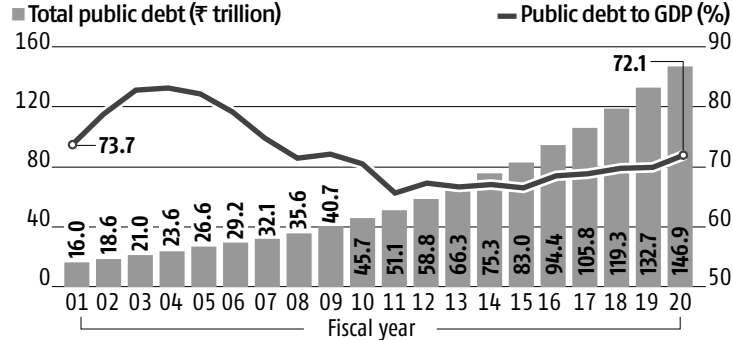

The ratio of India's public debt to GDP is expected to scale a new high at the end of FY21 due to record borrowing by the central and state governments and an expected contraction in the country's gross domestic product (GDP) during the fiscal year.

According to the Reserve Bank of India (RBI) data, the combined liabilities of the Centre and the states were around ₹147 trillion at the end of March, and that translated into a public debt to GDP ratio of 72.1 per cent at the end of last fiscal year (given the nominal GDP of ₹203 trillion). Economists now expect the ratio to cross 80 per cent.

India's public debt will be much higher if one includes the borrowing of public-sector enterprises such as the National Highways Authority of India, Food Corporation of India, Indian Railways Finance Corporation, NTPC, Oil & Natural Gas Corporation, and Power Grid. The Central government has announced a 54 per cent increase in market borrowing in FY21 to ₹12 trillion. In addition, the government is planning to borrow ₹2.4 trillion from small savings,

THE TRAJECTORY

Historical trend in India's public debt relative to GDP

Source: RBI, BS calculations

also called post office deposits. Last week, the Centre raised the state government borrowing limit to 5 per cent of gross state domestic product from 3 per cent at present. This will translate into state borrowing of around ₹10.2 trillion in FY21, based on the GDP figures for FY20.

In comparison, India's GDP is expected to shrink at constant prices, may either grow in low single digits, or remain stagnant at current or nominal prices. The public debt to GDP ratio is calculated

on the basis of nominal GDP.

"The fiscal deficit of the Centre alone will be over 7 per cent of GDP in FY21 because it has to maintain some of the expenditures which have been already budgeted. If you assume the states will have a fiscal deficit of 5 per cent of GDP, the combined would be 12 per cent of GDP," said C Rangarajan, former chairman of the Prime Minister's Economic Advisory Council.

The deficit calculation excludes the

borrowing of public-sector undertakings. Rangarajan expects the revenues of the Centre and the states will fall much below what was projected.

Madan Sabnavis, chief economist CARE Ratings, said: "India's public debt to GDP ratio is expected to rise by 800-1,000 basis points in FY21, given record borrowing by the government and poor GDP growth." CARE Ratings expects 0-2 per cent growth in nominal GDP in FY21.

Economists, however, say this is not the time to worry about this ratio. "We brought the debt to GDP ratio from nearly 84 per cent in 2004 to 66 per cent in 2016. Then, it rose. So rising debt to GDP is these circumstances is not a worrisome part, this can be brought down once crisis is over and the economy is back to normal. Then you can chalk out fiscal consolidation planning as we did it over 2004 to 2016," said Pronab Sen, former chief statistician of India.

Govinda Rao, member of the 14th Finance Commission, doesn't expect the ratio to cross 80 per cent. "It is possible that states may raise their debt to 28 per cent of GDP from 25 per cent, the Centre may increase it from 45-46 per cent to 50 per cent. My feeling is that the debt to GDP ratio would be 78-80 per cent."

Business Standard

CHETANA'S PASSION FOR EXCELLENCE

Chetana's Institutes of Management and Research in association with Business Standard organised a webinar on the topic 'Performance excellence for individuals and organisations' exclusively for the students and faculty of the institute.

The Guest Lecture was delivered by an eminent personality, Mrs Maya Desai, Director, Ramakrishna Bajaj National Quality Award Trust.

The session began with CEO Ma'am Dr Madhumita Patil welcoming the guest speaker and motivating the students to see this tough time as an opportunity to upgrade themselves, learn new skills and be industry ready, thereby setting the tone for the webinar.

The focus of this webinar was to enlighten students and budding entrepreneurs with the importance of performance excellence and its benefits. Some of the major takeaways of the session were the

different perspectives to systems, valuing people, customer-focused excellence, organisational learning, agility and focus on success & sustainability. The guest speaker not only emphasised on these significant topics but also supported them with relevant examples for better understanding.

With more than 300 participants having reaped the benefits of this online webinar, the impact was equivalent to having attended it live at Chetana's Auditorium.

Campus Reporters – Gaurav Arjun

Handling of Covid creates friction in Thackeray govt

ADITI PHADNIS
Mumbai, 26 May

New political alignments, possibly even central rule, could be on the cards in Maharashtra after Congress leader Rahul Gandhi distanced himself and his party from the management of the Covid-19 pandemic in the state.

Gandhi said his party, an alliance partner in the government led by the Shiv Sena, was not a key decision-maker in the Maha Vikas Aghadi government. His comments come amid reports that NCP chief Sharad Pawar is upset with CM Uddhav Thackeray, who is also the chief of the Shiv Sena, for not opening up economic activity in the state's bigger urban centres.

Former chief minister Prithviraj Chavan of the Congress had recently remarked that the Maharashtra government was not run by the Maha Vikas Aghadi, but only by the Shiv Sena.

The Nationalist Congress Party (NCP), the third member of the alliance, could be the reason for the unraveling of the government. Not only did Sharad Pawar, along with associate Praful Patel, call on the Governor BS Koshiyari, but Patel also defended Union Railway Minister Piyush Goyal from attacks by Shiv Sena and Congress leaders, who have been scathing about the lack of help from the railways in helping move migrants to their home states.

On Sunday night, in a series of tweets, Goyal asked Maharashtra Chief Minister Uddhav Thackeray to provide a list of migrant workers saying his ministry was "ready to provide 125 Shramik Special trains" to the Mumbai-headquartered Central Railway.

Goyal had further said in a tweet, "Since you have said that you have a list ready that is why I

am requesting you to please provide all information like from where the train will run, the list of passengers according to the trains, their medical certificate and where the train is to go, to the General Manager of Central Railway within the next hour, so that we can plan the time of trains." The implication was that the state government was making it a political issue, without being constructive.

All through the weekend, there was sniping between supporters of the Maharashtra government and the Centre. Senior Sena leader and Rajya Sabha MP Sanjay Raut tweeted, addressing Goyal, "Maharashtra government has given you a list of workers who wish to return home. The only request is that the train should reach the station, as announced earlier....The Gorakhpur bound train had reached Odisha," Raut said.

The Congress said the government was "taking migrant workers on a country tour" without providing them food and water.

The only government partner that sided with the central government was the NCP. Praful Patel said in a tweet: "Their (the Modi government's) efforts should be respected. We appreciate that they are providing trains so that people can reach home." NCP's Ajit Pawar is deputy chief minister and finance minister in the state. BJP leaders have not ruled out a change in alliances. Clearly they are waiting for the right time to bring the government down. In a house of 288, 144 is the midway mark. The Shiv Sena has 56 MLAs, the BJP has 105, and the NCP has 54. Congress and a host of smaller parties and independents are supporting the Sena. If the NCP withdraws support, the government goes into a minority.
