September 2016 to increase its coverage five-fold to 10,000 units since its launch in 2008.

net. So many workers joining in micro, small and medium enterprises are left out.

houses, loading for non-power sectors including captive power plants increased from the level of 8.3 rake a day in October 2018 to 13.8 rake in a day in November 2018. DEBJOY SENGUPTA

## Proposal for Logistics Fund, PM-headed Council in Draft Policy

Our Bureau

**New Delhi:** The government plans to create a non-lapsable logistics fund to develop multi-modal logistics parks, enable first and last mile projects, especially for poorly-served remote areas, besides setting up a startup acceleration fund to help incubate startups in logistics sector.

These proposals are part of the draft National Logistics Policy which the commerce department floated on Wednesday with the aim to reduce logistics costs from 13-14% of the gross domestic product (GDP) to 10%, in line with the those of the US, EU and Japan.

The policy is significant as no single unit is managing the logistics sector at present. Though it comes under the ambit of department of commerce, different parts of the logistics value chain are being managed by many ministries at present including roads, shipping, railways, civil aviation, finance, home affairs along with departments of posts. Additionally, Central Drug Standard Control Organization, Food Safety and Standards Authority of India, Plant and Animal Quarantine Certification Service too provide relevant trade clearances and impact the value chain.

The policy suggested setting up of four committees or councils including the National Council for Logistics chaired by the prime minister; an apex inter-ministerial committee chaired by commerce and industry minister; an India Logistics Forum chaired by the commerce secretary and an empowered task force.

Other thrust areas include interventions to reduce logistics cost, promote efficiency for movement of key commodities, single-window e-marketplace and setting up a Logistics Data and Analytics Center. The policy, which also includes creating a Center of Trade Facilitation and Logistics excellence and promotion of cross-regional trade on e-commerce platforms through seamless flow of goods, has been made public for comments and suggestions till February 19.
