GST SHORTFALL

12 states opt for no-cost special borrowing window

FE BUREAU New Delhi, September 13

AS MANY AS 12 states have opted for the first of the two borrowing options mooted by the Centre to bridge their GST revenue shortfall in FY21...

hand and Odisha. Only one state, namely, Manipur has so far opted for the Borrowing Option 2. Also, a few states instead of expressing their option preference have submitted their views to the chairperson of the GST Council and are yet to decide on the options, the sources added.

can borrow under a special dispensation which would ensure a G-Sec linked rate of interest. The interest cost would be borne from the proceeds of the compensation cess fund accruing after June, 2022.

Retail inflation to soften with easing of lockdowns: CEA

PRESS TRUST OF INDIA New Delhi, September 13

ATTRIBUTING THE RISE in inflation to supply-side frictions, chief economic adviser KV Subramanian has exuded confidence that retail inflation will come down in the days ahead with the easing of lockdowns.

According to the government data, retail inflation rose to 6.93% in July, mainly driven by rising prices of food items like vegetables, pulses, meat

and fish. However, wholesale price-based inflation declined 0.58% in July, even as food items turned costlier.

"If you look at inflation...it's primarily because of those supply-side frictions, but as local lockdowns are actually being reduced, these frictions should basically go down," he told PTI. "Overall, the difference between wholesale and retail inflation is primarily due to supply-side factors which should decrease and therefore going forward even the retail inflation should ease," Subramanian said.

Devendra Darda elected ABC chairman for year 2020-21

ENS ECONOMIC BUREAU New Delhi, September 13

DEVENDRA VIJAY DARDA, managing director of Lokmat Media, has been elected chairman of the Audit Bureau of Circulations (ABC) for the year 2020-2021.

Lokmat Media is one of the largest regional media groups in India and has presence in print, digital, TV and events. Devendra Darda has served on several media industry bodies, namely INS and IFRA. He is also president of various educational institutions in Yavatmal, Maharashtra, and is on the managing committee of the Western India Football Association.

His father - Vijay Darda, chairman, Editorial Board of Lokmat Media, and a former member of Rajya Sabha - has previously chaired the ABC.

Karunesh Bajaj, ITC Ltd, representing advertiser category on the council was unanimously elected deputy chairman of ABC for the year 2020-2021.

Publishers, advertisers and advertising agencies are also represented on the organisation, said ABC secretary general HB Masani.

This option, which the Centre wants to incentivise, entails total borrowings of ₹97,000 crore by all states combined. The other option is to borrow to offset the entire shortfall of ₹2.3 lakh crore, inclusive of the part caused by Covid-19 pandemic. The Centre has made it clear that both the options

don't undermine the commitment to fully compensating the states for the GST shortfall. According to finance ministry sources, the states that have preferred the first option are Andhra Pradesh, Bihar, Gujarat, Haryana, Karnataka, Madhya Pradesh, Meghalaya, Sikkim, Tripura, UP, Uttarak

Sebi clarifies on asset allocation norms for multicap schemes

FE BUREAU Mumbai, September 13

THE SECURITIES AND EXCHANGE Board of India (Sebi) on Sunday said it will examine the proposals of the mutual fund industry regarding the changes the regulator had announced on Friday in the asset allocation of multicap schemes.

It also said mutual funds have many options to meet with the requirements of its circular pertaining to asset allocation framework for multi cap schemes based on the preference of their unit holders.

The regulator said the need was felt to review characteristics of multicap schemes and take necessary steps to clearly distinguish multicap schemes from other categories. Sebi clarified that apart from rebalancing their portfolio in the multicap schemes, they could inter-alia facilitate switch to other schemes by unit holders, merge their multicap scheme with their large cap scheme or convert their multicap scheme to another scheme category. Fund houses have been given time till January 31, 2020 to achieve compliance with the circular.

Monsoon session: Opposition demands LAC standoff, Covid, economy discussion

PRESS TRUST OF INDIA New Delhi, September 13

The issues of ongoing LAC standoff, handling of the coronavirus pandemic and economic slowdown are likely to dominate the Monsoon session of Parliament which begins on Monday, with the opposition demanding a discussion on them, while the government is seeking passage of nearly two dozen legislations during the Covid-curtailed proceedings.

The 18-day session is being held amid unprecedented precautionary measures against Covid-19 due to a continuing spike in cases. On the eve of the session, the Union Health Ministry reported 94,372 fresh cases in 24 hours.

The government has listed 23 legislations for consideration and passage including 11 bills replacing ordinances.

Several of the opposition parties are likely to oppose four of these bills replacing ordinances relating to the farm sector and the banking regulation amendments.

The opposition is seeking to corner the government on its handling of the standoff with China at the Line of Actual Control in Ladakh, the Covid-19 situation, economic downturn and unemployment, and is pressing for discussions on these issues.

The Congress and other opposition parties raised these demands in the first business advisory committee (BAC) meeting for Lok Sabha chaired by Speaker Om Birla today, but the time for these discussions is yet to be allocated.

The BAC for Lok Sabha will be held again on September 15 afternoon to further discuss the issues to chalk out the business schedule for the first week.

The same demands were raised by the Congress in the BAC for Rajya Sabha too.

The session will commence tomorrow with both houses paying obituary references to former President Pranab Mukherjee and other sitting and former members who have died during the interregnum period.

Both houses will be adjourned for an hour after the obituary references.

Rajya Sabha will then hold the election to the post of Deputy Chairman, while Lok Sabha will take up 'The Homoeopathy Central Council (Amendment) Bill, 2020' and 'The Indian Medicine Central Council (Amendment) Bill, 2020', to replace the ordinances issued earlier.

Parliamentary Affairs Minister Pralhad Joshi said that the government is ready to discuss all issues decided by the BAC and has appealed to all parties for their cooperation.

He said a meeting of leaders of various parties would be held on Tuesday on whether a discussion on the India-China border issue will be held.

BEL upbeat on defence business, seeks to ride Centre's self-reliance push

PRESS TRUST OF INDIA Bengaluru, September 13

Bharat Electronics is upbeat about its business prospects in the defence sector seeking to ride government's thrust on self reliance though it's facing the prospect of short-term adverse impact from Covid-19.

In fact, the Bengaluru-based defence PSU was sitting on an order book of ₹51,973 crore as on April one this year, according to company officials. Defence contributed 82% of sales revenue of BEL in 2019-20, up from 68% in the previous fiscal. The

remaining 18% revenue came from the non-defence sector.

BEL's chairman and managing director MV Gowtama said the government's emphasis on 'Make in India' in the defence sector provides a great opportunity

for the company to enhance indigenous efforts and to address the emerging opportunities.

The Navratna PSU under the Ministry of Defence achieved a turnover of ₹12,608 crore during 2019-20, a growth of 6.94%

compared to the previous financial year. "BEL is targeting a healthy growth of 12-15% during 2020-21," Gowtama said in a September 7 letter.

The real impact of the pandemic on the company is to be seen in the near future as the situation is evolving, he said, adding that it has started taking mitigation measures to reduce the impact.

According to the 2019-20 annual report, the internal study and analysis predict that Covid-19 may impact the company's operations in the short-term in terms of deliver schedules.
