# CIL prioritises supply to power plants with stocks of up to six days

FE BUREAU  
Kolkata, September 2

**COAL INDIA (CIL)** has prioritised supply to power plants that have stocks to last zero to six days, offering coal on an 'as is where' basis through rail-cum-road mode from sources where high stock is available. The company has identified 23 such mines carrying 40.3 million tonne (MT) of stocks as of August 16.

The company is building up stocks at power plants by making available alternative sources for supply in case of shortage at the mines linked to the plants. The PSU miner saw 104% materialisation during the last

week of August at an average per day supply of 1.36 MT, as against the requirement of 1.31 MT set by CEA. The last three days' average loading to the power sector went up to 1.4 MT.

"With plans to ramp up production, strengthening evacuation infrastructure and adequate coal stock at our pits-heads we are prepared to meet any surge in coal demand from the power sector," a senior CIL executive said.

Though the power sector is grappling with depleting stocks on its end, the company has supplied 44 MT more coal to the sector during April-August this year than it did

during the same period a year ago. It dispatched close to 206 MT of dry fuel to coal-fired power plants during the first five months of FY22, posting 27% growth over 1.62 MT supplied in the same period of the previous fiscal.

Even compared to the pre-

pandemic April-August 2019, when dispatches to the power sector were 190.7 MT, CIL logged 8% growth.

CIL's total offtake jumped up to 259.3 MT during April-August 2021 from 208.5 MT during the same period last year, clocking a 24.4% growth. The offtake held

steady at 1.7 MT per day in the last week of August. "Never in August of any previous year did the company's dispatches exceed 1.6 MT a day. With the monsoon receding, CIL is aiming to elevate dispatches to 1.8 MT a day and beyond in September," the executive said.

## AM/NS India commissions ₹1k-cr pellet unit

FE BUREAU  
New Delhi, September 2

**ARCELORMITTAL NIPPON STEEL India (AM/NS India)**, a joint venture between ArcelorMittal and Nippon Steel, on Thursday commissioned a second six million tonne per annum (mtpa) pellet plant at its Paradip facility in Odisha with an investment of around ₹1,000 crore.

The plant doubles production capacity at AM/NS India's Paradip complex to

12 mtpa, making it the largest single-location pelletisation complex in India and taking AM/NS India's overall pelletisation capacity to 20 mtpa. It has an 8 mtpa pellet production facility at Vishakhapatnam.

"AM/NS India will continue investing in Odisha, a promising hub for Indian steel production, and we are currently progressing plans for a greenfield steel plant in Odisha," said AM/NS India CEO Dilip Oommen in a

statement. In March, India-born billionaire Lakshmi Mittal inked an agreement with the Odisha government for setting up a 1.2 million tonne integrated steel plant in the state's Kendrapada district with an investment of ₹50,000 crore.

AM/NS India's second pellet unit in Paradip will support its long-term plan of having 30 mtpa installed steel production capacity in India.

## Adani Green Energy raises \$750m to fund equity of under-construction projects

FE BUREAU  
Mumbai, September 2

**ADANI GREEN ENERGY (AGEL)** has raised \$750 million through its maiden ListCo senior issuance under the 144A/Reg S format. The format allows issuers to broaden their investor base and to access large, highly capitalised US institutional investors in the private placement market.

The renewable power producer said that the funds will be utilised to finance the equity part of the capex for underlying renewable under construction projects. "Under the structure, AGEL can draw up to \$1,700 million or \$1.7 billion (including the present issuance) over the course of time subject to the covenants of the structure," the company said.

Earlier this year, the power producer had completed the

tie-up of a \$1.35 billion revolving credit facility for debt funding of its construction stage projects.

"With this \$750 million ListCo issuance, Adani Green has completed the final phase of its capital management plan, and now has a fully funded programme for both debt and equity for its stated target of 25GW by 2025," the company said.

The joint lead managers (JLMs) for the issuance were Axis Bank, Barclays, BNP Paribas, DBS Bank, Emirates NBD Capital, IMI-Intesa Sanpaolo, MUFG, Mizuho Securities, SMBC Nikko and Standard Chartered Bank.

The notes were rated Ba3 (stable) by Moodys and were oversubscribed by 4.7 times.

Adani Green has around 19.8GW of projects, under various stages of operation—under-construction, awarded and assets under acquisition.

## WhatsApp fixes issue in image filter after CPR flagged security threat

**CHECK POINT RESEARCH (CPR)** on Thursday said it had flagged a security vulnerability in WhatsApp's image filter function that could have been exploited by attackers to read sensitive information, and the same has now been fixed by the messaging platform.

"CPR exposed a security vulnerability in WhatsApp...An attacker could have exploited

the vulnerability to read sensitive information from WhatsApp memory," CPR said in a statement.

It added that the vulnerability was rooted in WhatsApp's image filter function and during its research study, CPR learned that switching between various filters on crafted GIF files caused WhatsApp to crash.
