TCS Expands in Minnesota by Creating More Hi-Tech Jobs and Growing STEM Education Initiatives by 50%

Tata Consultancy Services Leverages Local Talent to Help Enterprises Accelerate their Growth and Transformation, and Invests in Shaping the North Star State's Future IT Talent

BLOOMINGTON, MN | NEW YORK, JUNE 13, 2022: [Tata Consultancy Services \(TCS\)](#) (BSE: 532540, NSE: TCS) announced plans to continue growing its footprint in Minnesota by expanding its hiring program in the coming year and accelerating its STEM outreach efforts in local schools to cover 50% more students and teachers.

*"We're incredibly excited that a global leader in STEM jobs and education programs is expanding here in Minnesota, adding over 100 new jobs to our economy," said **Governor Tim Walz**. "Minnesota knows that when our people thrive, our businesses thrive. Our strong tradition of innovation and investing in skills and job training make Minnesota an ideal destination for partnerships with high-tech businesses like TCS. We look forward to continuing this partnership and working together to help prepare Minnesotans for successful careers in STEM."*

Bloomington, Minnesota is home to one of the 30 TCS facilities in the U.S. and supports leading enterprises in Minnesota, including Ameriprise Financial and Best Buy. TCS currently has more than 1,000 employees in the state – including 400 who were hired within the last five years – helping companies along their growth and transformation journeys through consulting services, industry experience, advanced technology, and intellectual property.

*"TCS is committed to expanding our presence in Minnesota and finding talent in the North Star State to provide local businesses with innovative solutions to their biggest challenges," said **Suresh Muthuswami, Chairman of North America, TCS**. "We also look forward to fostering the next generation of tech talent in Minnesota schools. That goal is driving our commitment to growing our STEM education initiatives by 50% in the coming years."*

Present in the U.S. for over 40 years, TCS is partnering with nearly half of Fortune 500 companies to help them digitally transform and grow their businesses. TCS is also among the top two U.S. recruiters of IT services talent, having hired 32,000 employees over the last five years.

Expanding STEM and computer science education in schools across the U.S. is a top priority for TCS as one of the world's largest technology consulting companies. Minnesota currently has nearly [11,000 open computing jobs](#), yet only had 1,533 graduates in computer science in 2019. Just 24% of Minnesota public high schools currently teach foundational courses in computer science.

TCS brought its goIT program to Minnesota in 2014. This STEM training initiative fosters digital innovation and career readiness at local middle and high schools. Over 42,000 students in the U.S. and Canada have been directly impacted by goIT, and 75% of students in Minnesota benefitting from goIT belong to groups currently underrepresented in computer science.

TCS is also helping educators embed computational thinking into core subjects such as math, science, language, arts, and social studies through Ignite My Future in School, a program the company pioneered in 2017. Since its launch, Ignite My Future in School has reached over one million students and 26,000 teachers in North America. Over 200 Minnesota teachers have engaged with Ignite My Future in School – impacting over 13,000 students. Educators from multiple school districts in Minnesota have participated in TECHademies and computational thinking professional development courses, free of charge.

Additionally, over 4,000 TCS employees have volunteered nearly 8,000 hours with organizations in Minnesota, including the Washburn Center for Children and the American Heart Association.

About Tata Consultancy Services

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 592,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$25.7 billion in the fiscal year ended March 31, 2022, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
