# Managements must cut expenses, says Bhargava

Maruti will enter EVs only when profitability is certain: Chairman

PRESS TRUST OF INDIA  
New Delhi, 24 August

I AM QUITE CLEAR THAT IF A STRONG INDUSTRIAL BASE HAS TO BE BUILT IN INDIA, THE AUTO INDUSTRY AND THE CAR INDUSTRY HAVE TO REACH DOUBLE-DIGIT GROWTH LEVELS... AT PRESENT THE CONDITIONS DO NOT PERMIT THAT WE HAVE IT

R C BHARGAVA,  
Chairman, Maruti Suzuki India

Company managements need to "curtail the kind of expenditures on themselves personally" with the Covid-19 pandemic highlighting the need to build internal resources with a frugal style of functioning, Maruti Suzuki India Chairman RC Bhargava said on Tuesday.

Addressing shareholders in the company's annual general meeting held virtually, he also termed as "a good development for the whole of industry" recent shareholder actions that did not approve expenditures by management on themselves, without specifying details.

In the wake of the pandemic, building internal resources has to become a priority of industry and companies. It requires companies to have a more frugal style of management, he said.

"Management themselves need, I think, to curtail the kind of expendi-

tures on themselves personally. Recent shareholder action seems to suggest why a section of shareholders share this view and are voting on these lines and I think that's a good development for the whole of industry," Bhargava said without elaborating.

Bhargava, who had in the past stated that the high tax regime is slowing down car demand, reiterated the need to address the issue. "I am quite clear that if a strong industrial base has to be built in India, the auto industry and the car industry has to reach double digit growths and at present the conditions do not permit that we have it," he said.

### Chip shortage temporary

"The shortage of semiconductors is a temporary problem partly due to Covid. Our estimation is that this shortage problem will be over by 2022," Bhargava said while responding to a query by a shareholder.

He also said Maruti Suzuki India has outlined a capex of ₹4,500 crore in the ongoing fiscal for its various business purposes but the actual expenditure will be known only at the end of the year.

On the company's plans for EVs, he said Maruti Suzuki is the leader in the conventional car industry and its intention is to achieve leadership position even in the EV sector in future.

# Lockheed Martin gets \$329-mn contract to maintain C-130J fleet

AIAI SHUKLA  
New Delhi, 24 August

The Indian Air Force (IAF) has awarded US aerospace giant Lockheed Martin a \$328.8 million, five-year contract to provide comprehensive maintenance support for India's fleet of 12 C-130J Super Hercules tactical airlifter aircraft.

Lockheed Martin manufactures the highly regarded Super Hercules transport aircraft, which is flown by 26 operators in 22 nations.

The arrangement, announced on Tuesday, is called a "Follow On Support-II" (FOS-II) contract. The IAF will pay the US aerospace and defence giant — the world's biggest arms supplier — just under \$5.5 million per C-130J, per year, in order to obtain a specified level of operational readiness across the fleet. This is an extension of the initial FOS-I contract.

The new contract also requires the firm to provide additional services that include "supporting the C-130J airframe, contractor furnished

ice representatives and on-site engineering support." Since induction, the Indian Navy P-8I fleet has surpassed 30,000 flight hours," says Boeing.

### Rafale fighters

The IAF ensured that its fleet of 36 Rafale fighter aircraft was contracted with PBL provisions that require the manufacturers, Dassault and Thales, to ensure a minimum of 75 per cent fleet availability — or an average of 27 fighters available at all times from the 36-Rafale fleet.

For this package, which covers the Rafale's first five years of service, the IAF paid Euro 350 million (\$410 million), or an annual average of \$2.25 million per Rafale fighter.

### Lockheed Martin's obligations

To fulfill its obligations, eight employees from Lockheed Martin (aircraft manufacturer), General Electric (propeller manufacturer) and Rolls-Royce (engine manufacturer) will be present as on-site technical support for the duration of the contract.

equipment, peculiar and common spares, engines, propellers, software, publication services, ground handling equipment, ground support equipment and test equipment," stated a Lockheed Martin release on Tuesday.

Such "performance-based logistics" (PBL) contracts, which bind aerospace vendors to specified fleet availability levels, are becoming the norm for the IAF.

### C-17 Globemaster III

When the IAF bought its fleet of 11 C-17 Globemaster III heavy lift aircraft, it ensured they were covered by a comprehensive PBL and training contract. "Boeing provides onsite

and multi-function support, with Boeing team members working closely with IAF operators and maintainers to ensure a high level of aircraft availability while reducing cost per flight hour," Boeing told Business Standard.

Boeing also supports the C-17 fleet with worldwide recovery support, emergency in-flight technical assistance and 24x7 aircraft-on-ground parts response.

### P-8I Poseidon

# 166 convert Paytm ESOPs into shares

NEHALAWADHI  
New Delhi, 24 August

Ahead of its much-awaited IPO, Paytm on Tuesday said 166 existing and former employees have converted their Employee Stock Options (ESOPs) into shares.

The digital payment giant has one of the largest ESOP pools in the start-up ecosystem and such options are rewarded to employees who have contributed to the growth of the company.

With a total paid-up capital of over ₹60 crore, 909 employees of Paytm have vested

ESOPs with about ₹1.4 crore options vested. To attract and retain talented professionals, Paytm last year amended certain aspects of its ESOP policy, introducing performance-based ESOPs.

Earlier, Paytm had written to its shareholders that employees who hold ESOPs will be able to convert them into shares and add into their demat accounts. Since conversion of ESOPs into shares comes at a cost and is also taxable, the company will help employees get loans from its established lending partners.

1.5 million kirana stores to benefit

PEERZADA ABRAR  
Bengaluru, 24 August

Flipkart Wholesale, the digital B2B marketplace of the Flipkart group, has tied up with banks and fintech institutions to provide credit to over 1.5 million kiranas and retailers in just two minutes.

The programme aims to help kiranas manage their working capital requirements and grow business.

These offerings, including 'Easy Credit' in partnership with IDFC FIRST Bank, are in

line with a series of initiatives undertaken to solve pain points of kiranas in India.

The loans will be offered at zero cost, through end-to-end digital onboarding. "The credit line will range from ₹5,000 to ₹2 lakh with an interest-free period of up to 14 days. Kiranas can also avail of the benefits of flexible repayment options through cash and online transfers as well as instant refunds in case of order cancellation. They can seamlessly keep a tab on their credit balance and bills," the firm said.

"Our key goal is to make business easier for kiranas and retailers and boost their growth journey," said Adarsh Menon,

senior vice-president and head of Flipkart Wholesale.

Flipkart Wholesale serves over 1.5 million members across the country, which include kiranas and retailers; hotels, restaurants and cafeterias; and offices and institutions.

Amit Kumar, head-retail liabilities and branch banking at IDFC FIRST Bank, said: "As a bank with a digital-first approach and focus on serving the retail ecosystem, we are keen to contribute to the growth of this segment."

With the change in consumer behaviour after the Covid-19 pandemic, offline retail is becoming the new battleground for e-commerce giants.

This year, Amazon Pay said that it will facilitate small loans and insurance for kiranas. The company had said it has empowered over 5 million neighbourhood stores and businesses with its digital payments infrastructure.

Bengaluru-based B2B e-commerce start-up Udaan is eyeing to tap a \$100-billion opportunity in the next few years. It has built scale and created logistics and lending capabilities such as UdaanExpress and UdaanCapital. UdaanCapital has grown its assets under management 30 times, while the credit lines have grown 40 times over the last 2 years.
