DRHP may**filed****tomorrow:****PAM secy**

far in FY22, the government has collected only ₹30 crore in investment receipts.

Speaking with FE, finance secretary TV Somanathan had said that a very conservative estimate of LIC IPO receipt is included in the RE as neither valuation, nor the size of issue was known at the time of fixing the estimate. It is indicated that only ₹100 crore from the LIC was factored in the investment RE for FY22.

The valuation of life insurance companies is likely 3 to 5 times higher than the embedded value. So, the valuation could be in the range of ₹15 lakh crore. So, a 7-10% stake sale could fetch ₹1.05-1.5 lakh crore if its value is estimated at around ₹100 lakh crore.

The government plans to sell a portion of IPO for LIC shareholders, who could also get discounts as the government wants to rope in a larger section of retail investors. Similarly, the government is in the process of approving a 20% foreign investment limit in LIC to rope in foreign investors to make it a huge success.

With most of the migratory work done in consultation with market regulator Sebi, Pandey had said earlier that its approval for LIC would come in quickly once the DRHP is filed.

Lions get on at places

of work

At the same time, the families of the migratory beneficiaries back home continue to avail the balance ration entitled under NFSA.

The portability is supported by digitisation of all the 24 crore ration cards with Aadhaar seeding. Also, 96% of around 5.4 lakh fair price shops (FPSs) in the country have e-PoS machines installed. There are facilities of biometric and Aadhaar authentication of NFSA beneficiaries at the time of lifting the foodgrain through portability.

“Currently, close to 90% of monthly transactions under

NFSA are biometrically authenticated,” Sudhanshu Pandey, secretary, Department of Food and Public Distribution, said.

Prior to the launch of ONORC, because of the defined coverage of beneficiaries under NFSA, it was difficult for migrant beneficiaries to get a new ration card issued at the place of their work. Thus, beneficiaries under NFSA used to be deprived of their food security benefits in the event of migration or being away from their villages and towns or designated FPSs.

Along with 10 digits of a ration card, two digits were appended to create unique member IDs of each

beneficiary in a ration card.

As per estimates, 5-6 crore people migrate seasonally to various states in search of livelihood. Around 8 crore people are intra-state migrants, moving from one district to another in their home state.

At present, under ONORC around 77 crore beneficiaries out of around the 81 crore covered under NFSA can avail the ONORC portability facility. Only Assam is yet to join ONORC.

According to the food ministry, through digitalisation and Aadhaar seeding, 4.74 crore duplicate ration cards have been weeded out by states and UTs during 2013 to 2021.
