**BENGALURU AIRPORT'S NEW TERMINAL**

# A walk in the garden

The terminal will run on renewable energy, will reuse rainwater

**ANESH PHADNIS**  
Mumbai, 11 November

PM Modi at the inauguration of T2, Bengaluru Airport, on Friday

After Prime Minister Narendra Modi's inauguration of Bengaluru Airport's Terminal 2 on Friday, the region's busiest airport joined the ranks of Hamad International Airport in Doha and the Changi Airport in Singapore, which boast gardens and lush greens inside their terminals.

"Sustainability and wellness have been critical considerations at each stage of the design process," said Skidmore, Owings & Merrill (SOM), the Chicago-headquartered architectural and urban planning firm that has designed Bengaluru airport's new terminal. The building's extensive outdoor areas were designed in an effort to maximise wellness prior to the Covid-19 pandemic; today, the wisdom of integrating generous outdoor spaces into an airport terminal and transportation hub is even more evident.

Built at a cost of around ₹5,000 crore, the T2 will handle 25 million passengers annually.

But its signature piece is its green area and is being billed as a "terminal in a garden".

The terminal has an outdoor "forest belt" — a 24,000-square-metre landscaped area with indigenous flora, multilevel meandering paths, and two-storey pavilions that are clad in bamboo and inspired by traditional Indian cane weavings. The gardens have distinctive plants including native specimen trees, flowering trees and shrubs.

The food and beverage areas have scented plants, while the retail section has lush green walls made of exotic creepers, hanging gardens and water cascades.

"The terminal, which will run

entirely on renewable energy, will also capture, treat, and reuse rainwater from across the airport, and the indoor plantings and outdoor gardens are designed to only require the water that is harvested on site," SOM said.

The terminal also employs extensive use of solar shading, intelligent building systems and renewable materials.

The architectural firm said T2 was designed with two primary goals: to achieve sustainability through structural efficiency, and economy through modularity. "The result is one of the lightest terminal roofs in the world at this scale, made entirely out of domestically produced materials and built with local construction technology," it said.

The terminal design will also allow for utmost flexibility to accommodate changes over time, SOM added.

Originally slated for commissioning last March, the construction faced delays due to the pandemic. It faced cost overruns, too, and project management cost increased by around ₹50 crore.

**'TERMINAL IN A GARDEN'**

- Built at a cost of around ₹5,000 crore
- Will handle 25 million passengers annually
- Has a 24,000-square-metre outdoor "forest belt"
- Food and beverage areas to have scented plants
- Retail section to have lush green walls, hanging gardens, water cascades
- The terminal has 90 check-in counters and 19 boarding gates

**PM flags off South India's first Vande Bharat Express**

**PRESS TRUST OF INDIA**  
Bengaluru, 11 November

Prime Minister Narendra Modi on Friday flagged off the inaugural special of south India's first Vande Bharat Express at Krantiveera Sangolli Railway station.

The country's fifth Vande Bharat Express train connects Mysuru and Chennai via Bengaluru.

"The Chennai-Mysuru Vande Bharat Express will boost connectivity as well as

commercial activities. It will also enhance 'Ease of Living'," said PM Modi.

According to Railway officials, the Vande Bharat Express is equipped with advanced state-of-the-art safety features including an indigenous developed train collision avoidance system — KAVACH. It can pick up a speed of 100 km per hour in just 52 seconds and has a maximum speed of up to 180 km per hour.

The Prime Minister also

unveiled the 109-feet tall statue of the city's founder Nadaprabhu Kempegowda, which is the "first and the tallest bronze statue of a founder of a city", as per the World Book of Records.

The Statue of Prosperity, weighing 218 tonnes (98 tonnes of bronze and 120 tonnes of steel) has been installed at the International Airport, has been built to commemorate Kempegowda's contribution towards the city's growth.
