Dear Sir / Madam,

Sub: Disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Intimation of schedule of Analyst/Institutional Investor Meet/Call

This is to inform you that the Management of the Company will be virtually meeting on Thursday, 2 March, 2023 with the following Institutional Investors:

1. Invesco Mutual Fund
2. Axis Pension Fund
3. Helios Capital
4. JP Morgan Asset Management
5. Paragon Partners
6. Param Capital
7. Premji Invest
8. Tata AIA
9. ValueQuest Investment Advisors Pvt Ltd.
10. Xponent Tribe
11. Bajaj Allianz Life Insurance
12. Enam Investments and Services
13. Carnelian Capital
14. ICICI Bank
15. Thingwise Wealth Managers
16. Quant MF

Note: The above schedule meeting may undergo changes due to exigencies on the part of the investor or the Company.

Please note that no unpublished Price sensitive information is proposed to be shared during the Meeting.

Further, enclosed herewith presentation which will be made at the aforesaid meeting.

Request to kindly take the same into record.

Yours truly,
For Ramkrishna Forgings Limited

Rajesh Mundhra
Company Secretary : ACS12991

Ramkrishna Forgings Limited

About Ramkrishna Forgings

One of the largest forging player in India

Key Highlights

Manufacturer and supplier of a variety of auto and non-auto components

Global presence with footprints in North America and Europe

2nd largest forging player in India with over 30 years of experience

Promoter possessing multi-decade forgings industry experience

Continued focus on diversification with foray into EV

Longstanding relationship with marquee customers

Vision, Mission & Core Values

Vision

To be the most dependable and preferred supplier of forged and rolled components for the railways, automobile, mining, earthmoving, oil exploration, farm equipment, bearing and general engineering industry by providing world class products at competitive prices through a knowledge-based organization

Mission

Create value for all business associates, shareholders and customers in all the areas of business in which we are associated with and to become an active partner in employee well-being and philanthropic causes

Core Values

Customer centric approach
Continual improvements in systems
Commitment to human development

... with over four decades of unique capabilities

... with state of the art manufacturing facilities

Ring Rolling

- Ring Rolling facility with robotics which can roll crown wheels upto 500mm diameter and a capacity to forge components from 15-70 kgs
- Ability to forge one component in 25-40seconds

Press

- First company in India to have fully automated 12,500T wedge press line
- Capability to manufacture complex and heavy forged components

Machined

- State of the art machinery and capabilities which includes turning Center, gear hobbing, shaping, shaving and broaching.

1 6 large modern facilities in India >> Strategic location benefits coupled with economies of scale

2 Technology led operations better solutions, optimum yield and enhanced quality of products

3 Extensive manufacturing capabilities >> Ability to manufacture diverse products

4 Agile, flexible operations >> Customized customer centric solutions

... at strategic locations giving us competitive edge

1

Proximity to automobile manufacturing hubs & key suppliers

- RKFL's facilities in eastern India are located in close proximity to automobile manufacturing hubs and key suppliers of raw material
 - Less chance of supply interruptions
 - Lower logistics cost
 - Reduced working capital requirements

2

All facilities located within the same region

- Better integration resulting in efficient processes
- Improved coordination
- Overall cost savings, including administrative costs

3

Proximity to key export hubs

- Reduces logistics cost
 - 302km* to Kolkata port
 - 270km* to Haldia port

4

Availability of labor

- Eastern region is the industrial center of India
- Low cost labor easily available
- Lower dependency on migrant laborers

*approximate distance from Jamshedpur facility

... demonstrating superior performance*

Way Forward

Multiple vectors to accentuate growth and increase profit

- Geographical – Further diversification into international markets
- Sector – Increasing the gamut of products that are currently manufactured towards non-automotive customers
- Product – Diversification into high margin, niche products and EV

- Accelerated efforts to optimize and improve process efficiency
- Focus on achieving economies of scale

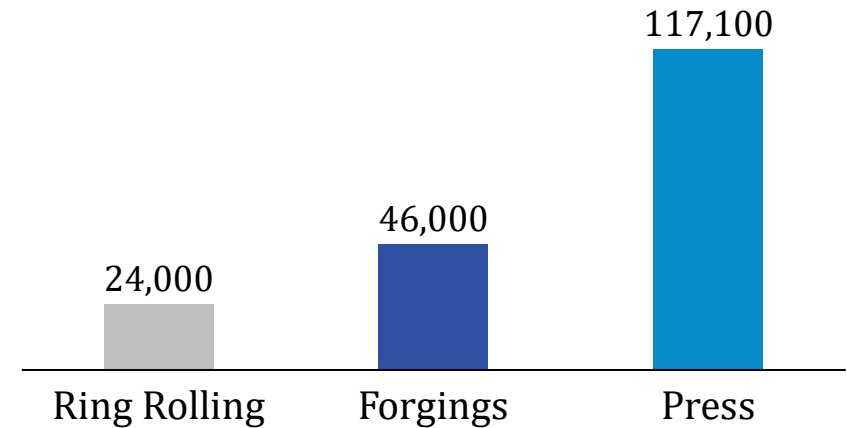

- Enhancing R&D capabilities to further provide competitive edge with respect to quality and cost
- Investment in modern technology and equipments solidifying the competitive edge

Well positioned to capture future growth

- We are adding 56300 Tons capacity.
- Will be ready by the above new Capacities by September 2023 and with this capacities, we will be able to achieve a topline of Rs 5000 Crores (at current commodity price)
- Capacity sufficient for the next phase of growth.
- Capacity ramp-up along with operating leverage will result in faster improvement in profitability.

Acquiring Growth: Ramkrishna Forgings to acquire JMT Auto

Details of the acquisition

- Lenders to JMT Auto, a unit of Amtek Auto group, have approved a resolution plan by Ramkrishna Forgings Limited.
- The acquisition plan had been duly approved by 84.61% Committee of Creditors, subject to approval of NCLT Delhi.
- Transfer is expected to be completed within 60 days of the order.
- The acquisition will be financed through internal accruals and debt.

About JMT Auto

- JMT Auto has significant expertise in the auto sector with capabilities in heat treatment and gear
- It also specializes in manufacturing a variety of components for the Oil and Gas industry.
- It is one of the leading producer of over 2000 different components which range from Engine components, gears, shaft, Pins and Pipe Assemblies, among others.

The acquisition will create a larger, more diversified company with increased scale and market reach.

Our Commitment

Our Commitments | Q3 2022 Highlights

We understand that our ambitions cannot be achieved in isolation which is why we have aligned all our commitments to United Nations Sustainable Development Goals (SDGs). Within this document we indicate where our activity aligns with specific SDGs, although this is not exhaustive.

Environmental

Social

Governance

01

Clean Energy Practices

Our Goal: To be powered by 50% green energy by 2028

As the pressure on fossil fuels in the country is increasing, RKFL is striving to adopt energy conservation methods to protect natural resources while remaining competitive.

Based on our discussion with a technology partner and initial assessment, we have decided to install an 8MW solar power plant in Jamshedpur.

Vendor evaluation process and discussion on technical parameters is currently being conducted.

02

Energy Optimisation

Our Goal: To be Carbon Neutral by 2050

At RKFL, we understand that our planet stands at the cusp of climate action to ensure that its effects do not become irreversible and catastrophic.

In an effort to develop a clear roadmap to improve our energy usage including transportation and distribution losses, we have decided to conduct a detailed energy audit by an independent third party .

Energy Audit is being conducted at our premises since January 2023. We expect to receive the audit report by February 2023.

Environmental

Social

Governance

03

Product Stewardship

EU has agreed provisionally on Carbon Border Adjustment Mechanism (CBAM) to establish carbon pricing policies with partner countries. It aims to promote opportunities in clean technology globally and provide a levelled competitive platform for local and foreign producers. Additional charges will be imposed on imports based on emission intensity of production processes.

With the aim to conform to these reporting standards and reduce our border tax liabilities, we will be conducting a Life Cycle Assessment for three of our products including front axle beam and crown wheel.

We are currently evaluating the product portfolio to finalize the third product for this assessment.

04

Waste & Water Management

Our Goal: Recycle 100% of our water use by 2025; Decrease 50% of our waste generation by 2030

We have completed the study to identify areas of improvement in waste & water management and have tagged the following recommendations –

Water Stewardship	Establishing zero liquid discharge/ water recycling techniques at our plant sites
Waste Management	Improvement in waste segregation techniques at source
Carbon Neutral Strategy	Installation of Continuous Emission Monitoring System (CEMS) at all plant sites

Our technical team is currently reviewing the approach to implement these recommendations

Environmental

Social

Governance

01

Empowering our community

Our Goal: Increase Employee Volunteering to 55% by 2030

We interact with the community through our engagement team to understand the needs of the community and respond in an effective manner. We have provided continuous support to our local community through the following initiatives -

Access to healthcare	Providing healthcare facilities to local community in Balicumba through our Medical Camp
Clean Cities	Sponsored installation and maintenance of 45 bins in Jamshedpur

02

Talent Development

Our Goal: Train 100% of our employees on ESG by 2023

Capacity building workshop for all our employees and value chain partners will enable our organization to develop competencies and skills that can make us more effective and sustainable. We aim to co-create solutions with our stakeholders by strengthening the ecosystem of our operations.

We will be conducting capacity building workshops on the evolving landscape of ESG regulations, trends and best practices. This will create awareness among all RKFL employees and build a robust structure to meet our ESG commitments.

Environmental

Social

Governance

01

Corporate Governance

Effective board structure and management are critical to being profitable and ensuring good governance across all levels. We have a ESG Working Committee to help integrate ESG across the organization.

Our Executive Director and CFO, Mr. Lalit Khetan is the sponsor for ESG at RKFL and thus ensures Board Oversight

RKFL has created a cross functional set of leaders to help deliver ESG initiatives and integrate them into our organization.

Hence today a cross function of leaders from Sales, HR, Company Secretary, Plant Operations, Marketing and Procurement are part of the ESG working committee.

Mr. Lalit Khetan oversees this Committee.

02

Policy Structure

Our Goal: Build effective policies and strengthen our outreach

In order to create transparency and increase accountability across all our stakeholders, we are revamping our existing company policies and reinforcing our professional quality standards.

New Policies	We have finalized our Human Rights Policy and Diversity, Equity & Inclusion Policy
Upcoming Policies	Customer Grievance Redressal Policy, Data Privacy and Cyber Security Policy, Stakeholder Engagement Policy to be introduced this year
Refreshing Policies	CSR Policy, Employee Code of Conduct and Supplier Quality Manual will be refreshed
