Subject: Clarification on news items

Dear Sir/ Madam,

This letter is with reference to news items circulating in the media since yesterday, May 20, 2021 on Notice issued by Pune Municipal Corporation (PMC) to Cummins India Limited for temporary closure of Kothrud Engine Plant (said Plant) from May 20, 2021 to May 23, 2021 citing the reason of increased COVID -19 cases.

In this regard, we wish to clarify that the PMC officials issued an advisory to temporarily close the operations of the said Plant in order to combat the COVID-19 situation in Pune Accordingly, in compliance with the advisory, the Company has closed said Plant operations from May 20, 2021 to May 23, 2021. Proactively, the Company also released a statement in the media clarifying the same. Copy of the same is enclosed.

We further wish to inform you that, the surge in COVID 19 cases in the second wave has impacted the whole country in last two months and in this situation, employees at the said Plant were affected as well. Company has been closely monitoring the situation. Our number one priority continues to be safety and wellbeing of our employees, accordingly company continues to take all precautionary and preventive steps to ensure safe working conditions for employees at plant locations. Please refer to the media statement released for the specifics of these steps / protocols / measures.

Company does not anticipate any material impact on its business as a consequence of this closure of plant operations from May 20, 2021 to May 23, 2021. We would like to also state that the Company has always complied with the disclosure requirements under the SEBI (LODR) Regulations, 2015 and will continue to do so.

Kindly take this intimation on your record.

Thanking you,
Yours faithfully,
For and on behalf of Cummins India Limited

Vinaya A. Joshi
Company Secretary & Compliance Officer

Encl.: As above.

Statement related to PMC Notice to Cummins India Ltd:

On behalf of Cummins India Ltd; yes, we have received the notice from PMC today for our factory in Kothrud. However, we would like to state that we have been closely monitoring the situation and would confirm that we have taken all precautionary and preventative steps for our employees/workers and adhered to all COVID 19 regulations stated by the government.

We have conducted sanitization and test for our employees and workers and have shared the data with the municipality and government officials as per the protocol.

We strictly follow the below rules across all our plants:

- The Plant has been closed for three days as advised by PMC Assistant Municipal Commissioner and we have closed the plant to cooperate with the PMC.
- The surge in cases in the second wave has impacted the whole country in last two months and compared with positivity rate of Kothrud and Pune we had very less cases at Cummins
- Right now, since last week we have found only 4 positive cases and we have only 11 active COVID cases as on date in the employee strength of 2000 plus employees.
- But all these cases have been detected outside the workplace and due to everyday screening at the entry and exit, social distancing at the shop floors, common areas etc. there is very little possibility of infection at the workplace
- We had also conducted vaccination drive for our 45years and above employees and contractors
- We have also arranged RAT testing at our facility for our employees at the interval of 15 days, our positivity rate has been less than 1%.
- Our Employee union has expressed disappointment over the wrong coverage done by the media.
- We are sharing the case details with government officials on daily basis as per the protocol
- We are running the plant to balance between the life and livelihood of our employees and other stakeholders.
- We have daily self-screening app for all our employees where the questions related COVID symptoms are asked before entering premises.

- Daily thermal screening of all employees, CWKs and visitors before entering in the premises and while going out of the premises is done.
- Mask distribution done on daily basis at the entry for all employees, contract labours and visitors.
- Daily Toolbox talk by Area Manager to follow the safety and COVID guidelines.
- Shift wise sanitization of the workstations and we have also set frequency of sanitizations wherein we are doing the deep sanitization on a regular basis.
- Every operator is sanitizing his/her workplace so that the common touch points are cleaned. We have set the process for that as well.
- Sanitizers with foot operator kept at all locations. Also, all taps are operated by the foot. Even our water coolers/taps are foot operated.
- Company has spent crores of Rupees to make our facility safer during the COVID period.

About Cummins India Limited

Cummins India designs, manufactures, distributes, and services engines and related technologies in India. The company operates through four business units: Engine Business, Components Business, Power Systems Business, and Distribution Business. The Engine Business manufactures and markets diesel and natural gas engines ranging from 65 HP to 400 HP for the low, medium, and heavy-duty on-highway commercial vehicle markets, as well as the off-highway commercial equipment industry comprising construction and compressor. The Power Systems Business provides power generation systems in standby power and distributed power generation for individual and institutional customers in various segments, such as infrastructure, IT/ITES, data centers, realty, healthcare, and hospitality; and high horsepower engines for mining, marine, railways, oil and gas, and defense applications, as well as manufactures and exports open and enclosed low kilowatt generator sets. The Distribution Business offers products, services, and solutions for equipment and engines; and provides after-market support services to customers in India, Nepal, and Bhutan.

The company also exports its products to the United States, the United Kingdom, Mexico, Singapore, and China. Cummins India Limited was founded in 1962 and is based in Pune, India. Cummins India Limited is a subsidiary of Cummins Inc.

About Cummins Inc.

Cummins Inc., a global technology leader, is a corporation of complementary business segments that designs, manufactures, distributes and services a broad portfolio of power solutions that range from diesel engines to hybrid and electric platforms. The company's products range from diesel and natural gas engines to hybrid and electric platforms, as well as related technologies, including transmissions, battery systems, fuel systems, controls, air handling, filtration, emission solutions, and power generation systems. Headquartered in Columbus, Indiana (U.S.), since its founding in 1919, Cummins employs approximately 62,600 people committed to powering a more prosperous world through three global corporate responsibility priorities critical to healthy communities: education, environment and equality of opportunity. Cummins serves customers in approximately 190 countries and territories through a network of approximately 600 company-owned and independent distributor locations, and over 7,600 dealer locations. In 2018, the company earned about \$2.1 billion on sales of \$23.8 billion.
