MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. INDUSTRY STRUCTURE AND DEVELOPMENT:

Our company is engaged in the business of trading into edible oils. Our Company performs activity of bulk trading of cottonseed oil, groundnut oil, sunflower oil, palmolein oil and soyabean oil. However major part of India's Edible Oil demand has been supported by equivalent increase in imports. Since 2012-13, out of the 6 mn tons of incremental demand has parallelly seen 5 mn tons of import increment. Indian edible oil import has grown at 8.4% CAGR over last decade. Palm oil has been the main edible oil imported in India. Off lately, Soybean oil imports have also increased sharply. Vegetable oils form over half of the total Agricultural import in India. Despite being the 5th largest oilseed crop producing country in the world, India is also one of the largest importers of vegetable oils today.

2. OPPORTUNITIES AND THREATS:

Opportunities:

India is a potential market for edible oils because of its domestic consumption. However, the deficit between production and consumption of edible oils is increasing rapidly, even after importing millions of tonnes of oil. The government should increase the oilseed production and solve the problems faced by the edible oil market.

For edible oil market, there can be major market opportunities in the recent time because the paradigm of health concern for a growing number of Indian consumers has largely shifted.

The oilseed cultivation needs to be promoted to under-utilized farming locations such as the eastern India, where more than 15 million hectares under low land rice is one of the opportunities for increasing the area under oilseeds. The inter cropping technique can be used in nearly 45 million hectares under widely spaced crops like sugarcane, maize, cotton etc. Extending oilseed cultivation to under-utilized farming locations such as the rice fallows of eastern India and in some coastal regions, where more than 15 million hectares under low land rice is one of the opportunities for increasing the area under oilseeds.

Threats:

Changes in external environmental also may present threats to the firm. Such threats may include:

- Shifts in customer tastes away from the Company's products
- Emergence of substitute products
- New regulations
- Increased trade barriers

KANEL INDUSTRIES LIMITED

- Production situation
- System constraints in public sector transfer of oilseed technology
- Processing situation

3. RISK, CONCERNS AND THREATS:

The annual oilseed production of the country is faced with high degree of variation as nearly 76% of the oilseeds area is under rainfed conditions and therefore subjected to uncertainties of moisture availability. Availability of quality seeds of improved varieties and hybrids is grossly inadequate and is one of the major constraints in enhancing the oilseed production. The cost of vegetable oil processing in India is very high as compared to the countries like China and USA mainly due to smaller capacities, low technical efficiency and low capacity utilization. Additional inefficiency arises from non-integration of solvent extraction units with expeller units; As a result, significant amounts of expeller cake are not solvent extracted resulting in considerable losses of oil and meal products. The lack of adequate integration between expelling and solvent extraction units alone is costing the country Rs.2500 crores annually. The fragmentation, low technical efficiency and excess capacity of India's oilseed processing industry are largely the result of regulatory and trade policies followed by the government.

4. INTERNAL CONTROL SYSTEMS AND ITS ADEQUACY:

The Company ensures the safety and protection of its assets by having implemented well defined policies and their implementation in a well efficient manner. INDEPENDENT AUDITOR'S REPORT

To the Members of **KANEL INDUSTRIES LIMITED**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of **KANEL INDUSTRIES LIMITED** ("the Company"), which comprise the balance sheet as at 31st March 2022, and the statement of profit and loss, *statement of changes in equity* and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, the loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. During the year under audit, there is no such matter to be reported.

During the year under audit, company has advanced to number of parties interest free loans of Rs.NIL (Rs NIL). During the financial year, the company has taken unsecured loans of Rs.110.49 Lacs [Rs.88.99 lacs from Related Parties]. Advances and Unsecured Loans, both are unsecured and no proper agreement executed by the company with any of the parties hence in absence of formal agreement, we are unable to comment about the non provision of interest expenses and interest income and its repayment terms. We have not received any satisfactory explanation from the management for above advances and loan taken as regards the terms or written agreement executed with the

parties for its repayment and interest provision. In our opinion these transactions are prejudicial to the interest of the company.

Information Other than the Standalone Financial Statements and Auditor's report thereon

The Company's Board of Directors is responsible for the preparation of other information. The Other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to the Board report, Business responsibility Report, Corporate Governance report and Shareholder's information, but does not include the standalone financial statement and our auditor's report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial control system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion.

Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. Materiality is the magnitude of misstatements in the standalone financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced.

We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work and (ii) To evaluate the effect of any identified misstatements in the standalone financial statements. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(i) Basis of preparation:

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. The financial statements have been prepared on accrual basis and under the historical cost convention basis.

(ii) Use of Estimates and Judgements

The preparation of the financial statements requires that the Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates. The estimates and judgements used in the preparation of the financial statements are continuously evaluated and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to

be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

Areas involving critical estimates and Judgements are:

- Estimation of Defined benefit obligations
- Estimation of Current tax expenses

(iii) Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable. Revenue comprises sale of Oil & seeds.

Revenue is recognized from rent income are determinable and collectability is reasonably certain.

(iv) Property, Plant and Equipment:

Recognition and measurement:

Items of property, plant and equipment, Land and Building are measured at cost less accumulated depreciation and impairment, if any. The cost of property, plant and equipment includes purchase price, including freight, duties, taxes and expenses incidental to acquisition and installation. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Property, plant and equipment are derecognized from financial statements, either on disposal or when no economic benefits are expected from its use or disposal. The gain or losses arising from disposal of property, plant and equipment are recognized in the Statement of Profit and Loss in the year of occurrence.

Subsequent expenditures:

Subsequent expenditures related to an item of property, plant and equipment are added to its carrying value only when it is probable that the future economic benefits from the asset will flow to the Company and cost can be reliably measured. All other repair and maintenance costs are recognized in the Statement of Profit and Loss during the year in which they are incurred.

Depreciation:

Depreciation is provided on all property, plant and equipment on straight-line method in the manner and useful life prescribed in Schedule II of the Companies Act, 2013. Depreciation on additions/deletion is provided on pro-rata basis with reference to the date of addition/deletion as the case may be.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 01 April 2016 measured as per the previous GAAP and use that

carrying value as the deemed cost of the property, plant and equipment. Company has adopted cost model for all class of items of Property Plant and Equipment.

(v) Impairment of Non-Financial Assets:

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset except the Management have not assessed technically the Plant and Machinerics at Naroda Unit to decide about its impairment or carrying Value. The carrying amount of the assets was not reviewed for indication of impairment of assets on basis of internal/external factors. Plant at Naroda Division has been inoperative for Nineteen years. Plant & Machinery of book value of Rs.4.56 lacs less residual. In absence of technical report for fair value of assets, carrying amount of the assets shown at book value less depreciation.

If at the Balance Sheet date there is any indication that any impairment loss recognized for an asset in prior years may no longer exist or may have decreased, the recoverable amount is reassessed and such reversal of impairment loss is recognized in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss.

(vi) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial Assets

Initial recognition and measurement

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset, if any.

Subsequent measurement

For the purpose of subsequent measurement, the financial assets are classified as under:

i) Financial assets at amortised cost

A financial asset is measured at the amortised cost, if both the following conditions are met:

The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. Interest income from these financial assets is included in other income using the EIR in the Statement of Profit and Loss. The losses arising from impairment are recognized in the Statement of Profit and Loss.

ii) Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are classified as FVTOCI, if both of the following criteria are met:

These assets are held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and

Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. Fair value movements are recognised in the other comprehensive income (OCI), except for the recognition of impairment gains or losses, interest income and foreign exchange gains or losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to Profit or Loss and recognised in other income/(loss).

iii) Financial assets at fair value through profit or loss (FVTPL)

Financial assets that do not meet the criteria for amortized cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is recognized in profit or loss and presented net in the Statement of Profit and Loss within other income in the period in which it arises.

iv) Impairment of financial assets

The Company applies 'simplified approach' for recognition of impairment loss on financial assets for loans, deposits and trade receivables.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime Expected Credit Loss at each reporting date, right from its initial recognition.

De-recognition

A financial asset is derecognized when:
the rights to receive cash flows from the assets have expired or
the Company has transferred substantially all the risk and rewards of the asset, or
the Company has neither transferred nor retained substantially all the risk and rewards of the asset, but has transferred control of the asset.

Financial Liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction cost.

Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. For trade and other payables maturing within operating cycle, the carrying amounts approximate the fair value due to short maturity of these instruments.

Loans and borrowings

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using Effective Interest Rate (EIR) method. Gain and losses are recognized in the Statement of Profit and Loss when the liabilities are derecognized.

Amortised cost is calculated by taking into account any discount or premium on acquisition and transaction costs. The EIR amortization is included as finance costs in the Statement of Profit and Loss, if any.

Derecognition

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reflected in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(vii) Inventories:

Stock of Oil of seeds and Loose seeds are carried at the lower of cost or net realizable value. Cost includes the fair value of consideration paid including duties and taxes (other than those refundable), inward freight, and other expenditure directly attributable to the purchase. Trade discounts and rebates are deducted in determining the cost of purchase.

(viii) Taxes:

The tax expense comprises current and deferred tax. Tax is recognized in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity or in OCI.

i. Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantially enacted at the reporting date. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

ii. Deferred Tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities for financial reporting purpose and the amount used for taxation purposes.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences can be utilized. The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates that have been enacted or substantively enacted by the end of the reporting

period. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

(ix) Employee benefits:

Short term employee benefits:

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render the services.

Defined contribution plans:

The Company's contribution to Provident Fund, Pension, Superannuation and Employees State Insurance Contribution are considered as defined contribution plans, as the Company does not carry any further obligations apart from the contribution made to the respective fund/scheme and are charged as an expense based on the amount of contribution required to be made, if any.

(x) Borrowing Costs:

Borrowing costs attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are recognized as expense in the period in which these are incurred.

(xi) Cash and Cash Equivalents:

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand, demand deposit and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(xii) Provisions & Contingent Liabilities:

The Company recognizes a provision when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

(xiii) Earnings per share

Basic earnings per share is calculated by dividing the net profit / (loss) for the year attributable to the equity shareholders by weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2. USE OF ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosures of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods. Estimates and underlying assumptions are reviewed at each reporting date. Any revision to accounting estimates and assumptions are recognised prospectively i.e. recognised in the period in which the estimate is revised and future periods affected.

i. Fair value measurement of financial instruments

When the fair values of the financial assets and liabilities recorded in the balance sheet cannot be measured based on the quoted market prices in active markets, their fair value is measured using valuation techniques.

The inputs to these models are taken from the observable market, where possible, but where this is not feasible, a review of judgement is required in establishing fair values. Changes in assumptions relating to these assumptions could affect the fair value of financial instruments.
